ABSTRACT

Intended for the use of food service personnel and management, dietitians, college teachers, students, and researchers, this catalog lists a wide variety of instructional resource materials in the areas of nutrition, health education, cooking, and food service management. The main sections of the catalog are: (1) subject index--a listing according to descriptor terms; (2) personal author index; (3) corporate author index; and (4) title index. This volume lists all entries indexed from April 1971 through February 1975, but in order to obtain a complete bibliographic listing which includes a brief, informative abstract, the user must refer to the FNIC Food Nutrition Information Center Catalog 1973 or Supplements 1 or 2. (EMH)

****
* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. Nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *
* responsible for the quality of the original document. Reproductions *
* supplied by EDRS are the best that can be made from the original. *

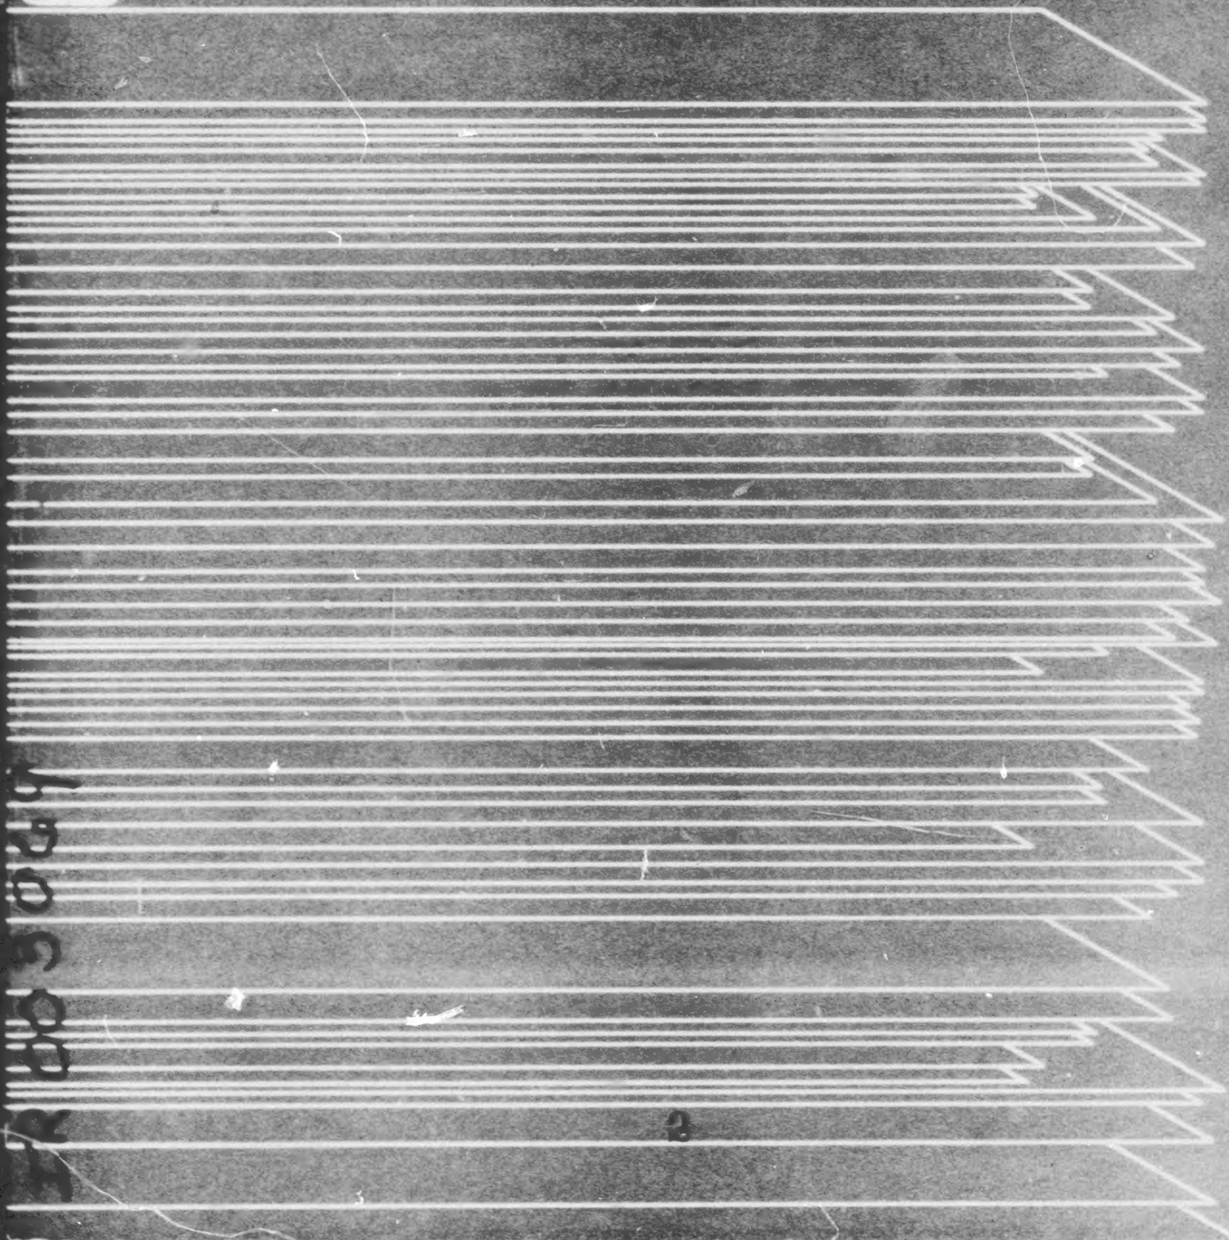
CUMULATIVE INDEX
TO THE CATALOG OF THE FOOD AND NUTRITION INFORMATION AND EDUCATIONAL MATERIALS CENTER 1973-1975

NATIONAL
AGRICULTURAL
LIBRARY

UNITED STATES
DEPARTMENT OF
AGRICULTURE



IR 003 029

HOW TO REACH THE CENTER

Street Address:
10301 Baltimore Boulevard
Beltsville, Maryland 20705

Mail Address:
The Food and Nutrition Information
and Educational Materials Center
National Agricultural Library
Room 304
Beltsville, Maryland 20705

Telephone:
AC 301/344-3719
(24 hour telephone monitor)
Office Hours: 8:00-4:30
Monday-Friday

Visitors:
The National Agricultural Library is located at the Intersection of U.S. Route 1 and Interstate Route 495 (Beltway Exit 27 North), Beltsville, Maryland, fifteen miles northeast of Washington, D.C. The visitor parking area is accessible from Route 1 and from Rhode Island Avenue. Shuttle service is available between USDA (downtown Washington) and the Library. Transportation is also available by Greyhound bus and by taxicab.

July 1975

CONTENT

The three-year Cumulative Index contains references to citations in the Catalog (1973), Supplement 1 (1974), and Supplement 2 (1975). The Catalog (1973) contains accession numbers 1-73 through 2366-73. Supplement 1 includes accession numbers 2367-73 through 4211-73. Accession numbers 1-74 through 2605-74 are contained in Supplement 2. These three catalogs cover the material processed by the Center from April 1971 through February 1975. A separate "Audiovisual Guide to the Catalog of the Food and Nutrition Information Center" is available.

Format

There are five main sections to this Cumulative Index:

1. Subject Index: Descriptive terms appear in an alphabetical index, followed by title (arranged alphabetically) and accession number.

2. Personal Author Index: Names of all personal authors are arranged alphabetically, followed by accession numbers of pertinent citations.

3. Corporate Author Index: Names of all corporate authors are arranged alphabetically, followed by accession numbers of Citations.

4. Title Index: Titles of all citations appear in alphabetical order, followed by the accession number.

5. Media Index: Titles of all audiovisuals are grouped by type of media, such as motion pictures, film loops, transparencies, etc.

The Center's Scope

The Food and Nutrition Information and Educational Materials Center (FNIC) is designed to disseminate information on School Food Service training. FNIC was developed cooperatively by the National Agricultural Library and the Food and Nutrition Service of the U.S. Department of Agriculture.

The Center assembles and maintains a collection of materials useful in training personnel for food management of Child Nutrition Programs including School Lunch, Breakfast, and other non-school food service programs.

U.S. DEPARTMENT OF HEALTH,
EDUCATION & WELFARE
NATIONAL INSTITUTE OF
EDUCATION
THIS DOCUMENT HAS BEEN REPRODUCED EXACTLY AS RECEIVED FROM THE PERSON OR ORGANIZATION ORIGINATING IT. POINTS OF VIEW OR OPINIONS STATED DO NOT NECESSARILY REPRESENT OFFICIAL NATIONAL INSTITUTE OF EDUCATION POSITION OR POLICY

In addition, through the FNIC, users have access to the total resources of the National Agricultural Library (NAL).

FNIC collects literature related to food service and nutrition. These materials include books, journal articles, pamphlets, government documents, special reports, proceedings, bibliographies, etc. In addition, FNIC maintains a collection of non-print media in the form of films, filmstrips, slides, games, charts, audiotapes, and video cassettes.

Documents, articles, and audiovisual aids of substantial interest to the school food service and nutrition education community are selected for inclusion into the Catalog of the FNIC. To further aid the user in selecting materials of interest, each document selected for inclusion in the Catalog has been indexed using a specialized vocabulary specifically developed for this collection. An informative abstract, extract, or annotation is also included. Documents located in the NAL collection are designated "Available from NAL."

Comments and suggestions about the content of these Catalogs and Indexes should be addressed to:

Head, Food and Nutrition Information and
Education Materials Center, Room 304
National Agricultural Library
Beltsville, Maryland 20705

AVAILABILITY OF REFERENCES CITED

The Food and Nutrition Information and Educational Materials Center accepts requests for materials by mail, telephone, and personal-on-site visits.

Loans: The FNIC lends most print materials for a period of one month. Non-print media (i.e., films, transparencies, etc.) can be loaned for two weeks only. No more than three (3) non-print media can be loaned at any one time to one person. Films will be scheduled no more than one month in advance.

When ordering materials listed in the Catalog, please include the following information: Accession Number (i.e. 157-74); Title, and FNIC Call Number (i.e. TX655.U5 F&N). (See page ix for sample entry).

The FNIC primarily lends materials to the following groups:

1. Employees of the Food and Nutrition Service, USDA
2. State School Food Service Directors and Staff
3. School Food Service Personnel involved in local training programs
4. Colleges and Universities offering courses applicable to school food service training
5. Professional societies and research institutions involved in food service and related subject areas
6. Selected libraries with which FNIC shares reciprocal arrangements

Journals and other noncirculating materials are available in the Center for on-site use by other persons working or visiting in the Washington metropolitan area who are qualified researchers or students from the general public.

Photoduplication: The Center reserves the right to provide photocopy of journal articles or reprints in lieu of loan of the journals which are requested outside the Washington area. Inasmuch as one copy of these publications are purchased and shelved by the Center, direct loan of magazines and newsletters is not feasible. No more than six (6) journal articles will be photocopied at any one time for one person.

TABLE OF CONTENTS

Subject Index	1
Personal Author Index	269
Corporate Author Index	283
Title Index	289
Media Index	331

SUBJECT INDEX

A-LA-CARTE SERVICE
- A look at high schools: What makes lunch sell? 3947-73
- Louisville schools encourage plate lunches. 3994-73
- A la carte blossoms into plus sales. 1890-74

ABORTIONS
- Pregnancy and you. 2446-73

ABSTRACTS
- Effect of incorporation of leafy and non-leafy vegetables in the school lunch on the growth and nutritional status of children. 2439-73
- Milk in schools: an experiment in nutrition education. 2719-73
- Selected research abstracts of published and unpublished reports pertaining to the food service industry, including recommendations for research needs. 4157-73
- Protein intakes of children. 953-74
- Index and curriculum briefs, volume 1. 1581-74
- Food service research abstracts and listings of needed food service research. 1972. 2511-74
- Food service research abstracts and listings of needed food service research. 1971. 2555-74
- Food service research abstracts and listings of needed food service research. 1973. 2556-74
- Food service research abstracts and listings of needed food service research. 1969. 2557-74

ACADEMIC ACHIEVEMENT
- Tennessee nutrition-achievement study 1967-1968. 2889-73
- Academic credentials: a challenge to training. 3596-73
- A comparative study of food habits: influence of age, sex and selected family characteristics. 142-74
- Food beliefs as related to ecological factors in women. 1059-74
- ASFSA certification handbook. 1509-74
- Certification, a plan for upgrading school food service positions. 1549-74
- The degree dilemma. 1550-74
- Measuring readability of health education literature. 1678-74
- Nutrition education--old problems in new settings. 1769-74
- Why Johnny's parents don't read. 1860-74

ACADEMIC DEVELOPMENT
- Food science programs. 1100-73
- Academic credentials: a challenge to training. 3596-73

ACADEMIC PERFORMANCE
- Prediction of student performance through pretesting in food and nutrition. 1214-73
- Malnutrition, hunger, and behavior: II. Hunger, school feeding programs, and behavior. 2816-73
- Tennessee nutrition-achievement study 1967-1968. 2889-73
- The remarkable Miss Walsh and Cincinnati's penny lunch. 3972-73

ACCIDENT PREVENTION
- Accidents don't happen (Filmstrip). 1694-73
- Hospital kitchen safety (Film loop). 1722-73
- How to get ready for your next accident. 1723-73
- Kitchen safety: Preventing burns (Film Loop). 1733-73
- Kitchen safety: Preventing burns (Motion Picture). 1734-73
- Kitchen safety: Preventing cuts and strains (Film Loop). 1735-73
- Kitchen safety: Preventing cuts and strains (Motion picture). 1736-73
- Kitchen safety: Preventing falls (Motion Picture). 1737-73
- Kitchen safety: Preventing fires (Film Loop). 1738-73
- Kitchen safety: Preventing machine injuries (Film Loop). 1739-73
- Kitchen safety: Preventing machine injuries (Motion Picture). 1740-73
- Safety and sanitation: Student's workbook. 1754-73
- An ounce of prevention (Filmstrip). 1755-73
- The right way (To lift) (Filmstrip). 1762-73
- Safety in the kitchen (Transparencies). 1765-73
- Work smart--stay safe; an employee safety message (Films-trip/Record). 1788-73
- Prevention of pica, the major cause of lead poisoning in children. 2529-73
- Vulnerability of children to lead exposure and toxicity. 2695-73
- Safety guide for health care institutions. 3778-73
- Past and present malnutrition and its effect on health today. 349-74
- Modern techniques of supervision. 1392-74
- The need for education and training in recognizing health hazards in industry. 2079-74
- Safety in the kitchen. 2095-74
- Accidents hurt more than the injured party. 2097-74
- Foodservice safety. 2100-74

ACCOUNTING
- Food service manual for health care institutions. 757-73
- New directions for action. 761-73
- The development of desirable school lunch accounting procedures. 763-73
- Data processing procedures for cafeteria accounting. 766-73
- Management procedures and records. 767-73
- Accounting practices for hotels, motels, and restaurants. 803-73
- Managerial accounting for the hospitality service industries. 818-73

- Systems approach to labor cost control. 976-73
- School food service financial management seminar for uniform accounting. 985-73
- Principles of public accounting. 987-73
- Essentials of managerial finance. 998-73
- Introduction to professonal food service. 1053-73
- Commercial foods. 1175-73
- Accounting made easy. 3060-73
- How to become a foodservice accountant (in your spare time). 3153-73
- Staff accounting for local and state school systems. 3179-73
- Food and beverage cost controls. 3188-73
- Financial accounting: classifications and standard termin-ology for local and state school systems. 3238-73
- Can a computer boost profits? 3251-73
- School food service financial management handbook for uniform accounting; simplified system. 3275-73
- School food service financial management handbook for uniform accounting; complete system. 3276-73
- Marketing, business, and office specialists. 3593-73
- ASBO and USDA begin job reconciling food service and Handbook 11 accounting. 1277-74
- How to defend board increases. 1320-74
- Food service cost system. 1345-74
- Some administrative problems of the high school cafeteria. 1347-74
- Controlling and analyzing costs in food service operations. 1386-74
- Handbook 11 accounts for school food service indirect costs. 1445-74

ACETYL COENZYME A
- The two-carbon chain in metabolism. 2775-73

ACHIEVEMENT TESTS
- Iron deficiency anemia and scholastic achievement in young adolescents. 2942-73
- Measuring instructional intent or got a match? 3463-73

ACIDS
- Sugar, acid, and flavor in fresh fruits. 1943-73

ACNE
- Balance your diet for health and appearance (Motion picture). 298-74
- Bircher-Benner nutrition plan for skin problems. 2171-74

ACTIVITY BOOKS
- Jane and jimmy learn about fresh fruits and vegetables. 2920-73
- Fun with foods coloring book. 3307-73
- Activity fun with foods. 3315-73
- Pennies for protein. 3379-73
- Food to grow on. 722-74

ACTIVITY LEARNING
- Applying learning theory in teaching nutrition. 68-73
- Fun with food facts. 137-73
- A resource handbook for teaching nutrition in the elementary school. 223-73
- Teaching the young child good eating habits for life. 311-73
- Nutrition in music (Audiotape). 408-73
- The Real talking, singing, action movie about nutrition (Motion picture). 467-73
- Nutrition education for young children. 553-73
- Science in food and nutrition. 556-73
- A "fair" way to teach nutrition. 1011-73
- The calorie game. 1043-73
- Cooking in the kindergarten. 1061-73
- Education for dietetics: the In-Basket Technique. 1077-73
- Film and the media (R)evolution. 1085-73
- Visual aids in nutrition education. 1095-73
- Teach nutrition with games. 1162-73
- Animal feeding demonstrations for the classroom. 1168-73
- Teaching successfully in industrial education. 1240-73
- Cooking is fun. 1471-73
- Children and food--a natural combination. 2555-73
- Nutrition in action for the child (slides). 2570-73
- Shape Your Future (Charts). 2625-73
- What's in food? (coloring book). 2651-73
- Primary grade nutrition education kit. 2756-73
- Teens Entertain. 2763-73
- The foods we eat (Filmstrip). 2803-73
- The development of a guide through cooperative action research for the purpose of integrating the School Lunch Program into the elementary school curriculum. 3319-73
- Wheels, a nutrition game of chance and skill. 3381-73

ADDICTS
- A teacher's guide to: Learning nutrition through discovery, K-6. 3401-73
- Selling nutrition in Salt Lake City. 180-74
- Food for little people. 182-74
- Food for thought (chart). 378-74
- Yardsticks for nutrition (kit). 413-74
- Mr. Peanut's guide to nutrition. 949-74
- Hard to reach--fact or fiction. 1520-74
- Helping low-income parents: I. Through parent education groups; II. Through homemaking consultants. 1553-74
- Food combos. 1689-74
- Dining in space. 1703-74
- Teaching child health. 1720-74

ADDICTS
- Nutrition in action for young transients in Hawaii. 540-74

ADDITIVES AND ADULTERANTS
- Communicating with the consumer: safety of food supply. 7-73
- Eliminating warmed-over flavor in precooked food. 166-73
- Fulfilling the scientific community's responsibility for nutrition and food safety. 217-73
- Legal requirements for food safety. 696-73
- Food additives. 1711-73
- The safety of foods. 1760-73
- Food pollution. 1876-73
- Protein concentrates and cellulose as additives in meat loaves. 1922-73
- Tion and human needs: Part 4A--food additives tion and human needs. 1954-73
- Those controversial chemical additives. 2396-73
- Sowing the wind. 2404-73
- Are we in the know? 2442-73
- The chemical additives in booze. 2643-73
- Natural foods (Slides/Cassette Tape). 2676-73
- Food additives. 3019-73
- Health and food. 3780-73
- Symposium on environmental quality and food supply, 1972, Washington, DC. 3813-73
- Additives for eye appeal. 3838-73
- Food science. 3879-73
- How sodium nitrite can affect your health. 35-74
- Decision making in the biological field. 144-74
- Where you should be shopping for your family. 324-74
- Health foods: facts and fakes. 646-74
- Chemical additives in our food. 701-74
- The hyperactive child. 923-74
- Food and society--the world scene. 1123-74
- Legalities concerning food additives. 1245-74
- The use of chemicals in food production, processing, storage, and distribution. 2106-74
- Food additives (Slides). 2126-74
- Data base for "safe" additives: decisions established for industry/agency use. 2517-74
- Health and nutrition. 2526-74
- Food additives. 2548-74

ADIPOSE TISSUE
- The effect of diet on the development of the adipose organ. 421-74
- Treatment of obesity in adolescence. 487-74
- Energy needs and energy utilization. 489-74
- Can we modify the number of adipose cells? 509-74

ADMINISTRATION
- Education in the States: nationwide development since 1900. 645-73
- Public Law 91-248, 91st Congress, H.R. 515. 723-73
- Accountability '70, food service style. 751-73
- Colorado school lunch handbook. 778-73
- Management functions of school and non school food services. 881-73
- The more effective school food service supervisor in the larger job. 890-73
- Panel on characteristics of centralized food service systems. 917-73
- The school food service administrator and the computer. 945-73
- Private school lunch. 984-73
- Examiner's manual for the tests of general educational development. 1019-73
- A casebook on administration and supervision in industrial--technical education. 1040-73
- Hotel and restaurant administration and related subjects. 2236-73
- Good references on day care. 2281-73
- Concepts of management (cassette audiotapes). 3095-73
- Management essentials. 3111-73
- Staff accounting for local and state school systems. 3179-73
- ITORP. 3182-73
- Management of human resources. 3196-73
- Principles of administrative and supervisory management. 3198-73
- So, we ought to get started on OD. 3215-73
- General administration in the nursing home. 3240-73
- Mismanagement of training programs. 3484-73
- Marketing, business, and office specialists. 3593-73
- Child nutrition programs. 1092-74
- Profitable catering. 1286-74
- Moving up: guidelines for the aspiring executive. 1304-74
- How managers motivate. 1321-74
- Handbook of modern personnel administration. 1333-74
- Food service cost system. 1345-74
- Some administrative problems of the high school cafeteria. 1347-74
- Child development - Day care - No. 7, Administration. 1368-74
- The puzzling case of the missing Ms. 1389-74
- Delegate--don't abdicate (Film loop). 1419-74
- Delegate--don't abdicate (Motion picture). 1421-74
- School lunch program: 50-state roundup. 2558-74

ADMINISTRATION POLICIES
- Education in the States: nationwide development since 1900. 645-73
- A.D.A. supports school food service in testimony before congressional committees. 670-73
- A.D.A. testimony on school lunch before House of Represen-tatives' committee. 671-73
- The development of a national nutrition policy. 680-73
- The case against hunger. 690-73
- Hearings, Ninety-second Congress, first session, on nutri-tion and human needs: Part 6. 727-73
- State department of education policies. 754-73
- College accreditation policies for nontraditional education. 755-73
- Handbook for official GED Centers. 756-73
- The media bureaucracy. 887-73
- Position paper on automatic food service. 922-73
- Nutrition implementation programs as communication systems. 1197-73
- Our future is you (Motion picutre). 1209-73

Study of foods is emphasized in Brooklyn elementary school. 965-74
Food production and population. 1928-74
Methods of meat cookery (Film loop). 1957-74
Macrostructure and nomenclature of plant and animal food sources. 2128-74
Radionuclides in foods. 2147-74
ANIMAL SOURCES OF FOODS
Animal protein--keystone of foods. 65-73
ANISE
Sweet anise. 1151-74
Anise. 1195-74

ANNUAL REPORTS
Measurement and evaluation, 1966-67 (p.1. 89-10, title I). 3312-73
First annual report of the national advisory council on child nutrition; annual report/1971. 3959-73
Second annual report of the national advisory council on child nutrition; annual report/1972. 3960-73
Development of a validated instructional system for hospi-tality education. 1754-74
ANOREXIA
Diseases of the liver--part 2: Hepatitis. 2854-73
ANOREXIA NERVOSA
Eating disorders. 2485-73
Psychosomatic aspects of malnutrition during adolescence. 218-74
Diagnosis and treatment of anorexic states. 869-74
ANTHROPOLOGY
Nutrition, anthropology, and the study of man. 95-74
Human food habits as determining the basic patterns of economic and social life. 273-74
Ethnology and health problems. 339-74
Food habits--an anthropologist's view. 377-74
Food is not just something to eat. 426-74
Urbanization, diet and potential health effects in Palau. 472-74
Influences of culture on man's diet. 479-74
Food-sharing behavior within a group of Douc monkeys (Pygathrix nemaeus nemaeus). 574-74
Fasting in Ethiopia: an anthropological and nutritional study. 585-74
Breast-feeding habits and cultural context. (A study of three Ethiopian communities). 586-74
The challenge of cross-cultural research. 680-74
Cultural patterning of nutritionally relevant behavior. 681-74
The cultural characteristics of breast-feeding: a survey. 761-74
A background study of the food habits of the Abasamia of Busia district, western province, Kenya. 789-74
The crossroads of emotion, religion, tradition and habit. 827-74
Human nutritional problems at four stages of technical development. 996-74
The need for social anthropological outlook in community nutrition programs. 2277-74
ANTHROPOMETRIC MEASUREMENTS
Some studies on the effect of a multipurpose food on the nutritional status of pre-school children. 2804-73
Nutritional deficiencies in disadvantaged preschool children --their relationship to mental development. 886-74
Height, weight, and selected body dimensions of adults, U. S. 1960-62. 2566-74
Selected body measurements of children 6-11 years, United States. 2580-74
ANTHROPOMETRY
How children grow. 358-73
Nutritional studies during pregnancy: I. Changes in intakes of calories, carbohydrate, fat, protein, and calcium. II. dietary intake, maternal weight gain, and size of infant. 427-73
Ten-state nutrition survey, 1968-1970. 564-73
Growth of children from extremely poor families. 2412-73
Environmental factors associated with preschool obesity: II. Obesity and food practices of children at successive age levels. 521-74
Environmental factors associated with preschool obesity: I. obesity in six-month-old children. 522-74
The chest-head circumference ratio as an indicator of the nutritional status of young children. 541-74
Evaluation of nutritional status. 671-74
The adolescent--his growth and development. 1841-74
ANTIBIOTICS
Antibiotics and nutrition. 2461-73
ANTIOXIDANTS
Vitamin E. 2886-73
Vitamin E (Slides). 976-74
Nitrate and nitrite substitutes in meat curing. 2131-74
APPETITE
Satisfying TMH students' appetites and needs. 1228-73
Obesity: A serious symptom. 2477-73
After the kids have gone. 2574-73
Obesity and coronary heart disease: The framingham heart study. 2661-73
Regulation of food intake: role of the ventromedial hypot-halamus. 320-74
Everything you need to know about feeding your baby. 350-74
Hypercalcemia and skeletal effects in chronic hypervitami-nosis A. 404-74
Obesity. 666-74
Diagnosis and treatment of anorexic states. 869-74
Psychologic factors regulating the feeding process. 1070-74
The low-carbohydrate diet in the treatment of obesity. 1074-74
APPETIZERS
The professional chef's book of buffets. 1537-73
Vegetarian cookery 1. 2114-73
Cheese cookery for everyone. 2120-73
The professional chef's catering recipes. 2147-73
Snack time is taste time. 4072-73
The Nation's most popular menu items. 1415-74
APPLES
Puddings and other delicious things. 657-73
Development aids: flavored, colored apple pieces offer route of distinction; school lunch entree formulations offered. 1825-73
Dry sauces, soup mixes reap benefits of new ingredient: low moisture apple solids. 1831-73
Explosion-puffed apples are commercially feasible. 1842-73
Quality evaluation of canned and freeze-dried applesauce. 1925-73
Apple data for students. 3588-73
Diced apples: Versatility plus. 4042-73
The story of Johnny Appleseed. 1080-74
An apple is red. 1094-74
Apples. 1166-74
About apples from orchard to market. 2122-74
APPLESAUCE
Applesauce can be perfect food for vitamin C fortification. 1792-73
Applesauce accents school menus. 4022-73
APPLIANCES
Teaching basic equipment in junior high. 3708-73
Turn on to better breakfasts. 2054-74
APPLIED LEARNING
The doing book; an experimental approach to consumer education. 2368-73
Professional management. 3062-73
Principles of instructional skills. 3359-73
Dropouts drop in to foodservice. 3365-73
Supervisory training can be measured "objectively" on the job. 3488-73
The story behind Orville's fabulous maincourse cookbook. 4100-73
Upgrading Indian nutrition through youth. 94-74
Programming nutrition education. 907-74
The place of nutrition in the health education curriculum. 923-74
Why Johnny likes carrots--he fixed them himself. 983-74
Helping low-income parents: I. Through parent education groups; II. Through homemaking consultants. 1553-74
Programmed instruction: an approach to dietary management of dialysis patients. 1609-74
Homemaking teachers in public health. 2349-74
APPLIED NUTRITION
Alexis Soyer:. 622-73
A meaningful curriculum in applied nutrition. 2561-73
Living nutrition. 2875-73
Evaluating nutrition intervention programs. 3134-73
Nutritional evaluation of school lunch programme in two selected villages. 3941-73
Let's cook it right. 4040-73
Nutrition, anthropology, and the study of man. 95-74
Changes in diets of households, 1955 to 1965: implications for nutrition education today. 97-74
Our role in the school lunch program. 178-74
The need for nutrition education. 211-74
Nutrition education conference--1962. 503-74
Food and nutrition knowledge, attitudes, and interests of homemakers. 506-74
Nutrition education--what is the goal? 560-74
Nutrition knowledge applied to everyday living. 881-74
Learning-principles, practices, and peanuts. 1543-74
Independent learning develops responsibility. 1618-74
Adapting nutrition facts--an example. 1642-74
Development of home economics curriculum materials and their use in a field study of applied nutrition. 1664-74
Some principles of adult education. 1848-74
You--school lunch--and education. 2167-74
A new need: the nutrition programmer. 2169-74
Planning and evaluation of applied nutrition programmes. 2263-74
Nutrition programs in state health agencies. 2303-74
APPLIED NUTRITION (DEMONSTRATION)
Applied nutrition programme as media for mass communication in rural areas surrounding Tirupati. 2165-74
APRICOTS
Appricots appraised. 2968-73
Apricots. 1174-74
How to make and serve beautiful gelatins. 1948-74
Para cuidar chabacanos, melocotones, y ciruelas. 2114-74
Salad days are here to stay. 2485-74
APTITUDE TESTS
Cook (hotel & rest.) 313.381--technical report on development of USTES aptitude test battery. 3575-73
Food service worker II (hotel & rest.) 317.884; food service worker (medical ser.) 2-29.16--technical report on standardization of the general aptitude test battery. 3577-73
Technical report on standardization of the general aptitude test battery for director, school lunch program 0-71-32. 1833-74
Development of USTES aptitude test battery for food-service supervisor. 1834-74
Development of USTES aptitude test battery for dietary aid. 1835-74
Dietitian o-39.93--technical report on standardization of the general aptitude test battery; final report. 1836-74
APTITUDES
Aptitudes in selection and training of food service personnel. 1029-73
Supervisory selection program for disadvantaged or minority groups. 3168-73
Peer instruction. 3517-73
Marginal manpower: job capability as a joint function of aptitude and experience. 3564-73
Cook (hotel & rest.) 313.381--technical report on develop-ment of USTES aptitude test battery. 3575-73
Food service worker II (hotel & rest.) 317.884; food service worker (medical ser.) 2-29.16--technical report on standardization of the general aptitude test battery. 3577-73
Dietitian o-39.93--technical report on standardization of the general aptitude test battery; final report. 1836-74
ARAB AMERICANS
Food practices of Arabic background families living in East Valley health district. 859-74
ARCTIC CIRCLE
On the way to the Arctic Circle. 1563-74

ARIZONA
Dietary intake and physical development of Phoenix area children. 147-73
A budget form for use in the public schools of Arizona. 939-73
Mexican-American food items in the Tucson,Arizona, school lunch program. 1990-73
Model for a nutrition program for the elderly. 4119-73
Nutritional influences of Mexican-American foods in Arizona. 579-74
Nutrient intake of Pima Indian women: relationships to diabetes mellitus and gallbladder disease. 835-74
Health classes for migrant workers' families. 1502-74
Nutrition and dental health. 1696-74
From the Phoenix file: merchandising and menu notes. 1887-74
Instructional stations include foodservice. 2022-74
Learning to use USDA donated foods. 2265-74
Canyon Del Oro turns sack lunches into type A meals. 2291-74
Better nutrition--economically. 2294-74
WIC in Arizona: food help for mothers and children. 2389-74
Recipes from Phoenix. 2480-74

ARKANSAS
In Arkansas: kids catch nutrition. 839-74
Teachers learn how to teach nutrition. 1765-74

ARLINGTON, VIRGINIA
Yorktown students don't jump for junk. 616-73

ARTERIOSCLEROSIS
Triglyceridemia. 2414-73
Dietary aspects of hyperlipidemia. 2589-73
Cholesterol: A review. 2849-73

ARTHRITIS
National institute of arthritis and metabolic diseases. 2755-73
Nutrition education for special programs--diabetes and arthritis. 2234-74

ARTICHOKES
Artichokes. 1164-74

ASCORBIC ACID
Advances in food research; volume 18. 51-73
Cigarette smoking and vitamin C. 118-73
Vitamin C and the common cold. 446-73
Looking at nutrition 12 ways. 571-73
Applesauce can be perfect food for vitamin C fortification. 1792-73
Eye the potato for vitamin C. 1846-73
Effect of excessive vitamins C and E on vitamin A status. 2464-73
Come aboard the Good Ship Vitamin C (Slides). 2489-73
Food sources of vitamin C; food sources of vitamin A. 2581-73
Vitamin C--a multifunctional myth? 2630-73
Think Orange, When you Choose a Snack. 2894-73
Vitamin C is not stored in the body, so you need it every day. 2927-73
Try something new. 3468-73
Ascorbic acid content of artifically ripened tomatoes. 3875-73
Vitamin-enriched USDA foods get tender loving care. 3894-73
Jugo de naranja--enlatado, congelado, al natural, y en botellas (Charts). 8-74
Fats, essential fatty acids, and ascorbic acid: three essential nutrients. 101-74
Vitamin C and the common cold. 107-74
The determination of ascorbic acid. 151-74
Yardsticks for nutrition (kit). 413-74
I'm Sally C and here's what I do. 530-74
The Council of Foods and Nutrition of the American Medical Association presents: B.B. King (Record). 580-74
Let's have more vitamin A and C foods in school lunch (slides). 615-74
A multidisciplinary analysis of children's food consumption behavior. 632-74
Preliminary findings of the first health and nutrition examination survey, United States, 1971-1972. 713-74
The verdict on vitamins. 898-74
Ascorbic acid and common colds. 938-74
The healing factor. 960-74
Nutrition in the news. 1607-74
Stability of ascorbate in bacon. 2140-74

ASIA
Food composition table for use in East Asia. 4151-73
Milk intolerance and lactose intolerance. 834-74

ASPARAGUS
Effect of packaging methods on frozen asparagus. 1834-73
Asparagus. 1170-74
How to succeed with vegetable cookery. 1940-74

ASPIC
The salad bar as menu-decor-mood. 1923-74

ASSOCIATION OF SCHOOL BUSINESS OFFICIALS
New directions for action. 761-73
Record 18 resolutions approved at Anaheim. 140-74
ASBO endorses nutrition education. 1278-74

ASTRO-PAKS
For ABA Detroit: the first school day. 3928-73

ATHEROSCLEROSIS
Diet and atherosclerosis. 139-73
Diet in early life in relation to atherosclerosis. 143-73
The disease of living. 152-73
Nutrition and ischemic heart disease. 383-73
Nutritional problems after fifty. 423-73
Epidemiology of coronary heart disease. 2870-73
On the genesis of atherosclerosis. 159-74
A brief review of scientific opinion on the etiology of obesity. 191-74
Campbell Soup's program to prevent atherosclerosis. 307-74
Cardiovascular diseases: care and prevention - 2. 380-74
Nutritional value of "Egg beaters" compared with "farm fresh eggs". 732-74
Primary prevention of the atherosclerotic diseases. 817-74
Atherosclerosis; Part 1: the disease and epidemiology. 913-74
Optimism in the control of atherosclerosis. 936-74
How to extend your life span. 1047-74

ATHLETES
Feeding 250 lb. Monsters. 2554-73
Coaches call the signals. 2704-73
What foods do physical education majors and basic nutrition students recommend for athletes? 269-74
Improvement of food selection through physical education and athletic programs. 490-74
Don't let your diet let you down. 832-74
Nutritional knowledge of collegiate physical education majors. 1554-74

ATHLETICS
Nutrition and athletics. 2730-73

ATLANTA, GEORGIA
Fight against hunger in atlanta. 309-74
Atlanta: merchandising the American way. 1470-74
The key to school lunch participation: upgraded menus. 1900-74
Modular system heats meals on plate without use of standard ovens. 2027-74
Recipes from the pages of Atlanta's great American menus. 2481-74

ATTITUDES
Attitudes toward the ban on cyclamates. 1-73
The allure of food cults and nutrition quackery. 57-73
Potential dieters: who are they? - attitudes toward body weight and dieting behavior. 450-73
Six simple thefts: cases in internal control. 953-73
Sophmore high school students' attitudes toward school lunch. 957-73
Today's youth - A new breed of cat. 980-73
Educators' attitudes toward nutrition education in Florida. 1080-73
The effect of a nutrition education program at the second grade level. 1081-73
Nutrition knowledge and attitudes of early elementary teachers. 1198-73
Single service systems: exclusive survey showing trends and attitudes towards foodservice disposable systems and permanent ware 1972. 1596-73
Finding the correct retail package to introduce an unbeli-evable product. 1847-73
Pregnancy and you. 2446-73
Nutrition for the elderly: the AOA experience. 2455-73
Psychological implications of obesity. 2484-73
Potential dieters: Who are they? 2542-73
Panel: Problems encountered in school food service. 2594-73
Communication: The art of selling ideas. 2619-73
The stigma of obesity. 2659-73
The school lunch and its cultural environment. 2845-73
The psychology of selling nutrition. 2961-73
Managing people without playing God. 3085-73
"be-attitude": integrity (Filmstrip/record). 3089-73
National School Lunch...Wow!. 3108-73
The art of bugging (or how to get the job done). 3135-73
The management of change: Part 3--Planning and implementing change. 3143-73
The management of change: Part 1--Change and the use of power. 3145-73
An evaluation of the school lunch program of five public high schools in Honolulu, Hawaii. 3190-73
Problems of women in foodservice. 3191-73
Motivation in action. 3219-73
A study of the role of the unit school food service super-visor as perceived by selected North Carolina superintendents and school food personnel. 3230-73
Employee attitudes toward performance appraisal. 3264-73
Supervising employees from minority groups. 3278-73
Attitude vs behavior. 3559-73
Shaping up the manual. 3691-73
A look at high schools: What makes lunch sell? 3947-73
2 ways to make school lunch fun!. 3957-73
How can we strengthen school food service. 4019-73
Needs and interests of young homemakers--living in two low--income housing projects. 3-74
Consumerism - focus on food: facing the challenge of the dissatisfied consumer. 30-74
The child consumer--cultural factors influencing his food choices. 40-74
Attitudes and the use of food. 147-74
Attitudes and use of food. 148-74
College students look at the basis for their food habits. 214-74
The "new" vegetarians. 344-74
Nutrition knowledge and attitudes of mothers. 366-74
Food and nutrition knowledge, attitudes, and interests of homemakers. 506-74
A time to plan ahead. 651-74
Teaching nutrition at nursery school level. 672-74
A study of the dietary habits of junior high school students with implications for nutrition education. 691-74
California's nutrition education project tests ways to reach kids. 696-74
Places we eat in (Videocassette). 740-74
Places we eat in (Motion picture). 750-74
The relationship of nutrition education to subsequent knowledge, attitudes and practices of Ohio high school graduates. 900-74
Nutrition in old age. 906-74
Physicians' attitudes on dietitians' contributions to health team care. 937-74
Eating habits of teenagers. 941-74
Group interviews as an approach to planning nutrition education programs for young homemakers. 942-74
Cultural determinants of nutritional behavior. 1042-74

  Protein components of blood and dietary intake of preschool children. 457-73
  Serum cholesterol from pre-adolescence through young adulthood. 490-73

Prevention of iron-deficiency anemia in infants and children of preschool age. 559-73
Evaluation of the clinical importance of anemia. 2547-73
School feeding program: Who should receive what? 2783-73
The school feeding program: An underachiever. 2784-73
Some studies on the effect of a multipurpose food on the nutritional status of pre-school children. 2804-73
Diet counseling to improve hematocrit values of children on the Blackfeet Reservation. 2831-73
Nutritional status of people, USA. 2841-73
Nutritional requirements--the later years. 2877-73
Preventing lead poisoning in children. 3801-73
Carbohydrate ingestion during prolonged running performance. 517-74
Anemia in black preschool children in Mississippi. 557-74
Dietary intakes and nutritional status of elderly patients. 560-74
Diets high in glucose or sucrose and young women. 575-74
Nutritional condition of New Mexican children. 605-74
Nutrition of New Mexican Spanish-American and "Anglo" adolescents--blood findings, height and weight data, and physical condition. 606-74

BLOOD DISEASES
Hypoglycemia. 622-74
Adrenal cortex injection for hypoglycemia. 932-74

BLOOD DISORDERS
Iron, blood, and nutrition. 266-73
Hereditary galactosemia. 2603-73
Hypoglycemia. 622-74

BLOOD GLUCOSE LEVEL
Diabetes mellitus and obesity. 153-74
Hypoglycemia. 622-74

BLUEBERRIES
Blueberries. 1202-74

BOARDS OF EDUCATION
Co-op buying: you pool your power and pocket your savings. 3291-73
The end of commodity feeding? 2206-74

BODY COMPOSITION
Behavioral and metabolic consequences of weight reduction. 88-73
Exercise, dietary intake, and body composition. 170-73
Frequency of feeding, weight reduction, and body composition. 214-73
Understanding food. 511-73
You and your food (Motion picture). 617-73
You and your food (Motion picture) (Spanish). 618-73
Vitamins and you (Filmstrip). 1302-73
The science of nutrition. 2443-73
Arm anthropometry in nutritional assessment: nomogram for rapid calculation of muscle circumference and cross-sectional muscle and fat areas. 2596-73
Adolescent nutrition and growth. 2611-73
Adolescent nutrition. 2729-73
Obesity -- part VII. 2864-73
Follow-up of obese patients: 14 years after a successful reducing diet. 2866-73
The enigma of obesity. 803-74
Treatment of obesity in adolescence. 887-74
Energy and protein requirements. 564-74
Etiology of obesity--the QCF theory. 894-74

BODY IMAGE
Psychological implications of obesity. 2464-73
Do you think fat or thin? 2671-73
Beautiful figures come in all sizes. 2714-73

BODY MEASUREMENT
Beautiful figures come in all sizes. 2714-73

BODY TEMPERATURE
Nutrition II. 69-73

BODY TYPE
Beautiful figures come in all sizes. 2714-73

BOILING
Fun & profit in boiling. 3647-73

BOISE, IDAHO
The school lunch system moves up the "raw-to-ready" scale. 3981-73

BONE DISORDERS
New forms of vitamin D3 and their potential applications. 2530-73
Osteoporosis. 2551-73
Adult bone loss, fracture epidemiology and nutritional implications. 2571-73
Vitamin D: a reawakening. 2785-73
The causes of vitamin D deficiency. 2786-73
Rickets and osteomalacia. 2871-73
Vitamin D: mode of action and biomedical applications. 485-74
Trace elements: a growing appreciation of their effects on man. 659-74

BONES
Growth and maturation. 150-74
Carlos Calcium is my name (Poster). 247-74
Dietary calcium and the reversal of bone demineralization. 634-74

BONING
Improved methods and equipment for boning turkeys. 3770-73
Freezing meat and fish in the home. 4205-73

BOOK REVIEWS
The future shock guy is on schools. 1750-74
Nutrition references and book reviews--Revised 1972. 2512-74
The good food books. 2513-74

BOOKKEEPING
Math workbook - food service/lodging. 1064-73
Accounting made easy. 3060-73
How to become a foodservice accountant (in your spare time). 3153-73
Financial accounting: classifications and standard terminology for local and state school systems. 3238-73
Can a computer boost profits? 3251-73
School food service financial management handbook for uniform accounting; simplified system. 3275-73
School food service financial management handbook for uniform accounting; complete system. 3276-73
Bookkeeping procedures and instructions. 1425-74

BOSTON
The kitchen of the future - now!. 3738-73
The best of Boston. 4094-73
School busing: is it affecting school foodservice? 1461-74
Soft-Serve is snack bar favorite. 2354-74

BOTULISM
Communicating with the consumer: safety of food supply. 7-73
Preparation of food samples and direct culture (Motion Picture). 453-73
Botulism. 1697-73
Food-borne illness: cause and prevention (Slides). 1714-73
Isolation from mixed culture (Motion picture). 1725-73
Mouse toxin--neutralization test (Motion picture). 1748-73
Food hygiene and food hazards for all who handle food. 3781-73
Botulism. 3799-73
Botulism. 2107-74

BOX LUNCH
Quantity food preparation: a course for school food service. 1392-73
The Baltimore school lunch story. 1975-73
Operation bag lunch. 2041-73
Four steps to weight control. 2726-73
A look at high schools: What makes lunch sell? 3947-73

BOYS CLUB
How to create a manpower pool. 1653-74
Sunny days full of food and fun. 2365-74

BRAIN
Malnutrition, learning and behavior. 2750-73
The relationship of nutrition to brain development and behavior. 2757-73
Nutrition notes: neurotransmitter level affected by dietary carbohydrate, protein. 782-74
The relationship of nutrition to brain development and behavior. 836-74
Can the brain catch up after childhood malnutrition. 985-74

BRAIN DAMAGE
Nutrition and learning - implications for schools. 384-73
How to save babies for two dimes a day. 2605-73
Lead poisoning and the suburban child. 448-74
Neuropsychomotor development and pneumoencephalographic changes in children with severe malnutrition. 645-74
Relation of nutrition to physical and mental development. 867-74
Can the brain catch up after childhood malnutrition. 985-74
Early malnutrition and brain development. 1014-74

BRAIN DISEASES
Tion and human needs: Part 4A--food additives tion and human needs. 1954-73
Preventing lead poisoning in children. 3801-73

BRAISING
Thiamine and riboflavin retention in cooked variety meats. 525-73
Braising and stewing (Film Loop). 1388-73
Around the menu with gas-fired tilting braising pans. 1554-73
Woman's Day encyclopedia of cookery, vol. 2. 2187-73

BRAZIL
Assessment of biological value of a new corn-soy-wheat noodle through recuperation of Brazilian malnourished children. 2456-73
Neuropsychomotor development and pneumoencephalographic changes in children with severe malnutrition. 645-74

BREADS
Basic values in nutrition; part III: bread-cereal group (Transparencies). 80-73
The dietary iron controversy. 148-73
The need for cereal foods of improved protein value in the United States. 157-73
The experts debate: the added enrichment of bread and flour with iron. 172-73
The heart of the matter - a matter of opinion. 233-73
Mulligan stew: The great nutrition turn on (Motion picture). 323-73
Mulligan stew: the great nutrition turn on (Videocassette). 326-73
Round-table discussion. 479-73
Bread science and technology. 655-73
School food service management. 1131-73
Oklahoma school lunch course of study. 1202-73
Quantity cookery and food preparation. 1377-73
Understanding baking. 1379-73
Quantity food preparation: a course for school food service. 1392-73
Food study manual. 1398-73
Food preparation for school food service personnel. 1436-73
Hot breads, a profitable "extra". 1447-73
Baking in the school lunch program. 1454-73
Practical baking. 1517-73
Breads, cakes, and pies in family meals. 1525-73
Baking in the school lunch progam. 1533-73
Defatted germ flour - food ingredient from corn. 1820-73
Developing a product to make salads taste special. 1823-73
Independent bakers prove sales advantage of nutritional enrichment. 1869-73
New process for sourdough bread improves uniformity and reduces process time. 1891-73
Processing contracts mean more bread. 1919-73
Processing frozen breads. 1920-73
Recent developments in the vitamin technology of bread---history pertinent today. 1926-73
Tomato solids in baked products. 1952-73
Vegetarian cookery 2. 2116-73
Woman's Day encyclopedia of cookery, vol. 2. 2187-73
Fast-freezing the DU way. 2307-73
Iron in enriched wheat flour, farina, bread, buns, and rolls. 2429-73

—.—

BREADS (QUICK)
Absorption of fortification iron in bread. 2510-73
Iron enrichment. 2769-73
The proposed increase in the iron fortification of wheat products. 3058-73
Baking with microwave energy. 3657-73
Responding to consumer price concerns - through packaging. 3867-73
The professional chef's baking recipes. 4062-73
Sandwiches with a difference. 4087-73
Bread: how much iron is safe? 204-74
Learning about food (Filmstrip/record). 532-74
Learning about food (Filmstrip/cassette tape). 533-74
Sources of dietary iodine. 577-74
Lets find out about bread. 1088-74
Snipp, Snapp, Snurr and the buttered bread. 1112-74
Shopping with Martin for the bread-cereal group (Slides). 1784-74
Leche en polvo para panes. 1921-74
About food and where it comes from. 2150-74
Beard on bread. 2417-74
Bread wins hands down. 2422-74
The complete book of breads. 2432-74
Bread. 2501-74
BREADS (QUICK)
Techniques of making quick breads. 1519-73
The wonderful world of mixes. 4113-73
Nutritional information chart from Pillsbury (chart). 2551-74
BREADS (YEAST)
Kansas State develops dry mix for yeast bread. 1455-73
Breads around the world. 2117-73
Bread wins hands down. 2422-74
BREAKAGE
How to cut dish breakage in half. 3793-73
Kitchen profit--its not just in the food. 1387-74
An intangible part of business: hidden costs. 1456-74
BREAKFAST
Alexander's breakfast secret (Filmstrip). 55-73
Breakfast and the bright life (Filmstrip/Record). 98-73
Breakfast; 4-4-3-2 way (Show'N Tell). 99-73
It all begins as breakfast. 269-73
Food for you. 302-73
Mulligan stew: Look inside yourself (Motion picture). 319-73
Mulligan stew: Look inside yourself (Videocassette). 320-73
What did you have for breakfast this morning? 347-73
A source book on food practices; with emphasis on children and adolescents. 352-73
Nutrition of a group of school children in Ohio with improved diets. 438-73
A study of the breakfast eating habits of school age girls and boys, grades one through twelve, of an Oklahoma community with implications for teaching nutrition. 609-73
Breakfast breakthrough - a convenience cast goes internat-ional. 764-73
Breakfast the convenient way. 1322-73
What's for breakfast? 1369-73
Breakfast: the fare that's first in profits. 1389-73
Development and market evaluation of a tropical fruit product for a nutritious breakfast. 1827-73
How to start a breakfast program. 2010-73
The most important person (Motion picture). 2549-73
Feeding the teen machine. 2577-73
New mileposts in nutrition. 2609-73
Breakfast your way to a better day. 2666-73
Good health record. 2668-73
A study of pupil breakfast habits and behavioral patterns in certain Louisiana elementary schools following implementation of the National Breakfast Program. 2798-73
Studies on breakfast and mental performance. 2822-73
Effects of differing breakfast conditions and habit patterns on performance in an endurance activity. 2836-73
Breakfast and the bright life (Slides). 2914-73
Our industry reaches a breakfast breakthrough. 3126-73
The newest school subject--breakfast (Filmstrip/Record). 3917-73
Breakfasts for every life style (poster). 4035-73
Food and eating practices of teen-agers. 4145-73
Our incredible shrinking food dollar (Kit). 31-74
20 datos importantes sobre los cereales y la nutricion. 256-74
A complete summary of the Iowa breakfast studies. 257-74
Alexander has a good day (Motion picture). 296-74
Nutrition education through school food service. 336-74
Teenagers show a way to teach nutrition. 348-74
Nutrition for little children (Filmstrip/cassette tape). 351-74
Nutrition for little children (Filmstrip/record). 352-74
Nutrition survey of 6200 teenage youth: implications for nutrition education. 353-74
Food and nutrition teaching pictures (Study prints). 411-74
Food for school (Posters). 419-74
The Council of Foods and Nutrition of the American Medical Association presents: B.B. King (Record). 580-74
Getting involved in breakfast. 641-74
Your 'breakfast chemicals'. 643-74
Community action for better breakfasts (Filmstrip). 687-74
Meals and snacks for you (Posters). 719-74
How food affects you (Slides). 946-74
A breakfast education program. 1054-74
Gallup shows breakfast profit potential. 1350-74
Menu for today's youth market (taken from recent Gallup surveys). 1405-74
A student breakfast survey. 1478-74
Lecciones para lideres voluntarias. 1544-74
Proper food (Filmstrip). 1853-74
20 ways to break the breakfast barrier. 1870-74
The menu magic of frozens. 1895-74
Program a round-the-clock breakfast system. 1939-74
Breakfast preparation. 1972-74
Turn on to better breakfasts. 2054-74
Pilot breakfast program established. 2211-74
Nutritional improvement project, DPPF, fund 97, component 4: 1971-1972 evaluation. 2213-74
Reaching urban women. 2229-74
Good morning! it's time to eat!. 2236-74
Good morning breakfasts. 2458-74
The natural breakfast book. 2492-74
BREAKFAST CEREALS
The need for cereal foods of improved protein value in the United States. 157-73
It all begins as breakfast. 269-73
On-target meals: action for health (Filmstrip). 442-73
Nutrition education--1972. 547-73
Gallup surveys the breakfast cereal bowl. 843-73
Cereal service: breakfast and beyond. 1397-73
Breakfast cereals in the American diet. 2495-73
Project A.M. (Filmstrips/Phonodisc). 2496-73
Feeding primer: The what, why, when and how of feeding your baby. 2553-73
Cereal: One of the 4. 2573-73
New mileposts in nutrition. 2609-73
Kellogg's ready-to-eat cereals--nutritive values--product information. 2664-73
Comparison of dry breakfast cereals as protein resources. 2672-73
Baby's food calendar when to start your baby on solid foods. 2709-73
Ready--to--eat breakfast cereals in U. S. Diets. 2795-73
The limitations and dangers of commerciogenic nutritious foods. 2802-73
Fortification of cereals with amino acids as a realistic way of dealing with problems of protein malnutrition. 2874-73
20 datos importantes sobre los cereales y la nutricion. 256-74
Frequency of eating and dental caries prevalence. 408-74
Nutrition education--1973, hearings, ninety-third Congress, first session, part 4--TV advertising of food to children. 1260-74
Nutrition education--1973, hearings, ninety-third Congress, first session, part 3--TV advertising of food to children. 1261-74
Nutrition education--1973, hearings, ninety-third Congress, first session, part 6--phosphate research and dental decay. 1265-74
Nutrition education--1973, hearings, ninety-third Congress, first session, part 5--TV advertising of food to children. 1268-74
Gallup shows breakfast profit potential. 1350-74
Shopping with Martin for the bread-cereal group (Slides). 1784-74
The promises and problems of the new foods, University of Georgia, 1970. 2115-74
Cereals and pasta in family meals. 2430-74
Approximate composition of General Mills ready-to-eat cereals. 2523-74
Nutritional information chart from Pillsbury (chart). 2551-74
BREAST FEEDING
Help for malnourished children in Latin America. 235-73
Why school lunch fails. 2103-73
Breast feeding in modern times. 2483-73
The influences of the cultural milieu upon choices in infant feeding. 2486-73
Nutrition: Food and your baby. 2514-73
Feeding primer: The what, why, when and how of feeding your baby. 2553-73
Education of the public for successful lactation. 2645-73
Food while you're pregnant. 2728-73
The decision to breast-feed. 2777-73
Breast feeding in Tanzania: studies on infant feeding practices and attitudes. 195-74
Breast feeding and weaning practices in developing countries and factors influencing them. 205-74
Breast feeding in Norway. 206-74
Cuando vaya a tener un bebe... 250-74
Ecological factors in the nutrition and development of children in poor rural areas. 263-74
Alimentos para madres embarazadas y lactantes (Filmstrip). 283-74
Everything you need to know about feeding your baby. 350-74
Nutrition teaching mini kit (Posters). 371-74
Teaching kit on feeding bottle (Posters). 415-74
Teaching kit on rickets (Posters). 416-74
Elementary nutrition teaching kit (Posters). 418-74
Effects of nutrition and other factors on pregnant women's serum vitamin A levels. 422-74
Nutritional factors related to dental caries experience of low income preschool children. 519-74
La alimentacion del nino en el primer ano (Filmstrip). 531-74
Conflicting perspectives on breast feeding. 583-74
Breast-feeding habits and cultural context. (A study of three Ethiopian communities). 586-74
Nutrition for the growing years. 676-74
The cultural characteristics of breast-feeding: a survey. 761-74
Our baby's book. 796-74
When you stop breast feeding. 865-74
The epidemiological triad: agent, host and environment. 883-74
Food habits of infants and preschool children in Surinam. 1018-74
BROCCOLI
Broccoli. 1197-74
BROILERS (EQUIPMENT)
The 10 cooking, heating and reconstituting applications; part 4. 1546-73
How to get better service from your gas broiler. 1583-73
The finishing kitchen. 1686-73

6

BROILING
Broiling (Film Loop). 1390-73
The hamburger sandwich (Film Loop). 1441-73
Air quality and the char broiler. 1550-73
Around the menu with gas broilers. 1553-73

BRUSHES
How to choose the right cleaning brushes. 3733-73
The keyword in successful food service; clean. 2102-74

BRUSSELS SPROUTS
Brussels sprouts. 1169-74

BUDGET PROCEDURES
Principles of public accounting. 987-73

BUDGETING
Budgeting by food groups. 2-73
Buying nutrition. 25-73
Managerial accounting for the hospitality service industries. 818-73
Budgeting: key to planning and control. 867-73
Operating budgets for food service establishments. 885-73
School food service financial management handbook for uniform accounting. 919-73
A budget form for use in the public schools of Arizona. 939-73
Management function of a centralized school food service system. 959-73
Marketing in action for hotels, motels, restaurants. 967-73
Essentials of managerial finance. 998-73
A casebook on administration and supervision in industrial--technical education. 1040-73
New professionals to the rescue. 1179-73
Save for a change: ideas to cut costs. 1508-73
What schools are doing. 2099-73
Quantity food purchasing guide. 2301-73
Family Food Budget Guide. 2366-73
The doing book: an experimental approach to consumer education. 2368-73
World's shrewdest grocery shopper tells how she does it. 2376-73
Consumers all. 2402-73
How to be a wise shopper; more meat for your money (show 'n tell). 2403-73
Nutrition: part II. 2800-73
Foodservice exam time!. 3194-73
Financial accounting: classifications and standard termin-ology for local and state school systems. 3238-73
Can you beat the high cost of meat? 3605-73
Needs and interests of young homemakers--living in two low--income housing projects. 3-74
Be a better shopper. 5-74
Be a better shopper (Leader's guide). 6-74
Food money management. 11-74
The cost of food: how women are trying to stretch their food budgets. 29-74
You, the shopper (Filmstrip). 46-74
Be a better shopper (Slides). 50-74
Your money's worth in foods. 53-74
It's your money! A consumer education program. 69-74
You and your food. 86-74
Food guide for older folks. 1029-74
Minimum wage: higher rates and more paper work. 1287-74
How to defend board increases. 1320-74
The remuneration riddle. 1360-74
Food service on a budget. 1382-74
Controlling and analyzing costs in food service operations. 1386-74
Costing AV materials: a job approach. 1388-74
The problems of 1974: Procurement, pricing, profits. 1413-74
Consumer food economics--a D.C. course on getting the most from food stamps. 2195-74
Nutrition and human needs--1972, hearings, ninety-second Congress, second session, part 1--school breakfast program survey. 2376-74
How to plan and operate a restaurant. 2591-74

BUDGETS
Budgeting by food groups. 2-73
ASBO resolution affirms dedication to educational and food service needs of students. 48-73
Trends in food service systems, panel discussions. 3109-73
Management of human resources. 3196-73
Food for the young couple. 26-74
How to defend board increases. 1320-74

BUFFALO, NEW YORK
Froze convenience foods work 'miracle' at Mercy Hospital. 1343-74

BUFFETS
The professional chef's book of buffets. 1537-73
Buffet catering. 3645-73
A guide to buffet service. 3648-73
Productivity in college feeding is to get three meals out each day; but there are many variations in feeding students. 3678-73
The professional chef's art of garde manger. 3690-73
Buffet makes the difference. 2231-74

BUILDING EQUIPMENT
The imperative of adequate wiring - part 2. 1591-73
An important aid to the dish machine - the electric booster water heater. 1593-73
Science fundamentals: a background for household equipment. 1648-73
Keep your cool--cost-wise thru long, hot summer. 2021-74
Year-round school plan offers economy of operation. 2056-74
Building care for hospitality operations. 2062-74

BUILDINGS
Food service on a budget. 1382-74
The responsibilities of the school business administrator in small school districts: a research report. 1383-74
School lunch design criteria. 1992-74
Projection of thoughts and ideas on school buildings of tomorrow--a speech given to the 1st annual school administrators seminar of the American school food service association (Vail Village, Colorado, Dec. 6-8, 1967). 1995-74
Building care for hospitality operations. 2062-74

BULK SERVICE
Convenience food systems: open school selects bulk food system. 1404-73
School systems implementation: Texas style. 2059-73

BULLETIN BOARDS
Teach nutrition with bulletin boards. 872-74
Bulletin board bonanza. 1538-74
Creative bulletin boards -- elementary. 1652-74
Bulletin board principles. 1808-74

BUREAUCRACY
The media bureaucracy. 887-73
Stinging attack blasts school lunch programs. 2067-73
Learning resources: AV or library? 2245-73

BURNS
Kitchen safety: Preventing burns (Film Loop). 1733-73
Kitchen safety: Preventing burns (Motion Picture). 1734-73

BUS TRANSPORTATION
School busing: is it affecting school foodservice? 1461-74

BUSINESS EDUCATION
An educational development plan for the Kapiolani Community College--January 1967. 3494-73

BUSINESS SKILLS
The development of a model exemplifying business services objectives and their performance indicators in educational program budgeting: final report. 3121-73
How to finance a restaurant. 3283-73

BUTCHERING
How to cut food costs to the bone. 1372-74

BUTTER
Use of lowfat dairy spread in medium white suace and plain white frosting. 1530-73
Metabolic consequences of feeding frequency in man. 2546-73
Dairy products--there's more to milk than just a cold drink. 2978-73
Study of foods is emphasized in Brooklyn elementary school. 965-74
Dairy products. 1095-74
Snipp, Snapp, Snurr and the buttered bread. 1112-74
How we get our dairy foods. 2109-74

BUTTERMILK
La familia leche. 1099-74

CABBAGE
Cabbages. 1179-74

CADMIUM
Minerals in cardiovascular disease. 2793-73
Water and heart disease: the harder the deadlier? 1033-74
Evaluation of mercury, lead, cadmium and the food additives amaranth, diethylpyrocarbonate, and octyl gallate. 2076-74

CAFETERIAS
Boom in shopping centers offers foodservice opportunities. 762-73
Cafeteria service (Film Loop). 765-73
Making cafeterias work. 879-73
Satisfaction up. Costs down in 'open' cafeteria. 940-73
Food service. 1161-73
Write your own ticket (Filmstrips/Records). 1316-73
Rush hour service (Film Loop). 1502-73
New seating patterns add visual variety. 1642-73
Break for the "lunch bus". 1976-73
The impact of school food service, its value to education and its future. 2013-73
Nova means new--in school foodservice too!. 2032-73
Dental caries and the school canteen. 2494-73
Soar in '74. 3226-73
Examining the hospital market. 3261-73
Industrial foodservice and cafeteria management. 3281-73
Productivity in college feeding is to get three meals out each day; but there are many variations in feeding students. 3678-73
Shaping up the manual. 3691-73
How to "deinstitutionalize" a school cafeteria. 3731-73
How to speed meal selections. 3736-73
A brief study of cafeteria facilities and operations, with recommendations for implementation. 3748-73
Contract foodservice/vending. 3843-73
Cafeteria + color = fun!. 3916-73
Some administrative problems of the high school cafeteria. 1347-74
Strictly personnel: the care and feeding of cafeterias. 1458-74
Commonwealth Edison: all convenience kitchen/problem solver. 1999-74
Hospital staff & employee dining. 2016-74
Service on wheels. 2042-74
Zero turnover in the dishroom. 2057-74
Building care for hospitality operations. 2062-74
Lunch is served in seconds. 2259-74
The golden jar: it's more than a place to eat. 2292-74
School lunch gets a Spanish setting. 2341-74

CAKES
Oklahoma school lunch desserts. 1203-73
Understanding baking. 1379-73
In cake merchandising, easy does it!. 1453-73
Practical baking. 1517-73
Breads, cakes, and pies in family meals. 1525-73
Austria. 2111-73
Vegetarian cookery 4. 2115-73
The professional chef's baking recipes. 4062-73
Many-splendered cakes. 4069-73
The Wilton yearbook of cake decorating. 1988-74
Nutritional information chart from Pillsbury (chart). 2551-74

CALCIUM
The cost of milk and milk products as sources of calcium. 13-73
Contribution of hard water to calcium and magnesium intakes of adults. 128-73
Fat metabolism in children - influence of dietary protein and calcium on serum lipids of pre-adolescent girls. 176-73
Calcium in nutrition. 338-73

Establishing central school lunch kitchens in urban areas. 1527-73
How to save $3 million in 14 years. 3161-73
Central commissaries: Three examples of an evolving food service concept. 3636-73
The kitchen of the future - now!. 3738-73
Revolution in educational facilities requires innovations in school food service. 3739-73
Schools adopt centralized feeding systems. 3758-73
USDA is interested in 'engineered foods' that can offer improved nutrition. 3880-73
We'd do the same thing. 4017-73
How to reduce personnel costs. 1375-74
How, St. Louis gives every kid a hot lunch in every school. 1427-74
101 daring young chains. 1498-74
Meal packaging: Malden public schools. 1960-74
How to build a centralized kitchen. 1989-74
A central kitchen provides meals for Indianapolis school students. 1998-74
Crown center: central kitchen/diverse food service. 2002-74
Lunch gets the O.K. in Oklahoma. 2272-74
The satellite food service system works in Philadelphia. 2338-74
School lunch in Hawaii: 82% participation. 2342-74
CENTRAL NERVOUS SYSTEM
Malnutrition, learning and behavior. 2750-73
CERTIFICATION
The FDA self-certification program--is it for you? 3041-73
ASFSA planning certification. 3293-73
Occupational licensing: Help or hindrance? 3539-73
Guides for day care licensing. 1359-74
ASFSA certification handbook. 1509-74
Certification, a plan for upgrading school food service pos tions. 1549-74
Follow the yellow brick road--to professionalism. 1606-74
CHANGE
The consistency of management in organizational change. 1396-74
The worker and the job: coping with change. 1446-74
Carrollton project SMILE*; suggested methods for improving lunchroom experiences. 2381-74
CHANGE AGENTS
*KUPS - K nowlege U tilization for P roblem S olving. 748-73
Developing community support of nutrition education programs. 801-73
Quality in work: human resources development--a key to productivity. 3067-73
The management of change: Part 3--Planning and implementing change. 3143-73
The management of change: Part 2--Change through behavior modification. 3144-73
The management of change: Part 1--Change and the use of power. 3145-73
So, we ought to get started on OD. 3215-73
A situational change typology. 3269-73
Training--a link to organizational change. 3440-73
Training and the change agent role model. 3454-73
Potential uses of mass media in nutrition programs. 3467-73
Changing food habits. 762-74
Food habits and the introduction of new foods. 763-74
Achieving change in people: some applications of group dynamics theory. 1306-74
Management psychology: explosive change versus gradual change. 1339-74
Management by objectives: antidote to future shock. 1432-74
Guiding the change process in people. 1577-74
Studies of behavior change to enhance public health. 1623-74
Learning by doing. 1811-74
Indiana/Cultural factors in the introduction of change. 1842-74
Changes in food practices for better nutrition. 2504-74
CHARTS
A guide to good eating. 354-73
Creative approaches to type A menu planning in meeting current social needs. 1328-73
Nutrition charts (Charts). 2517-73
Comparison cards, Set 1...For teenagers (Charts). 2744-73
Controlling food costs--a matter of survival. 3259-73
A flow chart for supervisory training. 3420-73
Uniform meat labeling eliminates shopper confusion. 45-74
Nutrition teaching aids (Charts). 152-74
Every day eat the 1-2-3-4 way. 715-74
Nutrition: content and value of some common foods--proteins (Charts on spring rollers). 783-74
A basic food pattern for Puerto Rico. 853-74
Basic nutrition, students' manual, school lunch 3. 1615-74
Flip chart trains new hires. 1648-74
Going metric. 1723-74
CHECK LISTS
A safety self-inspection program for foodservice operators. 2083-74
CHEESE
Complete teaching kit on cheese (Filmstrips). 122-73
Major mineral elements in dairy products. 286-73
Newer knowledge of cheese. 348-73
Byproducts from milk. 667-73
Emphasize product identity on labels. 681-73
Effect of fat content in cheddar, colby, and swiss cheeses on consumer preference. 808-73
Gallup survey - when everyone says "cheese!". 841-73
Cheese packages - goatskins to laminates. 1803-73
Lipases and flavor development in some Italian cheese varieties. 1874-73
Non-dairy cheese - a unique reality. 1896-73
Enzymes in food processing and products, 1972. 1966-73
Cheese cookery for everyone. 2120-73
A renaissance of natural cheeses. 2161-73
Women's Day encyclopedia of cookery, vol. 3. 2182-73
Purchasing dairy products for food service establishments. 2324-73
Lactose and milk intolerance. 2684-73
Dairy products--there's more to milk than just a cold drink. 2978-73
You can do something about rising food costs. 3610-73
Will imitation cheese be next? 3851-73
Milk: In cheese, it's disappearing. 18-74
How the shrewdest shoppers buy and use meat, dairy products and eggs. 57-74
Cheese: 'Milk's leap toward immortality'. 1090-74
Dairy products. 1095-74
La familia leche. 1099-74
Say cheese. 1126-74
Leche; queso. 1211-74
Cheese products: protein, moisture, fat, and acceptance. 1429-74
How we get our dairy foods. 2109-74
Formulating an imitation cheese spread to make dairy proteins go farther. 2110-74
Some effects of processing and storage on the nutritive value of milk and milk products. 2149-74
Hot dogs, hamburgers & pizza. 2441-74
Nutritious, delicious, and economical salad days. 2478-74
CHEFS
Culinary institute moves into a new era. 3371-73
Cooks and chefs (film loop). 3389-73
The professional chef. 1942-74
CHEMICAL COMPOSITION
Modern food analysis. 232-73
Interactions of nutrients with oral contraceptives and other drugs. 257-73
The chemicals of life. 2445-73
Enrichment of milk with iron. 2543-73
Medium-chain triglycerides. 2606-73
Protein: Chemistry and nutrition. 2731-73
Baker's yeast--world's oldest food--is newest source of protein and other ingredients. 3832-73
Food chemicals codex. 4156-73
CHEMICAL CONTAMINANTS
Fact and fancy in nutrition and food science - chemical residues in foods. 175-73
Fulfilling the scientific community's responsibility for nutrition and food safety. 217-73
Health hazards of the human environment. 3828-73
Chemical foods. 3859-73
CHEMICAL PROPERTIES
The two-carbon chain in metabolism. 2775-73
Food theory and applications. 2788-73
Proteins: structure and function. 624-74
CHEMICAL PROPERTIES OF FOOD
Medium-chain triglycerides. 2606-73
Protein: Chemistry and nutrition. 2731-73
Why chemicals? 2135-74
CHEMICALS
Those controversial chemical additives. 2396-73
The chemical additives in booze. 2643-73
Cholesterol: A review. 2849-73
Symposium on environmental quality and food supply, 1972, Washington, DC. 3813-73
Safe use of pesticides. 3829-73
Food chemicals codex. 4156-73
Your 'breakfast chemicals'. 643-74
Chemical additives in our food. 701-74
Legalities concerning food additives. 1245-74
Rapid nitrosation of phenols and its implications for health hazards from dietary nitrites. 2065-74
The use of chemicals in food production, processing, storage, and distribution. 2106-74
CHEMISTRY
Effects of microwaves on food and related materials. 165-73
Interactions of nutrients with oral contraceptives and other drugs. 257-73
The vitamins. 484-73
Selenium: the maddening mineral. 486-73
What is soy protein? 598-73
Science of home economics and institutional management. 933-73
Science fundamentals: a background for household equipment. 1648-73
Food applications for membrane ultrafiltration. 1851-73
Kubelka-Munk colorant layer concept. 1873-73
Wine. 1967-73
Time-temperature indicating system 'writes' status of product shelf life. 2349-73
New forms of vitamin D3 and their potential applications. 2530-73
Hereditary galactosemia. 2603-73
Symposium: seed proteins. 2637-73
The two-carbon chain in metabolism. 2775-73
Soybeans: chemistry and technology. 2865-73
Water: energy for life. 3527-73
Symposium on new food processing technology. 3836-73
The determination of ascorbic acid. 151-74

Nutrition education conference--1962. 503-74
Nutrition notes: tooth decay can be prevented. 539-74
Nutrition programmes for preschool children, Zagreb, Yugoslavia, August 23-26, 1971. 543-74
Sources of dietary iodine. 577-74
Nutritional status of children of Mexican-American migrant families. 609-74
Essential hypertension in children and youth: a pediatric perspective. 623-74
Four factors affect weight control for obese children. 657-74
Nutrition applied to school lunch. 694-74
Comparison of body weights and lengths or heights of groups of children. 727-74
Oigan ninos! aqui esta el plan para comer. 755-74
Pearson on developmental nutrition: iron. 803-74
Food for fun and thought: nutrition education in a childr-en's hospital. 848-74
Children are different. 864-74
The short-term response to a drink of milk, lactose or casein in children with apparently normal gastrointestinal tracts. 866-74
Open doors to improved nutrition: the family influence on children's food habits; nutrition of the school child. 870-74
Polyunsaturated fatty acid intakes of children. 954-74
Nutrition and learning--implications for schools. 956-74
The changing food needs of the family (Show'n Tell). 1006-74
Cholesterol-consciousness. 1039-74
Prevalence of coronary heart disease risk factors in boys 8 to 12 years of age. 1057-74
Childhood obesity. 1063-74
Childhood obesity. 1064-74
Food preferences of children from lower socioeconomic groups---a geographic study. 1079-74
Children's television advertising guidelines. 1512-74
Teach us what we want to know. 1545-74
Beginning responsibility: lunchroom manners (Motion picture). 1574-74
Television and the young consumer. 1858-74
The kid's cookbook. 1967-74
Promoting child health through comprehensive care. 2192-74
New program meets special needs of women, infants & children. 2194-74
Opportunities for nutritionists and dietitians in rehabil-itation programs. 2203-74
One child--one chance; a report on the supplemental food program. 2228-74
Better health through better food. 2311-74
Camping for children with diabetes--a diet therapy section project. 2315-74
Pennsylvania takes a look at nutrition in the orthopedic program. 2323-74
Nutrition education: how much can or should our school do? 2346-74

CHILDREN AND YOUTH PROJECTS
Pediatric cafeteria. 2352-74
State specialists coordinate nutrition education projects. 2360-74
Food for health in Pierce County. 2390-74
A cook's guide to do-it-yourself food art. 2414-74
The effect of malnutrition on mental development. 2510-74
CHILDREN AND YOUTH PROJECTS
Nutrition education through a health program. 2337-74
CHILDRENS BUREAU
645 days of maternity and infant care. 2366-74
CHILDRENS GAMES
New (trition) twist to an old game. 361-73
Everywhere that Mrs. Farley went... 1084-73
CHILDRENS STORIES
Stone soup (Audiotape). 3663-73
Bread and jam for Frances (Phonodisc). 203-74
The bun. 216-74
Bread and jam for Frances. 511-74
What's for lunch, Charley. 512-74
The carrot seed. 594-74
Stone soup. 673-74
Stone soup (Phonodisc). 959-74
The story of Johnny Appleseed. 1080-74
Lets find out about bread. 1088-74
Snipp, Snapp, Snurr and the buttered bread. 1112-74
About bananas. 1125-74
The wonderful egg. 1127-74
I want to be a dairy farmer. 1626-74
How we get our dairy foods. 2109-74
Dairyman Don. 2116-74
About apples from orchard to market. 2122-74
About food and where it comes from. 2150-74
The perfect pancake. 2465-74
The supermarket mystery. 2599-74
CHINA
Chinese foods and traditions. 2521-73
CHINESE AMERICANS
Some dietary beliefs in Chinese folk culture. 260-74
Overweight--its prevention and control (in Chinese). 616-74
CHLORINE
Minerals as nutrients. 2417-73
CHOCOLATE AND COCOA
Chocolate: the Aztec's brown gold. 630-73
Hot beverage systems. 1581-73
Carbohydrate ingestion during prolonged running performance. 517-74
CHOLECYSTITIS
Diseases of the gallbladder--part 3: Cholecystitis. 2856-73
CHOLESTEROL
Your heart has nine lives. 95-73
Cholesterol content of foods. 116-73
Cholesterol, fat, and protein in dairy products. 117-73
Diet and atherosclerosis. 139-73
Diet in early life in relation to atherosclerosis. 143-73
The disease of living. 152-73
Effect of diet and/or exercise on obese college women. 160-73
Fatty acids in newer brands of margarine. 179-73
Fatty acids, cholesterol, and proximate analyses of some ready-to-eat foods. 180-73
Nutrition and ischemic heart disease. 383-73
Your diet: health is in the balance. 403-73
Serum cholesterol from pre-adolescence through young adulthood. 490-73
Teenagers and food: their eating habits. 517-73
Composition of foods. 2280-73
Diet and coronary heart disease. 2430-73
Controversies in medicine--is obesity harmful? 2502-73
Response of body weight to a low carbohydrate, high fat diet in normal and obese subjects. 2662-73
Diet and coronary heart disease. 2759-73
Cholesterol: A review. 2849-73
Epidemiology of coronary heart disease. 2870-73
Proceedings. 2884-73
Fact and fiction about meat nutrition. 49-74
The 'big three' risk factors that predict coronary disease best. 88-74
Ten-year experience of modified-fat diets on younger men with coronary heart-disease. 185-74
Sustained weight control. 314-74
Diet and coronary heart disease. 331-74
Find meat fat lowers cholesterol, blood pressure. 387-74
Interactions between nutrition and heredity in coronary heart disease. 482-74
Nutritional aspects of selected studies on cardiovascular diseases--implications for nutrition education. 504-74
Alaskan Arctic Eskimo: responses to a customary high fat diet. 510-74
Nutrition education in medical practice. 566-74
Fats in food and diet. 619-74
Plain talk about a confusing matter. 702-74
Don't eat your heart out (Chart). 753-74
Newer concepts of coronary heart disease. 758-74
Primary prevention of the atherosclerotic diseases. 817-74
A dietary program to lower serum cholesterol. 837-74
Changes in serum cholesterol during the Stillman diet. 849-74
The case for fiber--part 3: cholesterol, bile acids and heart disease. 914-74
Ischemic heart disease and dietary fiber. 995-74
Cholesterol-consciousness. 1039-74
Your health is what you make it. 1049-74
A guiding star for modern nutrition. 1570-74
CHOLESTEROL-LOW DIETS
Textured vegetable protein...solution to institutional dietary problems? 521-73
The national diet-heart study--implications for dietitians and nutritionists. 2482-73
Diet and coronary heart disease. 2535-73
Planning fat-controlled meals. 2582-73
A dietary approach to coronary artery disease. 2739-73
The prudent diet: vintage 1973. 2806-73
Programed instruction for fat-controlled diet, 1800 calories. 3303-73
The American Heart Association cookbook. 4044-73
What you need to know about food & cooking for health. 4064-73
Live high on low fat. 4085-73
The Jack Sprat cookbook. 4114-73
Egg beaters: do they beat real eggs? 14-74
Plain talk about a confusing matter. 702-74
Don't eat your heart out (Chart). 753-74
Symposium: developing foods for the cardiac-concerned. 973-74
Cholesterol-consciousness. 1039-74
How to extend your life span. 1047-74
The low cholesterol cookbook. 2429-74
CHOLINE
The Vitamins. 2848-73
CHROMIUM
Trace minerals as nutrients. 2418-73
Chromium enrichment of foods urged. 270-74
CINCINNATI, OHIO
The remarkable Miss Walsh and Cincinnati's penny lunch. 3972-73
Cincinnati summer food service demonstration project: special food service program for children; Cincinnati, Ohio, 1972. 4011-73
Nutrition training of food service personnel. 1608-74
CIRRHOSIS
Diseases of the liver--part 4: Cirrhosis. 2860-73
CITRUS FRUITS
The chemical constituents of citrus fruits. 272-73
The Real talking, singing, action movie about nutrition (Motion picture). 467-73
Hurray for the clockwork orange!. 1452-73
Think Orange, When you Choose a Snack. 2894-73
Vitamin C is not stored in the body, so you need it every day. 2927-73
Novel gel system, citrus yield ready-to-eat products. 3868-73
[Citrus fruit recipes]. 4052-73
Consumer tips on fresh citrus (Filmstrip). 13-74
Citrus is...A fabulous fruit. 392-74
The sage of citrus fruits. 1082-74
CITY DEMOGRAPHY
Manpower report of the President. 2284-73
CIVIL DEFENSE AND DISASTERS
A manual for emergency mass feeding indoors. 1474-73
Basic course in emergency mass feeding. 1528-73
Food and nutrition procedures in time of disaster. 2280-74
CIVIL SERVICE EXAMINATIONS
Food handling and food service examinations. 1149-73
This is your passbook for food service worker. 1170-73
Food service supervisor-school lunch manager. 1274-73
CLASS ACTIVITIES
Health and safety posters (Posters). 2438-73
Ice cream for you and me. 2462-73
Seasonal experiences. 2507-73
Science experiments you can eat. 2508-73
Children and food--a natural combination. 2555-73
Ideas in health education. 2563-73
Nutrition in action for the child (slides). 2570-73
Shape Your Future (Charts). 2625-73
Teaching the young child good eating habits for life. 2734-73
What we do day by day (study prints). 2743-73
Raising vegetables in minigardens. 2780-73
The foods we eat (Filmstrip). 2803-73
Health and growth: teacher's edition. 2824-73
Nutrition and the senses. 2933-73
The farm. 3349-73
Worksheets for primary arithmetic and language arts. 3350-73
Nutrition in kindergarten. 3351-73
Animal friends at home and school. 3352-73
Our friends in story. 3353-73
Preparing our noon lunch at home alone. 3354-73
Community helpers. 3355-73
Food skits for elementary grades. 3356-73
Foods in the Easter traditions. 3357-73
Learning with gusto. 3375-73
Why cook in school. 3376-73
Much ado about nutrition. 3378-73
What's cooking in the classroom? 3394-73
The mother-child cook book. 3395-73
Health: strand I. 3503-73
Classroom cooking. 3512-73
Can you trouble-shoot this lesson plan? 3562-73
Nutrition resource unit, primary grades. 3570-73
Nutrition education materials for teachers. 3585-73
Learning about your oral health--level IV: 10-12 (kit). 117-74
Learning about your oral health--level III: 7-9 (kit). 118-74
Food for thought (chart). 378-74
The big stretch. 684-74
Food habits (Kit). 703-74
Nutrition education workshops in early childhood, West Virginia, July, 1971. 777-74
Grow your own nutrition. 968-74
Metrication and the home economist. 1519-74
Foods in Mexico. 1559-74
What people eat in the Congo. 1560-74
Food in early Cleveland. 1561-74
Food in Washington's boyhood. 1562-74
On the way to the Arctic Circle. 1563-74
Food in Lincoln's time. 1564-74
Classtoons: Problems of overweight (Transparencies). 1604-74

-.-

Classtoons: Economy meal planning (Transparencies). 1628-74
Classtoons: Vegetable cookery (Transparencies). 1629-74
Home economics, grades 7-9. 1656-74
The missing link. 1707-74
CLASSROOM GAMES
Guia para los lideres. 2595-73
Nutrition insurance (Game). 2778-73
FAN food cards (Playing cards). 2790-73
Discovering a pattern for a balanced diet. 2869-73
Exciting new techniques for teaching nutrition. 3392-73
A teacher's guide to: Learning nutrition through discovery, K-6. 3401-73
How to use the comparison cards to learn which foods are best. 3569-73
Nutrition survival kit. 92-74
Learning about your oral health--level I: K-3 (kit). 115-74
Learning about your oral health--level II: 4-6 (kit). 116-74
Yardsticks for nutrition (kit). 413-74
The nutrition game (Game). 450-74
The food fun songbook (Cassette tape). 637-74
Making nutrition education contagious. 813-74
Nutrition lessons. 1548-74
The cafeteria food game. 1676-74
Fight the "bore war" with games; innovations in consumer education, part four. 1766-74
Let's play games. 1779-74
Putting nutrition on the line. 1803-74
Games that teach. 1804-74
CLASSROOM MATERIALS
Hamburgers and you (Game). 2903-73
Inside information. 2941-73
Nutritive value of common foods in percent of RDA. 4183-73
How to select teaching aids. 1625-74
Resource items. 2554-74
Approximate nutritive values of common foods. 2581-74
CLEANING
Problems in frying occur when careless frying procedures are followed. 3675-73
Compaction puts the squeeze on trash handling costs. 3705-73
Hot water, water everywhere. 3729-73
How to clean a fry kettle. 3734-73
Warehousing: the second time around. 3776-73
Safety--it's now the law. 3779-73
Sanitation now. 3784-73
Safety and sanitation in school food service. 3797-73
Industrial cleaning & hygiene. 3798-73
For a clean restaurant...Look this close. 3800-73
Bugs beware (Film loop). 3803-73
Oklahoma school lunch sanitation & safety: a guide. 3807-73
This is the way we clean our kitchen. 3810-73
Today's dishwashing machine operator. 3815-73
It's good food, keep it safe--part I, the invaders; part II, keep it clean (Show 'N Tell). 3819-73
Food service sanitation manual. 3820-73
Conference on sanitation and food safety: proceedings sanitation and food safety conference August 21, 22, and 23, 1973. 3826-73
12 sensible solutions to dishwashing dilemmas. 3830-73
Dishwasher conversion can pay dividends. 2003-74
Does your warewashing measure up? 2005-74
Food facilities blueprint: World Trade Center (Part V): dishwashing facilities, private dining room. 2012-74
Trash comes and goes at the University of Wisconsin. 2046-74
Building care for hospitality operations. 2062-74
Clean catering. 2066-74
Clean up efficiently and economically. 2067-74
How hot is your dishwashing? 2074-74
Applied foodservice sanitation. 2082-74
A reference manual of food service sanitation: educational & training materials. 2087-74
Clean dishes (Slides-audiocassette). 2088-74
New formulas for more effective maintenance. 2089-74
Sanitation/Maintenance: outside and inside appearances count. 2091-74
Cleaning and sanitation. 2099-74
Kitchen sanitation. 2101-74
The keyword in successful food service; clean. 2102-74
Summer shutdown of the food service facilities. 2103-74
CLEANING EQUIPMENT
Hospital dishwashing (Film loop). 1114-73
The best investment we've ever made. 1557-73
Detroit research shows two-bucket technique yields cleaner floors. 1568-73
An important aid to the dish machine - the electric booster water heater. 1593-73
Food service planning. 1606-73
How to select and care for serviceware, textiles, cleaning compounds. 1607-73
Science fundamentals: a background for household equipment. 1648-73
Household equipment. 1649-73
Your biggest investment (Film loop). 1690-73
Cleaning and sanitizing (Film loop). 1699-73
Floor care (Film loop). 1710-73
A practical primer on essential sanitation concepts. 1758-73
A systems summation. 3116-73
Do a better cleaning job and control product consumption. 3709-73
Sub-System 9: Clean-Up. 3711-73
Small wares. 3715-73
Evaluation of dishwashing systems in food service establi-shments. 3717-73
How to choose the right cleaning brushes. 3733-73
Warehousing: the second time around. 3776-73
Dishwashing. 3786-73
Sub-System 10: Sanitation. 3787-73
A look at the most crucial tools of sanitation. 3792-73
Industrial cleaning & hygiene. 3798-73
Dishwasher conversion can pay dividends. 2003-74
Food facilities blueprint: World Trade Center (Part V): dishwashing facilities, private dining room. 2012-74
How to size an efficient water heating system. 2019-74
New heavy duty chlorinated detergent. 2029-74
Trash comes and goes at the University of Wisconsin. 2046-74
Zero turnover in the dishroom. 2057-74
Building care for hospitality operations. 2062-74
New formulas for more effective maintenance. 2089-74
The keyword in successful food service; clean. 2102-74
CLERICAL OCCUPATIONS
Secretary-Boss relationships. 3170-73
Marketing, business, and office specialists. 3593-73
CLERICAL WORKERS
Supervising employees from minority groups. 3278-73
CLEVELAND
Run for your breakfast--to school!. 3991-73
Food in early Cleveland. 1561-74
CLIMATIC FACTORS
Calorie requirements. 188-73
CLINICAL DIAGNOSIS
Exercise testing and training of apparently healthy individuals: a handbook for physicians. 62-73
How to diagnose nutritional deficiencies (Slides). 246-73
Lactose intolerance. 275-73
The status of nutrition in the United States. 502-73
Screening children for nutritional status. 560-73
Ten-state nutrition survey, 1968-1970. 564-73
Problems of assessment and alleviation of malnutrition in the United States. 577-73
Review of nutrition and diet therapy. 611-73
Mothercraft Centers combine nutrition and social sciences. 2028-73
Nutrition and its disorders. 2722-73
Nutritional status of people, USA. 2841-73
Identifying the functioning disturbed executive. 1363-74
Principles of interviewing and patient counseling. 1692-74
CLINICAL INVESTIGATIONS
A complete summary of the Iowa breakfast studies. 257-74
Nutrition Canada. 878-74
CLINICAL NUTRITION
Clinical management of the obese adult. 202-74
Modern nutrition in health and disease: dietotherapy. 443-74
Weight control in a college situation. 1069-74
Perspectives 1974: unusual positions and newer dietetic specialties. 1436-74
The role of the nutritionist in an adolescent clinic. 2225-74
CLOSTRIDIUM
Temperature and microbial flora of refrigerated ground beef gravy subjected to holding and heating as might occur in a school foodservice operation. 2104-74
Processing meat products without nitrates or nitrites. 2130-74
CLOTHING INSTRUCTION
Development and evaluation of a curriculum of wage earning occupations. Final report. 3343-73
Career education in home economics. 3347-73
A pilot study for gainful employment in home economics: final report, volume I. 3367-73
Homemaking for the educable mentally retarded girl. 1702-74
Let's play games. 1778-74
CLUSTER GROUPING
Project VIGOR; vocational cluster education, integrated and articulated grades 1 through 14 with guidance services, occupational exploration and work experience relevant to general education: first interim report. 3473-73
COCONUTS
Coconuts. 1182-74
CODES
Food chemicals codex. 4156-73
COFFEE
Tea & coffee. 627-73
Coffee; it can make you or break you. 777-73
Food training routines. 1142-73
Recommendations on coffee service. 1490-73
Cooking the modern way with stainless steel steam-jacketed kettles. 1580-73
Hot beverage systems. 1581-73

A meaningful curriculum in applied nutrition. 2561-73
Nutrition education--an integral part of a school feeding program. 2655-73
Nutrition education in day care programs. 2656-73
Can teaching good nutrition be bad? 2699-73
Nutrition education in Florida school districts. 2774-73
Guidelines for hospitality education in junior colleges; a manual for the establishment of programs for careers in the hotel-motel, restaurant, and institutional industries. 3297-73
Health concepts. 3302-73
Course recommendations for school food-service training programs in two-year colleges. 3305-73
Status of curriculum development in the field of commercial food at the nonbaccalaureate level. 3311-73
The development of a guide through cooperative action research for the purpose of integrating the School Lunch Program into the elementary school curriculum. 3319-73
Strategies for disseminating curriculum support materials. 3333-73
Development and evaluation of a curriculum of wage earning occupations. Final report. 3343-73
How do your trainers grow? 3345-73
Practical guide to curriculum and instruction. 3348-73
A pilot study for gainful employment in home economics; volume IV- a suggested curriculum guide for preparing food ser vice workers for entry level jobs. 3366-73
A pilot study for gainful employment in home economics: final report, volume I. 3367-73
Hospitality education curriculum development project: final report. 3382-73
Schools are becoming increasingly valuable source of food service personnel, but time and money are needed before potential is reached. 3404-73
Institute for home economics teachers on initiating, developing, and evaluating programs at the post high school level to prepare food service supervisors and assistants to directors of child care services: volume I: a post high school program in home economics (May 1, 1966-June 30, 1967); final report. 3406-73
Employment opportunities in which knowledge and skill in home economics are needed. 3412-73
Instructional design. 3442-73
Evaluation in the teaching of home economics. 3462-73
Project VIGOR: vocational cluster education, integrated and articulated grades 1 through 14 with guidance services, occupational exploration and work experience relevant to general education: first interim report. 3473-73
Developing a work-experience program for slow learning youth: a report of a three year extension and improvement project. 3477-73
Program planning for home economics in secondary schools in Minnesota. 3483-73
A question of opportunity: women and continuing education. 3490-73
An educational development plan for the Kapiolani Community College--January 1967. 3494-73
Management services: a training guide for out-of-school youth and adults. 3500-73
A survey instrument for identifying clusters of knowledge and competencies associated with performance of food service work. 3525-73
Home economics education at the secondary level; a curric-ulum model (with emphasis on the occupational aspect). 3545-73
Food service employee. 3565-73
Results-oriented training designs. 3566-73
Food preparation and service, course description. 3591-73
A composite of food service curriculum information for use in vocational programs. 3592-73
Wisconsin home economics conceptual structure and planning guide for secondary schools. 3598-73
Nutrition education in Canada. 356-74
Improvement of food selection through physical education and athletic programs. 490-74
Teaching nutrition to teenagers. 618-74
The place of nutrition in the health education curriculum. 923-74
Trained leaders direct day-care centers. 994-74
A curriculum for the nutrition programmer. 1572-74
Index and curriculum briefs, volume 1. 1581-74
The development of skills training courses. 1614-74
Mandatory health courses for New York State public schools: Nutrition Education. 1632-74
How to write and use behavioral objectives in vocational education programs. 1640-74
A conceptual approach to nutrition education. 1643-74
Basic nutrition concepts--their use in program planning and evaluation. 1644-74
Nutrition education in elementary school programs. 1645-74
New frontiers in health education. 1654-74
Home economics, grades 7-9. 1656-74
Plan nutrition lessons now for foods of future. 1699-74
Nutrition in medical education: a problem-centered approach. 1748-74
Development of a validated instructional system for hospi-tality education. 1754-74
Boys unlimited: are you ready to teach the boys? 1760-74
Food service curriculum for the future. 1761-74
A conceptual approach to health education: implication for nutrition education. 1792-74
Identifying competencies in the food service industry. 1849-74
CURRY
The taste of curry. 3633-73
CUSTARD
Baking a custard (Film loop). 1385-73
Preparing a custard (Film loop). 1493-73
Creative custards. 4030-73
CUSTOM-MADE EQUIPMENT
Standardized equipment helps launch new 1400 ft. Flagship. 3767-73
Conveyor belts--new design//new performance. 2001-74
CUTLERY
Food training routines II. 1143-73
Kitchen tool school. 1305-73
All about knives (Filmstrip). 1552-73
Choosing, using, and caring for kitchen cutlery. 1563-73
Kitchen safety: Preventing cuts and strains (Film Loop). 1735-73
Teaching basic equipment in junior high. 3708-73
Small wares. 3715-73
New saw blade system assures portion control. 3745-73
CUTS (INJURIES)
Kitchen safety: Preventing cuts and strains (Motion picture). 1736-73
CYBERNETICS
The behavioral cybernetic components of human nutrition. 89-73
CYCLE MENU
The cyclical menu. 1344-73
A menu planning guide for Type A school lunches. 1366-73
Fort Wayne, Indiana, community schools...A system for the future. 2007-73
The Sacramento system: commodity compatability. 2050-73
Shaping up the manual. 3691-73
Elementary menus. 1873-74
Secondary menus. 1874-74
CYSTIC FIBROSIS OF PANCREAS
National institute of arthritis and metabolic diseases. 2755-73

CZECHOSLOVAKIA
  Survey of nutrition knowledge as a part of nutrition education. 507-73
DAILY RECORDS
  Food can make a difference. 200-74
  Record para analisis de la dieta y para analisis de habitos de alimentacion. 823-74
DAIRY FOOD SUBSTITUTES
  Use of lowfat dairy spread in medium white sauce and plain white frosting. 1530-73
  Considerations in formulating and producing vegetable fat---based dairy substitutes. 1809-73
  A guide to the dairy counter. 17-74
  Homemakers' opinions about dairy products and imitations:. 37-74
DAIRY FOODS
  Cholesterol, fat, and protein in dairy products. 117-73
  Food purchasing practices. 2348-73
  Milk the magnificent (Slides). 2420-73
  Enrichment of milk with iron. 2543-73
  What about your favorite foods? 2947-73
  Dairy products--there's more to milk than just a cold drink. 2978-73
  Cooking with yogurt, cultured cream and soft cheese. 3672-73
  Develops unique cultured dairy product. 3897-73
  Milk: Why is the price so high? 16-74
  A guide to the dairy counter. 17-74
  Milk: In cheese, it's disappearing. 18-74
  How the shrewdest shoppers buy and use meat, dairy products and eggs. 21-74
  Homemakers' opinions about dairy products and imitations:. 37-74
  How the shrewdest shoppers buy and use meat, dairy products and eggs. 57-74
  Lactose intolerance and fermented dairy products. 423-74
  Prospects for meeting protein needs from conventional food sources. 855-74
  Study of foods is emphasized in Brooklyn elementary school. 965-74
  Dairy products. 1095-74
  In city, town and country. 1104-74
  Education through mass media. 1602-74
  I want to be a dairy farmer. 1626-74
  How we get our dairy foods. 2109-74
  Dairyman Don. 2116-74
  Lactase-treated milk provides base to develop products for lactose-intolerant populations. 2125-74
  About food and where it comes from. 2150-74
DALLAS, TEXAS
  Nutrition on wheels. 2398-74
DANDELIONS
  Dandelions. 1208-74
DATA ANALYSIS
  Hunger, U.S.A. 119-73
  High school lunch program - a model for decision analysis. 1994-73
  A new decade for School Food Service. 2029-73
  The computer and the school lunch program. 3113-73
  Developing a better survey questionnaire. 3117-73
  Attempts at quantitating flavor differences. 3147-73
  Opinions of training effectiveness: How good? 3320-73
  Determining first-line supervisory training needs. 3557-73
  Acceptance of the school lunch program in Louisiana high schools. 3902-73
DATA PROCESSING
  Integrated nutrition and food cost control by computer. 1340-73
  Day care survey 1970: Summary report and basic analysis appendices. 2295-73
  The computer & the pioneers. 3072-73
  The computer & how it works. 3214-73
  Can a computer boost profits? 3251-73
  Marketing, business, and office specialists. 3593-73
  Glossary of EDP terms. 4124-73
  Selected food and agriculture data bases in the U.S.A. 4125-73
  Food service data processing support: recipe data. 1282-74
  Computers 1984. 1872-74
DATES
  Dates. 1209-74
DAY CARE PROGRAMS
  Federal funds for daycare projects. 2087-73
  Nutrition education in day care programs. 2656-73
  Federal funds for day care projects. 3054-73
  Nutrition kit. 3576-73
  Children in day care. 335-74
  Help! my child won't eat right. 484-74
  Guides for day care licensing. 1359-74

La alimentacion de la embarazada. 820-74
Vegetarian diets. 830-74
Food for health--the Puerto Rican food wheel. 887-74
Candy, chocolate, ice cream and how to lick 'em!. 948-74
Alimentos para su nino--1. Edad 1-2 meses; 2. Edad 2-3 1/2 meses; 3. Edad 5-6 meses; 4. Edad 7-12 meses. 977-74
Dietary errors made at home by patients with diabetes. 1056-74
You can lead a patient to a diet but... 1060-74
Recommended Dietary Allowances: are they what we think they are? 1228-74
Effective diet conseling begins early in hospitalization. 1662-74
A food preference questionnaire for counseling patients with diabetes. 1665-74
Suggestions for research to strengthen learning by patients. 1724-74
Appraising and revising educational health materials: a look at the booklets for "planning fat-controlled meals". 1869-74
Diabetic meal planning: a good guide is not enough. 1878-74
Patients learn how to calculate special diets in hospital classes. 1905-74

DIETARY CONSULTANTS
The nutrition consultant in private practice. 809-74
Perspectives 1974: unusual positions and newer dietetic specialties. 1436-74
The dietitian--a translator of nutritional information. 1663-74
Nutrition consultation for public health nurses. 2387-74

DIETARY FACTORS
  Diet and coronary heart disease. 2430-73
  The contribution of the science and practice of nutrition to prevention and control of dental caries, Part 2. 2768-73
  Low-residue diets and hiatus hernia. 221-74
  Some diseases characteristic of modern Western civilization. 222-74
  Maternal nutrition in the 1970's; Part 1. 542-74
  A growing story (Filmstrip/Cassette tape). 590-74
  Newer concepts of coronary heart disease. 758-74
  Diverticular disease of the colon: a deficiency disease of Western civilization. 798-74
  Atherosclerosis: Part 1: the disease and epidemiology. 913-74
  Ischemic heart disease and dietary fiber. 995-74
DIETARY HISTORY
  A half century of changing food habits among Japanese in Hawaii. 231-73
  Potential dieters: who are they? - attitudes toward body weight and dieting behavior. 450-73
  College students look at the basis for their food habits. 214-74
  A study of the relative accuracy of two short methods of dietary evaluation as applied to diets in Leon County. 449-74
  Nutrition profile: a useful tool in patient care. 554-74
  Polyunsaturated fatty acid intakes of children. 954-74
DIETARY INFORMATION
  Diet and nutriture of preschool children in Honolulu - survey of low- and middle-income families. 140-73
  Enrichment and fortification of foods, 1966-70. 167-73
  Food intake of infants attending well-baby clinics in Honolulu. 203-73
  Nutritional review--1972. 424-73
  Potential dieters: who are they? - attitudes toward body weight and dieting behavior. 450-73
  Protein components of blood and dietary intake of preschool children. 457-73
  Some factors for refusal to participate in nutrition survey. 495-73
  The use of nutritonal requirements and allowances. 166-74
  Low-residue diets and hiatus hernia. 221-74
  Nutrition surveys and problems of detection of malnutrition in the elderly. 373-74
  Food consumption patterns: rural vs. urban. 395-74
  A nutrition education program at three grade levels. 486-74
  A study of the dietary habits of junior high school students with implications for nutrition education. 691-74
  Phosphorus balances of adults consuming several food combinations. 697-74
  Record para analisis de la dieta y para analisis de habitos de alimentacion. 823-74
  Nutrition Canada. 878-74
  Tools for evaluation of diets of pregnant women. 969-74
  Nutrient intake of pregnant women receiving vitamin-mineral supplements. 984-74
  Effective diet conseling begins early in hospitalization. 1662-74
  The dietitian--a translator of nutritional information. 1663-74
  A food preference questionnaire for counseling patients with diabetes. 1665-74
  Principles of interviewing and patient counseling. 1692-74
  Diet and health (Filmstrip). 1789-74
  Tape recording, booklet teach diets. 1812-74
  Food fun, fairs, facts. 2319-74
DIETARY STANDARDS
  Communicating with the consumer: basic research on nutrition and safety. 4-73
  Nutrition education: an integral part of consumer education. 29-73
  Food - the yearbook of Agriculture 1959. 39-73
  Nutrition for athletes: A handbook for coaches. 60-73
  Handbook of nutrition. 64-73
  A balanced diet (Film loop). 73-73
  Nutrition; a comprehensive treatise. 83-73
  The Beginning of life (Filmstrip). 85-73
  Dietetic foods. 90-73
  The Canadian dietary standard. 108-73
  A chink in our armor. 115-73
  Diet in early life in relation to atherosclerosis. 143-73
  Dietary allowances - an international point of view. 145-73
  The need for cereal foods of improved protein value in the United States. 157-73
  Calorie requirements. 188-73
  Food for health; calories (Film loop). 197-73
  Good food works for you (Show n' Tell). 226-73
  The Heinz handbook of nutrition. 234-73
  Helping older persons meet their nutritional needs. 236-73
  Household food spending affects diet adequacy. 239-73
  Basic principles of nutrition. 283-73
  Nutritional adequacy, preference, acceptability, and food production aspects of hot and cold school lunches. 294-73
  Maternal nutrition (Slides). 296-73
  Calcium in nutrition. 338-73
  Nutrition source book. 341-73
  Newer knowledge of milk. 349-73
  How your body uses food. 353-73
  Symposium papers on food and health. 367-73
  Newer methods of nutritional biochemistry with applications and interpretations - volume V. 368-73
  Nutrition education: Nutrition delivery systems and the management function. 372-73
  Nutrition and the Type A lunch. 388-73
  Nutrition education for the "now" generation. 394-73
  Food choices: the teen-age girl. 402-73
  Your diet: health is in the balance. 403-73
  Food. 406-73
  Nutrition notes: iron fortification of foods. 412-73
  Proteins and minerals (Film loop). 461-73
  Recommended intakes of nutrients for the United Kingdom. 468-73
  Review of food grouping systems in nutrition education. 474-73
  Malnutrition - its causation and control. 477-73
  The vitamins. 484-73
  Selenium: the maddening mineral. 486-73
  Nutritive value of foods. 535-73
  Food for fitness. 537-73
  An evaluation of research in the United States on human nutrition. 550-73
  Feeding the child with a handicap. 562-73
  Trace elements in human and animal nutrition. 567-73
  Looking at nutrition 12 ways. 571-73
  School lunch and the curriculum. 591-73
  You and your food (Motion picture). 617-73
  You and your food (Motion picture) (Spanish). 618-73
  Nutritional guidelines - the how, the why, and the when. 704-73
  Nutritional guidelines and the labeling of foods. 706-73
  Some considerations for nutritional labeling. 718-73
  Hearings, Ninety-second Congress, first session, on nutri-tion and human needs: Part 10. 729-73
  Management aspects of school lunch programs in Iowa. 865-73
  Food needs of family members. 1283-73
  Vitamins and you (Filmstrip). 1302-73
  Beginning menu planning. 1324-73
  A menu planning guide for breakfast at school. 1365-73
  Breakfast program in schools receives wide acceptance. 1978-73
  If we had ham, we could have ham and eggs - if we had eggs. 2005-73
  A study of the effect of certain management factors on nutritive value and pupil participation in the school lunch. 2040-73
  Tables of food values. 2209-73
  Food values of portions commonly used. 2216-73
  Food values and calorie charts. 2271-73
  Newer methods of nutritional biochemistry. 2413-73
  The science of nutrition. 2443-73
  Nutrition of animals of agricultural importance - part 2. 2520-73
  Let's eat right to keep fit. 2526-73
  Introductory nutrition. 2598-73
  The nutritive content of type A lunches. 2773-73
  Nutrition: an integrated approach. 2797-73
  School lunch means good nutrition. 3065-73
  Food guides in the United States. 495-74
  Energy and protein requirements. 565-74
  Revising booklets on fat-controlled meals: background information on nutrient composition. 1078-74
  Recommended Dietary Allowances for protein and energy, 1973. 1219-74
  Recommended Dietary Allowances: are they what we think they are? 1228-74
  The new Recommended Dietary Allowances. 1229-74
  Those pesky RDADS. 1230-74
  Problems in the use and interpretation of the Recommended Dietary Allowances. 1232-74
  The science and politics of the 8th revision of the RDA (not to be confused with the U.S. rDA of the FDA). 1238-74
  Recommended Dietary Allowances up to date--trace minerals. 1244-74
  Recommended Dietary Allowances. 1247-74
  Appraising and revising educational health materials: a look at the booklets for "planning fat-controlled meals". 1869-74
  Nutrition programs in state health agencies. 2303-74
DIETARY STUDY METHODS
  Accuracy of 24-hr. recalls of young children. 49-73
  Canada launches a national nutrition survey. 107-73
  Food consumption of low-income, rural Negro households in Mississippi. 193-73
  National nutrition education conference. 359-73
  Nutrition Canada. 378-73
  Nutrition for Head Start. 398-73
  Nutritional status of Negro preschool children in Mississ-ippi - evaluation of HOP index. 425-73
  Nutritive content of the usual diets of eighty-two men. 431-73
  Some factors for refusal to participate in nutrition survey. 495-73
  The status of nutrition in the United States. 502-73
  Problems of assessment and alleviation of malnutrition in the United States. 577-73
  Computers in a dietary study - methodology of a longitudinal growth research project. 786-73
  Tools for nutrition education--some examples. 1266-73
  ENEP evaluated. 1991-73
  World review of nutrition and dietetics. 2474-73
  Nutrient intake of college students under two systems of board charges--a la carte vs. Contract. 2501-73
  Epidemiology of coronary heart disease and stroke in Japanese men living in Japan, Hawaii and California. 2901-73
  Prevalence of protein - calorie malnutrition, 1963 to 1973. 176-74
  A complete summary of the Iowa breakfast studies. 257-74
  Nutrition surveys and problems of detection of malnutrition in the elderly. 373-74
  A nutrition education unit for a sixth grade. 431-74
  A study of the relative accuracy of two short methods of dietary evaluation as applied to diets in Leon County. 449-74

DIETARY SUPPLEMENTS
Nutritional aspects of selected studies on cardiovascular diseases--implications for nutrition education. 504-74
Nutrition activities promote dental health. 505-74
A reporting system for nutrient adequacy. 559-74
A state health department assesses undernutrition. 604-74
A study of the dietary habits of junior high school students with implications for nutrition education. 691-74
Phosphorus balances of adults consuming several food combinations. 697-74
Nutrition contretemps. 775-74
Nutrition Canada. 878-74
Nutritional status of preschoolers; an ecologic perspective. 922-74
Polyunsaturated fatty acid intakes of children. 954-74
Tools for evaluation of diets of pregnant women. 969-74
Problems in the use and interpretation of the Recommended Dietary Allowances. 1232-74
DIETARY SUPPLEMENTS
Nutrition for athletes: A handbook for coaches. 60-73
Statement of Walter A. Compton, M.D., President and Chief Executive Officer, Miles Laboratories, Inc., before the Senate Select Committee on Nutrition and Human Needs, February 24, 1971. 124-73
The need for iron fortification. 360-73
Hearings, Ninety-second Congress, first session, on nutri-tion and human needs: Part 10. 729-73
Supplementation of human diets with vitamin E. 2758-73
Ecological factors in the nutrition and development of children in poor rural areas. 263-74
Good drugs may cause bad nutrition. 442-74
Maternal nutrition in the 1970's; Part 1. 542-74
Effects of vitamin E: good and bad. 990-74
DIETARY SURVEYS
Recent school food service trends: Implications to nutrition education.
Nutrition/cardiovascular reviews, 1970-1971. 63-73
Canada launches a national nutrition survey. 107-73
Contribution of certain nutrients added to foods to dietary intake. 127-73
Contribution of hard water to calcium and magnesium intakes of adults. 128-73
Diet and nutriture of preschool children in Honolulu - survey of low- and middle-income families. 140-73
Dietary intake and physical development of Phoenix area children. 147-73
Diets of preschool children in the North Central Region: calcium, phosphorus, and iron. 150-73
Diets of preschool children in the North Central Region: calories, protein, fat, and carbohydrate. 151-73
Effect of diet and/or exercise on obese college women. 160-73
Exercise, dietary intake, and body composition. 170-73
Food and nutrient intake of children from birth to four years of age. 190-73
Food consumption of low-income, rural Negro households in Mississippi. 193-73
Food habits of migrant farm workers in California - compa-risons between Mexican-Americans and "Anglos". 202-73
Food intake of infants attending well-baby clinics in Honolulu. 203-73
Growth of preschool children in the North Central Region. 228-73
Hemoglobin and folate levels of pregnant teen-agers - relatiionship to dietary levels. 237-73
Nutrient intake and weight response of women on weight--control diets. 374-73
Nutrition Canada. 378-73
Nutrition education and the Spanish-speaking American. 390-73
Nutritional status of Negro preschool children in Mississ-ippi - evaluation of HOP index. 425-73
Nutritional studies during pregnancy: I. Changes in intakes of calories, carbohydrate, fat, protein, and calcium, II. dietary intake, maternal weight gain, and size of infant. 427-73
Nutrition of a group of school children in Ohio with improved diets. 438-73
Preformed vitamin A, carotene, and total vitamin A activity in usual adult diets. 452-73
The price of civilization. 455-73
Shopping practices of low-income groups for convenience foods. 491-73
Some factors for refusal to participate in nutrition survey. 495-73
The status of nutrition in the United States. 502-73
Basic data on metabolic patterns in 7- to 10-year-old girls in selected Southern states. 533-73
Food and nutrient intake of individuals in the United States; spring 1965. 534-73
Practices of low-income families in feeding infants and small children with particular attention to cultural subgroups. 563-73
Ten-state nutrition survey, 1968-1970. 564-73
Utilization of inorganic elements by young women eating iron--fortified foods. 576-73
Problems of assessment and alleviation of malnutrition in the United States. 577-73
Food in antiquity. 628-73
Effects of some new production and processing methods on nutritive values. 1837-73
Effects of USDA commodity distribution program on nutritive intake. 1993-73
Nutrition awareness in the USDA. 2034-73
A study of school feeding programs - I. Economic eligibility and nutritional need -II. Effects on children with different economic and nutritional needs. 2068-73
Home economics research abstract: 7, food and nutrition. 2198-73
Implications of the National nutritional study. 2241-73
Measuring dietary intake in pre-school children. 2466-73
World review of nutrition and dietetics. 2474-73
Nutritional problems in the South. 2591-73
Surveys: Aims and methods. 2707-73
Dietary surveys on school children and medical students. 2826-73
Food intake studies in pre-school children in developing countries: Problems of measurement and evaluation. 2832-73
Adolescent pregnancy: Association of dietary and obstetric factors. 2851-73
The effect of socio-economic differences on the dietary intake of urban population in Hyderabad. 2893-73
Proceedings of National Nutrition Education Conference November 2-4, 1971. 2909-73
Abstracts of studies dealing with the nutritional status of children in the United States. 91-74
A comparative study of food habits: influence of age, sex and selected family characteristics. 142-74
A complete summary of the Iowa breakfast studies. 257-74
Dietary survey of preschool children and expectant women in Soongnern district, Nakorn Rajsima province, Thailand. 259-74
Diet study points to iron deficiency among women. 333-74
Frequency of eating. 364-74
Eating behavior of preschool children. 365-74
Nutrition knowledge and attitudes of mothers. 366-74
Food consumption patterns: rural vs. urban. 395-74
Dietary and disease patterns among Micronesians. 471-74
Urbanization, diet and potential health effects in Palau. 472-74
Alaskan Arctic Eskimo: responses to a customary high fat diet. 510-74
Hunger in America. 515-74
The effect of nutrition in teen-age gravidas on pregnancy and the status of the neonate. 1. A nutritional profile. 569-74
Food preferences of college women. 602-74
Nutritional studies of British Columbia Indians. I. Dietary studies at Ahousat and Anaham reserves. 612-74
A multidisciplinary analysis of children's food consumption behavior. 632-74
Religious influence on dietary intake and physical condition of indigent, pregnant Indian women. 658-74
Evaluation of nutritional status. 671-74
A study of the dietary habits of junior high school students with implications for nutrition education. 691-74
Preliminary findings of the first health and nutrition examination survey, United States, 1971-1972. 713-74
Survey of changes in food habits during pregnancy. 767-74
Nutritive quality of diets, USA. 787-74
Infant nutrition (Slides). 824-74
Nutrient intake of Pima Indian women: relationships to diabetes mellitus and gallbladder disease. 835-74
Nutritional status of preschool children of Marin County welfare recipients. 871-74
Nutrition of Alaskan Eskimos. 901-74
Nutrient intake of college students from India in the United States. 908-74
A serial study of nutrient intakes of children from 3 to 18 years of age. 952-74
Several factors affecting college coeds' food preferences, habits and intake. 1026-74
Effect of food preferences on nutrient intake. 1068-74
Food preferences of children from lower socioeconomic groups---a geographic study. 1079-74
Research in agriculture and the profession of dietetics. 1111-74
Problems in the use and interpretation of the Recommended Dietary Allowances. 1232-74
A computer-assisted approach to meal patterning. 1904-74
Manual on household food consumption surveys. 2482-74
DIETETIC FOODS
Nutrition and dietetic foods. 2458-73
The comeback of the low-cal market. 359-74
Nutritional problems and the use of special dietary foods. 891-74
Symposium: developing foods for the cardiac-concerned. 973-74
Cheese products: protein, moisture, fat, and acceptance. 1429-74
Can you cater to special diets? 1925-74
Prescription dietary service. 2230-74
DIETETIC INTERNS
The nutritionist caring for malnourished children. 2633-73
New ideas in dietetic training. 3421-73
Teaching nutrition at nursery school level. 672-74
Contract food maintenance vs. self operation--one firm's view. 1312-74
A model for educating supportive personnel: the dietetic technician. 1558-74
The dietetic technician: paraprofessional as knowledge worker. 1753-74
Nutrition in coordinated home care programs. 2322-74
DIETETIC INTERNSHIP PROGRAMS
Educating the dietitian in a changing world. 1076-73
The professional training of the hospital dietitian. 2505-73
New ideas in dietetic training. 3421-73
A model for educating supportive personnel: the dietetic technician. 1558-74
DIETETIC TECHNICIANS
A model for educating supportive personnel: the dietetic technician. 1558-74
DIETETICS
Dietetic foods. 90-73
Nutrition and physical fitness. 97-73
Human nutrition and dietetics. 135-73
Basic nutrition in health and disease including selection and care of food. 248-73
Newer knowledge of milk. 349-73

Nutrition education is behavioral change. 396-73
Your diet: health is in the balance. 403-73
Basic nutrition and diet therapy. 476-73
Textured vegetable protein (TVP). 520-73
Handbook of diet therapy. 531-73
Nutrition and diet therapy: A learning guide for students. 610-73
Review of nutrition and diet therapy. 611-73
Nutrition and diet therapy. 612-73
A study guide for the food service supervisor. 1021-73
Manual for the education of the food service supervisor---part one of two-part series. 1022-73
Dietetic manpower trends in education and training. 1068-73
Dietetic training '73. 1070-73
Education for dietetics: the In-Basket Technique. 1077-73
The long view. 1151-73
A teacher's guide of student nurses' learning experiences in diet therapy clinical practice related to total nursing care of patient, for use in schools of nursing. 1235-73
Teaching as changing behavior. 1254-73
Dietitian aides. 1262-73
Undergraduate education in dietetics. 1296-73
Selected list of reliable nutrition books (revised 1970). 2277-73
Nutrition and physical fitness. 2472-73
Human nutrition: its physiological, medical and social aspects; 2713-73
Practical nutrition. 2796-73
Management training what every foodservice director and dietitian needs. 3464-73
Lydia J. Roberts award essays: a compilation of essays. 120-74
Normal and therapeutic nutrition. 857-74
Nutrition education--old problems in new settings. 1769-74
Some principles of adult education. 1848-74
A 'fair' way to teach nutrition. 2279-74
Titles, definitions, and responsibilities for the profession of dietetics--1974. 2571-74
DIETITIAN AIDES
Dietitian aides. 1262-73
Rung by rung up the health career ladder. 3597-73
The dietetic technician: paraprofessional as knowledge worker. 1753-74
Development of USTES aptitude test battery for dietary aid. 1835-74
DIETITIANS
An anthropologist views the nutrition professions. 66-73
The application of nutrition information to persons trained in food service who do not have a dietitian as a continuous resource of nutrition information. 67-73
Drugs and nutrition. 156-73
Responsibility of dietitians for providing information about food: it's wholesomeness and nutritional value. 473-73
A study of the need for dietary counselling services for the physician. 505-73
And then there were 17!. 1026-73
CNI joins in training Milwaukee interns. 1042-73
Dietetic manpower trends in education and training. 1068-73
The dietetic professional in the labor force. 1069-73
Dietetic training '73. 1070-73
Continuing education in nutrition-1970. 1071-73
Educating the dietitian in a changing world. 1076-73
Education for dietetics: the In-Basket Technique. 1077-73
Food service orientation (Film loop). 1102-73
The long view. 1151-73
New professionals to the rescue. 1179-73
Textiles updated for today's dietitian. 1676-73
Nutrition services in child health programs. 2036-73
The professional training of the hospital dietitian. 2505-73
Performance ratings for food service supervisors. 3064-73
Manpower needs in the nursing home industry. 3189-73
New ideas in dietetic training. 3421-73
Intern compiles nutrition education materials. 3426-73
Intern expands employee handbook. 3433-73

Problems in producing programs for auto-instruction. 1710-74
Nutrition education--old problems in new settings. 1769-74
Tape recording, booklet teach diets. 1812-74
Dietitian c-39.93--technical report on standardization of the general aptitude test battery; final report. 1836-74
The therapeutic dietitian--a challenge for cooperation. 1866-74
Patients learn how to calculate special diets in hospital classes. 1905-74
Opportunities in home health services: guidelines for dietitians and nutritionists. 2162-74
Titles, definitions, and responsibilities for the profession of dietetics--1974. 2571-74
DIETS
Convenience foods: factors affecting their use where household diets are poor. 129-73
Man as a patient. 290-73
Potential dieters: who are they? - attitudes toward body weight and dieting behavior. 450-73
Calories and weight. 538-73
We're short of calcium, too!. 589-73
The use of a computer in formulating low cost diets. 990-73
Fish protein concentrate enrichment of noodles. 1849-73
Triglyceridemia. 2414-73
Let's eat right to keep fit. 2526-73
The muddle of diets for gastrointestinal disorders. 2540-73
The complete handbook of nutrition. 2770-73
Ready--to--eat breakfast cereals in U.S. Diets. 2795-73
Nutrition: an integrated approach. 2797-73
Drugs and their interrelationships with nutrition. 2926-73
Programed instruction for fat-controlled diet, 1800 calories. 3303-73
New hope for incurable diseases. 265-74
Guide to normal nutrition and diet modification manual. 460-74
The psychodynamics of dietetics. 640-74
Food models in full color (Models). 717-74
Nebraska handbook of diets normal and therapeutic. 733-74
It's not good for you (Videocassette). 742-74
It's not good for you (Motion picture). 752-74
Nutrition in the hospital (Filmstrip/Cassette tape). 842-74
Iodine (a brief summary). 903-74
Candy, chocolate, ice cream and how to lick 'em!. 948-74
What's missing in the treatment of obesity by behavior modification? 1041-74
Your health is what you make it. 1049-74
Childhood obesity. 1063-74
Can you cater to special diets? 1925-74
Diet manual for long-term care patients. 2536-74
DIETS FOR ATHLETES
Nutrition for athletes: A handbook for coaches. 60-73
Olympic athletes view vitamins and victories. 441-73
Feeding 250 lb. Monsters. 2554-73
Nutrition and athletics. 2730-73
What foods do physical education majors and basic nutrition students recommend for athletes? 269-74
Improvement of food selection through physical education and athletic programs. 490-74
Hold that line!. 828-74
Nutritional knowledge of collegiate physical education majors. 1554-74
DIETS FOR SPECIAL CONDITIONS
Mulligan stew: Count down 4-4-3-2 (Motion picture). 315-73
Mulligan stew: Count down 4-4-3-2 (Videocassette). 316-73
Nutrition and handicapped children. 381-73
Nutrition education for mothers of Filipino preschool children. 393-73
Nutrition in a maternity and infant care project. 407-73
Nutrition to meet the human needs of older Americans. 416-73
Observations on the use of a supplemental beverage. 435-73
Potential dieters: who are they? - attitudes toward body weight and dieting behavior. 450-73
Psychologic implications of the nutritional needs of the elderly. 462-73
Proposed nutritional guidelines for formulated meals--foods of the future. 1921-73
Slim's swim--a summer nutrition program for underprivileged teen-age girls. 2061-73
Pregnancy and nutrition. 2268-73
The importance of prenatal nutrition. 2470-73
Let's have healthy children. 2528-73
The muddle of diets for gastrointestinal disorders. 2540-73
Keith and Tommy climb to a new life. 2622-73
Watch your blood pressure!. 2639-73
Pregnancy in school girls--part 2. 2640-73
Pregnancy in school age girls--part 2. 2641-73
Living nutrition. 2875-73
Examining the hospital market. 3261-73
Current concepts of nutrition and diet in diseases of the kidney; 2. dietary regimen in specific kidney disorders. 177-[illegible]
Current concepts of nutrition and diet in diseases of the kidney; 1. general principles of dietary management. 223-74

Safety and sanitation: Student's workbook. 1754-73
Sanitation for food service workers. 1761-73
Washing up (Film loop). 1785-73
Washing-up: Part 1 (Slides). 1786-73
Washing-up: Part 2 (Slides). 1787-73
Can a dishroom be a pleasant place to work? 3703-73
Sub-System 9: Clean-Up. 3711-73
Evaluation of dishwashing systems in food service establi-shments. 3717-73
A revolution in dishwashing. 3754-73
New equipment and systems in mass feeding. 3759-73
The systems approach to warewashing. 3768-73
Ultimate in dishroom economy. 3772-73
Warehousing systems speed service. 3775-73
Warehousing: the second time around. 3776-73
Dishroom maintenance and cleaning (Filmstrip/cassette tape). 3783-73
Dishwashing. 3786-73
How to cut dish breakage in half. 3793-73
Safety and sanitation in school food service. 3797-73
Sanitation and dishes--aspects old and new: Part i. 3805-73
Today's dishwashing machine operator. 3815-73
12 sensible solutions to dishwashing dilemmas. 3830-73
Kitchen profit--its not just in the food. 1387-74
Dishwasher conversion can pay dividends. 2003-74
Does your warewashing measure up? 2005-74
Food facilities blueprint: World Trade Center (Part V): dishwashing facilities, private dining room. 2012-74
Half-size warewashing system does full-size job. 2015-74
New heavy duty chlorinated detergent. 2029-74
Water heating for the food service kitchen. 2051-74
Zero turnover in the dishroom. 2057-74
Kitchen sanitation and food hygiene. 2061-74
Clean up efficiently and economically. 2067-74
Let's keep food safe to eat (Motion picture). 2071-74
How hot is your dishwashing? 2074-74
Use and cost of supplies for machine washing of permanent tableware. 2080-74
Clean dishes (Slides-audiocassette). 2088-74
DISORDERS
Nutrition and "the pill". 379-73
Bread: how much iron is safe? 204-74
The child with diabetes (Slides). 538-74
Essential hypertension in children and youth: a pediatric perspective. 623-74
Effects of vitamin E: good and bad. 990-74
DISORDERS (OTHER)
Alcohol and society. 126-74
DISORDERS OF BODY PARTS AND SYSTEMS
Studies in disease ecology. 301-73
Obesity - part 3. 434-73
Some interactions between nutrition and stress. 496-73
Where old age begins (Slides). 604-73
Diabetes. 2919-73
Obesity--a special Urban Health panel discusses a major health problem. 193-74
Cooper's nutrition in health and disease. 693-74
DISPOSABLES
Gallup survey - have patrons accepted disposables - absolutely or conditionally? 1579-73
Single service systems: exclusive survey showing trends and attitudes towards foodservice disposable systems and permanent ware 1972. 1596-73
Single service ware and today's consumer. 1665-73
Single service: facts, not talk. 1666-73
Single service: the creative plus. 1667-73
Disposables and disposability. 1708-73
Youth speaks out on single service ware. 3129-73
Package development for the foodservice industry. 3863-73
The dilemma: more isn't enough!. 1319-74
A look at single service ware. 1397-74
A cupful of merchandising captivates kids. 1579-74
Instructional stations include foodservice. 2022-74
DISTRIBUTIVE EDUCATION
Food service management: A distributive education manual. 824-73
A career information unit for distributive education. 3342-73
Food service: an adult distributive education publication. 3485-73
DISTRICT OF COLUMBIA
How the District feeds its kids. 2009-73
Washington III. 2234-73
Standardized equipment helps launch new 1400 ft. Flagship. 3767-73
Holiday school lunches get nutritional twist. 3998-73
Washington workshop: milestone in school lunch planning. 4016-73
Using health education aides in counseling pregnant women. 1569-74
The diabetic clinic. 1675-74
'How come you got more food than I got?': a one-act play. 2159-74
Consumer food economics--a D.C. course on getting the most from food stamps. 2195-74
Do food stamps really make a difference? 2200-74
Nutrition education in action: home health care agencies. 2233-74
Joe Stewart, silver plate. 2250-74
Washington, D.C.: a hot school lunch for every student. 2399-74
DOCUMENTATION
Documentation in education. 2210-73
AV cataloging and processing simplified. 2244-73
How to control a training program even when it's out of your hands. 3449-73
DONATED FOODS
Food for thrifty families. 558-73
The commodities controversy: food for your lunch. 632-73
Hearings, Ninety-second Congress, first session, on nutri-tion and human needs: Part 8A. 728-73
Hearings, Ninety-second Congress, first session, on nutri-tion and human needs: Part 8B. 730-73
Management procedures and records. 767-73
Processing contracts mean more bread. 1919-73
Their daily bread. 1984-73
A study of the effect of certain management factors on nutritive value and pupil participation in the school lunch. 2040-73
Our child feeding overseas - a development resource for the seventies? 2043-73
You can help fight hunger in America. 2089-73
Child nutrition programs. 2090-73
Guide for warehousing. 2351-73
Food storage guide for schools and institutions. 2354-73
Happiness begins with supplemental foods. 2538-73
A study of foods consumed by Navajo people receiving foods donated by the United States Department of Agriculture. 2740-73
Cuttings give quality guideline. 3036-73
Processing contracts for donated commodities. 3106-73
How to use donated food. 3162-73
Truck and routing option (a model based on the distribution of donated commodities). 3693-73
Vitamin-enriched USDA foods get tender loving care. 3894-73
What's being done about malnutrition and hunger? 3950-73
School feeding in developing countries: an overview of program activity and problems as percieved by CARE staff abroad. 3956-73
Peanuts join donated foods list. 3968-73
School lunch program booms in Fulton County, Ga. 3990-73
Run for your breakfast--to school!. 3991-73
Sound bodies, sound minds, clean plates. 3992-73
How consumer food programs improve diets, fiscal '67; an activity report for these programs which are designed to combat hunger in this country. 3999-73
Food for summer camps. 4000-73
Cincinnati summer food service demonstration project: special food service program for children; Cincinnati, Ohio, 1972. 4011-73
Nine week menu cook book. 4108-73
Survey of food distribution to institutions - 1972. 4179-73
New labels help sell nutrition. 1240-74
Extension education + food programs = better living. 2177-74
Donated foods--the beginning of a good diet. 2201-74
FHA demonstrates the use of commodity foods. 2208-74
Nutrition activities in poverty programs. 2212-74
Feeding the poor. 2242-74
How to feed the American Indian. 2245-74
Teaching better use of donated foods. 2262-74
Learning to use USDA donated foods. 2265-74
Lessons for the Federal effort against hunger and malnutr-ition--from a case study. 2271-74
Program evaluation: food stamps and commodity distribution in rural areas of central Pennsylvania. 2273-74
Better nutrition--economically. 2294-74
Helping low-income families use donated foods. 2299-74
Programs for feeding our poor. 2302-74
Volunteers teach creative cooking with donated foods. 2373-74
U.S.Department of Agriculture's food donation programs. 2380-74
Suggestions for food service for day camps and recreation programs. 2382-74
What to do with USDA food? 2404-74
Commodity cookery. 2433-74
Donable foods are tasty and nutritious. 2464-74
DOUGHNUTS
Microwave proof donuts. 3881-73
DRAMATIC PLAY
Visual aids in nutrition education. 1095-73
Preparation of inexpensive teaching materials. 1163-73
Techniques for effective teaching.

1169-73
Puppets are effective teachers. 1221-73
Oops! we'd better go shopping. 10-74
Nutrition education of illiterate people. 325-74
'How come you got more food than I got?': a one-act play. 2159-74
DRESSINGS
Advantages of apo carotenal in coloring non-standardized dressings and spreads. 1790-73
Developing a product to make salads taste special. 1823-73
Formulating low calorie foods with carbohydrate gums. 1856-73
DRIED BEEF PRODUCTS
Institutional meat purchase specifications for cured, dried, and smoked beef products--series 600. 740-73
DRIED FOODS
Microbiology of frozen cream--type pies, frozen cooked--peeled shrimp and dry food--grade gelatin. 305-73
Food service for the Army and Air Force. 973-73
Custard sauces made with four types of processed eggs. 1818-73
Dry sauces, soup mixes reap benefits of new ingredient: low moisture apple solids. 1831-73
The beanery. 2300-73
Food purchasing. 2309-73
Effect of packaging on quality of dehydrated potato granules during storage. 2317-73
Fortification of nonfat milk solids with vitamins A and D. 2427-73
Legumes in human nutrition. 2448-73
Inaccuracies in measurement of dried milk. 2953-73
Nutritional evaluation of food processing. 3848-73
Que leche se debe comprar? 4-74
Leche en polvo sin grasa. 1117-74
Leche hecha con leche en polvo. 1919-74
Leche en polvo en sopa de papa. 1920-74
Leche en polvo para panes. 1921-74
Preparacion de leche en polvo (Filmstrip). 1968-74
Some effects of processing and storage on the nutritive value of milk and milk products. 2149-74
The benevolent bean. 2466-74
DRIED FRUITS
Effect of storage and processing on sulfur dioxide in preserved fruit. 1836-73
California prunes (Motion picture). 1089-74
DRIVE TO SERVE PROGRAM
Food guide & recipe book for the Drive to Serve Program. 2176-73
DRUGS
Drugs and nutrition. 156-73
Interactions of nutrients with oral contraceptives and other drugs. 257-73
Potassium, why? 2467-73
The fat man and the addict: The biology of addiction. 2694-73
Back to folk medicine: the pros and cons. 2723-73
Some drugs we would like to have in nutrition and metabolism. 2812-73
Nutritional side effects of drugs. 2829-73
Drugs and their interrelationships with nutrition. 2926-73
Facts on quacks. 1-74
Use of drugs in the treatment of obesity. 432-74
Good drugs may cause bad nutrition. 442-74
The psychology of obesity. 578-74
Body pollution. 774-74
Vitamin E and its relation to heart disease. 790-74
The hyperactive child. 929-74
Nutrition, drugs and vitamins. 975-74
Nutrition counseling for drug addicts in rehabilitation. 1032-74
Nutrition labeling. 1252-74
Health status of youth. 1637-74
Teaching teens 'stuff' that counts. 1639-74
Poisoning misadventures. 2075-74
DRY ICE
Fast-freezing the DU way. 2307-73
EARLY CHILDHOOD EDUCATION
Nutrition the 1-2-3-4 way. 415-73
Hawaii follow through. 3423-73
Food for little people. 182-74
Children in day care. 335-74
Nutrition education workshops in early childhood, West Virginia, July, 1971. 777-74
EAST ASIA
A select bibliography of East-Asian foods and nutrition arranged according to subject matter and area. 4150-73
ECOLOGY
Man, health, and environment. 230-73
Malnutrition, learning, and behavior. 289-73
The ecology of malnutrition in Central and Southeastern Europe. 297-73
The ecology of malnutrition in five countries of Eastern and Central Europe. 298-73
The ecology of malnutrition in the French speaking countries of West Africa and Madagascar. 299-73
The ecology of malnutrition in Northern Africa. 300-73
Studies in disease ecology. 301-73
Legal requirements for food safety. 696-73
Ecological pressures on nutritional resources. 807-73
Bioenergetics: an ecological approach to nutrition education. 1038-73
Disposables and disposability. 1708-73
Pollution, people, power and profit - forces at work to change packaging. 1912-73
Food. 2552-73
The ecology of malnutrition in Middle Africa. 2710-73
The ecology of malnutrition in seven countries of southern Africa and in Portuguese Guinea. 2711-73
The ecology of malnutrition in eastern Africa and four countries of western Africa. 2712-73
World food resources. 2973-73
Food industry sourcebook for communication. 4155-73
Science for better living. 4176-73
Outdoors-USA. 4177-73
Nutrition: a national priority. 246-74
Origin of selected Old Testament dietary prohibitions. 453-74
Food: readings from Scientific American. 513-74
Focus on food. 805-74
Population growth, food needs and environmental stress. 1087-74
Energy use in the U.S. food system. 1131-74
Diet for a small planet. 2468-74
ECONOMIC DEVELOPMENT
The nutrition factor; its role in national development. 2460-73
A practical guide to productivity measurement. 3137-73
Productivity in the food industry; a preliminary study of problems & opportunities. 3205-73
Integrated approach for food, nutrition, population and economic growth. 1118-74
Manual on food and nutrition policy. 1237-74
PAG statement (No. 26) on food and nutrition considerations in national economic planning. 2313-74
ECONOMIC EDUCATION
Preventing waste (Film Loop). 1496-73
ECONOMIC INFLUENCES
Percent of income spent for food: estimates from national income and household survey data. 32-73
Child malnutrition and its implications for schools. 113-73
Dietary intake and physical development of Phoenix area children. 147-73
Food and nutrient intake of children from birth to four years of age. 190-73
Growth of preschool children in the North Central Region. 228-73
Improving nutrition in less developed areas. 254-73
Nutrition notes: consumer and food industry equally respo-nsible for poor nutrition. 410-73
Nutritional status of Negro preschool children in Mississ-ippi - impact of education and income. 426-73
Food and nutrient intake of individuals in the United States; spring 1965. 534-73
Dietary levels of households in the United States, spring 1965. 545-73
Practices of low-income families in feeding infants and small children with particular attention to cultural subgroups. 563-73
What influences malnutrition? 595-73
The three A's of change - Anticipating, Accepting, Actuating. 978-73
Health education - a conceptual approach. 1229-73
A study of school feeding programs - I. Economic eligibility and nutritional need -II. Effects on children with different economic and nutritional needs. 2068-73
Food prices (Feb. 1973). 2379-73
Food spending and income (Feb. 1973). 2380-73
What's behind rising food costs? 2406-73
Two poverties equal one hunger. 2931-73
Priorities in nutrition. 2988-73
There ought to be laws against the laws. 3015-73
Food additives: Some economic considerations. 3831-73
International conference on nutrition, national development, and planning, Massachusetts Institute of Technology, 1971. 3907-73
Farm-food market basket statistics (Aug. 1973). 4133-73
Food prices (Aug. 1973). 4134-73
Food prices (Nov. 1973). 4135-73
Food spending and income (Aug. 1973). 4136-73
Food spending and income (Nov. 1973). 4137-73
Nutrient fat (Nov. 1973). 4158-73
Per capita food consumption (Feb. 1973). 4161-73
Per capita food consumption (Aug. 1973). 4162-73
Per capita food consumption (Nov. 1973). 4163-73
Supply and utilization (Feb. 1973). 4169-73
Food prices (Feb. 1974). 27-74
Food spending and income (Feb. 1974). 28-74
The application of social science research methods to the study of food habits and food consumption in an industrializing area. 262-74
Human food habits as determining the basic patterns of economic and social life. 273-74
Health in the Mexican-American culture: a community study. 276-74

An index of food quality. 2604-73
Lysine supplementation of wheat gluten at adequate and restricted energy intakes in young men. 2847-73
Nutrition (Transparencies). 3310-73
How safe is microwave energy?". 3730-73
Recommended? Not recommended? An update on microwave ovens. 3753-73
Energy conservation: a challenge for home economists. 23-74
Eat well, grow well! (Motion picture). 300-74
Nutrition for little children (Filmstrip/cassette tape). 351-74
Nutrition for little children (Filmstrip/record). 352-74
On energy and protein requirements. 388-74
Food gives energy for work and play (Poster). 397-74
Egg carton nutrition. 412-74
All about the human body. 435-74
A study of the relative accuracy of two short methods of dietary evaluation as applied to diets in Leon County. 449-74
Be informed on nutrition. 452-74
Energy needs and energy utilization. 489-74
Food: readings from Scientific American. 513-74
I'm Mini-Snack (Poster). 527-74
I'm Mr. Energy, in food from A to Z (Poster). 528-74
Learning about food (Filmstrip/record). 532-74
Learning about food (Filmstrip/cassette tape). 533-74
Maternal nutrition in the 1970's; Part 1. 542-74
Energy and protein requirements. 565-74
My name's Ira Iron (Poster). 710-74
Fuel for life (Videocassette). 735-74
Fuel for life (Motion picture). 745-74
Snacks...Snacks...Snacks. 791-74
Food is more than just something to eat. 1002-74
Human nutrition in our changing environment. 1010-74
Food-related energy requirements. 1108-74
Energy use in the U.S. food system. 1131-74
Recommended Dietary Allowances for protein and energy, 1973. 1219-74
Recommended Dietary Allowances. 1247-74
Recommended Dietary Allowances revised 1974. 1256-74
Energy: crisis, crunch, or costly? 1288-74
Efficient energy management: convenience foods & systems thinking. 1327-74
The good fight: brave new plans in the face of food/energy pinch. 1355-74
Opportunity of challenge...Checklist for energy control and conservation. 1433-74
Volume feeding and operation independence. 1463-74
Another thirty days...Lunchrooms conserve energy. 1991-74
Efficient energy management: fitting new equipment into energy-saving programs. 2006-74
Energy saving tips for frying. 2008-74
Keep your cool--cost-wise thru long, hot summer. 2021-74
1974 equipment census: what would you do if energy costs rose to $2 an hour? 2037-74
The challenge for school lunch in the program of youth fitness. 2287-74
ENERGY CRISIS
Energy 'brownout' hits the foodservice business. 3004-73
Lighting breakthrough conserves electrical energy. 3742-73
Energy conservation: a challenge for home economists. 23-74
The food story: what's ahead for institutional foodservice. 1098-74
Food-related energy requirements. 1108-74
Vegetable proteins: part I. Historical perspective, tight-ening supplies. 1130-74
Energy use in the U.S. food system. 1131-74
Airlines chart a clear course for foodservice. 1279-74
Energy: crisis, crunch, or costly? 1288-74
The problems of 1974: Procurement, pricing, profits. 1413-74
Opportunity of challenge...Checklist for energy control and conservation. 1433-74
Ways to short-circuit the energy crisis. 1457-74
Another thirty days...Lunchrooms conserve energy. 1991-74
ENERGY METABOLISM
Nutrition: a course for school food service personnel. 101-73
Food, energy and you (Videocassette). 210-73
Food, energy, and you (Motion picture). 211-73
In defense of body weight. 255-73
The Joule - unit of energy. 270-73
Remarks on the Joule. 469-73
The myth of diet in the mangement of obesity. 2476-73
Obesity: A serious symptom. 2477-73
Adolescent nutrition and growth. 2611-73
Are we getting too much out of food? 2612-73
Weight regulation in man-physiological and psychological factors. 2652-73
Water: energy for life. 3527-73
Energy metabolism. 156-74
Energy expenditure of pregnant adolescents. 189-74
Regulation of food intake: role of the ventromedial hypot-halamus. 320-74
Aetiological factors in obesity. 446-74
Energy needs and energy utilization. 489-74
Food habits of obese and nonobese adolescents. 524-74
Energy and protein requirements. 564-74
Getting involved in breakfast. 641-74
Feeding behaviour in obesity. 850-74
Teaching nutrition concepts. 852-74
ENGINEERED FOODS
Nutritional aspects of engineered foods and delivery systems in school food service. 420-73
Focusing on feeding kids. 2003-73
Food service approaches in schools without full facilities. 3667-73
New foods in child nutrition programs: FNS "new food" notices. 3834-73
Textured foods and allied products. 3846-73
Texturization: vegetable proteins. 3873-73
USDA is interested in 'engineered foods' that can offer improved nutrition. 3880-73
Products and systems evaluated and industry liaison. 3895-73
How can we strengthen school food service. 4019-73
Food service trends. 1332-74
Notebook on soy. 1426-74
The super soybean: protein potential, prospects and products. 2117-74
The search for alternative protein sources. 2134-74
New dairy and related products. 2137-74
ENGINEERING
Make-up air system practical for busy restaurants. 3727-73
ENGLISH (SECOND LANGUAGE)
English as a second language--a teacher's view. 3599-73
ENGLISH INSTRUCTION
FS/L English. 1147-73
English as a second language--a teacher's view. 3599-73
ENRICHED FLOUR
Iron enrichment. 2769-73
ENRICHMENT
Enrichment facts for the consumer. 17-73
Contribution of certain nutrients added to foods to dietary intake. 127-73
The dietary iron controversy. 148-73
The need for cereal foods of improved protein value in the United States. 157-73
Enrichment and fortification of foods, 1966-70. 167-73
The experts debate: the added enrichment of bread and flour with iron. 172-73
The heart of the matter - a matter of opinion. 233-73
Mulligan stew: Count down 4-4-3-2 (Motion picture). 315-73
Mulligan stew: Count down 4-4-3-2 (Videocassette). 316-73
Of (iron) pots and pans. 437-73
Round-table discussion. 479-73

Independent bakers prove sales advantage of nutritional enrichment. 1869-73
Nutrification. 1901-73
Recent developments in the vitamin technology of bread---history pertinent today. 1926-73
Composition of foods. 2280-73
Iron in enriched wheat flour, farina, bread, buns, and rolls. 2429-73
Improvement of nutritive quality of foods. 2433-73
Improving the nutritional quality of food. 2506-73
Absorption of fortification iron in bread. 2510-73
Enrichment of milk with iron. 2543-73
Biological utilization of iron from sources used for food enrichment. 2569-73
New mileposts in nutrition. 2609-73
Improvement of the nutritive quality of foods--general policies. 2635-73
The vanishing American meal. 2683-73
Iron enrichment. 2769-73
Lysine supplementation of wheat gluten at adequate and restricted energy intakes in young men. 2847-73
Consumers may prefer a nutritionally balanced candy. 2925-73
Utilization of novel proteins for human food. 2962-73
Feeding the world of the future. 2984-73
Improving the nutrient quality of cereals. 3892-73
Vitamin-enriched USDA foods get tender loving care. 3894-73
Nutrition gets the call. 41-74
Malnutrition and the food industry. 99-74
Wheat in human nutrition. 145-74
Bread: how much iron is safe? 204-74
Natural, organic, and health foods. 316-74
Snacks. 664-74
Too much of a good thing. 668-74
General policies in regard to improvement of nutritive quality of foods. 729-74
Fiber: the forgotten nutrient. 892-74
A prediction of the effects of iron fortification. 972-74
Food fortification. 2129-74
ENRICHMENT AGENTS
Enrichment facts for the consumer. 17-73
Enrichment and fortification of foods, 1966-70. 167-73
Notebook on soy: why 'engineered' foods at school. 1899-73
Absorption of fortification iron in bread. 2510-73
Enrichment of milk with iron. 2543-73
A consumer's dictionary of food additives. 4187-73
ENROLLMENT
How to forecast school enrollments accurately - and years and years ahead. 2237-73
Projections of educational statistics to 1978-79. 4181-73
Education directory 1972-73. 4186-73
ENVIRONMENTAL FACTORS
Diet in early life in relation to atherosclerosis. 143-73
Man, health, and environment. 230-73
Hunger and malnutrition - whose responsibility? 249-73
Studies in disease ecology. 301-73
Nutritive value of "organically grown" foods. 432-73
Obesity - new happenings. 433-73
Some interactions between nutrition and stress. 496-73
Some thoughts on food and cancer. 497-73
T.L.C. and the hungry child. 509-73
Time-temperature and time-weight losses in veal roasts. 526-73
Microwave vs. conventional cooking of vegetables at high altitude. 1883-73
Food for tomorrow: resources, environment, distribution. 1885-73
Sugar, acid, and flavor in fresh fruits. 1943-73
As others see us. 1973-73
The long-term consequences of protein-calorie malnutrition. 2516-73
Vulnerability of children to lead exposure and toxicity. 2695-73
Obesity--part 4: Causes. 2862-73
Parents give children bad habits. 2878-73
Introduction to public health. 2955-73
Energy 'brownout' hits the foodservice business. 3004-73
Make-up air system practical for busy restaurants. 3727-73
Preventing lead poisoning in children. 3801-73
Symposium on environmental quality and food supply, 1972, Washington, DC. 3813-73
Health hazards of the human environment. 3828-73
Safe use of pesticides. 3829-73
Losers: The feeding of poor kids. 3967-73
A study of the nutritional status and food habits of Otomi Indians in the Mezquital Valley of Mexico. 130-74
The application of social science research methods to the study of food habits and food consumption in an industrializing area. 262-74
Ecological factors in the nutrition and development of children in poor rural areas. 263-74
Factors related to food preferences. 328-74
Food acceptance in the developing world. 394-74
The nurse as an "expert"--the micro health unit. 457-74
Environmental factors associated with preschool obesity; II. Obesity and food practices of children at successive age levels. 521-74
Environmental factors associated with preschool obesity: I. obesity in six-month-old children. 522-74
The development of food patterns. 631-74
The ecology of malnutrition in the Caribbean. 662-74
The challenge of cross-cultural research. 680-74
Places we eat in (Videocassette). 740-74
Places we eat in (Motion picture). 750-74
The crossroads of emotion, religion, tradition and habit. 827-74
The relationship of nutrition to brain development and behavior. 836-74
Open doors to improved nutrition: the family influence on children's food habits; nutrition of the school child. 870-74
The epidemiological triad: agent, host and environment. 883-74
Nutritional status of preschoolers; an ecologic perspective. 922-74
Human nutrition in our changing environment. 1010-74
Population growth, food needs and environmental stress. 1087-74
One man's meat: the organic alternative. 1103-74
Operations management: "The negative factor" (24 ways to go broke). 1356-74
The human element in decision making. 1403-74
The context of management development. 1444-74
A computer-assisted approach to meal patterning. 1904-74
Fertilizers, food production and environmental compromise. 1978-74
Stop air pollution in you kitchen!. 2013-74
The encyclopedia of professional kitchen planning. 2045-74
Kitchen sanitation and food hygiene. 2061-74
Your world, my world: a book for young environmentalists. 2105-74
Let's break bread together. 2190-74
Home economist-homemaker aide team expands environmental enrichment program. 2351-74
Science for society. 2583-74
ENZYMES
Diet as a regulator of metabolism. 141-73
Intestinal malabsorption (Slides). 259-73
Lipases and flavor development in some Italian cheese varieties. 1874-73
Some applications of enzymes of microbial origin to foods and beverages. 1935-73
Enzymes in food processing and products, 1972. 1966-73
The chemicals of life. 2445-73
Disaccharide intolerance. 2522-73
Hereditary galactosemia. 2603-73
The two-carbon chain in metabolism. 2775-73
Iron deficiency anemia and scholastic achievement in young adolescents. 2942-73
The science of food preservation. 3833-73
Food preservation by irradiation: Update. 3844-73
Aetiological factors in obesity. 446-74
Kretchmer on developmental nutrition: developmental bioch-emistry. 595-74
Newer concepts of coronary heart disease. 758-74
New light on ethnic differences in adult lactose intolerance. 921-74
Building blocks of life. 1023-74
Lactase-treated milk provides base to develop products for lactose-intolerant populations. 2125-74
EQUIPMENT
Nutrition and feeding of infants and children under three in group day care. 561-73
Food service equipment industry. 624-73
The hotel and restaurant business. 642-73
Work improvement. 769-73
Colorado school lunch handbook. 778-73
Convenience food systems: vote "yes" on a convenience foods system? 794-73
Security for business and industry. 849-73
Planning and operating a successful food service operation. 868-73
The basic four of work. 870-73
Science of home economics and institutional management. 933-73
The science of housekeeping. 982-73
School and institutional lunchroom management. 996-73
Instructor's outline for foundations of school food service. 1094-73
Food service; teachers guide. 1174-73
New professionals to the rescue. 1179-73
Curriculum guide for food service instructional programs in Pennsylvania. 1212-73
Commissaryman 3 & 2. 1276-73
The video cassette, October 72. 1301-73
The components of communication. 1311-73
Diversity and experimentation pay off in progress: hospital food service the Kaiser way. 1330-73
You can have both unit-by-unit autonomy and multi-unit savings: Kaiser's southern region proves it. 1371-73
The ABC'@S of frying...A profit primer; breading and batter mixes; why throw away frying fats; in frying, system is everything; frying equipment. 1373-73
Efficiency escalation in school lunch programs. 1418-73
Kansas State develops dry mix for yeast bread. 1455-73
Elements of food production and baking. 1456-73
Kids are eating "airline" lunches. 1457-73
Satelliting suggestions from laredp. 1507-73
Biscuit manufacture. 1544-73
Advances in food service equipment. 1548-73
The air.conditioning story; part 5. 1549-73
Around the menu with gas-fired tilting braising pans. 1554-73
Automated materials handling, labor-saving equipment, and services of food service contractors are in school food service picture. 1555-73
Kitchen standards for the Board of Education of Baltimore County. 1556-73
The best investment we've ever made. 1557-73
The case for the electric steam generators. 1561-73
The case of drop-ins vs. free-standing food service equipment. 1562-73
Cold beverage systems. 1564-73
Control of use of space and equipment. 1565-73
A directory of systems capability.

EQUIPMENT

1569-73
Equipment census: 1973 Institutions/VFM report on age, type and status of foodservice equipment. 1572-73
Facilities for development: pilot plant dedicated to snack food research. 1574-73
Forty new wares for school feeding. 1576-73
Hot beverage systems. 1581-73
How to get better service from your gas range. 1586-73
The implementation of a simplified implant food service system. 1592-73
The preparation kitchen. 1594-73
Is your kitchen obsolete?--holding and serving units keep food wholesome and tasty. 1601-73
Is your kitchen obsolete?--deep fat fryers. 1602-73
Food service planning. 1606-73
How to select and care for serviceware, textiles, cleaning compounds. 1607-73
Miscellaneous small equipment (Film loop). 1610-73
New models 1971 - coffee brewers, serving equipment, toasters. 1640-73
New models 1971 - fry kettles & filters. 1641-73
Instructor's guide for presenting equipment use and care. 1643-73
Facilities guide. 1644-73
How the trend is to waste compactors. 1645-73
Our evolving technology. 1647-73
Science fundamentals: a background for household equipment. 1648-73
Household equipment. 1649-73
A professional's tour guide: Big Mac's Foodservice. 1652-73
Profile plan of a food service operating system for the 70's: part 3. 1653-73
Put it on 'wheels' for convenience and flexibility. 1654-73
Reconstituting ovens: for foods at the top of the "raw-to--ready" scale. 1656-73
Role of a unique product safety testing organization. 1658-73
Second-generation reconstitution systems. 1661-73
Single service ware and today's consumer. 1665-73
Six solutions to ware handling. 1668-73
Size up the modern electric griddles. 1669-73
A systems approach to warewashing equipment. 1673-73
Systems solution for the 73's; part 1. 1674-73
Systems support with key processing equipment. 1675-73
Equipment guide for preschool and school age child service institutions. 1679-73
The use & abuse of equipment. 1680-73
Planning the school food service facilities. 1681-73
What is the best seating for lunchrooms? 1684-73
What makes kitchens work right? 1685-73
The complete book of cooking equipment. 1687-73
The 3C's of atmosphere, II. 1688-73
The 3C's of atmosphere, I. 1689-73
1972 school food service showcase. 1692-73
Dirty dirt--our mortal enemy. 1707-73
Food sanitation: study course. 1728-73
Kitchen safety: Preventing machine injuries (Film Loop). 1739-73
Kitchen safety: Preventing machine injuries (Motion Picture). 1740-73
Plant operation: how to squeeze the most from trash compa-ctors. 1757-73
A practical primer on essential sanitation concepts. 1758-73
Cryogenic freezing comes of age. 1815-73
Sub-systems 3 & 4: a simplified systems approach to fabri-cation & pre-preparation. 1941-73
Satelliting in the suburbs. 2051-73
Food for Peace around the world. 2080-73

Clinical management of the obese adult. 202-74
There's a new you coming. 239-74
Alexander learns good health (Motion picture). 297-74
You are what you eat; one mile, two miles, three miles more. 319-74
Treating obesity in growing children. 343-74
The obese school child--a challenge. 354-74
Treatment of obesity in adolescence. 487-74
Carbohydrate ingestion during prolonged running performance. 517-74
A review of teenage nutrition in the United States. 523-74
Food habits of obese and nonobese adolescents. 524-74
Diabetic patients require education and understanding. 552-74
Diabetics need to know more about diet. 553-74
The loves of Kernel Beard. 570-74
Your slim trim figure. 584-74
Overweight--its prevention and control (in Chinese). 616-74
Family resoulution for '74: shape up and slim down. 663-74
The obese child. 665-74
Obesity. 666-74
The coronary care unit (Poster). 816-74
The secret family exercise plan. 902-74
Obesity has many angles. 905-74
Obesity - part VIII: treatment. 916-74
Personalized weight control. 974-74
How to extend your life span. 1047-74
Your health is what you make it. 1049-74
Weight control in a college situation. 1069-74
Planning diabetic diets (Filmstrip/record). 1715-74
Weight control in public school children. 2281-74
Camping for children with diabetes--a diet therapy section project. 2315-74
An effective weight control program in a public school system. 2348-74

84

EXHIBITS
Nutrition awareness in the supermarket. 2-74
Communities learn about school lunch. 1311-74
Educational effectiveness of health exhibits. 1556-74
Visual aids: why?--where?--what? 1585-74
Nutrition in the news. 1607-74
Nutrition and dental health. 1696-74
Bulletin boards that teach through involvement. 1767-74
"Ask Kathy": an experiment in nutrition education. 2181-74
Nutrition fest--more than just fun. 2221-74
We had a health fair!. 2256-74
We had a health fair!. 2257-74
A 'fair' way to teach nutrition. 2279-74
October 13-19 is date to celebrate National School Lunch Week. 2308-74
Food fun, fairs, facts. 2319-74

EXPANDED FOOD AND NUTRITION EDUCATION PROGRAM
Johnny goes to nutrition land (Coloring book). 2669-73
Educational participation and dietary changes of EFNEP homemakers in Louisiana. 3581-73
Determination of the change in dietary levels of families paticipating in the Expanded Foods and Nutrition Program in Choctaw County, Mississippi. 83-74
Mighty milk to the rescue. 593-74
Program evaluation as on operational tool. 138[illegible]-74
Nutrition in the news. 1607-74
Nutrition education via people-to-people. 2196-74
Education battles malnutrition. 2202-74
Extension trains aides to help mothers. 2210-74
Nutrition fest--more than just fun. 2221-74
A winning "recipe" for nutrition camps. 2316-74
A converted bus takes ENEP to the people. 2339-74

EXPENDITURES
Percent of income spent for food: estimates from national income and household survey data. 32-73
An evaluation of research in the United States on human nutrition. 550-73
Are your menu prices high enough? 760-73
Education in the seventies. 2292-73
School food service. 2970-73
Projections of educational statistics to 1978-79. 4181-73
The real facts about food. 76-74
Food and nutrition knowledge, attitudes, and interests of homemakers. 506-74

EXPERIMENTS
Food science and how it began. 334-73
The great vitamin mystery. 337-73
Search and research. 342-73
Antibiotics and nutrition. 2461-73
Science experiments you can eat. 2508-73
Sole foods and some not so scientific experiments. 2613-73
The best strategy for coaching with VTR. 3322-73
Training trainers--an experiment that won't let them forget about remembering. 3452-73
Nutrition self-experiments with lipids, carbohydrates and protein. 3538-73
All American foods. 731-74
Optimism in the control of atherosclerosis. 936-74
The missing link. 1707-74
Teaching nutrition the "rat" way. 1821-74
Tricks for treats. 1929-74
Meal for today, the easy way. 1964-74

EXPORTS
Wild man or prophet?: How we got into this self-imposed economic blockade and how can we get out of it? 2985-73
The world: Bartering America's corn-fed beef for imported extravangances. 3003-73
Supply and utilization (Feb. 1973). 4169-73

EXTENSION AGENTS
New (trition) twist to an old game. 361-73
Food and nutrition; a problem-centered approach. 1277-73
Study of literature and information methods within the Maryland cooperative extension service. 4153-73
Professional workers in state agricultural experiment stations and other cooperating state institutions, 1972-73. 4175-73
Hard tomatoes, hard times. 33-74
Business meetings boost nutrition. 224-74
Focus on...Careers in extension. 1605-74
A change in attitudes--produced by skillful face-to-face communication!. 1638-74
One strong link: program 1, definition of the aide's job (Videocassette). 1725-74
One strong link: program 1, definition of the aide's job (motion picture). 1726-74
Gardens for better nutrition. 2176-74
Cooperative action harnesses community forces. 2183-74
Extension trains aides to help mothers. 2210-74
Teenagers' gardens upgrade family diets. 2224-74
Helping people to help themselves--extension aid program. 2238-74
Better health through better food. 2311-74
What to do with USDA food? 2404-74

EXTENSION EDUCATION
Food retailers help teach food buying. 21-73
Food. 406-73
Shopping practices of low-income groups for convenience foods. 491-73
Survey of nutrition knowledge as a part of nutrition education. 507-73
Science in food and nutrition. 556-73
Food for thrifty families. 558-73
Food information of homemakers and 4-H youths. 1096-73
Food and nutrition; a problem-centered approach. 1277-73
Food preparation: Food and nutrition. 1278-73
Key nutrients. 1279-73
Food buying: Food and nutrition. 1280-73
Food and nutrition: Basic lessons for training extension aides. 1281-73
Meal planning. 1282-73
Food needs of family members. 1283-73
Keep clean, stay well (Motion picture). 1729-73
Safe food (Motion picture) (in Spanish). 1763-73
Safe food (Motion picture). 1764-73
ENEP evaluated. 1991-73
Hard tomatoes, hard times. 33-74
Education for dieters. 327-74
Training for work with low-income groups. 1532-74
Extension home health aide training. 1671-74
Teachers learn how to teach nutrition. 1765-74
Mass media and learning. 1819-74
Food for tomorrow, better nutrition today. 2160-74
Gardens for better nutrition. 2176-74
Extension education + food programs = better living. 2177-74
Extension trains aides to help mothers. 2210-74
Helping people to help themselves--extension aid program. 2238-74
Nutrition programs in the United States Department of Agriculture. 2269-74
Using program aides to teach Indian families better nutrition. 2310-74
Better health through better food. 2311-74
Extending cooperative extension education to Mexican--American families: program, methods, and evaluation. 2320-74
Reaching youth through EFNEP. 2329-74
Home economics aides reach poor families. 2357-74
ENP significa programa de nutricion. 2368-74
Volunteers teach creative cooking with donated foods. 2373-74
What to do with USDA food? 2404-74
Extension Service intensifies help for the poor. 2406-74

EXTENSION PROGRAMS
Mighty milk to the rescue. 593-74

EXTRUDED FOODS
Extruded foods: what are they? 2119-74

EYE DISORDERS
Distribution of vitamin A to population groups. 138-74
You and your senses. 896-74

FABRICATED FOODS
Baker's yeast--world's oldest food--is newest source of protein and other ingredients. 3832-73
Nutrition gets the call. 41-74
Malnutrition and the food industry. 99-74
Synthetic and substitute foods, domestic and international aspects. 1254-74

FACILITIES PLANNING AND LAYOUT
Nutritional adequacy, preference, acceptability, and food production aspects of hot and cold school lunches. 294-73
Yorktown students don't jump for junk. 616-73
Food service manual for health care institutions. 757-73
Work improvement. 769-73
Guide to foodservice management. 776-73
Control patterns for the cooking battery. 791-73
Expanding the conventional school food service program. 811-73
Food service management: A distributive education manual. 824-73
Food service systems achievement at Pittsburgh national building. 825-73
How to apply systems analysis to your preparation/processing sub-system. 853-73
Management aspects of school lunch programs in Iowa. 865-73
Planning and operating a successful food service operation. 868-73
The new convenience foods program concept (Filmstrip/Record). 906-73
Management function of a centralized school food service system. 959-73
How to manage a restaurant or institutional food service. 969-73
Food service in industry and institutions. 970-73
Utilizing outside contractors to expand school food service operations. 991-73
School and institutional lunchroom management. 996-73
Food service in institutions. 997-73
Guidelines for hospitality education in junior college. 1015-73
Manual for the education of the food service supervisor, part one of two-part series. 1020-73
A casebook on administration and supervision in industrial--technical education. 1040-73
Developing a hospitality program in high schools. 1063-73
Food preparation specialist. 1183-73
Food service management: A suggested 2 year curriculum. 1184-73
Oklahoma school lunch handbook. 1200-73
Management I. 1201-73
Curriculum guide for food service instructional programs in Pennsylvania. 1212-73
Food processing technology. 1291-73
Instructional television facilities. 1314-73
Diversity and experimentation pay off in progress: hospital food service the Kaiser way. 1330-73
You can have both unit-by-unit autonomy and multi-unit savings: Kaiser's southern region proves it. 1371-73
Air fare: a complete convenience system. 1375-73
Understanding baking. 1379-73
Anatomy of a satellite system: Wauwatusa Lunch Program. 1381-73
Efficiency escalation in school lunch programs. 1418-73
Establishing central school lunch kitchens in urban areas. 1527-73
Basic course in emergency mass feeding. 1528-73
Special atmosphere II: country/Colonial themes. 1545-73
The air conditioning story: part 5. 1549-73

Kitchen standards for the Board of Education of Baltimore County. 1556-73
A directory of systems capability. 1569-73
Equipment census: 1973 Institutions/VFM report on age, type and status of foodservice equipment. 1572-73
Essential sub-systems 5: preparation processing - part 1. 1573-73
Facilities for development: pilot plant dedicated to snack food research. 1574-73
Cooking the modern way with stainless steel steam-jacketed kettles. 1580-73
The implementation of a simplified inplant food service system. 1592-73
The preparation kitchen. 1594-73
The nautical way. 1595-73
It's multipurpose!. 1604-73
Food service planning. 1606-73
Principles of kitchen layout planning for food service establishments. 1608-73
Model kitchen at Wausaukee. 1611-73
Commercial gas fired and electrically heated hot water generating equipment. 1614-73
Commercial powered food preparation equipment. 1615-73
Automatic ice making equipment. 1616-73
Manual food and beverage dispensing equipment. 1617-73
Commercial bulk milk dispensing equipment and appurtenances. 1618-73
Pot, pan and utensil commercial spray type washing machines. 1620-73
Detergent and chemical feeders for commercial spray type dishwashing machines. 1621-73
Commercial cooking equipment exhaust systems. 1622-73
Laminated plastics for surfacing food service equipment. 1623-73
Air curtains for entranceways in food establishments. 1625-73
Special equipment and/or devices. 1626-73
Food service equipment and appurtenances. 1627-73
Dispensing freezers including reccommendations for install-ation. 1628-73
Commercial cooking and hot food storage equipment. 1629-73
Commercial spray-type dishwashing machines. 1630-73
Soda fountain and luncheonette equipment. 1631-73
Food service refrigerators and food service storage freezers. 1632-73
A new concept in compacts: all-electric mini facility. 1633-73
School lunch rooms. 1639-73
Facilities guide. 1644-73
One kitchen serves two schools. 1646-73
Our evolving technology. 1647-73
Preparation processing - part 2. 1651-73
Profile plan of a food service operating system for the 70's: part 3. 1653-73
Put it on 'wheels' for convenience and flexibility. 1654-73
Role of a unique product safety testing organization. 1658-73
School building design meets educational philosophy in Boyertown. 1660-73
A simplified systems approach to multi-unit design. 1663-73
Six solutions to ware handling. 1668-73
Sub-system 2: the status of storage. 1672-73
Layout, equipment, and work methods for school lunch kitchens and serving lines. 1678-73
Equipment guide for preschool and school age child service institutions. 1679-73
Planning the school food service facilities. 1681-73
The 3C's of atmosphere, II. 1688-73
The 3C's of atmosphere, I. 1689-73
The youth market pays to do its thing. 1691-73
The kitchen (Film loop). 1731-73
School systems implementation: Texas style. 2059-73
A simplified school lunch system. 2060-73
Food for Peace around the world. 2080-73
Wauwatosa Public Schools Lunch Program: a satellite system. 2098-73
Standards for school media programs. 2201-73
Selected research abstracts of published and unpublished reports pertaining to the food service industry. 2279-73
Good references on day care. 2281-73
Guide for warehousing. 2351-73
Food storage guide for schools and institutions. 2354-73
Storage specifics. 2362-73
Brain food: the nourishment of America's mental giants. 2475-73
Is your old kitchen costing you money? 3070-73
College foodservice. 3110-73
So you want to start a restaurant? 3112-73
A systems summation. 3126-73
How do you handle a damaged account? 3150-73
Operation self-appraisal: a checklist for systems success. 3239-73
Texas Fred Dollar's big chance. 3271-73
Culinary institute moves into a new era. 3371-73
Take-out: Anything goes. 3613-73
Increasing productivity in foodservice. 3674-73
How to buy equipment...Without getting burnt. 3702-73
Can a dishroom be a pleasant place to work? 3703-73
Common sense specifications produce quality equipment. 3704-73
The economics of foodservice shelving. 3710-73
Sub-System 9: Clean-Up. 3711-73
Boosting productivity front of the house. 3712-73
Design criteria: school food service facilities. 3714-73
Evaluation of dishwashing systems in food service establi-shments. 3717-73
Equipping the modern school food service facility. 3718-73
How to "deinstitutionalize" a school cafeteria. 3731-73
How to speed meal selections. 3736-73
The kitchen of the future - now!. 3738-73
Revolution in educational facilities requires innovations in school food service. 3739-73
Planning for efficiency (Film loop). 3744-73
A guide to food service operation planning with information on preparing and submitting plans and specifications. 3747-73
A "cooking street"--is it a possible food preparation system? 3755-73
Design considerations in commissary planning. 3756-73
Schools adopt centralized feeding systems. 3758-73
School lunch: suggested guides for selecting large equipment. 3762-73
How to buy and place equipment. 3764-73
Commissary guidelines: the problem areas. 3765-73
Designing for convenience. 3766-73
Standardized equipment helps launch new 1400 ft. Flagship. 3767-73
Small canning facilities. 3769-73
Planning the school food service facilities. 3773-73
Warehousing systems speed service. 3775-73
Sub-System 10: Sanitation. 3787-73
Food poisoning and food hygiene. 3796-73
Why blast freeze? Part 2. 3889-73
Lunch-is the teacher. 3911-73
Cafeteria + color = fun!. 3916-73
A look at high schools: What makes lunch sell? 3947-73
Directory of systems capability. 4130-73
Catering handbook. 4185-73
20 million for lunch. 1326-74
School foodservice. 1489-74
Could commissary production save you money? 1931-74
School lunch design criteria. 1997-74
Projection of thoughts and ideas on school buildings of tomorrow--a speech given to the 1st annual school administrators seminar of the American school food service association (Vail Village, Colorado, Dec. 6-8, 1967). 1995-74
A central kitchen provides meals for Indianapolis school students. 1998-74
Conveyor belts--new design//new performance. 2001-74
Crown center: central kitchen/diverse food service. 2002-74

Betty Crocker's how to feed your family to keep them fit & happy . . . No matter what. 2434-74

FAMILY PLANNING
Introduction to public health. 2955-73
Priority of nutrition in national development. 3906-73
Vitamins and birth control. 507-74
Health of the American Indian. 685-74
Nutrition and population: a family planning project. 2220-74

FAMILY RELATIONSHIP
Consumer education for Mexican-Americans. 32-74
A comparative study of food habits: influence of age, sex and selected family characteristics. 142-74
Annual patterns of family and children's diet in three Guatemalan Indian communities. 390-74
A background study of the food habits of the Abasamia of Busia district, western province, Kenya. 789-74
Family food habits in the Virgin Islands. 1055-74
Meeting the challenge of educational care in heart disease. 2388-74

FAO/WHO
Dietary allowances - an international point of view. 145-73
Education and training in nutrition. 2565-73
On energy and protein requirements. 388-74
Energy and protein requirements. 564-74
Energy and protein requirements. 565-74
Food and nutrition: a new view of an old problem. 1100-74
Manual on food and nutrition policy. 1237-74
Puericultura--un manual para asistentes sociales y dirige-ntes en las comunidades rurales. 1667-74
Pioneer work on protein foods. 2157-74
Food and nutrition procedures in time of disaster. 2280-74

FARINA
Iron in enriched wheat flour, farina, bread, buns, and rolls. 2429-73

FARM PRICES
What's happening to food prices? (Filmstrip/Cassette tape. 2399-73
What's happened to food prices? 2400-73
The elements: Nature's wrath jolts a complacent urban nation. 2979-73
Food crisis '73: The year the bottom dropped out of the cornucopia. 3002-73
Farm-food market basket statistics (Aug. 1973). 4133-73
Food and money (Motion picture). 20-74
The real facts about food (Filmstrip/Cassette tape). 58-74
The real facts about food (slides/Audiocassette). 59-74
The real facts about food. 76-74

FARMERS
What's happening to food prices? (Filmstrip/Cassette tape. 2399-73
Food and money (Motion picture). 20-74
The real facts about food (Filmstrip/Cassette tape). 58-74
The real facts about food (slides/Audiocassette). 59-74
Families of the fields. 573-74

FAST FOODS
An area of concern: the nutritive profile of fast food meal combinations. 264-74
Gallup. America's fast food favorites. 1353-74

FAST-FOOD CHAINS
Nutrients to go. 2441-73
Rapid food service for San Francisco's new transportation system. 2234-73
How to get perfect fries every time!. 3735-73
Nutritional analysis of foods from fast-food chains. 132-74
An area of concern: the nutritive profile of fast food meal combinations. 264-74
101 daring young chains. 1498-74
Big Mac on campus. 2170-74

FASTING
Fasting in Ethiopia: an anthropological and nutritional study. 565-74
Food preferences and the regulation of eating. 1071-74

FAT CELLS
The myth of diet in the mangement of obesity. 2476-73
Obesity: A serious symptom. 2477-73
Obesity and coronary heart disease: The framingham heart study. 2661-73
Diabetes mellitus and obesity. 153-74
The effect of diet on the development of the adipose organ. 421-74
Childhood obesity. 1063-74
Childhood obesity. 1064-74

FAT LEVELS
Factors affecting meat purchases and consumer acceptance of ground beef at three fat levels with and without soyabits. 3876-73
Nutritional aspects of selected studies on cardiovascular diseases--implications for nutrition education. 504-74
Nutritional influences of Mexican-American foods in Arizona. 579-74
Feeding behaviour in obesity. 850-74
Cheese products: protein, moisture, fat, and acceptance. 1429-74
A guiding star for modern nutrition. 1570-74
Adapting nutrition facts--an example. 1642-74
Frozen, precooked beef and beef-soy loaves. 1965-74
Reducing the surface oil content of fried products. 2141-74

--.--

FAT MODIFICATIONS
Basic nutrition and diet therapy. 476-73
Defatted germ flour - food ingredient from corn. 1820-73
Response of body weight to a low carbohydrate, high fat diet in normal and obese subjects. 2662-73
Polyunsaturated fats--Life span--Cardio-vascular disease. 2700-73
A dietary approach to coronary artery disease. 2739-73
Cholesterol: A review. 2849-73
Live high on low fat. 4085-73
Egg beaters: do they beat real eggs? 14-74
Homemakers' opinions about dairy products and imitations:. 37-74
The 'big three' risk factors that predict coronary disease best. 88-74
Barness on developmental nutrition: fat. 160-74
Sustained weight control. 314-74
Etiology of obesity--the QQP theory. 894-74
The prudent diet. 2418-74
FAT-CONTROLLED DIETS
Programed instruction for fat-controlled diet, 1800 calories. 3303-73
The American Heart Association cookbook. 4044-73
Live high on low fat. 4085-73
Available products for the controlled fat diet. 267-74
If it's your gallbladder...Cheer up, here's good news. 289-74
Diet and coronary heart disease. 331-74
Plain talk about a confusing matter. 702-74
A dietary program to lower serum cholesterol. 837-74
How to extend your life span. 1047-74
Revising booklets on fat-controlled meals: background information on nutrient composition. 1078-74
Developing a program of learning on the fat-controlled diet. 1759-74
Appraising and revising educational health materials: a look at the booklets for "planning fat-controlled meals". 1869-74
FAT-RESTRICTED DIETS
The national diet-heart study--implications for dietitians and nutritionists. 2482-73
Planning fat-controlled meals. 2582-73
The prudent diet: vintage 1973. 2806-73
Obesity -- part VII. 2864-73
Live high on low fat. 4085-73
Ten-year experience of modified-fat diets on younger men with coronary heart-disease. 185-74
Available products for the controlled fat diet. 267-74
Alternate approach to low fat--low saturated fat--low cholesterol diet. 409-74
The secret family diet. 438-74
Family resoulution for '74: shape up and slim down. 663-74
Primary prevention of the atherosclerotic diseases. 817-74
Nutrition and diet guides for nursing homes. 1876-74
The low cholesterol cookbook. 2429-74
FAT-SOLUBLE VITAMINS
Nutrition. 111-73
Importance of vitamin D milk. 2436-73
The use and abuse of vitamin A. 106-74
Annie A. 131-74
Supplementation of human diets with vitamin E. 728-74
Who needs vitamin E? 1050-74
Fat-soluble vitamins in the eighth revision of the Recomm-ended Dietary Allowances. 1217-74
Recommended Dietary Allowances revised 1974. 1256-74
FATS AND OILS
Beef cooking rates and losses - effect on fat content. 84-73
Carbohydrates and fats (Film loop). 109-73
Cholesterol, fat, and protein in dairy products. 117-73
Degradation of linoleic acid during potato frying. 136-73
Fat metabolism in children - influence of dietary protein and calcium on serum lipids of pre-adolescent girls. 176-73
Food science; a chemical approach. 213-73
Your diet: health is in the balance. 403-73
Teenagers and food: their eating habits. 517-73
Thiamin and riboflavin in cooked and frozen, reheated turkey - gas vs. microwave ovens. 523-73
Effect of fat content in cheddar, colby, and swiss cheeses on consumer preference. 808-73
Food service for the Army and Air Force. 973-73
The ABC'@S of frying...A profit primer; breading and batter mixes; why throw away frying fats; in frying, system is everything; frying equipment. 1373-73
Care and use tips for frying fats. 1396-73
Food study manual. 1398-73
Deep fat frying (Motion picture). 1413-73
CARE strikes back at world's malnutrition. 1979-73
Synthetic food. 2342-73
Shopping for shortening. 2346-73
The role of fat as a nutrient. 2416-73
Food fats and health. 2588-73
Medium-chain triglycerides. 2606-73
Polyunsaturates and fat in fish flesh. 2872-73
How to assure high quality fried foods. 3732-73
How to strain and filter frying fats. 3737-73
USDA creates nutritive functional products. 3849-73
Nutrient fat (Nov. 1973). 4158-73
Whole milk is good for you--if you're a baby. 15-74
Selling nutrition to the consumer. 56-74
Teaching charts on Ethiopian foods (Posters). 67-74
Nutritional values. 90-74
Fats, essential fatty acids, and ascorbic acid: three essential nutrients. 101-74
Are PUFA harmful? 134-74
Lipid composition of selected margarines. 251-74
Food that builds good health (Motion picture). 295-74
Find meat fat lowers cholesterol, blood pressure. 387-74
Nutritive value of the United States per capita food supply. 410-74
Grapeseed oil: a rich source of linoleic acid. 581-74
The food you eat. 647-74
What's in it for me?--the nutrients (Videocassette). 736-74
What's in it for me?--the nutrients (Motion picture). 746-74
Como seguir la dieta prudente. 754-74
Nutrition: content and value of some common foods--proteins (Charts on spring rollers). 783-74
The potential toxicity of excessive polyunsaturates do not let the patient harm himself. 812-74
Polyunsaturated fatty acid intakes of children. 954-74
Cheese products: protein, moisture, fat, and acceptance. 1429-74
Energy saving tips for frying. 2008-74
A lesson in arithmetic. 2025-74
20 ways to save on fat costs. 2058-74
The effects of food processing on nutritional values. 2118-74
Reducing the surface oil content of fried products. 2141-74
FATTY ACIDS
Cholesterol content of foods. 116-73
Fatty acids in foods served in a university food service. 178-73
Fatty acids in newer brands of margarine. 179-73
Fatty acids, cholesterol, and proximate analyses of some ready-to-eat foods. 180-73
Serum cholesterol from pre-adolescence through young adulthood. 490-73
Vitamin E as a biological antioxidant. 580-73
Composition of foods. 2280-73
The role of fat as a nutrient. 2416-73
What we eat today. 2517-73
Nutritional review. 2568-73
Food fats and health. 2588-73
Medium-chain triglycerides. 2606-73
Appraisal of human vitamin E requirement based on examina-tion of individual meals and a composite Canadian diet. 2899-73
Nutrient fat (Nov. 1973). 4158-73
Egg beaters: do they beat real eggs? 14-74
Nutritional values. 90-74
Fats, essential fatty acids, and ascorbic acid: three essential nutrients. 101-74
Are PUFA harmful? 134-74
Energy metabolism. 156-74
The protein, fat and essential fatty acid contents of some cuts of meat. 226-74
Lipid composition of selected margarines. 251-74
Diet and coronary heart disease. 331-74
Find meat fat lowers cholesterol, blood pressure. 387-74
Nutritional influences of Mexican-American foods in Arizona. 579-74
Fats in food and diet. 619-74
Plain talk about a confusing matter. 702-74
Newer concepts of coronary heart disease. 758-74
The potential toxicity of excessive polyunsaturates do not let the patient harm himself. 812-74
Polyunsaturated fatty acid intakes of children. 954-74
Recommended Dietary Allowances. 1247-74
FATTY LIVER
Diseases of the liver--part 2: Fatty liver. 2537-73
FEASIBILITY STUDIES
Menu planning by computer: the random approach. 3608-73
New Detroit program taking a giant step. 3912-73
FEDERAL AID
Federal aid, current status. 1999-73
Nutrition and the public health. 2682-73
Review of the regulations. 3024-73
Amendment 7 only dark spot on food service horizon. 3026-73
New standards for school lunch. 3040-73
Compilation of statutes relating to soil conservation, acreage diversion, marketing quotas and allotments, wheat certificates, commodity credit corporation, price support, public law 480, export and surplus removal, crop insurance, sugar payments and quotas, marketing agreements and orders, school lunch, child nutrition, food stamp, and related statutes as of January 1, 1967. 3043-73
School lunch and child nutrition programs: hearings before the committee on agriculture and forestry, United States Senate, ninety-first Congress, first session on S. 2152, S. 2548, S. 2595, H.R. 515, and H.R. 11651; September 29, 30, and October 1, 1969. 3044-73
Special school milk program: hearing before a subcommittee oof the committee on agriculture and forestry, United States Senate, eighty-ninth Congress, second session on S. 2921, May 12, 1966. 3045-73
School milk and school breakfast programs: hearing before the committee on agriculture and forestry, United States Senate, eighty-ninth Congress, second session on S. 3467, June 21, 1966. 3046-73
Federal funds for day care projects. 3054-73
USDA issues new regulations governing free and reduced-price school lunch. 3055-73
National School Lunch...Now!. 3108-73
Help for school lunch managers. 3142-73
Recommendations and implications of the Rutgers effort. 3176-73
Nursing home foodservice. 3213-73
A question of opportunity: women and continuing education. 3490-73
USDA is interested in 'engineered foods' that can offer improved nutrition. 3880-73
GAO survey indicates room for improvement. 3929-73
No universal free lunch. 3937-73

FEDERAL GOVERNMENT
School lunch expansion roadblocked. 3945-73
What's being done about malnutrition and hunger? 3950-73
First annual report of the national advisory council on child nutrition; annual report/1971. 3959-73
Second annual report of the national advisory council on child nutrition; annual report/1972. 3960-73
New child nutrition program opens. 3989-73
Getting a program started. 4001-73
National school lunch program. 4004-73
Closing the nutrition gap: the child nutrition act of 1966. 4005-73
National school lunch program. 4009-73
Washington report (Nov. 1973). 4015-73
A guide to federal assistance programs for local school systems. 4132-73
Co-op buying boosts school lunches. 4192-73
Help for school lunch managers; C&MS offers quantity buyers an acceptance service for food. 4207-73
Recent legislation affecting child nutrition: implications for nutritionists and dietitians. 1223-74
Facing the challenge. 1243-74
How to build a centralized kitchen. 1989-74
Growing with good food habits. 2222-74
Food and nutrition services in daytime programs for young children. 2240-74
Can summer feeding survive? 2362-74
Sponsor handbook. 2379-74
St. James builds a kitchen. 2409-74

FEDERAL GOVERNMENT
This is USDA's Consumer & Marketing Service. 37-73
Guide to federal consumer services. 41-73
White House Conference on Food, Nutrition and Health: report of follow-up conference. 605-73
White House Conference on Food, Nutrition and Health final report. 606-73
The Patent Office. 633-73
The development of a national nutrition policy. 680-73
The case against hunger. 690-73
H.R. 9098 - a bill to extend and amend certain provisions of the Child Nutrition Act and of the National School Lunch Act. 722-73
Public Law 91-248, 91st Congress, H.R. 515. 723-73
H.R. 7934 - a bill to extend and amend the Child Nutrition Act of 1966. 724-73
Children's food service programs - conference report. 726-73
Hearings, Ninety-second Congress, first session, on nutri-tion and human needs: Part 6. 727-73
Hearings, Ninety-second Congress, first session, on nutri-tion and human needs: Part 8A. 728-73
Hearings, Ninety-second Congress, first session, on nutri-tion and human needs: Part 8B. 730-73
School food service: twelve trends you should track. 948-73
Computer assisted instruction: a government viewpoint. 1055-73
Community action: adult education. 1287-73
Community action: the nonprofessional in the educational system. 1288-73
ENEP evaluated. 1991-73
I. Nutrition programs of ICNE member agencies. 2012-73
The men in charge - the government nutrition programs. 2026-73
Educational opportunity bank. 2044-73
Federal interagency day care requirements. 2088-73
Community action: health programs. 2093-73
Community action for employment: manpower development. 2094-73
Profiles in quality education. 2095-73
White House Conference on Aging - report of the Nutrition Section. 2101-73
Federal library resources. 2205-73
Research resources: volume 2. 2247-73
Manpower report of the President. 2284-73
Hunger U.S.A. revisited. 2504-73
Public Law 88-525 88th Congress, H.R. 10222. 3047-73
Who benefits from training? 3344-73
Priorities in higher education. 4013-73
Food labeling. 1225-74
Official statements of guidelines for a national nutrition policy, April 1974. 1246-74
Developing government managers. 1588-74
Resources for the aging. 2296-74
PAG statement (No. 26) on food and nutrition considerations in national economic planning. 2313-74

FEDERAL PROGRAMS
The American and his food. 633-73
Challenge to the seminar. 676-73
Centralized food service systems-A review. 772-73
Management needs better understanding of food service potentials in planning and using efficient food service facilities. 882-73
New developments in school food service. 907-73
Planning short and long range objectives for the future of the school food services. 921-73
Learning for earning: new opportunities for paycheck education. 1295-73
Project on foods and nutrition services in the Public Schools (in North Carolina). 2048-73
Head Start: A child development program. 2085-73
Parent involvement. 2086-73
Federal funds for daycare projects. 2087-73
Child nutrition programs. 2090-73
Role of nutrition education in the nutrition decade. 2794-73
Measurement and evaluation, 1966-67 (p.l. 89-10, title I). 3312-73
F.O.O.D.: Focus on optimum development; a final proposal. 3507-73
Nutrition kit. 3576-73
A new decade for school food service. 3934-73
Exploring the school lunch market. 3965-73
Special food service program for children; summer programs sponsor handbook. 4012-73
Determination of the change in dietary levels of families paticipating in the Expanded Foods and Nutrition Program in Choctaw County, Mississippi. 93-74
Official statements of guidelines for a national nutrition policy, April 1974. 1246-74
The new manpower bill: a summary. 1250-74
Maternal, fetal, and infant nutrition--1973, hearings, ninety-third Congress, first session, part 2--governmental responses. 1262-74
Federal food programs--1973, hearings, ninety-third Congress, first session, part 2--hunger in 1973. 1263-74
Federal food programs--1973, hearings, ninety-third Congress, part 3--supplementary food programs. 1264-74
Nutrition and the elderly--1973, hearings, ninety-third Congress, first session, part 1--feeding the elderly. 1266-74
Nutrition education, 1972. 1269-74
Federal food programs, 1973. 1270-74
Nutrition education, 1972. 1271-74
Pilot breakfast program established. 2211-74
School feeding - where do we go from here? 2327-74
U.S.Department of Agriculture's food donation programs. 2380-74

FEEDBACK
The best strategy for coaching with VTR. 3322-73
Broadwell on instructor evaluation. 3330-73
How do your trainers grow? 3345-73
Training needs assessment and training program evaluation. 3453-73
Goal setting and feedback. 3551-73
Employee surveys. 1330-74
What's happened to employee commitment? 1468-74
Contemporary approaches to program evaluation and their implications for evaluating programs for disadvantaged adults. 1475-74
Programmed instruction: past, present, and future. 1551-74

FEMALES
Basal metabolic rate of women - an appraisal. 76-73
Effect of diet and/or exercise on obese college women. 160-73
Basic data on metabolic patterns in 7- to 10-year-old girls in selected Southern states. 533-73
Utilization of inorganic elements by young women eating iron--fortified foods. 576-73
Beautiful figures come in all sizes. 2714-73
Through the looking glass. 2813-73
Developing women managers. 3446-73
A question of opportunity: women and continuing education. 3490-73
Career planning for high school girls. 3556-73
Careers for women in the 70's. 3579-73
Urbanites must be approached through recognized information sources. 62-74
Hierro en las comidas. 230-74
Diet study points to iron deficiency among women. 333-74
Does nutrition education reach teenagers? 338-74
Dietary iron intakes of adolescents. 420-74
Health counseling for the overweight adolescent girl. 470-74
Eating behavior and dietary intake of girls 12 to 14 years old. 506-74
Food preferences of college women. 602-74
Music and games introduce nutrition. 708-74
Nutrition in action. 780-74
Nutrient intake of Pima Indian women: relationships to diabetes mellitus and gallbladder disease. 835-74
Several factors affecting college coeds' food preferences, habits and intake. 1026-74
Food beliefs as related to ecological factors in women. 1059-74
Nutritional knowledge and practices. 1067-74
The puzzling case of the missing Ms. 1389-74
Extension education + food programs = better living. 2177-74
New program meets special needs of women, infants & children. 2194-74
Comprehensive self-improvement program for inner city obese teenage girls. 2260-74
For overweight teenage girls. 2317-74
WIC in Arizona: food help for mothers and children. 2389-74
Volunteers lend a hand. 2392-74

FERMENTATION
Food chemistry. 2447-73

FERMENTED FOODS
Lactose intolerance and fermented dairy products. 423-74

FERTILIZERS
Responsibility of dietitians for providing information about food: it's wholesomeness and nutritional value. 473-73
The food fad boom. 2649-73
Natural foods (Slides/Cassette Tape). 2676-73
Know your nutrition. 274-74
Foods: fads and facts (Motion picture). 402-74
Born to live. 639-74
Accumulation of nitrate. 725-74
One man's meat: the organic alternative. 1103-74
Fertilizers, food production and environmental compromise. 1978-74

FETAL GROWTH
Maternal and fetal fuel homeostasis in human pregnancy. 2556-73
Vitamin B6 status in pregnancy. 2618-73
Proceedings. 2884-73
Diet and birth defects in humans. 330-74
Maternal nutrition in the 1970's; Part 1. 542-74
Maternal nutrition and fetal growth. 655-74
Metabolic adaption to pregnancy. 683-74
Fetal malnutrition in white newborn infants: maternal factors. 688-74
Maternal nutrition and the course of pregnancy. 726-74
Nutritional needs during pregnancy.

785-74
Status of the fetus and newborn, Jamaica, 1970. 951-74
Fetal malnutrition and future development. 1061-74
Maternal, fetal, and infant nutrition--1973, hearings, ninety-third Congress, first session, part 1--consequences of malnutrition. 1267-74
FIBER
Are we getting too much out of food? 2612-73
Western Hemisphere scientists discuss nutrient needs and food prospects. 158-74
Low-residue diets and hiatus hernia. 221-74
Some diseases characteristic of modern Western civilization. 222-74
Vegetable fibre: its physical properties. 347-74
Find meat fat lowers cholesterol, blood pressure. 387-74
Diet and colonic disease. 441-74
Diverticular disease of the colon: a deficiency disease of Western civilization. 798-74
Fiber: the forgotten nutrient. 892-74
The case for fiber--part 3; cholesterol, bile acids and heart disease. 914-74
The case for fiber--Part II: colon cancer. 915-74
The case for fiber - part I: background information. 917-74
The role of dietary fiber in nutrition. 939-74
Ischemic heart disease and dietary fiber. 995-74
FIBER-RESTRICTED DIETS
Diverticular disease of the colon: a deficiency disease of Western civilization. 798-74
FIELD STUDIES
Malnutrition, learning, and behavior. 289-73
ENEP evaluated. 1991-73
FIELD TRIPS
Nutrition education for young children. 553-73
The community as a classroom: trips (Filmstrip/record). 1565-74
FIGS
Figs. 1141-74
FILLED MILK
Substitutes for whole milk. 2431-73
Nutritional value of milk compared with filled and imitation milks. 2460-73
Mejores compras en leche. 7-74
FILM STUDY
Film and the media (R)evolution. 1089-7
Using film in management development. 3409-73
The use of silent single concept loop films to facilitate the acquisition of occupational skills. 1798-74
FILMS
Why be at 6's and 7's with 8? 3373-73
Sound motion picture projectors or, will television kill the movies? 3374-73
Film + group = more learning. 3387-73
How to train new foodservice employees quickly. 3429-73
Teaching aids - sound motion picture systems. 1516-74
Visual aids: why?--where?--what? 1585-74
Films vs. Videotapes in educational programs. 1752-74
The use of silent single concept loop films to facilitate the acquisition of occupational skills. 1798-74
Eat right--you're on candid camera. 1868-74
Selected films and filmstrips on food and nutrition. 2559-74
The Walt Disney Spanish language film program. 2582-74
FILMSTRIPS/SOUND
Sound filmstrip programs. 1555-74
FILTERS
Como hacer un filtro de agua para su casa (Filmstrip). 2000-74
A lesson in arithmetic. 2025-74
FINANCE
Are prepaid lunches the answer? 758-73
Centralized food service systems-A review. 772-73
Cost of finances in centralized food service systems. 796-73
Managerial accounting for the hospitality service industries. 818-73
The mouse and the astronaut. 894-73
The numbers game: uses and abuses of managerial statistics. 934-73
A survey instrument for the evaluation of the economic--efficiency of school food services. 952-73
Private school lunch. 984-73
School food service financial management seminar for uniform accounting. 985-73
Essentials of managerial finance. 998-73
Texas mavericks reject federal subsidies. 2076-73
Food service in private elementary and secondary schools. 2082-73
Food service in public schools. 2083-73
Selected research abstracts of published and unpublished reports pertaining to the food service industry. 2279-73
Trends in food service systems, panel discussions. 3109-73
The effect of household size and composition on the cost of diets of equivalent nutritional quality, needy households, spring 1965. 2550-74
FINANCIAL MANAGEMENT
The national school food service and nutrition education finance project. 2752-73
Amendment 7 only dark spot on food service horizon. 3026-73
The computer & how to afford it. 3068-73
The big 10 pros tackle the times. 3078-73
The computer & St. Josephs. 3098-73
A practical guide to productivity measurement. 3137-73
How to become a foodservice accountant (in your spare time). 3153-73
How to deal with a $1,000,000 loss. 3156-73
How to determine food costs. 3157-73
Food and beverage cost controls. 3188-73
The control function in the management of school food service. 3193-73
Foodservice exam time!. 3194-73
A food service concept for today's university student. 3197-73
Financial accounting: classifications and standard termin-ology for local and state school systems. 3238-73
General administration in the nursing home. 3240-73
Profit and school lunch. 3260-73
Profiling the college market. 3262-73
Food service in industry and institutions. 3267-73
The computer & automatique. 3273-73
School food service financial management handbook for uniform accounting; simplified system. 3275-73
School food service financial management handbook for uniform accounting; complete system. 3276-73
Industrial foodservice and cafeteria management. 3281-7
How to finance a restaurant. 3283-73
How to control costs. 3285-73
Can you beat the high cost of meat? 3605-73
Contract foodservice/vending. 3843-73
The school lunch. 3921-73
The school lunch system moves up the "raw-to-ready" scale. 3981-73
Catering handbook. 4185-73
The evolution of school foodservice. 1097-74
The food story: what's ahead for institutional foodservice. 1098-74
Challenge '74: effective food service management. 1307-74
How to defend board increases. 1320-74
The remuneration riddle. 1360-74
Controlling and analyzing costs in food service operations. 1386-74
Costing AV materials: a job approach. 1388-74
Profit from foodservice: a question and answer approach. 1394-74
Who benefits most from computerized cash control? 1410-74
The problems of 1974: Procurement, pricing, profits. 1413-74
Bookkeeping procedures and instructions. 1425-74
A guide for financing school food and nutrition services. 1438-74
An intangible part of business: hidden costs. 1456-74
Ways to short-circuit the energy crisis. 1457-74
Volume feeding and operation independence. 1463-74
A study on linear programming applications for the optimi-zation of school lunch menus. 1885-74
A tough gamble in Las Vegas or...How to recoup a $200,000 loss. 2215-74
Can summer feeding survive? 2362-74
Out to lunch: a study of UDSAA'S day-care and summer feeding programs. 2370-74
Food products procurement, receiving and storage. 2595-74
Food purchasing concepts. 2597-74
Purchasing key to savings. 2598-74
FINANCIAL SUPPORT
Changes in the law and new legislation--What it means. 677-73
H.R. 9098 - a bill to extend and amend certain provisions of the Child Nutrition Act and of the National School Lunch Act. 722-73
H.R. 7934 - a bill to extend and amend the Child Nutrition Act of 1966. 724-73
Children's food service programs - conference report. 726-73
Hearings, Ninety-second Congress, first session, on nutri-tion and human needs: Part 6. 727-73
Colorado school lunch handbook. 778-73
Guidelines for hospitality education in junior college. 1015-73
Developing a hospitality program in high schools. 1063-73
Community action: adult education. 1287-73
Community action: the nonprofessional in the educational system. 1288-73
Learning for earning: new opportunities for paycheck education. 1295-73
Their daily bread. 1984-73
Feeding america's children at school. 2001-73
If we had ham, we could have ham and eggs - if we had eggs. 2005-73
Not all governments support school lunch. 2031-73
Educational opportunity bank. 2044-73
School lunch looks to the future. 2057-73
Stinging attack blasts school lunch programs. 2067-73
Federal funds for daycare projects. 2087-73
Media units grow into service centers. 2248-73
Hunger U.S.A. revisited. 2504-73
Child nutrition in action. 3023-73
Public Law 88-525, 88th Congress, H.R. 10222. 3047-73
Federal funds for day care projects. 3054-73
Extent of the problem involved. 3115-73
How to attract and keep career-oriented employees. 3171-73
How to finance a restaurant. 3283-73
The barriers have been removed...The job is up to you. 3905-73
Special food service program for children; summer programs sponsor handbook. 4012-73
Priorities in higher education. 4013-73
Changing attitudes. 1242-74
FIRE EXTINCTION
Kitchen safety: Preventing fires (Film Loop). 1738-73
Quality fire protection for the haute monde. 3752-73
Is your kitchen cooking up a fire? 2096-74
FIRE PREVENTION
The angry flame; a fire protection message (Filmstrip/Record). 1695-73
Hospital kitchen safety (Film loop). 1722-73
Keeping your cool (Film loop). 1730-73
Kitchen safety: Preventing fires (Film Loop). 1738-73
Stop air pollution in you kitchen!. 2013-74
Is your kitchen cooking up a fire? 2096-74

FISH
Advances in food research; volume 18. 51-73
Food pharmacology. 480-73
A 24-hour method for the detection of coagulase-positive staphylococci in fish & shrimp. 621-73
But what are they among so many? An ancient food for a modern need. 629-73
Gallup finds broad acceptance for international seafood specialities. 835-73
Better school lunches in Oklahoma. 1351-73
Put fish and seafood on the school menu. 135 -73
Try new fish varieties on your menu. 1363-73
Quantity food preparation: a course for school food service. 1392-73
Fish (Film loop). 1423-73
Fish and shellfish preparation (Film loop). 1424-73
How to make a better fish sandwich. 1449-73
How to prepare and bread fish and seafood. 1450-73
Fish & seafood: where convenience spans the continents. 1848-73
Fish protein concentrate enrichment of noodles. 1849-73
Salmon. 1930-73
Fish-fondue/Nautilus culinaris!. 2128-73
The art of fish cookery. 2152-73
New low-cost fish recipes pass child test. 2153-73
Seafood world. 2165-73
Let's cook fish. 2174-73
Purchasing. 2310-73
Using storage in food service establishments. 2323-73
How to buy for school lunch. 2334-73
Organoleptic technique predicts refrigeration shelf life of fish. 2337-73
Polyunsaturates and fat in fish flesh. 2872-73
A potpourri of food ideas. 2994-73
Children accept fish-based school lunch entrees. 3075-73
Beefish and hamburger patties rate equally in taste prefe-rence tests. 3857-73
Entree loaves. 4028-73
Fishing around for variety. 4045-73
Denver: From high tea to apres ski. 4097-73
Freezing meat and fish in the home. 4205-73
How the shrewdest shoppers buy and use meat, dairy products and eggs. 57-74
Prospects for meeting protein needs from conventional food sources. 855-74
Frozen fish and seafood 1974: 2. Food service now uses 61 per cent frozen fish. 1384-74
Frozen fish and seafood 1974: 1. Packers broaden product lines to combat shortages. 1385-74
San Diego: salads, sandwiches, seafood. 1471-74
The community as a classroom: trips (Filmstrip/record). 1565-74
Proper food (Filmstrip). 1853-74
Fish sandwiches for protein, patronage and profits. 1886-74
Fish and shellfish: take your pick of the catch. 1891-74
The menu magic of frozens. 1895-74
The salad bar as menu-decor-mood. 1923-74
Paired for profit: fish 'n chips. 1935-74
How to use today's breader and batter mixes. 1951-74
The imaginative approach to the fish and seafood entree. 1953-74
Where pressure fryers reign supreme. 2053-74
Mercury as a food contaminant. 2078-74
Alternative uses of fish. 2113-74
Extruded foods: what are they? 2119-74
About food and where it comes from. 2150-74
Pioneer work on protein foods. 2157-74
Mediterranean seafood. 2435-74
Get acquainted with mackerel!. 2454-74
Recipes from Barbados. 2479-74

FISH OILS
Polyunsaturates and fat in fish flesh. 2872-73

FISH PROTEIN CONCENTRATES (FPC)
Crackers fortified with fish protein concentrate (FPC): nutritional quality, sensory and physical characteristics. 132-73
Fish protein concentrate enrichment of noodles. 1849-73
Textures vegetable protein, fish protein concentrate, and microcrystalline cellulose as extenders in meat loaves. 2335-73
Proteins--past, present and future sources. 2975-73
New foods from the sea. 3888-73
Plentiful protein from the sea. 85-74
Alternative uses of fish. 2113-74
The promises and problems of the new foods, University of Georgia, 1970. 2115-74
Fish protein concentrate as a mineral nutrient source. 2127-74

FLAVOR
Advances in food research; volume 18. 51-73
Sensible nutrition. 488-73
The meanings of flavors and texture. 2646-73
Utilization of novel proteins for human food. 2962-73
The potato: Thoroughbred among vegetables. 2993-73
Tomato--the vegetable/fruit. 3001-73
Yogurt: New life for an old product. 3005-73
Children accept fish-based school lunch entrees. 3075-73
Improve young people's diets--fortify puddings eaten for snacks and desserts. 3842-73
Food preservation by irradiation: Update. 3844-73
What is the nitrite controversy? 3845-73
Breaded precooked beef patties. 3890-73
Milk flavor: The true test of quality. 3904-73
Flavor secrets from foreign lands: Rumania. 4049-73
Food acceptance and flavor requirements in the developing world. 1040-74
The sage of citrus fruits. 1082-74
Cheese: 'Milk's leap toward immortality'. 1090-74
Nitrate and nitrite substitutes in meat curing. 2131-74
Ann's additive story; its meaning to your food and health (Filmstrip). 2154-74
Ann's additive story; its meaning to your food and health (Slides). 2155-74

FLAVOR INTENSIFIERS
Positioning creative touch - a new way to flavor foods. 923-73
Monosodium glutamate: the myth and the matter. 1884-73
Enzymes in food processing and products, 1972. 1966-73
Food acceptance and flavor requirements in the developing world. 1040-74

FLAVORINGS
The chemical constituents of citrus fruits. 272-73
The berries with bounce. 626-73
Chocolate: the Aztec's brown gold. 630-73
Five important flavors and their uses. 636-73
Puddings and other delicious things. 657-73
The shady, saucy tomato. 660-73
Positioning creative touch - a new way to flavor foods. 923-73
Development aids: diverse product applications identified for unique flavored protein products. 1824-73
Papaya puree: a tropical flavor ingredient. 1909-73
Positioning a product for the special market. 1913-73
Austria. 2111-73
Flavor secrets from foreign lands: Brazil. 2129-73
Flavor secrets from foreign lands: Holland. 2131-73
Flavor secrets from foreign lands: Jamaica. 2132-73
Flavor secrets from foreign lands: North Italy. 2133-73
Flavor secrets from foreign lands: Poland. 2134-73
Flavor secrets from foreign lands: Szechwan. 2137-73
Synthetic food. 2342-73
Food chemistry. 2447-73
The potato: Thoroughbred among vegetables. 2993-73
Yogurt: New life for an old product. 3005-73
Textured foods and allied products. 3846-73
Imitation meats and meat flavorings: food for the future. 3853-73
The remarkable story of monosodium glutamate. 536-74
Food acceptance and flavor requirements in the developing world. 1040-74
The sage of citrus fruits. 1082-74
Ice cream: the great American favorite. 1083-74
Lore and legendry of onion and garlic. 1084-74
Cheese: 'Milk's leap toward immortality'. 1090-74
Your kitchen keyboard of spices. 1213-74
Natural flavor added to FF may be legally "artificial". 1248-74
Formulating an imitation cheese spread to make dairy proteins go farther. 2110-74
Proceedings. 2138-74

FLINT, MICHIGAN
Reaching urban women. 2229-74

FLORIDA
Action on teenage nutrition. 50-73
Educators' attitudes toward nutrition education in Florida. 1080-73
Florida's expanded nutrition program. 2002-73
Nutrition education in Florida school districts. 2774-73
A follow-up study of junior college hotel & restaurant education in Florida. 3298-73
Build, build, build. 3982-73
Eating patterns among migrant families. 321-74
Families of the fields. 573-74
Five county food management improvement project (Project Anser): final report. 1440-74
School breakfast annual potential set at 20 million gallons FCOJ. 1460-74
Volunteer donates services to low-income families. 1846-74
Cafe mariner brightens open space school. 1996-74
Nutrition "outreach" for migrant workers. 2326-74
There's a kitchen in every school. 2371-74

FLOUR
The dietary iron controversy. .148-73
The experts debate: the added enrichment of bread and flour with iron. 172-73
The heart of the matter - a matter of opinion. 233-73
Iron absorption by adults fed mixtures of rice, milk, and wheat flour. 261-73
Round-table discussion. 479-73
Defatted germ flour - food ingredient from corn. 1820-73
Iron in enriched wheat flour, farina, bread, buns, and rolls. 2429-73
USDA creates nutritive functional products. 3849-73
Soy-fortified wheat flour. 935-74
Peanuts pack protein power (Poster). 980-74

FLOWER, FRUIT VEGETABLES
New to the convenience roster: canned crushed tomato. 1893-73
Toward better tomatoes. 2358-73
Tomato--the vegetable/fruit. 3001-73
Vegetables only... 4106-73
Getting to know vegetables (Show'n Tell). 1982-74

FLUID INTAKE
Carbohydrate ingestion during prolonged running performance. 517-74

FLUORIDATION
Dental caries and the school canteen. 2494-73
Fluoride as a nutrient. 110-74
Fluoridation. 721-74
It's not good for you (Videocassette). 742-74
It's not good for you (Motion picture). 752-74
The fluoride content of a representative diet of the young adult male.

885-74
FLUORIDE
  Osteoporosis. 2551-73
  Adult bone loss, fracture epidemiology and nutritional implications. 2571-73
  Everbody's tooth book. 2720-73
  The contribution of the science and practice of nutrition to prevention and control of dental caries, Part 1. 2767-73
  Teaching dental health. 3534-73
  Fluoride as a nutrient. 110-74
  Learning about your oral health--level IV: 10-12 (kit). 117-74
  The drive for oral health continues... 341-74
  Fluoridation. 721-74
  Nutrition in tooth formation and dental caries, Boston, 1960. 781-74
  The fluoride content of a representative diet of the young adult male. 885-74
FOIL WRAPPINGS
  New dimensions in aluminum disposables. 1634-73
  The energy savers. 2007-74
FOLACIN
  Folacin in wheat and selected foods. 186-73
  Folate deficiency and oral contraceptives. 2882-73
FOLIC ACID
  Folate deficiency and oral contraceptives. 2882-73
  Folate levels in citrus and other juices. 2883-73
  Prevention of folate deficiency in pregnancy by food fortification. 281-74
  Adverse effects on infant development associated with maternal folic acid deficiency. 455-74
  Vitamins and birth control. 507-74
  Anemia in black preschool children in Mississippi. 557-74
FOLK MEDICINE
  Health in the Mexican-American culture: a community study. 276-74
  The hot-cold theory of disease: implications for treatment of Puerto Rican patients. 481-74
  Society and health in the lower Rio Grande Valley. 636-74
  Folk disease among urban Mexican-Americans: etiology, symptoms, and treatment. 652-74
FOOD ADDITIVES
  Attitudes toward the ban on cyclamates. 1-73
  Communicating with the consumer: basic research on nutrition and safety. 4-73
  Eliminating warmed-over flavor in precooked food. 166-73
  Man, health, and environment. 230-73
  The organic foods movement. 444-73
  The chemical analysis of foods. 447-73

  Nutrition education--1972 hearings, Ninety-Second Congress, second session. 549-73
  Nutrition education in the school food service: challenge, change, and commitment. 592-73
  The berries with bounce. 626-73
  Chocolate: the Aztec's brown gold. 630-73
  Five important flavors and their uses. 636-73
  The shady, saucy tomato. 660-73
  Confusing laws complicate marketing picture for new products. 679-73
  Legal requirements for food safety. 696-73
  What useful purpose is served by quantitative ingredient labeling? 745-73
  Continuing education in nutrition-1970. 1071-73
  Food additives. 1711-73
  Allura Red - new food color offers greater brilliance and stability. 1791-73
  The chemicals we eat. 1796-73
  Better heat shock resistance and extrudability in ice creams with microcrystalline cellulose. 1798-73
  The current status of saccharin. 1817-73
  A manufacturer looks at food safety. 1875-73
  Food pollution. 1876-73
  Monosodium glutamate: the myth and the matter. 1884-73
  Evaluating the safety of food chemicals. 1886-73
  Nitrites and nitrates in food. 1895-73
  Roselle - a natural red colorant for foods? 1929-73
  Tion and human needs: Part 4A--food additives tion and human needs. 1954-73
  Hearings, Ninety-second Congress, second session, on nutrition and human needs: Part 4C--food additives. 1955-73
  Hearings, Ninety-second Congress, second session, on nutrition and human needs: Part 4B--food additives. 1956-73
  Practical food microbiology and technology. 1962-73
  Food values of portions commonly used. 2216-73
  Improvement of nutritive quality of foods. 2433-73
  Food--facts and fallacies. 2491-73
  Eater's digest. 2644-73
  Food additives. 2702-73
  The food book: what you eat from A-Z. 2787-73
  Let's talk about food. 2952-73
  The potato: Thoroughbred among vegetables. 2993-73
  Food labeling (motion picture). 3016-73
  Food additives: What they are/How they are used. 3025-73
  FDA regulations that affect food packaging. 3037-73
  Your daily food. 3618-73
  Health and food. 3780-73
  The food we eat: Is it safe? (Audiotape). 3802-73
  Food safety in 1973. 3827-73
  Food additives: Some economic considerations. 3831-73
  What is the nitrite controversy? 3845-73
  How they use soy protein extenders. 3852-73
  Beefish and hamburger patties rate equally in taste prefe-rence tests. 3857-73
  Chemical foods. 3859-73
  Gator Go--high energy dairy beverage starts with low fat milk. 3866-73
  Soyburger: it looks lika a hamburger, but... 3885-73
  New serving ideas for soy protein products. 4089-73
  food chemicals codex. 4156-73
  A consumer's dictionary of food additives. 4187-73
  Communicating facts to the consumer. 60-74
  Nutrition for today. 100-74
  Food power. 137-74
  Decision making in the biological field. 144-74
  Natural, organic, and health foods. 316-74
  Diet and birth defects in humans. 330-74
  Foods: fads and facts (Motion picture). 402-74
  Eating right for you. 407-74
  The natural foods primer. 526-74
  Human susceptibility to oral monosodium l-glutamate. 576-74
  Chemical additives in our food. 701-74
  Accumulation of nitrate. 725-74
  Body pollution. 774-74
  Present knowledge in nutrition. 779-74
  Toxicological standards. 794-74
  A review of the nitrosamine problem in cured meats. 860-74
  Ice cream: the great American favorite. 1083-74
  Legalities concerning food additives. 1245-74
  Natural flavor added to FF may be legally "artificial". 1248-74
  Nutrition labeling. 1252-74
  Synthetic and substitute foods, domestic and international aspects. 1254-74
  How do you want government to regulate hazards in food and foodservice? 1257-74
  Nutrition in the news. 1607-74
  Rapid nitrosation of phenols and its implications for health hazards from dietary nitrites. 2065-74
  Evaluation of mercury, lead, cadmium and the food additives amaranth, diethylpyrocarbonate, and octyl gallate. 2076-74
  Nitrate and nitrite substitutes in meat curing. 2131-74
  Why chemicals? 2135-74
  Ann's additive story; its meaning to your food and health (Filmstrip). 2154-74
  Ann's additive story; its meaning to your food and health (Slides). 2155-74
  Data base for "safe" additives: decisions established for industry/agency use. 2517-74
  Toxicity of intentional food additives. 2552-74
FOOD ADULTERANTS
  A manufacturer looks at food safety. 1875-73
  Toxicity of pure foods. 2369-73
  What we eat today. 2517-73
  Uniformity - a must for effective microbial controls. 3790-73
  Toxic substances naturally present in food. 3795-73
FOOD ANALYSIS
  Communicating with the consumer: basic research on nutrition and safety. 4-73
  Communicating with the consumer: natural and synthetic nutrients. 6-73
  Assaying the availibility of iron - techniques, interpret-ations, and usefulness of the data. 70-73
  Beef cooking rates and losses - effect on fat content. 84-73
  Cholesterol content of foods. 116-73
  Cholesterol, fat, and protein in dairy products. 117-73
  Effect of microwave heating on vitamin B6 retention in chicken. 161-73
  Effect of storage and other variables on composition of frozen broccoli. 162-73
  Effects of microwaves on food and related materials. 165-73
  Exercise, dietary intake, and body composition. 170-73
  Fatty acids in foods served in a university food service. 178-73
  Fatty acids, cholesterol, and proximate analyses of some ready-to-eat foods. 180-73
  Folacin in wheat and selected foods. 186-73
  Functional properties of carbohydrates. 218-73
  Modern food analysis. 232-73
  Food science & technology, volume III. 258-73
  Iron absorption by adults fed mixtures of rice, milk, and wheat flour. 261-73
  Iron content of some Mexican-American foods - effect of cooking in iron, glass, or aluminum utensils. 262-73
  The chemical constituents of citrus fruits. 272-73
  Laboratory handbook of methods of food analysis. 277-73
  Linear programming controls amino acid balance in food nutrition. 280-73
  Lipid components of type A school lunches. 281-73
  Major mineral elements in Type A school lunches. 285-73
  Measuring the color of foods. 303-73
  Metabolic effects of meal frequency on normal young men. 304-73

Tangerines. 1178-74
Cabbages. 1179-74
Sweet corn. 1180-74
Nectarines. 1181-74
Coconuts. 1182-74
Mustard greens. 1183-74
Pomegranates. 1184-74
Dry onions. 1185-74
Avocados. 1186-74
Pineapples. 1187-74
Papayas. 1188-74
Rutabagas. 1189-74
Pumpkins. 1190-74
Turnips. 1191-74
Mangoes. 1192-74
Watercress. 1193-74
Green onions. 1194-74
Anise. 1195-74
Lettuce. 1196-74
Broccoli. 1197-74
Potatoes. 1198-74
Cucumbers. 1199-74
Raspberries. 1200-74
Collards. 1201-74
Blueberries. 1202-74
Shallots. 1203-74
Parsnips. 1204-74
Persian melons. 1205-74
Swiss chard. 1206-74
Okra. 1207-74
Dandelions. 1208-74
Dates. 1209-74
Kohlrabi. 1210-74
Avisos rapidos sobre la etiqueta y sobre el cuidado de la carne de vaca y de aves de corral. 1273-74
Supervision and management of quantity food preparation: principles and procedures. 1412-74
Classrooms: Vegetable cookery (Transparencies). 1629-74
The move is to convenience desserts. 1941-74
Home canning--How safe can you make it? 1955-74
A close-up on cooking with vegetables. 1956-74
Start with healthy cooking. 1969-74
Potato shopping, storing and cooking information. 1981-74
Food service equipment: selection, arrangement, and use. 2020-74
Clean catering. 2066-74
The freeloaders (Filmstrip/cassette). 2069-74
Let's keep food safe to eat (Motion picture). 2071-74
The use of chemicals in food production, processing, storage, and distribution. 2106-74
Alternative uses of fish. 2113-74
The effects of food processing on nutritional values. 2118-74
Family fare. 2496-74
Como guardar alimentos (Filmstrip). 2588-74
La compra de alimentos en el mercado (Filmstrip). 2589-74
Can your kitchen pass the food storage test? 2594-74
Food products procurement, receiving and storage. 2595-74
Food care and food storage. 2601-74
Shelf life of foods. 2602-74

FOOD STORAGE LOSSES
Can your kitchen pass the food storage test? 2594-74

FOOD STORES
Comparison of cost structures of food stores and eating and drinking places. 783-73
Growth of health food sales in the super market. 3256-73
Career guidance: think food! (Motion Picture). 3377-73
Nutrition awareness in the supermarket. 2-74
Be a better shopper. 5-74
Be a better shopper (Leader's guide). 6-74
Using your supermarket as a resource. 44-74
Be a better shopper (Slides). 50-74
Eating out should be fun--and safe. 2072-74
"Ask Kathy": an experiment in nutrition education. 2181-74
Prescription dietary service. 2230-74
The supermarket mystery. 2599-74

FOOD SUBSTITUTIONS
The cost of meats and meat alternates. 12-73
Basic values in nutrition; part I: milk and meat group (Transparencies). 78-73
Basic values in nutrition; part II: vegetable-fruit group (Transparencies). 79-73
Nutrition education for mothers of Filipino preschool children. 393-73
Food for 50. 1429-73
Non-dairy cheese - a unique reality. 1896-73
Protein products: analogs of favorite food forms. 1924-73
Soybean milk - a low-methionine substitute for cow's milk for children and adults. 1939-73
Substitutes for whole milk. 2431-73
Baking for people with food allergies. 2494-74

FOOD SUPERSTITIONS
Food beliefs affect nutritional status of Malay fisherfolk. 192-73
America's health: fallacies, beliefs, practices. 2487-73
A study of health practices and opinions. 2742-73
Nutrition: sense and nonsense. 2772-73

FOOD SUPPLY
Food: proteins for humans. 56-73
Nutrition and physical fitness. 97-73
Centralized food supplies. 110-73
Teaching nutrition. 168-73
Food for a modern world (Motion picture). 196-73
Food for life (Motion picture). 198-73
Food for life (Videocassette). 199-73
The ecology of malnutrition in Central and Southeastern Europe. 297-73
The ecology of malnutrition in five countries of Eastern and Central Europe. 298-73
The ecology of malnutrition in the French speaking countries of West Africa and Madagascar. 299-73
The ecology of malnutrition in Northern Africa. 300-73
Food, science, and society. 401-73
Nutritional improvement and world health potential. 421-73
Food and nutrition. 485-73
Understanding food. 511-73
Attack on starvation. 635-73
Our daily bread. 651-73
Overcoming world hunger. 652-73
World food and population problems: Some possible solutions. 669-73
The changing food market - nutrition in a revolution. 774-73
Food--Feeding---Understanding. 827-73
The role of industry in meeting the challenge of future food needs. 938-73
The long view. 1151-73
Your future in food science. 1239-73
The safety of foods. 1760-73
Food for a modern world (Videocassette). 1852-73
Foods of the future. 1855-73
Fortified foods: the next revolution. 1857-73
The future of the food industry. 1864-73
Genetic improvement of crop foods. 1865-73
Food for tomorrow; resources, environment, distribution. 1885-73
Possible developments in the supply and utilization of food in the next fifty years. 1914-73
Protein from microorganisms. 1923-73
At the threshold of attainment. 1974-73
Food aid: a selective annotated bibliography on food utilization for economic development. 2226-73
Nutritional review--1971. 2255-73

Selected list of reliable nutrition books (revised 1970). 2277-73
World food-population levels. 2285-73
Food beverage industries: a bibliography and guidebook. 2294-73
The commodities: Mrs. Joyce vs. Mrs. Clay. 2305-73
The cost of a dietary revolution. 2367-73
Food prices (Feb. 1973). 2379-73
What's happened to food prices? 2400-73
The science of nutrition. 2443-73
Nutrition and physical fitness. 2472-73
Nutrition of animals of agricultural importance - part 2. 2520-73
Nutrition in the 1970's. 2524-73
Encouraging the use of protein-rich foods. 2567-73
Nutritional review. 2568-73
Nutrition and world health. 2587-73
Deprivation syndrome or protein-calorie malnutrition. 2615-73
This hungry world. 2617-73
Proteins as human food proceedings. 2687-73
The ecology of malnutrition in Middle Africa. 2710-73
The ecology of malnutrition in seven countries of southern Africa and in Portuguese Guinea. 2711-73
The ecology of malnutrition in eastern Africa and four countries of western Africa. 2712-73
Food for modern living. 2718-73
Nutrition perspectives in the seventies. 2789-73
Role of nutrition education in the nutrition decade. 2794-73
World food resources. 2973-73
The elements: Nature's wrath jolts a complacent urban nation. 2979-73
Feeding the world of the future. 2984-73
Wild man or prophet?: How we got into this self-imposed economic blockade and how can we get out of it? 2985-73
The nation: Gimme, gimme more! Better! And surprise--prices go up. 2989-73
Food, science, and society. 2990-73
The future of food. 2991-73
Food crisis '73: The year the bottom dropped out of the cornucopia. 3002-73
The world: Bartering America's corn-fed beef for imported extravagances. 3003-73
How to relieve supply problems. 3160-73
Symposium on environmental quality and food supply, 1972, Washington, DC. 3813-73
Can new protein sources avert world shortage? 3882-73
A bookshelf on foods and nutrition. 4123-73
Farm-food market basket statistics (Aug. 1973). 4133-73
Food prices (Aug. 1973). 4134-73
Food prices (Nov. 1973). 4135-73
Nutrient fat (Nov. 1973). 4158-73
Supply and utilization (Feb. 1973). 4169-73
Consumers in a concentrated food economy. 24-74
Food prices (Feb. 1974). 27-74
The real facts about food (Filmstrip/Cassette tape). 58-74
The real facts about food (slides/Audiocassette). 59-74
A study of the nutritional status and food habits of Otomi Indians in the Mezquital Valley of Mexico. 130-74
Protein 1984. 139-74
The food and people dilemma. 194-74
Diet and food beliefs of Peruvian jungle tribes. I. The Shipibo (monkey people). 197-74
Changing food supply in America. 261-74
Some effects of a white cornmeal shortage. 325-74
Influences of culture on man's diet. 479-74
Food: readings from Scientific American. 513-74
Nutritional studies of British Columbia Indians. I. Dietary studies at Ahousat and Anaham reserves. 612-74
The ecology of malnutrition in seven countries of Southern Africa and in Portuguese Guinea. 661-74
Changing significance of food. 677-74
The changing significance of food. 678-74
Focus on food. 805-74
Family food habits in the Virgin Islands. 1055-74
Food shortage--an educational challenge. 1086-74
Population growth, food needs and environmental stress. 1087-74
Food and nutrition: a new view of an old problem. 1100-74
Redirecting food habits--a food scientist's viewpoint. 1101-74
Food and nutrition policy--now and in the future. 1105-74
Integrated approach for food, nutrition, population and economic growth. 1118-74
Is there a protein problem? 1121-74
Will there be enough food? 1124-74
Vegetable proteins: short world food supplies influence vegetable proteins' future - Part II. 1129-74
Vegetable proteins: part I. Historical perspective, tightening supplies. 1130-74
Energy use in the U.S. food system. 1131-74
How far have we come? 1132-74
The world food situation (Slides). 1134-74
Manual on food and nutrition policy. 1237-74
Synthetic and substitute foods, domestic and international aspects. 1254-74
Macronutrition. 1290-74
Groceries and garbage. 1358-74
Protein 1984. 2108-74
Introduction to food science and technology. 2156-74
Food for tomorrow, better nutrition today. 2160-74
Evaluation of food supplementation as a nutrition action program. 2217-74
Better health through better food. 2311-74
Experts ask action to avoid millions of deaths in food crisis. 2330-74
World food situation. 2393-74
Nutrition: third view. 2405-74
Per capita food consumption (Feb. 1974). 2549-74
Food consumption, prices, expenditures. 2576-74

FOOD SYMBOLISM
  Food habits of migrant farm workers in California - comparisons between Mexican-Americans and "Anglos". 202-73
  Food is more than nutrients. 204-73
  Man as a patient. 290-73
  A source book on food practices; with emphasis on children and adolescents. 352-73
  Socio-cultural basis of food habits. 492-73
  Finger food industry-new life for jaded menus. 1422-73
  Food habits: a selected annotated bibliography. 2229-73
  Attitudes and the use of food. 147-74
  Thought for food--the social and cultural aspects of malnutrition. 155-74
  The new vegetarians: the natural high? 342-74
  Food habits--an anthropologist's view. 377-74
  Food is not just something to eat. 426-74
  Social, emotional and cultural influences as related to eating patterns and malnutrition. 547-74
  Fasting in Ethiopia: an anthropological and nutritional study. 585-74
  Hot-cold food beliefs among Andean peasants. 670-74
  Changing significance of food. 677-74
  The changing significance of food. 678-74
  Dietary patterns and food habits. 679-74
  The crossroads of emotion, religion, tradition and habit. 827-74
  Dietary regulations and food habits of Muslims. 882-74
  Food habits of Greek-Americans. 1015-74

FOOD TABLES, CONTENT
  Handbook of twenty consecutive menus as submitted by Utah districts. 1367-73
  Food values and calorie charts. 2271-73
  Cereal: One of the 4. 2573-73
  Patient-oriented dietetic information system--ii. 3245-73
  A reporting system for nutrient adequacy. 559-74
  Cooper's nutrition in health and disease. 693-74
  Amino-acid content of foods. 2522-74
  Approximate composition of General Mills ready-to-eat cereals. 2523-74
  Energy value of foods. 2540-74

FOOD TABLES, LIMITATIONS
  Food and society--the world scene. 1123-74

FOOD TABOOS
  Food beliefs affect nutritional status of Malay fisherfolk. 192-73
  Socio-cultural basis of food habits. 492-73
  CARE strikes back at world's malnutrition. 1979-73
  Food habits: a selected annotated bibliography. 2229-73
  An annotated international bibliography of nutrition education. 2273-73
  Eat not this flesh. 2999-73
  Thought for food--the social and cultural aspects of malnutrition. 155-74
  Effect of food taboos on prenatal nutrition. 162-74
  Food taboos among the Orang Asli in West Malaysia: a potential nutritional hazard. 192-74
  Diet and food beliefs of Peruvian jungle tribes. I. The Shipibo (monkey people). 197-74
  How we choose our foods--and why. 308-74
  Ethnology and health problems. 339-74
  Food acceptance in the developing world. 394-74
  Food is not just something to eat. 426-74
  Origin of selected Old Testament dietary prohibitions. 453-74
  Social, emotional and cultural influences as related to eating patterns and malnutrition. 547-74
  Religious influence on dietary intake and physical condition of indigent, pregnant Indian women. 658-74
  A background study of the food habits of the Abasamia of Busia district, western province, Kenya. 789-74
  The geographic approach to food prejudices. 920-74
  Barrio central: a study of some social and cultural factors in malnutrition. 1016-74
  Food habits of infants and preschool children in Surinam. 1018-74
  Food acceptance and flavor requirements in the developing world. 1040-74
  A suggested reading list on food habits. 2567-74

FOOD TECHNOLOGY
  Food: proteins for humans. 58-73
  Food quality - a focus for togetherness for food scientists and nutritionists. 208-73
  The Heinz handbook of nutrition. 234-73
  Food science and how it began. 334-73
  How your body uses food. 353-73
  Symposium papers on food and health. 367-73
  Nutrition education: Nutrition delivery systems and the management function. 372-73
  Food, science, and society. 401-73
  Protein quality and PER: concepts important to future foods. 459-73
  Man and food. 465-73
  Amino acid fortification of protein foods. 482-73
  Understanding food. 511-73
  The American and his food. 633-73
  Attack on starvation. 635-73
  Notes on the history of nutrition in America. 650-73
  Peanuts: production, processing, products. 668-73
  World food and population problems: Some possible solutions. 669-73
  The big debate: should FF be fortified? 672-73
  The changing food market - nutrition in a revolution. 774-73
  Industry's struggle with world malnutrition. 864-73
  Organizing for marketing and new product development. 915-73

The role of industry in meeting the challenge of future food needs. 938-73
Food science and human nutrition. 1098-73
Your future in food science. 1239-73
Food processing technology. 1291-73
The implementation of a simplified inplant food service system. 1592-73
Second-generation reconstitution systems. 1661-73
The chemicals we eat. 1796-73
Burger-type products from textured skimmilk curd. 1799-73
Clouding agents for the food industry. 1805-73
Development aids: diverse product applications identified for unique flavored protein products. 1824-73
Development and market evaluation of a tropical fruit product for a nutritious breakfast. 1827-73
Edible containers. 1832-73
Edible packaging update. 1833-73
An evaluation of frozen food indicators now on the market. 1839-73
Exploit new product technology. 1840-73
Exploring different ways of meeting nutritional needs. 1841-73
Finding the correct retail package to introduce an unbeli-evable product. 1847-73
Foods of the future. 1855-73
Fortified foods: the next revolution. 1857-73
The future of the food industry. 1864-73
The economics of food processing. 1866-73
Innovation vs nutrition as the criterion for food product development. 1870-73
Kubelka-Munk colorant layer concept. 1873-73
A manufacturer looks at food safety. 1875-73
Food pollution. 1876-73
Meeting future needs. 1879-73
Artificial and synthetic foods. 1887-73
New products from smaller companies. 1892-73
Nutrification. 1901-73
Pollution, people, power and profit - forces at work to change packaging. 1912-73
Possible developments in the supply and utilization of food in the next fifty years. 1914-73
Processing frozen breads. 1920-73
Proposed nutritional guidelines for formulated meals--foods of the future. 1921-73
Protein from microorganisms. 1923-73
Recent developments in the vitamin technology of bread---history pertinent today. 1926-73
Salmon. 1930-73
The share of foodservice to come: a fable of the future with a note on the present. 1933-73
Sophisticated technology for the school market. 1937-73
Systematic generation of ideas for new foods. 1945-73
Synthetics and substitutes for agricultural products. 1957-73
Practical food microbiology and technology. 1962-73
What will we be eating tomorrow. 1964-73
Enzymes in food processing and products, 1972. 1966-73
Dictionary of nutrition and food technology. 2204-73
Food beverage industries: a bibliography and guidebook. 2294-73
Synthetic food. 2342-73
Toward the new. 2353-73
Breakfast cereals in the American diet. 2495-73
Food technology and society. 2809-73
Soybeans: chemistry and technology. 2865-73
Utilization of novel proteins for human food. 2962-73
Food for man. 2969-73
Equate current marketing problems with new product opport-unities. 3092-73
Industry's interest in school food programs. 3202-73
Quality control for the food industry. 3656-73
The utilisation of the cook-freeze catering system for school meals; a report of an experiment conducted in the city of Leeds. 3665-73
New foods in child nutrition programs: FNS "new food" notices. 3834-73
Further product applications for textured vegetable proteins. 3835-73
Symposium on new food processing technology. 3836-73
Food product packaging and marketing. 3837-73
Additives for eye appeal. 3838-73
Textured foods and allied products. 3846-73
Texturization: vegetable proteins. 3873-73
Intermediate moisture foods: principles and technology. 3878-73
Can new protein sources avert world shortage? 3882-73
Egg science and technology. 3886-73
Introduction to food science and technology. 3887-73
Quality and stability of frozen foods. 3893-73
Products and systems evaluated and industry liaison. 3895-73
Convention commitment: 'child nutrition must leap forward'. 3949-73
Proceedings. 3961-73
Philosophy & need for technical innovation in child nutri-tion programs. 3974-73
Science for better living. 4176-73
Food science and related fields. 4180-73
Malnutrition and the food industry. 99-74
Fortification of foods with amino acids. 104-74
Symposium: developing foods for the cardiac-concerned. 973-74
Will there be enough food? 1124-74
Synthetic and substitute foods, domestic and international aspects. 1254-74
Protein 1984. 2108-74
Packaging's indispensable role in the food industry. 2112-74
Proteins from hydrocarbons. 2124-74
Food fortification. 2129-74
Technological eating or where does the fish finger point? 2146-74
Radionuclides in foods. 2147-74
Introduction to food science and technology. 2156-74
The IFT world 1974 directory & guide. 2533-74
FOOD WARMERS
Functional merchandising with infrared warmers. 1578-73
Is your kitchen obsolete?--toasters and bun warmers. 3723-73
Frozen convenience foods work 'miracle' at Mercy Hospital. 1343-74
FOOD WASTE
Groceries and garbage. 1358-74
Carrollton project SMILE"; suggested methods for improving lunchroom experiences. 2341-74
FOOD WASTE MEASURES
Preventing waste (Film Loop). 1496-73
A handbook on quantity food management. 1512-73
Disposables and disposability. 1708-73
Quality control for the food industry. 3656-73
The modern handbook of garbology. 3814-73
Down with garbage. 1406-74
Nutrition education in action in San Diego's school system. 2305-74
FOOD WRAPPINGS
Updating a centuries-old cooking technique. 3659-73
Roasting film gets hospital's OK. 3680-73
Palatability of ground beef home frozen and stored in selected wraps. 4190-73
FOOD YIELDS
Meat purchasing (Film loop). 26-73
Thiamine and riboflavin retention in cooked variety meats. 525-73
Forced convection roasting at 200 degrees and 300 degrees F. 1428-73
Holding roast beef by three methods. 1445-73
Food yields summarized by different stages of preparation. 1524-73
Cooking techniques for broiler chickens. 1814-73
Precooking and reheating of turkey. 1916-73
Handling fresh frozen cut-up chickens. 2311-73
Food purchasing guide for group feeding. 2352-73
Hearings of the McGovern Committee on Nutrition and Human Needs: a panel-by-panel report on the June, 1974 hearings. 1231-74
Experts ask action to avoid millions of deaths in food crisis. 2330-74
FOOD-INDUCED DISORDERS
Food hygiene and food hazards for all who handle food. 3781-73
Diet and birth defects in humans. 330-74
FOOD-RELATED DISORDERS
The family guide to better food and better health. 138-73
The Heinz handbook of nutrition. 234-73
Lactose intolerance. 275-73
Malnutrition and its social implications. 287-73
Food pharmacology. 480-73
Nutrition and diet therapy. 612-73
Flies, filth, and food (Film loop). 1709-73
Food pollution. 1876-73
Tion and human needs: Part 4A--food additives tion and human needs. 1954-73
Eating disorders. 2485-73
Let's get well. 2527-73
Nutrition and your mind. 2936-73
Food hygiene and food hazards for all who handle food. 3781-73
Food allergy. 720-74
FOODBORNE DISEASES
Communicating with the consumer: safety of food supply. 7-73
The family guide to better food and better health. 138-73
Encyclopedie moderne de l'hygiene alimentaire. 276-73
A 24-hour method for the detection of coagulase-positive staphylococci in fish & shrimp. 621-73
Bacterial contamination of food. 1696-73
Food-borne illness: cause and prevention (Slides). 1714-73
Food, hands, and bacteria. 1717-73
Quantity food sanitation. 1741-73
Sanitary techniques in food service. 1742-73
Quantity food sanitation. 1743-73
Salmonellosis. 1747-73
Safety and sanitation: Student's workbook. 1754-73
An Outbreak of Staphylococcus intoxication (Motion picture). 1756-73
A practical primer on essential sanitation concepts. 1758-73
The safety of foods. 1760-73
Sanitation for food service workers. 1761-73
Turkey: the bad guy of school lunch. 1781-73
Sanitary food service. 1782-73
The Unwanted four; germs that cause food poisoning (Films-trip/Record). 1783-73
Food-borne illness. 1784-73
Hearings, Ninety-second Congress, second session, on nutrition and human needs: Part 4C--food additives. 1955-73
FDA's view of food safety. 2409-73
Food hygiene and food hazards for all who handle food. 3781-73
Sanitation now. 3784-73
Uniformity - a must for effective microbial controls. 3790-73
Food poisoning and food hygiene. 3796-73
Strictly personnel: A primer on sanitation. 3811-73
It's good food, keep it safe (Filmstrip). 3812-73
It's good food, keep it safe--part III, watch the tempera-ture; part IV, every minute counts (Show N Tell). 3818-73
It's good food, keep it safe--part I, the invaders; part II, keep it clean (Show 'N Tell). 3819-73
From hand to mouth. 3821-73
Galley sanitation (Motion picture). 3822-73
Disease and personal hygiene (Motion picture). 3823-73

Nutrition perspectives in the seventies. 2789-73
Wild man or prophet?: How we got into this self-imposed economic blockade and how can we get out of it? 2985-73
Food labeling and the marketing of nutrition. 3010-73
Amendment 7 only dark spot on food service horizon. 3026-73
Nutritional labeling. 3035-73
Cuttings give quality guideline. 3036-73
School vending and the law. 3038-73
Are we allowing FDA to become a law unto itself? 3042-73
Compilation of statutes relating to soil conservation, acreage diversion, marketing quotas and allotments, wheat certificates, commodity credit corporation, price support, public law 480, export and surplus removal, crop insurance, sugar payments and quotas, marketing agreements and orders, school lunch, child nutrition, food stamp, and related statutes as of January 1, 1967. 3043-73
School lunch and child nutrition programs: hearings before the committee on agriculture and forestry, United States Senate, ninety-first Congress, first session on S. 2152, S. 2548, S. 2595, H.R. 515, and H.R. 11651; September 29, 30, and October 1, 1969. 3044-73
Special school milk program: hearing before a subcommittee oof the committee on agriculture and forestry, United States Senate, eighty-ninth Congress, second session on S. 2921, May 12, 1966. 3045-73
School milk and school breakfast programs: hearing before the committee on agriculture and forestry, United States Senate, eighty-ninth Congress, second session on S. 3467, June 21, 1966. 3046-73
Federal funds for day care projects. 3054-73
USDA issues new regulations governing free and reduced-price school lunch. 3055-73
Processing contracts for donated commodities. 3106-73
Food management companies threaten. 3120-73
New hope for school lunch programs. 3123-73
Help for school lunch managers. 3142-73
Log of the executive director: jurisdictional dispute. 3184-73
Leadership development for public service. 3514-73
Child Nutrition Programs of the Food and Nutrition Service, U. S. Department of Agriculture. 3918-73
Hunger in America: one woman's point of view. 3927-73
GAO survey indicates room for improvement. 3929-73
Log of the executive director: an historic document. 3946-73
National school lunch week: proclamation. 3962-73
Statement of PHS policy on nutrition education & training. 3976-73
Build, build, build. 3982-73
New child nutrition program opens. 3989-73
1969 marked new era in child nutrition. 3996-73
Tools to fight malnutrition. 3997-73
National school lunch program. 4004-73
National school lunch program. 4009-73
Special food service program for children; summer programs sponsor handbook. 4012-73
Washington report (Nov. 1973). 4015-73
Farm-food market basket statistics (Aug. 1973). 4133-73
Higher education guidelines: executive order 11246. 4178-73
Co-op buying boosts school lunches. 4192-73
Help for school lunch managers; C&MS offers quantity buyers an acceptance service for food. 4207-73
Facts are not enough. 209-74
Foods: fads and facts (Motion picture). 402-74
Health needs of seasonal farm workers and their families. 910-74
Food and nutrition policy--now and in the future. 1105-74
Review and advocacy: first steps in nutrition planning. 1120-74
Proceedings of the 28th conference, Miami Beach, Fla., 1973. 1128-74
Recent legislation affecting child nutrition: implications for nutritionists and dietitians. 1223-74
Hearings of the McGovern Committee on Nutrition and Human Needs: a panel-by-panel report on the June, 1974 hearings. 1231-74
Food and nutrition: is America due for a national policy? 1233-74
Official statements of guidelines for a national nutrition policy, April 1974. 1246-74
The new manpower bill: a summary. 1250-74
How do you want government to regulate hazards in food and foodservice? 1257-74
Food and nutrition services in daytime programs for young children. 2240-74
New York City's bureau of nutrition. 2247-74
Can summer feeding survive? 2362-74
GRADE 1
Health: strand I. 3503-73
Food and nutrition programs in kindergarten and first grade. 611-74
GRADE 10
Health curriculum materials, grades 10, 11, 12. 3504-73
GRADE 11
Health curriculum materials, grades 10, 11, 12. 3504-73
Food service employee. 3565-73
GRADE 12
Health curriculum materials, grades 10, 11, 12. 3504-73
Food service employee. 3565-73
GRADE 2
Health: strand I. 3503-73
GRADE 3
Health: strand I. 3503-73
Why Johnny likes carrots--he fixed them himself. 983-74
GRADE 4
Sensible nutrition makes the scene, Grades Four, Five, Six. 3299-73
Health curriculum materials, grades 4, 5, 6. 3501-73
White rats help youngsters learn good nutrition. 1740-74
GRADE 5
Sensible nutrition makes the scene, Grades Four, Five, Six. 3299-73
Health curriculum materials, grades 4, 5, 6. 3501-73
GRADE 6
Sensible nutrition makes the scene, Grades Four, Five, Six. 3299-73
Health curriculum materials, grades 4, 5, 6. 3501-73
A nutrition education unit for a sixth grade. 431-74
GRADE 7
Health curriculum materials, grades 7, 8, 9. 3502-73
GRADE 8
Health curriculum materials, grades 7, 8, 9. 3502-73
GRADE 9
Health curriculum materials, grades 7, 8, 9. 3502-73
GRADUATE STUDY
The master of science program in nutrition. 1154-73
The master's program in public health nutrition. 1155-73
Nutrition education--old problems in new settings. 1769-74
GRAIN PRODUCTS
Basic values in nutrition; part III: bread-cereal group (Transparencies). 80-73
Food uses of triticale. 209-73
Linear programming controls amino acid balance in food nutrition. 280-73
Nutritional improvement and world health potential. 421-73
Gallup surveys the breakfast cereal bowl. 843-73
Cereal service: breakfast and beyond. 1397-73
Cereal grains as dietary protein sources. 1801-73
Extrusion cooking of cereals and soybeans - part I. 1844-73
Extrusion cooking of cereals and soybeans - part II. 1845-73
Genetic improvement of crop foods. 1865-73
Meeting future needs. 1879-73
Conversion factors and technical data for the food industry. 2259-73

The cost of a dietary revolution. 2367-73
Nitrogen retention of adult human subjects who consumed wheat and rice supplemented with chickpea, sesame, milk, or whey. 2444-73
Fortification of cereals with amino acids as a realistic way of dealing with problems of protein malnutrition. 2874-73
Losses of vitamins and trace minerals resulting from processing and preservation of foods. 3883-73
Improving the nutrient quality of cereals. 3892-73
20 datos importantes sobre los cereales y la nutricion. 256-74
Prospects for meeting protein needs from conventional food sources. 855-74
The first book of food. 895-74
Lets find out about bread. 1088-74
The world food situation (Slides). 1134-74
The green revolution: income distribution and nutrition. 2267-74
World food situation. 2393-74

GRAPEFRUIT
The saga of citrus fruits. 1082-74
Grapefruit. 1160-74

GRAPES
Grapes with the magic of maraschino. 4058-73
Grapeseed oil: a rich source of linoleic acid. 581-74
An apple is red. 1094-74

GRAPHS
Nutrition charts (Charts). 2511-73
Comparison cards, Set 1...For teenagers (Charts). 2744-73
Nutritional status of people, USA. 2841-73
Food value tables expressed in circle graphs. 4126-73
Nutrition teaching aids--second set (Charts). 2505-74

GRAVIES
Co-existence: surplus commodities and convenience foods. 1400-73
Factors affecting the quality of sauces (gravies). 1420-73
Staphylococcus aureus S-6: Growth and enterotoxin production in papain-treated beef and ham and ham gravy. 3825-73
The wonderful world of mixes. 4113-73
Temperature and microbial flora of refrigerated ground beef gravy subjected to holding and heating as might occur in a school foodservice operation. 2104-74

GREAT BRITAIN
Recommended intakes of nutrients for the United Kingdom. 468-73
Effects of some new production and processing methods on nutritive values. 1837-73
Measuring dietary intake in pre-school children. 2466-73
Food for free. 2697-73
Nutritional value of midday meals of senior schoolchildren. 2823-73
Nutritional requirements--the later years. 2877-73
The utilisation of the cook-freeze catering system for school meals; a report of an experiment conducted in the city of Leeds. 3665-73
Social and economic implications of nutrition serveys and other epidemiological evidence. 183-74
Past and present malnutrition and its effect on health today. 349-74

GREEK AMERICANS
Food habits of Greek-Americans. 1015-74

GREEN REVOLUTION
This hungry world. 2617-73
The green revolution: income distribution and nutrition. 2267-74
Experts ask action to avoid millions of deaths in food crisis. 2330-74
World food situation. 2393-74

GREENWICH, CONNECTICUT
What do you do when your students are eating off campus? 3287-73

GRIEVANCE PROCEDURES
Contract clauses: Grievances. 789-73

GRILLING
Food training routines II. 1143-73
The hamburger sandwich (Film Loop). 1461-73
Our evolving technology. 1647-73
The finishing kitchen. 1686-73
Short order cookery (Film loop). 3684-73
Short order cookery (Motion Picture). 3685-73
Grill cooking. 2041-74

GROUND BEEF
Factors affecting meat purchases and consumer acceptance of ground beef at three fat levels with and without soya-bits. 3870-73
Breaded precooked beef patties. 3890-73
Palatability of ground beef home frozen and stored in selected wraps. 4190-73
Textured protein trims cost of frozen meat patties. 1480-74
Frozen, precooked beef and beef-soy loaves. 1965-74
Ground beef recipes for school cafeteries. 2463-74

GROUP DYNAMICS
Behavior modification in a self-help group - a pilot study. 86-73
Motivation and productivity. 892-73
New concepts in management. 960-73
Dynamic "Think" sessions - Summary of brainstorming groups. 1073-73
Participate reactor discussion groups. 1210-73
Techniques of group involvement. 1258-73
Games people play. 3076-73
Techniques of group dynamics. 3266-73
Film + group = more learning. 3387-73
Participation--prove it works. 3511-73
The small meeting planner. 3567-73
The emperor's clothes. 3568-73
A comparison of human development with psychological development in T-groups. 3603-73
Achieving change in people: some applications of group dynamics theory. 1306-74
Comparative group approaches. 1596-74
The challenge of group counseling. 1682-74
One strong link: program 5, working with groups (Motion picture). 1733-74
One strong link: program 5, working with groups, program 6 the home visit, pt. 1 (Videocassette). 1734-74
Hints for discussion groups. 1756-74

GROUPS
The small meeting planner. 3567-73
Developing a nutritional surveillance system. 759-74
Comparative group approaches. 1596-74
The challenge of group counseling. 1682-74

GROWTH
The ten-state nutrition survey: a pediatric perspective. 2419-73
Effect of incorporation of leafy and non-leafy vegetables in the school lunch on the growth and nutritional status of children. 2439-73
Antibiotics and nutrition. 2461-73
The long-term consequences of protein-calorie malnutrition. 2516-73
Biochemical indices of nutrition reflecting ingestion of a high protein supplement in rural Guatemalan children. 2599-73
On the pathophysiology of vitamin A deficiency. 2610-73
Deprivation syndrome or protein-calorie malnutrition. 2615-73
Malnutrition and retarded human development. 2705-73
Adolescent nutrition. 2729-73
A girl and her figure and you. 2745-73
PAG guideline (no. 7) for human testing of supplementary food mixtures. 2805-73
Health and growth: teacher's edition. 2824-73
Zinc nutrition in the United States. 2838-73
Baby's first year: Physical, mental and emotional develop-ment (Filmstrip). 2913-73
Protein intake of well-nourished children and adolescents. 2930-73
Nutrition and development. 2957-73
Effects of nutrition on growth and performance. 2963-73
Nutrition and poverty in preschool children. 2965-73
A girl and her figure. 3456-73
Basic health science d'Agostino, muriel mcKinlock. 3590-73
Developmental physiology and aging. 4171-73
What's in our food (Filmstrip). 113-74
Growth and maturation. 150-74
Barness on developmental nutrition: fat. 160-74
Nutritional status of schoolchildren. 174-74
Social and economic implications of nutrition surveys and other epidemiological evidence. 183-74
Head Start on health (Filmstrip). 287-74
Food facts for teens. 291-74
Food facts for teens. 292-74
Nutritional status of preschoolers from low-income Alabama families. 340-74
Past and present malnutrition and its effect on health today. 349-74
Food helps us grow to be as tall as we can be (Poster). 398-74
Dietary iron intakes of adolescents. 420-74
Hambidge and O'Brien on developmental nutrition: trace metals. 466-74
Problems of assessment and alleviation of malnutrition in the United States, Nashville, Tennessee, 1970. 473-74
Food--what for? 480-74
Environmental factors associated with preschool obesity; II. Obesity and food practices of children at successive age levels. 521-74
I'm Mr. Energy, in food from A to Z (Poster). 528-74
A growing story (Filmstrip/Cassette tape). 590-74
Kretchmer on developmental nutrition: developmental bioch-emistry. 595-74
Research on adolescent nutrition. 608-74
Teaching nutrition to teenagers. 618-74
Roberts' nutrition work with children. 649-74
Report of a conference on protein and amino acid needs for growth and development. 705-74
Fuel for life (Videocassette). 735-74
Fuel for life (Motion picture). 745-74
Nutrition problems of urban children. 773-74
Nutrition education workshops in early childhood, West Virginia, July, 1971. 777-74
The relationship of nutrition to brain development and behavior. 836-74
Children are different. 864-74
Relation of nutrition to physical and mental development. 867-74
Nutritional status of preschool children of Marin County welfare recipients. 871-74
Note on the assessment and classification of protein-energy malnutrition in children. 1034-74
Fetal malnutrition and future development. 1061-74
Childhood obesity. 1063-74
Childhood obesity. 1064-74
How food becomes you (Filmstrip). 1712-74
Teaching nutrition the "rat" way. 1821-74
The adolescent--his growth and development. 1841-74

GROWTH CHARTS
Health appraisal of school children. 2541-73
Height and weight of children: socioeconomic status, United States. 2601-73
Adolescent nutrition and growth. 2611-73
Height and weight of youths 12-17 years, United States. 2543-74

GUARANTEES
Guarantees/Warranties: are you getting your dollars worth? 1993-74

GUATEMALA
Biochemical indices of nutrition reflecting ingestion of a high protein supplement in rural Guatemalan children. 2599-73
The nutritionist caring for malnourished children. 2633-73
Annual patterns of family and children's diet in three Guatemalan Indian communities. 390-74

GUIDANCE
Behavioral and metabolic consequences of weight reduction. 88-73
Profitable food service management thru

GUIDELINES
counselling and intercommunication. 898-73
Lunch-room etiquette (Motion picture). 1152-73
A guide to federal assistance programs for local school systems. 4132-73
GUIDELINES
Nutritional guidelines - the how, the why, and the when. 704-73
Nutritional guidelines and the labeling of foods. 706-73
The message is you. 1156-73
The message is you - guidelines for preparing presentations, part three. 1157-73
The message is you, part II. 1158-73
Community action: adult education. 1287-73
A menu planning guide for breakfast at school. 1365-73
Breakfast program in schools receives wide acceptance. 1978-73
Developing Negroes for management positions. 3103-73
Developing a better survey questionnaire. 3117-73
Guidelines to effective communication. 3146-73
Guidelines for hospitality education in junior colleges; a manual for the establishment of programs for careers in the hotel-motel, restaurant, and institutional industries. 3297-73
Sound motion picture projectors or, will television kill the movies? 3374-73
Equipping the modern school food service facility. 3718-73
Log of the executive director: an hist oric document. 3946-73
New policy helps feed needy children. 3975-73
Higher education guidelines: executive order 11246. 4178-73
How to teach food buymanship. 52-74
Food buying tips for low income families. 74-74
Guidelines for a national nutrition policy. 979-74
Opportunity of challenge...Checklist for energy control and conservation. 1433-74
Volume feeding and operation independence. 1463-74
Guidelines for training specialists. 1567-74
An audiovisual primer. 1620-74
Motivating teenagers to improve nutrition. 1802-74
Elementary menus. 1873-74
Secondary menus. 1874-74
Another thirty days...Lunchrooms conserve energy. 1991-74
A safety self-inspection program for foodservice operators. 2083-74
Opportunities in home health services: guidelines for dietitians and nutritionists. 2162-74
Nutrition programs for preschool children. 2248-74
Home and school cooperate to enrich the home-packed school lunch. 2275-74
An agency nutritionist looks at home health care under Medicare. 2386-74
GUIDES
Guide to federal consumer services. 41-73
A sensational sausage system that sells. 659-73
Meat evaluation handbook. 698-73
A guide to nutrition and food service for nursing homes and homes for the aged. 986-73
Manual for the education of the food service supervisor, part one of two-part series. 1020-73
Manual for the education of the food service supervisor---part one of two-part series. 1022-73
Food training routines. 1142-73
Handbook of food preparation. 1380-73
Electric steam-jacketed kettles run the gamut of meal production. 1571-73
Functional merchandising with infrared warmers. 1578-73
How to relieve the chronic labor shortage with electric ste am cookers. 1589-73
Is your fry kettle capacity adequate? 1598-73
Is your oven capacity adequate? 1603-73
New models 1971 - coffee brewers, serving equipment, toasters. 1640-73
Now the trend is to waste compactors. 1645-73
Preparation-processing - part 2. 1651-73
Quality food service must bridge the temperature gap between cooking and serving. 1655-73
Systems support with key processing equipment. 1675-73
You can help fight hunger in America. 2089-73
Child nutrition programs. 2090-73
You can help fight hunger in America. 2092-73
Let's cook fish. 2174-73
Recipe index 1970. 2232-73

Purchasing manual. 4196-73
Food buying guide for type A school lunches. 4209-73
Food service guide for health care facilties. 1408-74
How to select teaching aids. 1625-74
A directory of national organizations concerned with school health 1974-1975. 2503-74
The IFT world 1974 directory & guide. 2533-74
HAITI
Child spacing as a part of nutrition education programs. 1051-73
Mothercraft centers. 2674-73
HAM
Staphylococcus aureus S-6: Growth and enterotoxin production in papain-treated beef and ham and ham gravy. 3825-73
Seven great American recipes from Williamsburg. 2487-74
The versatility of ham. 2498-74
HAMBURGERS
Sixty hamburgers later...Newspaperman researches America's favorite food. 661-73
Ground beef: passport to far-away eating (Filmstrip). 1440-73
The hamburger sandwich (Film Loop). 1441-73
Hamburgers (Film loop). 1442-73
Burger-type products from textured skimmilk curd. 1799-73
Meat pattie chosen first product to gain nutritional, textural advantages of new protein fiber. 1878-73
Hamburgers and you (Game). 2903-73
Beefish and hamburger patties rate equally in taste prefe-rence tests. 3857-73
Breaded precooked beef patties. 3890-73
Your guide to food preparation. 1934-74
Hot dogs, hamburgers & pizza. 2441-74
HANDBOOKS
Colorado school lunch handbook. 778-73
Handbook of twenty consecutive menus as submitted by Utah districts. 1367-73
Handbook of vitamins and hormones. 2680-73
The complete handbook of nutrition. 2770-73
How to become a foodservice accountant (in your spare time). 3153-73
Staff accounting for local and state school systems. 3179-73
Financial accounting: classifications and standard termin-ology for local and state school systems. 3238-73
School food service financial management handbook for uniform accounting; simplified system. 3275-73
School food service financial management handbook for uniform accounting; complete system. 3276-73
Intern expands employee handbook. 3433-73
Site handbook: special summer program for children. 4008-73
Managing restaurant personnel; a handbook for food service operators. 1297-74
Everything you always wanted to know, etc. 1598-74
An audiovisual primer. 1620-74
The Wilton yearbook of cake decorating. 1988-74
HANDICAPPED
Healtime manual for the aged and handicapped. 2024-74
HANDICAPPED CHILDREN
Feeding the child with a handicap. 562-73
Training the handicapped. 1273-73
School lunch in High Point: a community pride. 2055-73
Feeding the handicapped child. 930-74
Nutrition and feeding techniques for handicapped children. 933-74
HAWAII
A half century of changing food habits among Japanese in Hawaii. 231-73
Nutrition education practices in elementary schools in Hawaii. 397-73
Pineapple - the fruit of royalty. 2992-73
An evaluation of manpower training needs in the hotel--restaurant industry on Kauai, 1968, with recommendations on programs, sources of students, instructors, and funds. 3458-73
A brief study of cafeteria facilities and operations, with recommendations for implementation. 3748-73
Nutrition in action for young transients in Hawaii. 540-74
New life for old equipment. 2030-74
School lunch in Hawaii: 82% participation. 2342-74
Home economist-homemaker aide team expands environmental enrichment program. 2351-74
HEAD START
Nutrition: Between eating for a Head Start. 551-73
Nutrition instructors guide for training leaders. 552-73
Nutrition education for young children. 553-73
Nutrition-staff training programs. 554-73
Leader's handbook for a nutrition and food course. 555-73
Changing Head Start mothers' food attitudes and practices. 1050-73
High protein food developed for school children. 1867-73
Food to follow through. 2006-73
Head Start: A child development program. 2085-73
Parent involvement. 2086-73
Food buying guide and recipes. 2356-73
Nutrition kit. 3576-73
Jenny is a good thing (Motion picture). 4007-73
Nine week menu cook book. 4108-73
Head Start on health (Filmstrip). 287-74
Project Head Start--a challenge in creativity in community nutrition. 2214-74
Food and nutrition services in daytime programs for young children. 2240-74
Interagency committee on nutrition education (ICNE). 2333-74
Donable foods are tasty and nutritious. 2464-74
HEALTH
Food - the yearbook of Agriculture 1959. 39-73
Exercise testing and training of apparently healthy indiv-iduals: a handbook for physicians. 62-73
Disadvantaged children. 94-73
Nutrition. 111-73
The family guide to better food and

better health. 138-73
Diet healing: a case study in the sociology of health. 142-73
Nutrition, behavior, and change. 225-73
Man, health, and environment. 230-73
The Heinz handbook of nutrition. 234-73
Food becomes you or Better health through better nutrition. 279-73
Studies in disease ecology. 301-73
Symposium papers on food and health. 367-73
Research on diet and behavior. 471-73
An evaluation of research in the United States on human nutrition. 536-73
Trace elements in human and animal nutrition. 567-73
White House Conference on Food, Nutrition and Health: report of follow-up conference. 605-73
White House Conference on Food, Nutrition and Health final report. 606-73
Elementary body mechanics (Film loop). 1082-73
Integrating nutrition into the nursing curriculum. 1129-73
The food service worker (Film loop). 1713-73
Nutrition services in child health programs. 2036-73
Summer programs offer 'three squares'. 2073-73
The White House Conference on Children. 2102-73
Nutrition and dietetic foods. 2458-73
Let's eat right to keep fit. 2526-73
Let's get well. 2527-73
Ideas in health education. 2563-73
Food fats and health. 2588-73
Good food works for you (show'n tell). 2915-73
How can the foodservice operator cope with OSHA? 3021-73

Flavor secrets from foreign lands: Syria. 2448-74
Turn your soup ladle into a cook's magic wand. 2453-74
The versatility of ham. 2498-74

HEREDITARY
Dietary aspects of hyperlipidemia. 2589-73

HEREDITARY FACTORS
Hereditary galactosemia. 2603-73
Obesity--part 4: Causes. 2862-73
Diabetes mellitus and obesity. 153-74
Nutritional component in some problems of adolescence. 157-74
Diet and coronary heart disease. 331-74
Interactions between nutrition and heredity in coronary heart disease. 482-74
Feeding behaviour in obesity. 850-74

HIGH SCHOOL CURRICULUM
Outline for the preparatory course in occupational home economics in the field of food services (preparation and management). 3295-73
The development and testing of a behavioral-reference groups model for evaluation of vocational education pilot programs:occupational research development monograph no. 4. 3332-73
A pilot study for gainful employment in home economics; volume IV- a suggested curriculum guide for preparing food ser vice workers for entry level jobs. 3366-73
A pilot study for gainful employment in home economics: final report, volume I. 3367-73
Hospitality education curriculum development project: final report. 3382-73
Evaluation of secondary school programs to prepare students for wage earning in occupations related to home economics; final report, vol. II, appendix. 3497-73
Evaluation of secondary school programs to prepare students for wage earning in occupations related to home economics: final report, volume I. 3498-73
Manual of operation for vocational home economics programs in job training in high schools. 3509-73
Home economics education at the secondary level; a curric-ulum model (with emphasis on the occupational aspect). 3545-73
Food service employee. 3565-73
Upgrading Indian nutrition through youth. 94-74

HIGH SCHOOL STUDENTS
Feeding the world of the future. 2984-73
Dropouts drop in to foodservice. 3365-73
Developing a work-experience program for slow learning youth: a report of a three year extension and improvement project. 3477-73
Career planning for high school girls. 3556-73
Crotty's school service--a hit in Hastings. 3922-73
Double shift at high school opens door to vending. 3923-73
Kid scrable to lunch!. 3942-73
A look at high schools: What makes lunch sell? 3947-73
Why won't some teenagers eat? 1469-74
Boys unlimited: are you ready to teach the boys? 1760-74
Their classroom is an all-electric kitchen. 1825-74
Youth power in Ohio. 2412-74

HIGH SCHOOLS
Recommendations of panels on nutrition teaching and education. 2890-73
Recommendations of panels on nutrition teaching and education. 2891-73
How to make more money. 3159-73
What do you do when your students are eating off campus? 3287-73
Status of curriculum development in the field of commercial food at the non-baccalaureate level. 3311-73
Acceptance of the school lunch program in Louisiana high schools. 3902-73
Kid scrable to lunch!. 3942-73
2 ways to make school lunch fun!. 3957-73
School foodservice in Knoxville. 3979-73
School lunch program booms in Fulton County, Ga. 3990-73
Upgrading Indian nutrition through youth. 94-74
High school nutrition education: how effective is it? 899-74
The white house conference on food, nutrition, and health; recommendations of panels on nutrition teaching and education. 1045-74
Why won't some teenagers eat? 1469-74
School kitchen is designed to keep pace with enrollment. 2039-74
Boys brighten school cafeteria. 2168-74
Buffet makes the difference. 2231-74
Try trim-a-pound. 2232-74
Lunch is served in seconds. 2259-74
School lunch in Hawaii: 82% participation. 2342-74
Soft-Serve is snack bar favorite. 2354-74

HIGH-CALORIC DIETS
A critique of low-carbohydrate ketogenic weight reduction regimens: a review of Dr. Atkins' Diet Revolution. 2518-73

HIGHER EDUCATION

A new audience for nutrition education. 337-74
Dietetics and human ecology. 494-74
Discharge diets versus patient education. 550-74
How to get patients to eat right foods. 698-74
Nutrition in the hospital (Filmstrip/Cassette tape). 842-74
Food for fun and thought: nutrition education in a childr-en's hospital. 848-74
Physicians' attitudes on dietitians' contributions to health team care. 937-74
Food service guide for health care facilties. 1408-74
Dietary clinic televised "live" for patients. 1514-74
Knoxville hospital sponsors a clinic on diabetic foods. 1542-74
A teaching-learning theory for results in in-service education. 1601-74
Effective diet conseling begins early in hospitalization. 1662-74
The diabetic clinic. 1675-74
Making employee orientation work. 1677-74
Principles of interviewing and patient counseling. 1692-74
Dietary cartoons in creating patient good will. 1899-74
Patients learn how to calculate special diets in hospital classes. 1905-74
Modular system heats meals on plate without use of standard ovens. 2027-74
Use and cost of supplies for machine washing of permanent tableware. 2080-74
Diet counselors serve community in three New Jersey hospitals. 2179-74

Feeding the poor. 2242-74
A 'fair' way to teach nutrition. 2279-74
Food fun, fairs, facts. 2319-74
Planning new community services--comprehensive care programs for the aging. 2321-74
Pediatric cafeteria. 2352-74
Simplified quantity recipes: nursing/convalescent homes and hospitals. 2428-74
HOTELS
The hotel and restaurant business. 642-73
Managerial accounting for the hospitality service industries. 818-73
The management of people in hotels, restaurants, and clubs. 878-73
Marketing in action for hotels, motels, restaurants. 967-73
The science of housekeeping. 982-73
The 3C's of atmosphere, II. 1688-73
The 3C's of atmosphere, I. 1689-73
Guidelines for hospitality education in junior colleges; a manual for the establishment of programs for careers in the hotel-motel, restaurant, and institutional industries. 3297-73
A follow-up study of junior college hotel & restaurant education in Florida. 3298-73
11 things you need to know in planning a training meeting at a hotel. 3324-73
An evaluation of manpower training needs in the hotel--restaurant industry on Kauai, 1968, with recommendations on programs, sources of students, instructors, and funds. 3458-73
San Francisco: A celebration of excellence. 3687-73
Quality fire protection for the haute monde. 3752-73
Hotel and restaurant administration and related subjects a bibliography. 4165-73
Hotel and restaurant administration and related subjects. 4166-73
What's for lunch, Charley. 512-74
Hotel and restaurant administration and related subjects: a bibliography. 2565-74
HOUSEHOLD CONSUMPTION
Changes in diets of households, 1955 to 1965: implications for nutrition education today. 97-74
Diets of men, women, and children in the United States. 386-74
Food consumption of households in the United States, seasons and year 1965-66. 2573-74
Food consumption of households in the northeast, seasons and year 1965-66. 2574-74
HOUSEHOLD SURVEYS
Food consumption of households in the South: seasons and year 1965-66. 2905-73
Food consumption of households in the West: seasons and year 1965-66. 2906-73
Food consumption of households in the North Central region: seasons and year 1965-66. 2907-73
Food consumption of households by money value of food and quality of diet: United States, North, South. 2910-73
Changes in diets of households, 1955 to 1965: implications for nutrition education today. 97-74
Diets of men, women, and children in the United States. 386-74
Manual on household food consumption surveys. 2482-74
HUMAN RELATIONS
Nutrition, development and social behavior. 2660-73
Games people play. 3076-73
"be-attitude": integrity (Filmstrip/record). 3089-73
Principles of personnel management. 3119-73
Occupational stress and physical health. 3149-73
Secretary-Boss relationships. 3170-73
Principles of administrative and supervisory management. 3198-73
Every employee a manager. 3204-73
The role of women in training and development. 3398-73
The case observational method: a new training technique. 3402-73
The emperor's clothes. 3568-73
A comparison of human development with psychological development in T-groups. 3603-73
I'm OK, you're OK. 4141-73
A look at you: health (Motion picture). 93-74
Dietetics and human ecology. 494-74
What every supervisor should know. 1293-74
Motivating human behavior. 1317-74
Job evaluation's role in employee relations. 1318-74
Motivation (Slides/cassettes). 1325-74
Self-discovery for the manager (Audiocassettes). 1340-74
Help!. 1344-74
Manage or be managed! a guide to managerial effectiveness. 1348-74
Motivation and productivity. 1354-74
Operations management: "The negative factor" (24 ways to go broke). 1356-74
How to motivate employees. 1374-74
How managers make things happen. 1430-74
Paranoia!. 1434-74
The innovator and the ritualist: a study in conflict. 1447-74
Beyond theory Y; the contingency approach to management (Motion picture). 1451-74
Theory X and theory Y; two sets of assumptions in busines-smanagement (Motion picture). 1452-74
Learning how to lead. 1453-74
What counts most in your operation? (answer: people). 1494-74
Life script awareness in career development: human behavior observed through transactional analysis. 1504-74
Train through experience. 1522-74
Communication with low-income families. 1535-74
The bBP training director's handbook. 1540-74
A change in attitudes--produced by skillful face-to-face communication!. 1638-74
One strong link: program 1, definition of the aide's job (Videocassette). 1725-74
One strong link: program 1, definition of the aide's job (motion picture). 1726-74
One strong link: program 2, values and attitudes (Motion picture). 1727-74
One strong link: program 2, values and attitudes (Videoca-ssette). 1728-74
One strong link: program 3, motivation (Motion picture). 1729-74
One strong link: program 3, motivation (Videocassette). 1730-74
One strong link: program 5, working with groups (Motion picture). 1733-74
One strong link: program 5, working with groups, program 6 the home visit, pt. 1 (Videocassette). 1734-74
One strong link: program 6, the home visit, pt. 1 (Motion picture). 1735-74
One strong link: program 7, the home visit, pt. 2 (Motion picture). 1736-74
One strong link: program 7, the home visit, pt. 2, program 8, evaluation (Videocassette). 1737-74
Tuning in to the community. 1762-74
Helping disadvantaged families improve their diets. 1863-74
Let's break bread together. 2190-74
School lunch--more than a filling station. 2361-74
Learning about people through their foods. 2493-74
HUNGER
Hunger, U.S.A. 119-73
Focus on nutrition...You can't teach a hungry child. 2. 184-73
How can we solve malnutrition in the U.S.? 242-73
Hunger and malnutrition - whose responsibility? 249-73
If you want to beautify America, feed a child. 250-73
Now, how about child day everyday? 373-73
T.L.C. and the hungry child. 509-73
You can't teach a hungry child. 1 lunch survey. 619-73
Attack on starvation. 635-73
Overcoming world hunger. 652-73
The case against hunger. 690-73
NSB on the hunger front. 1960-73
The lunch bunch study. 2019-73
You can help fight hunger in America. 2089-73
You can help fight hunger in America. 2092-73
Malnutrition and hunger in the United States. 2432-73
Hunger U.S.A. revisited. 2504-73
Education and training in nutrition. 2565-73
Nutritional problems in the South. 2591-73
This hungry world. 2617-73
Do you think fat or thin? 2671-73
A commentary on hunger and malnutrition today. 2691-73
The relationship of nutrition to brain development and behavior. 2757-73
Malnutrition, hunger, and behavior; I. Malnutrition and learning. 2815-73
Malnutrition, hunger, and behavior; II. Hunger, school feeding programs, and behavior. 2816-73
What it is like to be hungry. 2819-73
Can calories be percieved, and do they affect hunger in obese and nonobese humans? 2960-73
World food. 2983-73
Hunger in America: one woman's point of view. 3927-73
Log of the executive director: an historic document. 3946-73
Convention commitment: 'child nutrition must leap forward'. 3949-73
There will be no hungry children in America. 3969-73
The remarkable Miss Walsh and Cincinnati's penny lunch. 3972-73
1969 marked new era in child nutrition. 3996-73
Nutrition gets the call. 41-74
Hunger and malnutrition in the world today. 175-74
Hunger and malnutrition in Georgia, 1969. 253-74
Nutrition problems of the Southeast: Georgia--a case in point. 255-74
Malnutrition and hunger--whose responsibility is it? 440-74
Hunger in Chicago. 525-74
The central nervous system: its central role in discrimin-ation and selection of food. 614-74
Food and man. 630-74
Overweight. 669-74
Scientific study of malnutrition as a limiting factor in the development of education. 811-74
Learning better nutrition. 851-74
The first book of food. 895-74
You and your senses. 896-74
When hunger calls. 1046-74
Food preferences and the regulation of eating. 1071-74
Population growth, food needs and environmental stress. 1087-74
Federal food programs--1973, hearings, ninety-third Congress, first session, part 2--hunger in 1973. 1263-74
Hunger and development (kit). 2163-74
Lessons for the Federal effort against hunger and malnutr-ition--from a case study. 2271-74
Food and nutrition procedures in time of disaster. 2280-74
Flowers in the desert; how one dedicated man pursued the philosophy that you can't teach a hungry child. 2377-74
HYDROCARBONS
Proteins from hydrocarbons. 2124-74
HYDROXYPROLINE INDEX
Nutritional status of Negro preschool children in Mississippi - evaluation of HOP index. 425-73
HYGIENE
Nutrition for athletes: A handbook for coaches. 60-73
Exercise testing and training of apparently healthy indiv-iduals: a handbook for physicians. 62-73
Encyclopedie moderne de l'hygiene alimentaire. 276-73
How we take care of our teeth. 331-73
A boy and his physique. 333-73
Food and care for dental health. 340-73
Food service orientation (Film loop). 1102-73
Lunch-room etiquette (Motion picture). 1152-73
Write your own ticket (Filmstrips/Records). 1316-73
Cleanliness and safety (Film Loop). 1700-73

  Cleanliness and safety (Film loop). 1701-73
  Food preparation (Motion picture). 1712-73
  The food service worker (Film loop). 1713-73
  Food, hands, and bacteria. 1717-73
  Handwashing procedures (Film loop). 1720-73
  Hospital food sanitation. (Film loop). 1721-73
  Keep clean, stay well (Motion picture). 1729-73
  Kitchen habits (Motion picture). 1732-73
  Safety and sanitation: Student's workbook. 1754-73
  An Outbreak of Staphylococcus intoxication (Motion picture). 1756-73
  Sanitation for food service workers. 1761-73
  Safety is up to you (Filmstrip). 1766-73
  Serving food (Motion picture). 1775-73
  Standards of cleanliness (Film loop). 1778-73
  The Unwanted four; germs that cause food poisoning (Films-trip/Record). 1783-73
  Washing-up: Part 1 (Slides). 1786-73
  Washing-up: Part 2 (Slides). 1787-73
  How to get in shape and stay there. 2562-73
  Your body and how it works. 2837-73
  Kitchen procedures manual. 3644-73
  Safety guide for health care institutions. 3778-73
  Food hygiene and food hazards for all who handle food. 3781-73
  Dishroom maintenance and cleaning (Filmstrip/cassette tape). 3783-73
  Sanitation now. 3784-73
  Sub-System 10: Sanitation. 3787-73
  Food poisoning. 3789-73
  Food poisoning and food hygiene. 3796-73
  Safety and sanitation in school food service. 3797-73
  Industrial cleaning & hygiene. 3798-73
  Bugs beware (Film loop). 3803-73
  Sanitation in food handling (Filmstrips/Tapes). 3806-73
  Oklahoma school lunch sanitation & safety: a guide. 3807-73
  Strictly personnel: A primer on sanitation. 3811-73
  Keeping food safe to eat. 3817-73
  It's good food, keep it safe--part I, the invaders; part II, keep it clean (Show 'N Tell). 3819-73
  Food service sanitation manual. 3820-73
  Disease and personal hygiene (Motion picture). 3823-73
  Conference on sanitation and food safety: proceedings sanitation and food safety conference August 21, 22, and 23, 1973. 3826-73
  A look at you: health (Motion picture). 93-74
  Usted y su bebe contento. 249-74
  La alimentacion del nino en el primer ano (Filmstrip). 531-74
  Food to grow on. 722-74
  Second thoughts on knowledge and attitude effects upon behavior. 970-74
  Beginning responsibility: lunchroom manners (Motion picture). 1574-74
  Puericultura--un manual para asistentes sociales y dirige-ntes en las comunidades rurales. 1667-74
  La formula para su nino. 1926-74
  Kitchen sanitation and food hygiene. 2061-74
  Lunchroom sanitation and safety. 2063-74
  Clean catering. 2066-74
  The unwanted four (Filmstrip/cassette). 2070-74
  Let's keep food safe to eat (Motion picture). 2071-74
  Protecting the public (Filmstrips/Records). 2086-74
  A reference manual of food service sanitation: educational & training materials. 2087-74
  What a food service employee should know about bacteria. 2092-74
  Kitchen sanitation. 2101-74
  La compra de alimentos en el mercado (Filmstrip). 2589-74

HYPERACTIVITY
  The hyperactive child. 929-74
HYPERCALCEMIA
  Hypercalcemia and skeletal effects in chronic hypervitaminosis A. 404-74
HYPERLIPOPROTEINEMIA
  Dietary aspects of hyperlipidemia. 2589-73
  A dietary approach to coronary artery disease. 2739-73
HYPERLIPOPROTEINEMIA DIETS
  Dietary aspects of hyperlipidemia. 2589-73
HYPERTENSION
  Salt in infant foods. 2559-73
  Watch your blood pressure!. 2639-73
  A sociobiological approach to the study of coronary heart disease. 2689-73
  Epidemiology of coronary heart disease. 2870-73
  The 'big three' risk factors that predict coronary disease best. 88-74
  Obesity and the unborn child. 172-74
  Cardiovascular diseases: care and prevention - 2. 380-74
  Cardiovascular diseases: care and prevention - 3. 382-74
  Natural history of hypertension, a case for selective non--treatment. 414-74
  Essential hypertension in children and youth: a pediatric perspective. 623-74
  Primary prevention of the atherosclerotic diseases. 817-74
  Approach to assessment of risk factors in mild hypertension. 963-74
  Water and heart disease: the harder the deadlier? 1033-74
HYPERTRIGLYCERIDEMIA
  Triglyceridemia. 2414-73
  Metabolic consequences of feeding frequency in man. 2546-73
HYPERVITAMINOSIS A
  Hypercalcemia and skeletal effects in chronic hypervitaminosis A. 404-74
HYPERVITAMINOSIS D
  Hypercalcemia and skeletal effects in chronic hypervitaminosis A. 404-74
HYPOGLYCEMIA
  The dramatic story of PKU. 155-73
  A critique of low-carbohydrate ketogenic weight reduction regimens: a review of Dr. Atkins' Diet Revolution. 2518-73
  The low blood sugar cookbook. 4041-73
  Hypoglycemia. 622-74
  Americans love hogwash. 875-74
  Adrenal cortex injection for hypoglycemia. 932-74
  Hypoglycemia control cookery. 2483-74
HYPOTHALAMUS
  Obesity--part 5: Regulation of food intake. 2861-73
IATROGENIC MALNUTRITION
  The view from the catbird's seat--Part I. 360-74
ICE CREAM
  Ice cream. 625-73
  Better heat shock resistance and extrudability in ice creams with microcrystalline cellulose. 1798-73
  Creative ways with soft serve. 2124-73
  Ice cream cocktails: a profit potential. 2144-73
  Ice cream for you and me. 2462-73
  Dairy products--there's more to milk than just a cold drink. 2578-73
  Ice cream: the great American favorite. 1083-74
  Dairy products. 1095-74
  La familia leche. 1099-74
  How we get our dairy foods. 2109-74
ICE MAKING EQUIPMENT
  Automatic ice making equipment. 1616-73
ICED TEA
  Anyone can make good iced tea. 1915-74
IDAHO
  Cup-cans come to Idaho. 4014-73
  Boise: The potato place to be. 4098-73
  What are lentils? 1212-74
ILLINOIS
  The year-round school: faddish or feasible. 2297-73
  Nutrition awareness in the supermarket. 2-74
  Year-round school means more money for foodservicers. 1497-74
  New pressure fryers up fried chicken sales. 2031-74
  Extension service programs promote good nutrition. 2235-74
  Teen time food fare: 'action package' for nutrition education. 2288-74
  Teenagers tell us about their nutrition. 2356-74
ILLITERACY
  Nutrition education of illiterate people. 325-74
ILLNESS
  Let's get well. 2527-73
  Como conocer la buena o mala salud de nino (Filmstrip). 284-74
  The hot-cold theory of disease: implications for treatment of Puerto Rican patients. 481-74
  Society and health in the lower Rio Grande Valley. 636-74
  Folk disease among urban Mexican-Americans: etiology, symptoms, and treatment. 652-74
ILLUSTRATIONS
  New labels help sell nutrition. 1241-74
  Visual aids: why?--where?--what? 1585-74
  Food facts and fun with Butter and Boop. 1594-74
  Better visuals: you can make them happen. 1788-74
  Frozen food packaging - to see or not to see. 2142-74
IMITATION FOODS
  Substitutes for whole milk. 2431-73
  Symposium on new food processing technology. 3836-73
  Imitation meats and meat flavorings: food for the future. 3853-73
  Formulating an imitation cheese spread to make dairy proteins go farther. 2110-74
IMITATION MILK
  Substitutes for whole milk. 2431-73
  Nutritional value of milk compared with filled and imitation milks. 2480-73
  Mejores compras en leche. 7-74
IMMUNITY
  Nutrition and acquired immunity. 143-74
INBORN ERRORS OF METABOLISM
  Highlights of research on nutrition and mental ability. 2492-73
  Kretchmer on developmental nutrition: developmental bioch-emistry. 595-74
INCAPARINA
  Biochemical indices of nutrition reflecting ingestion of a high protein supplement in rural Guatemalan children. 2599-73
INCOME
  Food spending and income (Feb. 1973). 2380-73
  Social and cultural factors influencing malnutrition. 2532-73
  Food spending and income (Aug. 1973). 4136-73
  Food spending and income (Nov. 1973). 4137-73
  Food spending and income (Feb. 1974). 28-74
  The real facts about food. 76-74
  Food spending and income (August 1974). 77-74
  Food spending and income (May 1974). 78-74
  A comparison of lower-income and upper-income homemakers relative to their knowledge and practice of nutrition. 208-74
  The effect of income on food habits in Sri Lanka: the findings of the socio-economic survey of Sri Lanka, 1969/70. 815-74
  Food marketing in Latin America: new lifestyles, new eating habits. 1450-74

INJECTIONS
Usted y diabetes. 1013-74
INNOVATION
Recent advances & problems in nutrition & food science, and implications for child nutrition programs. 2415-73
Soybeans: chemistry and technology. 2865-73
Prescription for progress. 3231-73
A look at the schools of tomorrow--a speech given to the 1stannual school administrators seminar of the American school food service association (Vail Village, Colo., Dec. 6-8, 1967). 3388-73
San Francisco: A celebration of excellence. 3687-73
Baker's yeast--world's oldest food--is newest source of protein and other ingredients. 3832-73
Progress not 'revolution,' is watchword in retail FF packaging. 3856-73
Innovation within the Seattle school lunch system. 3940-73
Convention commitment: 'child nutrition must leap forward'. 3949-73
Product development opportunities within the school break-fast program. 3966-73
Philosophy & need for technical innovation in child nutri-tion programs. 3974-73
National school lunch program. 4009-73
A conceptual framework for the diffusion of innovations in vocational and technical education. 4146-73
Innovations and challenges (Videocassette). 743-74
Management psychology: explosive change versus gradual change. 1339-74
School lunch--student body: hand-in-hand in bountiful. 2344-74
INSECT CONTROL
Control of ants, flies and mosquitoes (Film loop). 1705-73
Flies, filth, and food (Film loop). 1709-73
Identification and control of roaches (Film loop). 1724-73
Sanitation: Rodent and insect control (Film Loop). 1770-73
For a clean restaurant...Look this close. 3800-73
Common sense pest control. 2090-74
INSERT PANS
New dimensions in aluminum disposables. 1634-73
INSERVICE COURSES
A guide to the evaluation of educational experiences in the armed services. 1017-73
How to purchase for school lunch. 1176-73
Food purchasing: study guide. 2344-73
At-The-Job training. 1513-74
Some teacher-centered in-service programs. 1722-74
INSERVICE EDUCATION
Materials and methods in nutrition education. 183-73
Nutrition education and the related management processes. 306-73
Nutrition education: Nutrition delivery systems and the management function. 372-73
Innovative approaches to nutrition education and related management processes. 499-73
Nutrition-staff training programs. 554-73
Nutrition education in the school food service: challenge, change, and commitment. 592-73
Innovative management for the expanding school food service program. 910-73
Management functions for state and system level school and non school food service administrators. 958-73
Management function of a centralized school food service system. 959-73
New concepts in management. 960-73
School food service management development program: Manual, advanced course. 1001-73
Manual for the education of the food service supervisor, part one of two-part series. 1020-73
Manual for the education of the food service supervisor---part one of two-part series. 1022-73
An application of instructional development in a state department of education. 1028-73
Subjective evaluation of an experimental training program for food service personnel. 1037-73
Effects of an experimental training program for food service personnel. 1041-73
Selected aptitudes of food service personnel participating in two methods of training. 1072-73
Instructor's outline for foundations of school food service. 1094-73
A foundation for in-service success. 1104-73
Relationship of aptitudes to retention of learning and attitude change two years after food service training. 1122-73
Techniques of main dish preparation. 1138-73
Techniques of main dish preparation. 1139-73
Analysis of tests used to evaluate a training program for food service personnel. 1141-73
Development of an instrument to evaluate the effect of a school lunch training program. 1148-73
The long view. 1151-73
Employee training in food service establishments. 1153-73
Retention of learning two years after an experimental training program for food service personnel. 1159-73
A food service supervisor's course on a college campus. 1180-73
Some aspects of an experimental training program for food service personnel. 1182-73
Management I. 1201-73
Oklahoma school lunch course of study. 1202-73
Oklahoma school lunch desserts. 1203-73
The training of ancillary staff in hospitals. 1242-73
A critical evaluation of in-service training for classified employees in selected educational organizations in the United States. 1246-73
Training can be professional. 1268-73
School lunch leadership training conference. 1275-73
Food and nutrition; a problem-centered approach. 1277-73
School food service management development program: Manual, intermediate course. 1313-73
Food preparation: study course. 1414-73
Food preparation for school food service personnel. 1436-73
Salads and vegetables. 1478-73
Food sanitation: study course. 1728-73
Sanitary food service. 1782-73
The innovative diffusion center: a potential concept to accelerate educational change. 2242-73
Stirring the cultural melting pot. 2513-73
Nutrition in Maternity and Infant Nursing Care, A short course. 2904-73
Workshop for school food service supervisors and managers. 3211-73
Strategies for disseminating curriculum support materials. 3333-73
Inservice teacher workshops. 3338-73
Knee groups-in tight, not up tight. 3403-73
Smile, you're on classroom camera. 3474-73
Teacher's guide: food service organization and management I;responsibilities of the manager. 3499-73
Leadership development for public service. 3514-73
The secret is on-going training. 3523-73
On-the-job performance following an experimental training program for food service personnel. 3544-73
In-service nutrition education for elementary teachers. 3550-73
Telelectures vs. workshops in continuing professional education. II. Statistical comparison of learning. 3553-73
Menu Planning for Child Care Programs (Slides). 3623-73
Business meetings boost nutrition. 224-74
At-The-Job training. 1513-74

Theory X and theory Y; two sets of assumptions in busines-smanagement (Motion picture). 1452-74
Personnel management: a t/a perspective. 1479-74
Balanced creativity. 1488-74
Dynamics of managerial leadership. 1490-74
The 15 golden rules for success as a manager. 1496-74
How to talk training talk. 1783-74

MANAGEMENT SYSTEMS
A system---What it is and what it does. (Part 2). 975-73
Developing managers--an integral part of the management process. 3107-73
Management by objectives can work. 3133-73
Putting management theories to work. 3172-73
Participation--prove it works. 3511-73
Tell it like it is. 1291-74
Application of the index of relevance to personnel management. 1314-74
Manpower value planning. 1341-74
Implementing management by objectives. 1367-74
Delphi techniques helps set ASFSA goals. 1399-74
Implications of the HRD concept: broadening the scope of training and development. 1414-74
Management by objectives: antidote to future shock. 1432-74
A systems approach to management development. 1472-74
Training and development programs: what learning theory and research have to offer. 1780-74
How to talk training talk. 1783-74

MANGOES
Mangoes. 1192-74

MANPOWER NEEDS
Manpower needs in the nursing home industry. 3189-73
Difficulties of black supervisors. 3272-73
A study of career ladders and manpower development for non--management personnel in the food service industry. 3364-73
An evaluation of manpower training needs in the hotel--restaurant industry on Kauai, 1968, with recommendations on programs, sources of students, instructors, and funds. 3458-73
Personnel training and employment needs of hospital food services in Tennessee. 3515-73
Manpower research visibility. 3526-73
The dietetic profession--a manpower survey. 4128-73
The new manpower bill: a summary. 1250-74
Manpower value planning. 1341-74
How to conserve employee energy. 1371-74
Everything you always wanted to know, etc. 1598-74

MANUALS
Modern food analysis. 232-73
Milk and milk products in human nutrition. 273-73
Laboratory handbook of methods of food analysis. 277-73
The chemical analysis of foods. 447-73
Baker boy manual; a guidebook for your retail operation. 862-73
Associates of Look's hand book. 876-73
Principles of public accounting. 987-73
Examiner's manual for the tests of general educational development. 1019-73
Techniques of main dish preparation. 1139-73
Introductory foods. 1164-73
Special food service program for children, summer programs. 1285-73
Standards, principles, and techniques in quantity food production. 1458-73
A handbook on quantity food management. 1512-73
Practical baking. 1517-73
Practical food microbiology and technology. 1962-73
University of Colorado Libraries programmed textbook. 2218-73
Methods in food analysis. 2654-73
Motivation training manual. 3284-73
Manual of operation for vocational home economics programs in job training in high schools. 3509-73
Training manual: special summer food service program. 4006-73
Manual of applied nutrition. 556-74
Bookkeeping procedures and instructions. 1425-74
How to buy equipment-the smart way. 2034-74
The keyword in successful food service; clean. 2102-74

MARASMUS
Malnutrition and learning. 2814-73
Improvement of the nutritional status of infants and children--consideration of Northeast Brazil program. 168-74
Medical nutrition teaching charts (Posters). 370-74
Nutrition teaching mini kit (Posters). 371-74
Neuropsychomotor development and pneumoencephalographic changes in children with severe malnutrition. 645-74
Early malnutrition and brain development. 1014-74
The great protein fiasco. 2286-74

MARGARINE
Fatty acids in newer brands of margarine. 179-73
Use of lowfat dairy spread in medium white suace and plain white frosting. 1530-73
Nutritional values. 90-74
Lipid composition of selected margarines. 251-74

MARINATION
Flavor secrets from foreign lands: West Africa. 4051-73

MARKETING
Consumer behavior. 16-73
FF industry must gain consumers' confidence in nutrition values. 18-73
Food retailers help teach food buying.

21-73
This is USDA's Consumer & Marketing Service. 37-73
Nectarines. 43-73
What the consumer expects of quality assurance. 45-73
How the fresh fruit and vegetable marketing system contri-butes to optimum nutrition. 570-73
The perfect prune: a 1970 market report. 654-73
Dry onions. 666-73
Confusing laws complicate marketing picture for new products. 679-73
Two nutritional labeling systems. 721-73
The "captive" employee unshackled. 749-73
Changes in food wholesaling. 773-73
Comparison of cost structures of food stores and eating and drinking places. 783-73
Consumer considerations: deep-fried foods. 787-73
Consumers rate frozen cuts equal to fresh meat in flavor, juiciness. 788-73
Engineered foods--The place for oilseed proteins. 809-73
FF per capita consumption hits 72.9 lbs. a year. 815-73
FF service companies vie for share of $ million school lunch programs. 816-73
Food service management: A distributive education manual. 824-73
Franchising in perspective. 830-73
Fresh beef ads and product names. 831-73
Gallup determines potato popularity. 833-73
Gallup survey - a case for vegetable variety. 840-73
Growth through new ventures. 846-73
Industry's struggle with world malnutrition. 864-73
Organizing for marketing and new product development. 915-73
Positioning creative touch - a new way to flavor foods. 923-73
Retail frozen food sales by state. 935-73
School lunch program becomes big factor for frozen meat firm. 949-73
Some factors in building an effective marketing program. 955-73
Marketing in action for hotels, motels, restaurants. 967-73
Teenager - the marketer's dilemma. 977-73
Venturing into the '70's. 994-73
Will advance testing reduce new product risks? 1000-73
Young America dines out: how youth voted in '72. 1005-73
Food service selling. 1260-73
Contemporary meal management. 1343-73
Menu design - merchandiing and marketing. 1358-73
Food service managers locate FF easily; it's making a choice that's difficult. 1426-73
The great American menu mix. 1439-73
Heroes & submarines - new life for faded menus. 1443-73
Pocono produce increases FF volume by selling a convenience concept. 1487-73
Versatile potatoes increase menu variety, while low cost augments profit margin. 1536-73
What systems built: favored fare of '72. 1541-73
Public health aspects of poultry processing (Motion picture). 1759-73
The $130 billion food assembly line (Filmstrip). 1789-73
Are U.S. dairymen overlooking potential of frozen milk concentrates market? 1793-73
Components versus meals. 1808-73
Convenience isn't enough in foods for the '70's. 1812-73
Development and market evaluation of a tropical fruit product for a nutritious breakfast. 1827-73
Extruded snack matched to nutritional needs, and marketed to school age consumers. 1843-73
Frozen, precooked rice shapes suitable for all markets. 1862-73
Further processed, precooked frozen meats growing at better than 20% annually. 1863-73
The economics of food processing. 1866-73
Independent bakers prove sales advantage of nutritional enrichment. 1869-73
Introduction of OJ-related products strikes some sour notes in industry. 1872-73
The metric question - expect new packages, trade shifts. 1880-73
Microfragrance. 1881-73
The new foods and the markets that need them. 1889-73
Optimum net fill of containers. 1906-73
Planning: that's how to develop a new package for a new product. 1911-73
Positioning a product for the special market. 1913-73
Processes and potential markets for instant bean powders. 1918-73
Sophisticated technology for the school market. 1937-73
The Sacramento system: commodity compatability. 2050-73
The Federal School Lunch and Special Milk Program in Tennessee. 2075-73
What was the Rutgers study? 2100-73
The IFMA encyclopedia of the foodservice industry. 2243-73
Selected research abstracts of published and unpublished reports pertaining to the food service industry. 2279-73
Food beverage industries: a bibliography and guidebook. 2294-73
Bid specs ensure quality, lower costs. 2302-73
Handling, transportation, and storage of fruits and veget-ables. 2345-73
You and your frozen-food distributor. 2365-73
The greengrocer. 2370-73
Food prices (Feb. 1973). 2379-73
What's behind rising food costs? 2406-73
40 points to ponder about the customer of the future. 2410-73
Food: the story of a peanut butter sandwich (Motion picture). 2688-73
How to win the grocery game. 2776-73
A Right to Survive. 2885-73
Foods. 2923-73
World food resources. 2973-73
Problems and prejudices encountered in introducing new foods in developing countries. 2977-73
Wild man or prophet?: How we got into this self-imposed economic blockade and how can we get out of it? 2985-73
In praise of lamb (Filmstrip). 2986-73
Food labeling and the marketing of nutrition. 3010-73
Egg grades: a matter of quality (Motion Picture). 3048-73
Equate current marketing problems with new product opport-unities. 3092-73
When, why and how of concept testing. 3099-73
Fitting menus to the school market. 3102-73
College foodservice. 3110-73
Frozen foods in food service. 3118-73
Meal management. 3173-73
Productivity in the food industry; a preliminary study of problems & opportunities. 3205-73

The wonderful world of freshness (Filmstrip/Cassette tape). 2921-73
Yummy rummy (Game). 3306-73
Our friends in story. 3353-73
Preparing our noon lunch at home alone. 3354-73
Community helpers. 3355-73
Think nutrition (poster). 3386-73
The winning combination. 3563-73
Two off-line computer assisted nutrient standard menu planning techniques. 3606-73
Food fundamentals. 3664-73
Pork in family meals. 3696-73
Recipes for imaginative low-cost meals. 4025-73
Cooking with understanding. 4079-73
Quantity recipes for child care centers. 4104-73
Using your supermarket as a resource. 44-74
Your money's worth in foods. 53-74
Vegetables in family meals. 70-74
Eggs in family meals. 73-74
Dietas diabeticas con alimentos Mexicanos. 210-74
Dieta baja en sal para la mujer encinta. 228-74
Comida que debe usted comer antes del nacimiento del bebe. 229-74
Dieta para el control de peso para la mujer encinta (1500 calorias). 231-74
Los ninos pequenos necesitan buenos alimentos (Charts). 232-74
La dieta diabetica. 236-74
Menos calorias para mejor salud. 238-74
Oigan ninos! aqui esta el plan para comer. 248-74
Alimentos para madres embarazadas y lactantes (Filmstrip). 283-74
Balance your meals and lose weight. 288-74
Ways to add appeal to teenage dieting. 304-74
Nutrition knowledge and attitudes of mothers. 366-74
Alimentacion del nino pre-escolar (Filmstrip). 379-74
My food plan. 391-74
Be informed on nutrition. 452-74
Alimentos esenciales--guia diaria para usted y su familia. 478-74
Nutrition and the elderly. 642-74
Coma fruta para buena salud. 689-74
Coma vegetables para buena salud. 690-74
Nutrition applied to school lunch. 694-74
Nutrition alert. 712-74
All American foods. 731-74
Como seguir la dieta prudente. 754-74
Oigan ninos! aqui esta el plan para comer. 755-74
"Caminos hacia la buena salud". 770-74
Focus on food. 805-74
Nutrition in the home (Filmstrip/Cassette tape). 844-74
Alimentos para familias jovenes--I. Elementos nutrivos esenciales: II. principios basicos en la preparacion de alimentos; III. como planear comidas facilmente; IV. seleccion y compra de alimentos. 940-74
Family-focus in feeding children. 957-74
Nutrition for the nation!. 964-74
The wonderful world of freshness (Filmstrip/Cassette tape). 1011-74
Alimentacion infantil--I. Los granos; II. los cereales; Iii. El huevo; IV. las frutas; V. la carne. 1012-74
La merienda; comienza el dia con un buen desayuno; toda la leche alimenta; etc. (Charts). 1017-74
Alimentos para su familia. 1027-74
Down with garbage. 1406-74
Planning diabetic diets (Filmstrip/record). 1715-74
Teaching about meat. 1716-74
Investigate and evaluate. 1781-74
Program aides--new answer to old problem. 1832-74
Diabetic meal plan. 1879-74
Photos and recipes on hospital menus instruct and also please patients. 1906-74
Comida para substancia. 1908-74
Good meals for busy days (Slides). 1910-74
Cocinando sin sal. 1924-74
Tricks for treats. 1929-74
Food: tossed green monotony? 1943-74
Meal for today, the easy way. 1964-74
Sandwiches please (Filmstrip). 1987-74
School lunch should be more than a munch. 2173-74
Consumer food economics--a D.C. course on getting the most from food stamps. 2195-74
The nutrition story for low-income families. 2274-74
Home and school cooperate to enrich the home-packed school lunch. 2275-74
School feeding from a nutritionist's point of view. 2375-74
Nutrition on wheels. 2398-74
Simplified recipes for day care centers. 2415-74
MEAL PLANS
The college scene: Change in channels. 3100-73
Profiling the college market. 3262-73
MEALS ON WHEELS
Meals on Wheels a la Calgary. 2025-73
A guide to food programs in Montgomery County. 2027-73
Symposium: Nutrition and aging. 2934-73
How to keep meals-on-wheels food hot. 3652-73
Home delivered meals for older Americans. 3914-73
Guidelines for Meals-on-Wheels and congregate meals for the elderly. 3925-73

A guide to food programs in Montgomery County, Maryland. 4139-73
The role of nutrition in home care and homemaker programs. 572-74
Nutrition and the elderly--1973, hearings, ninety-third Congress, first session, part 1--feeding the elderly. 1266-74
A comprehensive home-care program for the chronically ill. 2219-74
Food services for the elderly and the disabled. 2314-74
Proceedings of the National Conference on Food for the Aging, 1972. 2325-74
Assessment of the midday meal provided by Meals-on-Wheels in Brisbane. 2401-74
MEALS PER DAY
Summer food service in Portland. 2072-73
Feeding behavior in obesity. 850-74
Do your know how you grow? inside (Record). 1501-74
A computer-assisted approach to meal patterning. 1904-74
MEASUREMENT
Quality assurance--Today & tomorrow. 33-73
The calorie versus the Joule. 104-73
Functional properties of carbohydrates. 218-73
Measuring the color of foods. 303-73
The status of nutrition in the United States. 502-73
Tuna. 530-73
Family fare. 542-73
Problems of assessment and alleviation of malnutrition in the United States. 577-73
Computer program estimates bacterial densities by means of most probable numbers. 784-73
Food training routines. 1142-73
Commercial foods. 1175-73
Sue learns about the use of measurements in cooking. 1238-73
Food for 50. 1429-73
Techniques of food measurement (Motion picture). 1518-73
Automated determination of protein-nitrogen in foods. 1795-73
The measurement of meat color. 1877-73
The metric question - expect new packages, trade shifts. 1880-73
Quality evaluation of canned and freeze-dried applesauce. 1925-73
Conversion factors and weights and measures for agricultural commodities and their products. 2282-73
Two ways to get less milk for your money: Shortweight milk cartons found in Delaware; When a gallon isn't a gallon. 2383-73
Milk the magnificent (Slides). 2420-73
The Blanchard Obesity and Nutritional Index (BONI). 2468-73
Arm anthropometry in nutritional assessment: nomogram for rapid calculation of muscle circumference and cross-sectional muscle and fat areas. 2596-73
Height and weight of children: socioeconomic status, United States. 2601-73
Inaccuracies in measurement of dried milk. 2953-73
A practical guide to productivity measurement. 3137-73
Measurement and evaluation, 1966-67 (p.l. 89-10, title I). 3312-73
Training needs assessment and training program evaluation. 3453-73
Evaluation in the teaching of home economics. 3462-73
Metrics: your schools will be teaching it and you'll be living it--very, very, very soon. 3480-73
Supervisory training can be measured "objectively" on the job. 3488-73
Metric conversion: the training colossus of the Seventies. 3519-73
On-the-job performance following an experimental training program for food service personnel. 3544-73
Measuring and terms--cooking (Film loop). 3655-73
Mass conversions. 3661-73
Mass measurement. 3662-73
Think metric: It's simple. 3673-73
Make that quarter-pounder a 0.11325 kilogramer. 3689-73
English-metric conversion calculator. 3697-73
Food buying guide for type A school lunches. 4209-73
Evaluative techniques for use with children's diets. 876-74
Program evaluation as on operational tool. 1381-74
Readings in maintenance management. 1395-74
Contemporary approaches to program evaluation and their implications for evaluating programs for disadvantaged adults. 1475-74
All you need to know about metric. 1505-74
Metrics, students, and you!. 1534-74
The international (SI) metric system and how it works. 1651-74
Introducing the metric system (Filmstrips/cassettes). 1657-74
School lunch and learning. 1683-74
Going metric. 1723-74
One strong link: program & evaluation (Motion picture). 1736-74
Education and training in SI units. 1797-74
Speaking of metric!. 1800-74
Students learn to live with liters and meters. 1813-74
Technical report on standardization of the general aptitude test battery for director, school lunch program 0-71-32. 1833-74
Development of USTES aptitude test battery for food-service supervisor. 1834-74
Development of USTES aptitude test

battery for dietary aid. 1835-74
Understanding the metric system (Transparencies). 1837-74
Metric system (Kit). 1838-74
What's cooking at Cal State? 1843-74
Temperature kelvin - K. 1932-74
Thinking metric. 1945-74
Metric improves the flavor. 1962-74
Understanding the metric system (Slides). 1984-74
Using standardized recipes (Motion picture). 1985-74
What about metric? 2508-74
All you will need to know about metric (chart). 2541-74
Height, weight, and selected body dimensions of adults, U. S. 1960-62. 2566-74
Some references on metric information (kit). 2570-74

MEAT

The cost of meats and meat alternates. 12-73
Meat purchasing (Film loop). 26-73
Inspection, labeling, and care of meat and poultry. 38-73
Advances in food research; volume 18. 51-73

Milk made the difference (poster). 3495-73
Milk flavor: The true test of quality. 3904-73
Que leche se debe comprar? 4-74
Mejores compras en leche. 7-74
Whole milk is good for you--if you're a baby. 15-74
Milk: Why is the price so high? 16-74
A guide to the dairy counter. 17-74
Milk: Why is the quality so low? 19-74
"...And it's done so easily and so well". 48-74
Should milk drinking by children be discouraged? 109-74
Disaccharide intolerance in feeding programs. 164-74
Cuando vaya a tener un bebe... 250-74
Everything you need to know about feeding your baby. 350-74
Lactose nutrition and natural selection. 389-74
Teaching kit on feeding bottle (Posters). 415-74
Lactose intolerance and fermented dairy products. 423-74
Sources of dietary iodine. 577-74
Nutrition for the growing years. 676-74
Toda leche alimenta. 768-74
Milk intolerance and lactose intolerance. 834-74
The role of lactose in the diet. 861-74
The short-term response to a drink of milk, lactose or casein in children with apparently normal gastrointestinal tracts. 866-74
Milk consumption patterns of Puerto Rican preschool children in rural New York. 888-74
New light on ethnic differences in adult lactose intolerance. 921-74
Lactose intolerance and milk consumption: the relation of tolerance to symptoms. 955-74
Study of foods is emphasized in Brooklyn elementary school. 965-74
You and your food. 1048-74
Dairy products. 1095-74
La familia leche. 1099-74
Snipp, Snapp, Snurr and the buttered bread. 1112-74
Leche en polvo sin grasa. 1117-74
Leche; queso. 1211-74
I want to be a dairy farmer. 1626-74
Mix and match for good meals (Filmstrip). 1881-74
Leche hecha con leche en polvo. 1919-74
Leche en polvo en sopa de papa. 1920-74
Leche en polvo para panes. 1921-74
La formula para su nino. 1926-74
Preparacion de leche en polvo (Filmstrip). 1968-74
Lactase-treated milk provides base to develop products for lactose-intolerant populations. 2125-74
Some effects of processing and storage on the nutritive value of milk and milk products. 2149-74
Participation in the National School Lunch Program in Washington School Districts. 2198-74
MILK INTOLERANCE
Should milk drinking by children be discouraged? 109-74
Lactase deficiency in a rural area of Mexico. 628-74
Milk intolerance and lactose intolerance. 834-74
Prevalênce and persistence of lactose malabsorption among young Jamaican children. 961-74
Lactase-treated milk provides base to develop products for lactose-intolerant populations. 2125-74
MILK PRODUCTS
The cost of milk and milk products as sources of calcium. 13-73
How Americans use their dairy foods. 27-73
Basic values in nutrition; part I: milk and meat group (Transparencies). 78-73
Bland, soluble whey protein concentrate has excellent nutritional properties. 96-73
Composition and nutritive value of dairy foods. 123-73
Milk and milk products in human nutrition. 273-73
Major mineral elements in dairy produ-

cts. 286-73
Mulligan stew: The great nutrition turn on (Motion picture). 323-73
Mulligan stew: the great nutrition turn on (Videocassette). 326-73
Newer knowledge of cheese. 348-73
Let's take milk apart. 350-73
Taking milk apart. 351-73
Nutritional value of casein and whey protein. 428-73
On-target meals: action for health (Filmstrip). 442-73
Nutritional knowledge and consumer use of dairy products in urban areas of the South. 518-73
Modern dairy products. 640-73
Byproducts from milk. 657-73
Dairy inspection and grading services. 732-73
Should milkshakes have a place in the type A lunch? 1360-73
Food study manual. 1398-73
Ground beef: passport to far-away eating (Filmstrip). 1440-73
Are U.S. dairymen overlooking potential of frozen milk concentrates market? 1793-73
Burger-type products from textured skimmilk curd. 1799-73
Cheese packages - goatskins to laminates. 1803-73
Development and product applications for a high protein concentrate from whey. 1828-73
The food processing front of the seventies. 1854-73
Fortifying soft drinks with cheese whey protein. 1858-73
Preparation and growth producing evaluation of a concentr-ated coprecipitate of soy-cheese whey protein. 1917-73
Soy-whey-milk offers economic substitute for frozen whole milk concentrate. 1938-73
A renaissance of natural cheeses. 2161-73
Milk in family meals. 2172-73
Purchasing. 2310-73
Using storage in food service establishments. 2323-73
Purchasing dairy products for food service establishments. 2324-73
Lactose and milk intolerance. 2684-73
New now nutrition. 2762-73
Inaccuracies in measurement of dried milk. 2953-73
Dairy products--there's more to milk than just a cold drink. 2978-73
Yogurt: New life for an old product. 3005-73
Gator Go--high energy dairy beverage starts with low fat milk. 3866-73
Developes milk-orange juice. 3884-73
Children now eat milk in Zambia--UNICEF helps develop a novel, nutritious biscuit. 3926-73
Que leche se debe comprar? 4-74
Mejores compras en leche. 7-74
Homemakers' opinions about dairy products and imitations:. 37-74
Toda leche alimenta. 768-74
The first book of food. 895-74
Lactose intolerance and milk consumption: the relation of tolerance to symptoms. 955-74
You and your food. 1048-74
Ice cream: the great American favorite. 1083-74
Cheese: 'Milk's leap toward immortality'. 1090-74
Dairy products. 1095-74
La familia leche. 1099-74
Say cheese. 1126-74
Leche; queso. 1211-74
Shopping with Martin for the milk group (Slides). 1785-74
The promises and problems of the new foods, University of Georgia, 1970. 2115-74
Lactase-treated milk provides base to develop products for lactose-intolerant populations. 2125-74
Convenience and flavor, plus milk's nutrition in a natural snack. 2136-74
New dairy and related products. 2137-74
Some effects of processing and storage on the nutritive value of milk and milk products. 2149-74

MILK PROGRAMS
A new decade for School Food Service. 2029-73
The Federal School Lunch and Special Milk Program in Tennessee. 2075-73
Milk in schools: an experiment in nutrition education. 2719-73
Special school milk program: hearing before a subcommittee oof the committee on agriculture and forestry, United States Senate, eighty-ninth Congress, second session on S. 2921, May 12, 1966. 3045-73
School milk and school breakfast programs: hearing before the committee on agriculture and forestry, United States Senate, eighty-ninth Congress, second session on S. 3467, June 21, 1966. 3046-73
Child Nutrition Programs of the Food and Nutrition Service, U. S. Department of Agriculture. 3918-73
Food for all. 3944-73
What's being done about malnutrition and hunger? 3950-73
How consumer food programs improve diets, fiscal '67; an activity report for these programs which are designed to combat hunger in this country. 3999-73
Closing the nutrition gap: the child nutrition act of 1966. 4005-73
National school lunch program. 4009-73
Child nutrition programs. 4010-73
Should milk drinking by children be discouraged? 109-74
School milk programs and Negro children: A nutritional dilemma. 797-74
Child nutrition programs. 1092-74
Urban school feeding survey. 1487-74
Child nutrition programs. 2297-74
Annual statistical review FY-1972. 2577-74
MILK SHAKES
Should milkshakes have a place in the type A lunch? 1360-73
Your guide to food preparation. 1934-74
MILLING
All About Rice. 2820-73
MILWAUKEE
School lunch menus now suit student tastes. 3621-73
School foodservice: no kid stuff!. 3958-73
Students decide food purchases. 3986-73
Elderly feeding: what's all the fuss? 2205-74
MINERAL MODIFICATIONS
Cocinando sin sal. 1924-74
MINERALS
Nutrition II. 69-73
Nutrition: a course for school food service personnel. 101-73
Statement of Walter A. Compton, M.D., President and Chief Executive Officer, Miles Laboratories, Inc., before the Senate Select Committee on Nutrition and Human Needs, February 24, 1971. 124-73
Contribution of hard water to calcium and magnesium intakes of adults. 128-73
The dietary iron controversy. 148-73
Diets of preschool children in the North Central Region: calcium, phosphorus, and iron. 150-73
The experts debate: the added enrichment of bread and flour with iron. 172-73
The heart of the matter - a matter of opinion. 233-73
Iron, blood, and nutrition. 266-73
Major mineral elements in Type A school lunches. 285-73
Major mineral elements in dairy products. 286-73
Minerals and body structure. 308-73
Calcium in nutrition. 338-73
Proteins and minerals (Film loop). 461-73
Round-table discussion. 479-73
Selenium: the maddening mineral. 486-73
Trace minerals in type A school lunches. 529-73
Legal developments: FDA releases labeling regulations. 695-73
Food composition: Tables for use in the Middle East. 2258-73
Minerals as nutrients. 2417-73
Potassium, why? 2467-73
Foods and nutrition. 2481-73
Let's eat right to keep fit. 2526-73
Trace minerals. 2620-73
The food fad boom. 2649-73
Recommended Dietary Allowances, revised 1973. 2650-73
Calcium-utilization and requirement. 2749-73
Minerals in cardiovascular disease. 2793-73
Vitamins, minerals, and FDA. 3056-73
Vitamin-enriched USDA foods get tender loving care. 3894-73
Teaching charts on Ethiopian foods (Posters). 67-74
Trace elements in human nutrition. 87-74
Nutrition--what's it all about? 122-74
Nutrition and acquired immunity. 143-74
Western Hemisphere scientists discuss nutrient needs and food prospects. 158-74
Carlos Calcium is my name (Poster). 247-74
An area of concern: the nutritive profile of fast food meal combinations. 264-74
New hope for incurable diseases. 265-74
Chromium enrichment of foods urged. 270-74
Know your nutrition. 274-74
Know your nutrition. 275-74
Diet study points to iron deficiency among women. 333-74
Heinz nutritional data. 491-74
Dietary calcium and the reversal of bone demineralization. 634-74
The food you eat. 647-74
Trace elements: a growing appreciation of their effects on man. 659-74
My name's Ira Iron (Poster). 710-74
Functions of food in nutrition. 723-74
What's in it for me?--the nutrients (Videocassette). 736-74
What's in it for me?--the nutrients (Motion picture). 746-74
"newer" trace elements in human nutrition. 764-74
Nutrition: content and value of some common foods--proteins (Charts on spring rollers). 783-74
What nutrients do our infants really get? 825-74
Iodine (a brief summary). 903-74
Nutrient intake of pregnant women receiving vitamin-mineral supplements. 984-74
Progress report of the Human Nutrition Research Division, Marketing and Nutrition Research, July 1, 1970. 999-74
Progress report, July 1, 1971. 1000-74
Progress report. 1001-74
Vitamins and minerals in the growing years (Poster). 1024-74
What are lentils? 1212-74
Recommended Dietary Allowances up to date--trace minerals. 1244-74
Recommended Dietary Allowances. 1247-74
Recommended Dietary Allowances revised 1974. 1256-74
Diet and health (Filmstrip). 1789-74
The effects of food processing on nutritional values. 2118-74
Fish protein concentrate as a mineral nutrient source. 2127-74
Assessment of the midday meal provided by Meals-on-Wheels in Brisbane. 2401-74
MINIMUM DAILY REQUIREMENTS
Minerals as nutrients. 2417-73
A guide to the side of the box. 3018-73
Food models in full color (Models). 717-74
What nutrients do our infants really get? 825-74
Social aspects of nutrition (Filmstrip-/Cassette tape). 845-74
Vitamins and minerals in the growing years (Poster). 1024-74
Nutritional labeling for tomorrow's consumer, symposium proceedings, Nov. 30, 1972. 1214-74
MINNEAPOLIS
Meat and potatoes and more in Minneapolis. 4096-73

MINNESOTA
A five state study of secondary school lunchroom operations. 3223-73
Program planning for home economics in secondary schools in Minnesota. 3483-73
Minnesota/Intercultural-International focus on home economics. 369-74
Cards, company and good food. 2189-74
Developing a regional program to help patients with diabetes. 2207-74
MINORITY GROUPS
Minority view: dumping ground or opportunity? 1160-73
Supervisory selection program for disadvantaged or minority groups. 3168-73
Supervising employees from minority groups. 3278-73
Needs and interests of young homemakers--living in two low--income housing projects. 3-74
Health of the American Indian. 685-74
Paranoia!. 1434-74
Science for society. 2583-74
MISCELLANEOUS FOODS
Family fare. 542-73
Positioning creative touch - a new way to flavor foods. 923-73
Quantity food preparation: a course for school food service. 1392-73
Glorious garnishes: focus on foods Aug 1. 1438-73
Understanding cooking. 1459-73
Developing a product to make salads taste special. 1823-73
Positioning a product for the special market. 1913-73
Purchasing. 2310-73
The delights & evils of junk food. 2531-73
The hasty repast: Snacks. 3140-73
Vitamins vs. Vending machines. 3971-73
Snack time is taste time. 4072-73
Bocados (Chart). 233-74
Mejores meriendas. 771-74
Soft-Serve is snack bar favorite. 2354-74
MISSISSIPPI
Food consumption of low-income, rural Negro households in Mississippi. 193-73
Nutritional status of Negro preschool children in Mississ-ippi - evaluation of HOP index. 425-73
Food service: an adult distributive education publication. 3485-73
Anemia in black preschool children in Mississippi. 557-74
Technical report on standardization of the general aptitude test battery for director, school lunch program 0-71-32. 1833-74
MISSOURI
So much, for so many, for so little. 1243-73
A five state study of secondary school lunchroom operations. 3223-73
Effect on turnover of training foodservice employees. 1627-74
Teaching machines: a new training aid for the dietitian. 1709-74
Orientation program increases job satisfaction and stability. 1758-74
Tray make up: Hollenbeck Jr. High School. 2047-74
Extension education + food programs = better living. 2177-74
MOBILE EDUCATIONAL SERVICES
Nutrition "outreach" for migrant workers. 2326-74
A converted bus takes ENEP to the people. 2339-74
Nutrition on wheels. 2398-74
MOBILE EQUIPMENT
Service in the grand manner. 1974-74
Wheels for foodservice systems. 2038-74
MODELS
Consumer behavior. 16-73
"KUPS - K nowlege U tilization for P roblem S olving. 748-73
Developing alternatives in nutrition education. 800-73

Cafe of three seasons stresses manners, good behavior. 2185-74
Good morning! it's time to eat!. 2236-74

MOUTH DISORDERS
Research explores nutrition and dental health. 357-73
Fluoride as a nutrient. 110-74
Nutrition notes: tooth decay can be prevented. 539-74

MUFFINS
Muffins (Film loop). 1468-73

MULTIMEDIA INSTRUCTION
How to pick your way through today's minefield of curriculum products. 1686-74

MUSCLES
Arm anthropometry in nutritional assessment: nomogram for rapid calculation of muscle circumference and cross-sectional muscle and fat areas. 2596-73
I'm Paul Protein (Poster). 529-74

MUSHROOMS
Making the most of mushrooms. 4067-73
Cultivated mushrooms. 1147-74
What happened to mushrooms? 2093-74

MUSIC
Nutrition in music (Audiotape). 408-73
Teenagers show a way to teach nutrition. 348-74
Sing a song of spinach. 1790-74

MUSLIMS
Dietary regulations and food habits of Muslims. 882-74

MUSTARD
Study on mustard by Dumas (pere), author and gastronome. 1102-74

MUSTARD GREENS
Mustard greens. 1183-74

MYCOTOXICOSIS
Toxicants occuring naturally in foods. 962-74

NASHVILLE, TENNESSEE
Summer in Tennessee: two special programs. 2258-74

NATIONAL ADVISORY COUNCIL ON CHILD NUTRITION
Child nutrition council submits first report. 3919-73
First annual report of the national advisory council on child nutrition; annual report/1971. 3959-73
Second annual report of the national advisory council on child nutrition; annual report/1972. 3960-73

NATIONAL NUTRITION CONSORTIUM
Guidelines for a national nutrition policy. 979-74
Official statements of guidelines for a national nutrition policy, April 1974. 1246-74

NATIONAL NUTRITION PROGRAM FOR THE ELDERLY
Community involvement: feeding the elderly - a new responsibility. 2193-74
Nutrition programs for the elderly: selecting a meal delivery system. 2306-74

NATIONAL SCHOOL BREAKFAST PROGRAM
You too can start a food program. 2105-73
School milk and school breakfast programs: hearing before the committee on agriculture and forestry, United States Senate, eighty-ninth Congress, second session on S. 3467, June 21, 1966. 3046-73
Tools to fight malnutrition. 3997-73
Getting a program started. 4001-73
Closing the nutrition gap: the child nutrition act of 1966. 4005-73
Child nutrition programs. 4010-73
Child nutrition programs. 1092-74
Urban school feeding survey. 1487-74
Annual statistical review FY-1972. 2577-74

NATIONAL SCHOOL LUNCH PROGRAM
The school lunch - a component of educational programs. 481-73
National School Lunch Program. 665-73
Public Law 91-248, 91st Congress, H.R. 515. 723-73
Children's food service programs - conference report. 726-73
Personnel management and work organization. 909-73
Private school lunch. 984-73
Our future is you (Motion picutre). 1209-73
Their daily bread. 1984-73
Food for all school children: when? 2004-73
Nobody knows who pays. 2030-73
School lunch looks to the future. 2057-73
Lunch programs in the nation's schools. 2081-73
Food service in the nation's schools: a preliminary report. 2084-73
Child nutrition programs. 2090-73
You too can start a food program. 2105-73
New standards for school lunch. 3040-73
Compilation of statutes relating to soil conservation, acreage diversion, marketing quotas and allotments, wheat certificates, commodity credit corporation, price support, public law 480, export and surplus removal, crop insurance, sugar payments and quotas, marketing agreements and orders, school lunch, child nutrition, food stamp, and related statutes as of January 1, 1967. 3043-73
School lunch and child nutrition programs: hearings before the committee on agriculture and forestry, United States Senate, ninety-first Congress, first session on S. 2152, S. 2548, S. 2595, H.R. 515, and H.R. 11651; September 29, 30, and October 1, 1969. 3044-73
USDA issues new regulations governing free and reduced-price school lunch. 3055-73
National School Lunch...No!!. 3108-73
Comment on the above. 3933-73
Food for all. 3944-73
Log of the executive director: an historic document. 3946-73

Frozen, precooked rice shapes suitable for all markets. 1862-73
Innovation vs nutrition as the criterion for food product development. 1870-73
Meat pattie chosen first product to gain nutritional, textural advantages of new protein fiber. 1878-73
The new foods and the markets that need them. 1889-73
New products from smaller companies. 1892-73
Non-dairy cheese - a unique reality. 1896-73
Nutrition upgraded, final texture controlled using new structured protein fiber. 1903-73
Positioning a product for the special market. 1913-73
The share of foodservice to come: a fable of the future with a note on the present. 1933-73
What are textured protein products? 1963-73
Problems and prejudices encountered in introducing new foods in developing countries. 2977-73
When, why and how of concept testing. 3099-73
Baker's yeast--world's oldest food--is newest source of protein and other ingredients. 3832-73
Considerations for choosing the right plant protein. 3865-73
Novel gel system, citrus yield ready-to-eat products. 3868-73
Convenience dinner with textured vegetable protein as a meat substitute gets positive consumer reaction. 3877-73
Product development opportunities within the school break-fast program. 3966-73
NEW YORK (STATE)
The lunch bunch study. 131-73
New York State's food on the table program: nutrition education. 2766-73
Milk flavor: The true test of quality. 3904-73
Co-op buying boosts school lunches. 4192-73
Milk consumption patterns of Puerto Rican preschool children in rural New York. 888-74
The place of nutrition in the health education curriculum. 923-74
Nutritional knowledge and practices. 1067-74
A guiding star for modern nutrition. 1570-74
Nutrition in the news. 1607-74
Development and utilization of a self-instruction laboratory. 1787-74
NEW YORK CITY
Stirring the cultural melting pot. 2513-73
How do you handle a diamond account? 3150-73
Decentralized school lunch. 3241-73
Two views: Getting into school lunch. 3274-73
Type A--the ethnic way. 3909-73
A guiding star for modern nutrition. 285-74
Music and games introduce nutrition. 708-74
Don't eat your heart out (Chart). 753-74
A study of poverty conditions in the New York Puerto Rican community. 966-74
Galloping gourmet foods to patients. 1888-74
Planning ethnic menus. 1896-74
Service on wheels. 2042-74
Project Head Start--a challenge in creativity in community nutrition. 2214-74
Total maternal and infant care: realistic appraisal. 2216-74
Feeding the poor. 2242-74
New York City's bureau of nutrition. 2247-74
New York: the changing face of food service. 2489-74
NEWSPAPERS
Nutrition education via the public press. 1806-74
NIACIN
Iron enrichment. 2769-73
The Vitamins. 2848-73
The use of nutritonal requirements and allowances. 166-74
Maize and maize diets. 268-74
Conversion of tryptophan to niacin in man. 290-74
NITRATES
Diet and birth defects in humans. 330-74
Accumulation of nitrate. 725-74
A review of the nitrosamine problem in cured meats. 860-74
Processing meat products without nitrates or nitrites. 2130-74
Nitrate and nitrite substitutes in meat curing. 2131-74
Proceedings. 2138-74
NITRITES
What is the nitrite controversy? 3845-73
How sodium nitrite can affect your health. 35-74
Diet and birth defects in humans. 330-74
A review of the nitrosamine problem in cured meats. 860-74
Processing meat products without nitrates or nitrites. 2130-74
Nitrate and nitrite substitutes in meat curing. 2131-74
Proceedings. 2138-74
Stability of ascorbate in bacon. 2140-74
NITROGEN
Accumulation of nitrate. 725-74
NITROGEN COMPOUNDS
Some aspects of protein nutrition. 494-73
Nitrites and nitrates in food. 1895-73
Accumulation of nitrate. 725-74
Fertilizers, food production and environmental compromise. 1978-74
Rapid nitrosation of phenols and its implications for health hazards from dietary nitrites. 2065-74
Formation of nitrosamines in a meat curing mixture. 2098-74
NOMOGRAPHS
Nomographs simplify recipe alterations. 1349-73
Arm anthropometry in nutritional assessment: nomogram for rapid calculation of muscle circumference and cross-sectional muscle and fat areas. 2596-73
NON-ALCOHOLIC BEVERAGES
Cold beverage systems. 1564-73
Tea and coffee. 1946-73
Does your favorite drink actually quench your thirst? 927-74
Anyone can make good iced tea. 1915-74
Just the right punch. 2420-74
NON-FAT FOODS
Fortification of nonfat milk solids with vitamins A and D. 2427-73
NONFOOD ASSISTANCE PROGRAM
Closing the nutrition gap: the child nutrition act of 1966. 4005-73
Participation in the National School Lunch Program in Washington School Districts. 2198-74
Ten trends in school food service. 2278-74
St. James builds a kitchen. 2409-74
Annual statistical review FY-1972. 2577-74
NONPROFESSIONAL PERSONNEL
A critical evaluation of in-service training for classified employees in selected educational organizations in the United States. 1246-73
Carbohydrates as nutrients. 2681-73
NONVERBAL COMMUNICATION
Improving the nonverbal dimension of communication. 1123-73
Games people play. 3076-73
Communicating beyond words. 3249-73
Communication with low-income families. 1535-74
Applied communication in developing countries: ideas and observations. 1611-74
NOODLES
Fish protein concentrate enrichment of noodles. 1849-73
Pesticide residue levels in cooked rice and noodles. 3791-73
NORTH CAROLINA
Focus on optimal development: improving child nutrition. 185-73
School lunch in High Point: a community pride. 2055-73
School lunch in High Point: a community's pride. 2056-73
A study of the role of the unit school food service super-visor as perceived by selected North Carolina superintendents and school food personnel. 3230-73
Closed circuit television provides valuable means to teach food service personnel: North Carolina programs for school food service personnel cited. 3385-73
F.O.O.D.: Focus on optimum development: a final proposal. 3507-73
Other current projects. 3936-73
Nutrition survey of 6200 teenage youth: implications for nutrition education. 353-74
Nutrition education in action: home health care agencies. 2233-74
Salute to the President. 2304-74
NORTH DAKOTA
Mighty milk to the rescue. 593-74
NORWAY
Breast feeding in Norway. 206-74
NURSERY SCHOOLS
Teaching nutrition at nursery school level. 672-74
NURSING
Integrating nutrition into the nursing curriculum. 1129-73
Programmed instruction in nutrition for collegiate nursing students. 1219-73
A teacher's guide of student nurses' learning experiences in diet therapy clinical practice related to total nursing care of patient, for use in schools of nursing. 1235-73
Introductitn to public health. 2955-73
Conflicting perspectives on breast feeding. 583-74
Spanish handbook. 1717-74
NURSING EDUCATION
Practical nutrition. 2796-73
Nutrition in Maternity and Infant Nursing Care, A short course. 2904-73
Conflicting perspectives on breast feeding. 583-74
NURSING HOMES
Nursing homes and related health care facilities. 2287-73
Food and nutrition in a health related facility. 2867-73
Manpower needs in the nursing home industry. 3189-73
Nursing home foodservice. 3213-73
General administration in the nursing home. 3240-73
Nursing homes: the forgotten market.

3263-73
Meals and menu planning. 3617-73
The many meanings food has for the aged. 439-74
Dietary intakes and nutritional status of elderly patients. 568-74
Mr. & Mrs. America at life's end. 703-74
Food service on a budget. 1382-74
Food service guide for health care facilities. 1408-74
Nutrition and diet guides for nursing homes. 1876-74
Planning new community services--comprehensive care programs for the aging. 2321-74
Simplified quantity recipes: nursing/convalescent homes and hospitals. 2429-74
NUTRIENT CONTENT DETERMINATION
Enrichment facts for the consumer. 17-73
Assaying the availibility of iron - techniques, interpret-ations, and usefulness of the data. 70-73
Bland, soluble whey protein concentrate has excellent nutritional properties. 96-73
Diet and nutriture of preschool children in Honolulu - survey of low- and middle-income families. 140-73
Effect of microwave heating on vitamin B6 retention in chicken. 161-73
Fat metabolism in children - influence of dietary protein and calcium on serum lipids of pre-adolescent girls. 176-73
Fatty acids in foods served in a university food service. 178-73
Fatty acids, cholesterol, and proximate analyses of some ready-to-eat foods. 180-73
Folacin in wheat and selected foods. 186-73
Food intake of infants attending well-baby clinics in Honolulu. 203-73
Food uses of triticale. 209-73
A half century of changing food habits among Japanese in Hawaii. 231-73
Iron content of some Mexican-American foods - effect of cooking in iron, glass, or aluminum utensils. 262-73
Major mineral elements in dairy products. 286-73
Nutrition notes: protein measuring system proposed to simplify nutritional comparisons. 413-73
Nutritional value of casein and whey protein. 428-73
Nutritive analysis of frozen fully cooked institutional foods. 430-73
Nutritive content of the usual diets of eighty-two men. 431-73
Nutritive value of "organically grown" foods. 432-73
Preformed vitamin A, carotene, and total vitamin A activity in usual adult diets. 452-73
Protein components of blood and dietary intake of preschool children. 457-73
Tables of food composition: scope and needed research. 510-73
Thiamin and riboflavin in cooked and frozen, reheated turkey - gas vs. microwave ovens. 523-73
Trace minerals in type A school lunches. 529-73
Nutrient labeling....Purpose and approach. 699-73
Nutrition labeling: more information to help the consumer select foods. 702-73
Nutritional labeling: a need for caution. 707-73
Automated determination of protein-nitrogen in foods. 1795-73
Cereal grains as dietary protein sources. 1801-73
Nutritional iodine in processed foods. 1904-73
Nutritive value of canned meals. 1905-73
Reconstituting preplated frozen meals with integral heat. 1927-73
Techniques for milk protein testing. 1948-73
Texturizing process improves quality of baked French fried potatoes. 1951-73
Mexican-American food items in the Tucson,Arizona, school lunch program. 1990-73
Nutrient contribution of a meals program for senior citizens. 2033-73
Commercially prepared strained and junior foods for infants. 2219-73
National Data Center for Food Composition. 2251-73
Tables of food composition: Availability, uses, and limit-ations. 2272-73
Storage of fresh broccoli and green beans - effect on ascorbic acid, sugars, and total acids. 2347-73
Nutrients to go. 2441-73
More comments on nutritional labeling. 2465-73
Nutrient intake of college students under two systems of board charges--a la carte vs. Contract. 2501-73
An index of food quality. 2604-73
Methods in food analysis. 2654-73
Meal frequency and nutrient utilization. 2703-73
Protein: Chemistry and nutrition. 2731-73
The role of essential trace elements in nutrition. 2748-73
The nutritive content of type A lunches. 2773-73
Adolescent pregnancy: Association of dietary and obstetric factors. 2851-73
Folate levels in citrus and other juices. 2883-73
Food labeling and the marketing of nutrition. 3010-73
Food labeling (motion picture). 3016-73
What is the return on investment for nutrient labeling? 3022-73
Nutrient labeling and the independent laboratory. 3027-73
Nutrient standards compete with Type A. 3033-73
Nutrition labeling. 3034-73
The computer and the school lunch program. 3113-73
Quality control for the food industry. 3656-73
Nutritive value, better foods, educational advertising--are we up to the new food product challenge? 3864-73
Considerations for choosing the right plant protein. 3865-73
Losses of vitamins and trace minerals resulting from processing and preservation of foods. 3883-73
Vitamin-enriched USDA foods get tender loving care. 3894-73
Nutritional analysis of foods from fast-food chains. 132-74
The determination of ascorbic acid. 151-74
Vitamins in frozen convenience dinners and pot pies. 318-74
Nutritional improvement debate: supplementation of foods vs. nutrition education. 345-74
Nutrition applied to school lunch. 694-74
Phosphorus balances of adults consuming several food combinations. 697-74
Tabla de composicion de los alimentos mas usados en Puerto Rico. 854-74
Nutrient intake of pregnant women receiving vitamin-mineral supplements. 984-74
Experiments in the chemistry of food. 1037-74
Revising booklets on fat-controlled meals: background information on nutrient composition. 1078-74
The balanced menu: new standards for nutrition. 1216-74
Handbook no. 8 and nutrition labeling. 1222-74
Food labeling. 1224-74
Those pesky RDA'S. 1230-74
Problems in the use and interpretation of the Recommended Dietary Allowances. 1232-74
Nutritional aspects of nutrient standard menus. 1235-74
The Food and Drug Administration and labeling. 1236-74
USDA proposes nutrient labeling regulations advertising claims would trigger compliance. 1253-74
How do you get the most nutrition for the least money? 1370-74
Cheese products: protein, moisture, fat, and acceptance. 14[illegible]-74
Nutrient losses in institutional food handling. 1947-74
Soy protein products: technology and nutritive value. 2151-74
NUTRIENT DENSITY RATIO
The effect of household size and composition on the cost of diets of equivalent nutritional quality, needy households, spring 1965. 2550-74
NUTRIENT EXCESSES
Diet and atherosclerosis. 139-73
Obesity - new happenings. 433-73
Obesity - part 3. 434-73
Food and nutrition. 485-73
Selenium: the maddening mineral. 486-73
Supplemental protein: does the U.S. diet really need it? 506-73
The teenage obesity problem - why? - part two. 515-73
The teenage obesity problem - why? - part 1. 516-73
Hearings, Ninety-second Congress, first session, on nutri-tion and human needs: Part 10. 729-73
Vitamin A physiology. 2830-73
Obesity--part 5: Regulation of food intake. 2861-73
Nutrition and mental retardation. 4167-73
Obesity and childhood: your child doesn't have to be fat. 171-74
Health counseling for the overweight adolescent girl. 470-74
Myths of vitamins. 488-74
Present knowledge in nutrition. 779-74
Low-carbohydrate diet debate. 880-74
The fluoride content of a representative diet of the young adult male. 885-74
Obesity. 950-74
NUTRIENT FUNCTIONS
Johnny goes to nutrition land (Coloring book). 2669-73
Nutrition (Transparencies). 3310-73
Make your snacks count (coloring book). 3336-73
Fats, essential fatty acids, and ascorbic acid: three essential nutrients. 101-74
Food and you. 271-74
Nutritional needs of our bodies (Motion picture). 299-74
A primer on vitamins. 313-74
What is your iron score. 454-74
Dietary calcium and the reversal of bone demineralization. 634-74
Nutrition alert. 712-74
Zinc in animal and human nutrition. 799-74
Vegetarian diets. 829-74
Science of nutrition (Filmstrip/Cassette tape). 843-74
How food affects you (Filmstrip). 944-74
The big, fertile, rumbling, cast-iron, growling, aching, unbuttoned bellybook. 993-74
Nutrition update, 1974. 1038-74
Who needs vitamin E? 1050-74
How food becomes you (Filmstrip). 1712-74
NUTRIENT INTAKE
Food and nutrient intake of children from birth to four years of age. 190-73
Guidelines for total parenteral nutrition. 2428-73
Iron deficiency in the United States. 2434-73
The importance of prenatal nutrition. 2470-73
Adequacy of lacto-ovo-vegetarian diets in Seventh-day Adventist boarding academies. 2488-73
Nutrient intake of college students under two systems of board charges--a la carte vs. Contract. 2501-73
Intestinal response to the body's requirement for iron. 2519-73
Feeding 250 lb. Monsters. 2554-73
Challenges to nutrition education. 2560-73
An index of food quality. 2604-73
Growth rate, nutrient intake and "mothering" as determinants of malnutrition in disadvantaged children. 2621-73
Food guides--where do we go from here? 2623-73
Household dietary levels down. 2628-73
Pregnancy in school girls--part 2. 2640-73
Pregnancy in school age girls--part 2. 2641-73
Assessment of nutritional status of teenage pregnant girls. I. Nutrient

NUTRIENT QUALITY
intake and pregnancy. 2673-73
Trace element nutrition in man: Recent progress and remai-ning problems. 2724-73
Nutrition and athletics. 2730-73
The role of essential trace elements in nutrition. 2748-73
Nutrition in pregnancy. 2850-73
Adolescent pregnancy: Association of dietary and obstetric factors. 2851-73
Parents give children bad habits. 2878-73
Tennessee nutrition-achievement study 1967-1968. 2889-73
Eating between meals: A nutrition problem among teenagers? 2896-73
The wonderful world of freshness (Filmstrip/Cassette tape). 2921-73
Protein intake of well-nourished children and adolescents. 2930-73
New thoughts on dietary practices. 2950-73
Nutritional surveillance in affluent nations. 2971-73
US RDA doesn't meet population needs. 3013-73
Methodology related to acceptability, cost & nutrition. 3080-73
Patient oriented dietetic information system--III. 3246-73
How can you make them eat the nutrition you serve. 3265-73
Educational participation and dietary changes of EFNEP homemakers in Louisiana. 3581-73
Two off-line computer assisted nutrient standard menu planning techniques. 3606-73
Nutritional evaluation of school lunch programme in two selected villages. 3941-73
Nutrition in school food service. 3943-73
Vitamins vs. Vending machines. 3971-73
The remarkable Miss Walsh and Cincinnati's penny lunch. 3972-73
Changes in diets of households, 1955 to 1965: implications for nutrition education today. 97-74
Fats, essential fatty acids, and ascorbic acid: three essential nutrients. 101-74
Salt intake and eating patterns of infants and children in relation to blood pressure. 108-74
Vitamin K supplementation for infants receiving milk substitute infant formulas and for those with fat malabsorption. 111-74
Annie A. 131-74
The use of nutritonal requirements and allowances. 166-74
Food taboos among the Orang Asli in West Malaysia: a potential nutritional hazard. 192-74
Nutrition and behavior. 196-74
Diet and food beliefs of Peruvian jungle tribes. I. The Shipibo (monkey people). 197-74
Nutritional status of California Mexican-Americans: a review. 198-74
Dietary survey of preschool children and expectant women in Soongnern district, Nakorn Rajsima province, Thailand. 259-74
Changing food supply in America. 261-74
Nutritional needs of our bodies (Motion picture). 299-74
Eat well, grow well! (Motion picture). 300-74
Diet in chronic renal diseases: a focus on calories. 303-74
Impact of nutrition education in an applied nutrition programme on nutritionally vulnerable groups of people. 326-74
Nutritional status of preschoolers from low-income Alabama families. 340-74
The power of good nutrition. 362-74
Frequency of eating. 364-74
Nutrition surveys and problems of detection of malnutrition in the elderly. 373-74
Diets of men, women, and children in the United States. 386-74
The socio-cultural aspects of nutrition. 425-74
A nutrition education unit for a sixth grade. 431-74
Socio cultural malnutrition. (Growth failure in children due to socio cultural factors). 437-74
Better living through better eating. 444-74
How secondary students learn from animal nutrition studies. 467-74
Urbanization, diet and potential health effects in Palau. 472-74
Bioassay--tool for conceptual learning. 474-74
Improvement of food selection through physical education and athletic programs. 490-74
Nutritional aspects of selected studies on cardiovascular diseases--implications for nutrition education. 504-74
Nutrition activities promote dental health. 505-74
Eating behavior and dietary intake of girls 12 to 14 years old. 508-74
I'm Mini-Snack (Poster). 527-74
I'm Paul Protein (Poster). 529-74
I'm Sally C and here's what I do. 530-74
A reporting system for nutrient adequacy. 559-74
Dietary intakes and nutritional status of elderly patients. 569-74
Nutritional condition of New Mexican children. 605-74
Nutrition of New Mexican Spanish-American and "Anglo" adolescents--food habits and nutrient intakes. 607-74
Research on adolescent nutrition. 608-74
Nutritional studies of British Columbia Indians. I. Dietary studies at Ahousat and Anaham reserves. 612-74
Dietary calcium and the reversal of bone demineralization. 634-74
Health foods, organic foods, natural foods: what they are and what makes them attractive to consumers. 648-74
Religious influence on dietary intake and physical condition of indigent, pregnant Indian women. 658-74
Snacks. 664-74
The impact of economic and social status on food choice. 674-74
The Mechanics of life; digestion and the food we eat (Motion picture) Rathen Films, ltd. 682-74
Nutrition applied to school lunch. 694-74
Phosphorus balances of adults consuming several food combinations. 697-74
Mr. & Mrs. America at life's end. 700-74
My name's Ira Iron (Poster). 710-74
Food and thought: a sociologic study of food cultists. 757-74
"newer" trace elements in human nutrition. 764-74
Nutrition contretemps. 775-74
Nutrition of adolescents. 806-74
Record para analisis de la dieta y para analisis de habitos de alimentacion. 823-74
Vegetarian diets. 830-74
Nutrient intake of Pima Indian women: relationships to diabetes mellitus and gallbladder disease. 835-74
A dietary program to lower serum cholesterol. 837-74
Feeding behaviour in obesity. 850-74
Underweight and undernutrition in teenagers--a problem for nutrition education. 856-74
Open doors to improved nutrition: the family influence on children's food habits; nutrition of the school child. 870-74
Nutrition Canada. 878-74
An epidemiological study of child health and nutrition in a northern Swedish county. VI. Relationship between general and oral health, food habits and socioeconomic conditions. 884-74
Nutrition of Alaskan Eskimos. 901-74
Nutrient intake of college students from India in the United States. 908-74
Eating habits of teenagers. 941-74
How food affects you (Filmstrip). 944-74
A serial study of nutrient intakes of children from 3 to 18 years of age. 952-74
Protein intakes of children. 953-74
Polyunsaturated fatty acid intakes of children. 954-74
Tools for evaluation of diets of pregnant women. 969-74

The good foods book. 53-73
Alcoholic malnutrition (Slides). 54-73
Alexander's breakfast secret (Filmstrip). 55-73
American School Food Service Association blueprint for school food service and nutrition education. 59-73
Nutrition for athletes: A handbook for coaches. 60-73
An anthropologist views the nutrition professions. 66-73
Applying learning theory in teaching nutrition. 68-73
Attitudes of aides and clients in the expanded nutrition program. 71-73
A balanced diet (Film loop). 73-73
Basic values in nutrition; part I: milk and meat group (Transparencies). 78-73
Basic values in nutrition; part II: vegetable-fruit group (Transparencies). 79-73
Basic values in nutrition; part III: bread-cereal group (Transparencies). 80-73
Be creative in nutrition education. 82-73
The Beginning of life (Filmstrip). 85-73
The big dinner table (Motion picture). 91-73
The Big dinner table (Videocassette). 92-73
Big ideas in nutrition education. 93-73
Nutrition and physical fitness. 97-73
Breakfast and the bright life (Filmstrip/Record). 98-73
Breakfast; 4-4-3-2 way (Show'N Tell). 99-73
California states its position. 102-73
Calories (Film loop). 105-73
Carbohydrates and fats (Film loop). 109-73
Centralized food supplies. 110-73
Nutrition. 111-73
Statement of Walter A. Compton, M.D., President and Chief Executive Officer, Miles Laboratories, Inc., before the

Senate Select Committee on Nutrition and Human Needs, February 24, 1971. 124-73
Concepts of food habits of "other" ethnic groups. 125-73
Coordinating nutrition education in school, home and community. 130-73
Fun with food facts. 137-73
Doing great things (Motion picture) 154-73
Nutrition education guide. 158-73
Education increases consumption of vegetables by children. 159-73
Teaching nutrition. 168-73
The expanded food and nutrition education program. 171-73
Exploring the need for nutrition education. 174-73
Introduction to nutrition. 182-73
Materials and methods in nutrition education. 183-73
Focus on optimal development: improving child nutrition. 185-73
Food and nutrition education in the primary school. 187-73
Food acceptance and nutrient intake of preschool children. 189-73
Food and nutrition education for mentally disturbed women. 191-73
Food faddism. 195-73
Food for health; calories (Film loop). 197-73
Food for life (Motion picture). 198-73
Food for life (Videocassette). 199-73
Food guides (Film loop). 200-73
Food, energy and you (Videocassette). 210-73
Food, energy, and you (Motion picture). 211-73
Foods for teens; snacks that count (Show'N Tell). 212-73
Gastrointestinal absorption (Slides). 220-73
A nutrition guidebook for elementary school teachers. 221-73
A resource handbook for teaching nutrition in the elementary school. 223-73
Whitey and Whiskers and food. 224-73
Nutrition, behavior, and change. 225-73
Good food works for you (Show n' Tell). 226-73
Food facts and fun with "Butter & Boop". 227-73
Programmed nutrition. 229-73
How a hamburger turns into you (Motion picture). 240-73
How a hamburger turns into you (Videocassette). 241-73
How can we solve malnutrition in the U.S.? 242-73
How to diagnose nutritional deficiencies (Slides). 246-73
Hunger and malnutrition - whose responsibility? 249-73
Implications of changing food habits for nutrition educators. 251-73
Improving nutrition in less developed areas. 254-73
Intestinal malabsorption (Slides). 259-73
Intra-State group meeting to discuss alternatives 260-73
Iron metabolism (Slides). 264-73
The irony of affluence-adult nutrition problems and programs. 267-73
Is education meeting the nutrition challenge of today---what should be done. 268-73
Journey into nutrition (Motion picture). 271-73
Food, nutrition and diet therapy. 274-73
Let's make nutrition education exciting. 278-73
Basic principles of nutrition. 283-73
Nutrition and elementary food science. 292-73
Nutrition in action. 293-73
Focus on nutrition. 295-73
Maternal nutrition (Slides). 296-73
Food for you. 302-73
Nutrition education and the related management processes. 306-73
Health education guide. 310-73
Teaching the young child good eating habits for life. 311-73
Nutrition education in the elementary schools. 312-73
Modification of food habits. 313-73
Modification of vegetable-eating behavior in preschool children. 314-73
Mulligan stew: Count down 4-4-3-2 (Motion picture). 315-73
Mulligan stew: Count down 4-4-3-2 (Videocassette). 316-73
Mulligan stew: Getting it all together (Motion picture). 317-73
Mulligan stew: Getting it all together (Videocassette). 318-73
Mulligan stew: Look inside yourself (Motion picture). 319-73
Mulligan stew: Look inside yourself (Videocassette). 320-73
Mulligan stew: The Film-Flam man (Videocassette). 321-73
Mulligan stew: The flim-flam man (Motion picture). 322-73
Mulligan stew: The great nutrition turn on (Motion picture). 323-73
Mulligan stew: The racer that lost his edge (Motion picture). 324-73
Mulligan stew: The racer that lost his edge (Videocassette). 325-73
Mulligan stew: the great nutrition turn on (Videocassette). 326-73
How we take care of our teeth. 331-73
Feeding little folks. 332-73
A boy and his physique. 333-73
My friend the cow. 336-73
The great vitamin mystery. 337-73
Food and care for dental health. 340-73
Nutrition source book. 341-73
Search and research. 342-73
They ask why. 345-73
What did you have for breakfast this morning? 347-73
Let's take milk apart. 350-73
Taking milk apart. 351-73
A source book on food practices; with emphasis on children and adolescents. 352-73
How your body uses food. 353-73
National nutrition education conference. 359-73
New (trition) twist to an old game. 361-73
A new look at nutrition education --- The time capsule. 363-73
Nutrition and school lunch. 364-73
Nutrition and school food service, state of New Mexico. 365-73
Nominal group process for defining the problems in nutrition. 369-73

Goal setting and feedback. 3561-73
Preparing instructional objectives. 4152-73
Official statements of guidelines for a national nutrition policy, April 1974. 1246-74
Management psychology: explosive change versus gradual change. 1339-74
Manpower value planning. 1341-74
Implementing management by objectives. 1367-74
The employee performance syndrome: is improvement possible? 1391-74
Delphi techniques helps set ASFSA goals. 1399-74
Management decisions by objectives. 1431-74
Management by objectives: antidote to future shock. 1432-74
Contemporary approaches to program evaluation and their implications for evaluating programs for disadvantaged adults. 1475-74
Personnel management: a t/a perspective. 1479-74
You, behavioral objectives and nutrition education. 1582-74
Shrimp newburg via management by objective. 1613-74

OCCUPATIONAL CHOICE
Career discoveries: People who make things (Filmstrips). 1044-73
Career discoveries: People who organize facts (Filmstrips). 1045-73
Jobs for you: It's happening in home economics (Filmstrip). 1137-73
Where do i go from here (Motion picture). 1310-73
Working in a service industry. 3414-73
Career planning for high school girls. 3556-73

OCCUPATIONAL CLUSTERS
A career information unit for distributive education. 3342-73
Working in a service industry. 3414-73
Project VIGOR; vocational cluster education, integrated and articulated grades 1 through 14 with guidance services, occupational exploration and work experience relevant to general education: first interim report. 3473-73

OCCUPATIONAL GUIDANCE
Career discoveries: People who make things (Filmstrips). 1044-73
Career discoveries: People who organize facts (Filmstrips). 1045-73
Developing a hospitality program in high schools. 1063-73
Films help career guidance program. 1090-73
Where do i go from here (Motion picture). 1310-73
Manpower report of the President. 2284-73
Allied health education programs in junior colleges/1970. 2293-73
There is much information available on how to manage employees, but many management people ignore it and have increasingly serious employee problems. 3163-73
Career education in home economics. 3347-73
Career guidance: think food! (Motion Picture). 3377-73
Cooks and chefs (film loop). 3389-73
Working in a service industry. 3414-73
Will Maslow work with the hard core? 3417-73
A prototype program for training work supervisors as employee counselors. 3430-73
Basics of a hard core program. 3439-73
Use of audio-visual techniques in training the hard-core. 3444-73
Health technicians. 3445-73
An integrated approach to supervisory training for hiring the hard-core. 3469-73
The career development workshop. 3470-73
Project VIGOR; vocational cluster education, integrated and articulated grades 1 through 14 with guidance services, occupational exploration and work experience relevant to general education: first interim report. 3473-73
Career planning for high school girls. 3556-73
Marginal manpower: job capability as a joint function of aptitude and experience. 3564-73
Careers for women in the 70's. 3579-73
Handbook of information relevant to manpower agencies: a compilation of practice principles and strategies for manpower operations. 1331-74
A new concept in personnel development and employee relations. 1411-74
So you want to be a supervisor!. 1442-74
So you want to be a manager!. 1443-74
Life script awareness in career development: human behavior observed through transactional analysis. 1504-74
The career game (Motion Picture). 1508-74
Professional development: get them early. 1661-74
Job opportunities in a restaurant (Filmstrip/Record). 1794-74
Development of USTES aptitude test battery for food-service supervisor. 1834-74
Development of USTES aptitude test battery for dietary aid. 1835-74
Health career clubs: is it time for a national organization? 1862-74
Guidance and the promises and demands of career education. 1865-74

OCCUPATIONAL HOME ECONOMICS
An anthropologist views the nutrition professions. 66-73
Toward better teaching of home economics. 1093-73
Jobs for you: It's happening in home economics (Filmstrip). 1137-73
Dietitian aides. 1262-73
Supervised food service worker. 1289-73
Outline for occuptaional home economics course in commercial and institutional food preparation. 3294-73
Outline for the preparatory course in occupational home economics in the field of food services (preparation and management). 3295-73
Status of curriculum development in the field of commercial food at the non-baccalaureate level. 3311-73
A planning grant for the establishment of a center for the development of home economics instructional materials. 3335-73
Development and evaluation of a curriculum of wage earning occupations. Final report. 3343-73
A pilot study for gainful employment in home economics: final report, volume I. 3367-73
Hospitality education curriculum development project: final report. 3382-73
Long Beach City College content outlines for courses in home economics-related occupations. 3459-73
Evaluation of secondary school programs to prepare students for wage earning in occupations related to home economics; final report, vol. II, appendix. 3497-73
Evaluation of secondary school programs to prepare students for wage earning in occupations related to home economics: final report, volume I. 3498-73
Manual of operation for vocational home economics programs in job training in high schools. 3509-73
Personnel training and employment needs of hospital food services in Tennessee. 3515-73
Home economics education at the secondary level; a curric-ulum model (with emphasis on the occupational aspect). 3545-73
Waiter--Waitress; a suggested guide for a training course. 3571-73
Health careers guidebook. 3574-73

OCCUPATIONS
Caught leaderless, will a company survive? 771-73
Elements of supervision. 963-73
Employment opportunities in which knowledge and skill in home economics are needed. 3412-73
A supplement to the Dictionary of Occupational Titles. 4173-73
Dictionary of occupational titles... 4174-73

ODOR
Microfragrance. 1881-73
Compilation of odor and taste threshold values data. 4168-73
Stop air pollution in you kitchen!. 2013-74

OEO
Gardens for better nutrition. 2176-74

OFFICE MANAGEMENT
The development of a model exemplifying business services objectives and their performance indicators in educational program budgeting: final report. 3121-73
What every supervisor should know. 1293-74

OHIO
Nutrition of a group of school children in Ohio with improved diets. 438-73
Nutritional status of 9-, 10- and 11-year-old public school children in Iowa, Kansas, and Ohio. 439-73
How to push a good thing. 856-73
The three R's help make good eating important. 1263-73
Akron schools get A for achievement with frozen type A lunches. 1376-73
Frozen pre-plated meals solve problem

of feeding underpri-vileged pupils. 1434-73
Portable meals contribute to nutrition education efforts. 2045-73
Summer food service in Cincinnati. 2071-73
A five state study of secondary school lunchroom operations. 3223-73
Developing a work-experience program for slow learning youth: a report of a three year extension and improvement project. 3477-73
Manual of operation for vocational home economics programs in job training in high schools. 3509-73
Determining first-line supervisory training needs. 3557-73
A guide to food service operation planning with information on preparing and submitting plans and specifications. 3747-73
Day of disaster: Xenia, Ohio April 3, 1974 4:40 pm. 1315-74
Big Mac on campus. 2170-74
Nutrition activities in poverty programs. 2212-74
Youth power in Ohio. 2412-74
OILSEEDS
Meeting future needs. 1879-73
OKLAHOMA
A report of Oklahoma food habits survey. 440-73
A study of the breakfast eating habits of school age girls and boys, grades one through twelve, of an Oklahoma community with implications for teaching nutrition. 609-73
A proposed procedure of standardized accounting for the school lunch programs in Oklahoma. 916-73
Nobody knows who pays. 2030-73
Oklahoma school lunch sanitation & safety: a guide. 3807-73
A workshop conducted by the vocational home economics teacher to promate nutrition education in the elementary schools. 1796-74
Teaching teachers to teach nutrition. 1822-74
Lunch gets the O.K. in Oklahoma. 2272-74
One school grows tomatoes. 2309-74
Summer at White Eagle. 2400-74
OKRA
Okra. 1207-74
OLIVES
Ole for olives. 1353-73
Ripe olives as garnish and ingredient. 4084-73
OMAHA, NEBRASKA
School lunch--more than a filling station. 2361-74
ON THE JOB TRAINING
Improvement of personnel through testing, interviewing, orienting, training and evaluating - part 2. 1024-73
Developmental dialogues. 1067-73
How to get OJT started on the right food. 1117-73
Employee training in food service establishments. 1153-73
An old standby that still works. 1204-73
Practical baking workbook. 1251-73
Training surveys surveyed. 1271-73
Simplified manual for cooks. 1467-73
Management by objectives: the task unit. 3061-73
The management of training. 3220-73
Training and development handbook. 3318-73
Tell them why. 3405-73
How to train new foodservice employees quickly. 3429-73
Programed AV pays its way. 3437-73
How to train supervisors to break in new employees--gently. 3450-73
Metric conversion: the training colossus of the Seventies. 3519-73
The secret is on-going training. 3523-73
Training: plain and fancy. 3555-73
A task unit concept for on-the-job training in food service. 3589-73
English as a second language--a teacher's view. 3599-73
Introduction of on-the-job management development. 3602-73
Training dietetic technicians in preschool child nutrition. 1523-74
Developing executive talent. 1584-74
Teaching machines: a new training aid for the dietitian. 1709-74
Training plans for HEROES. 1855-74
ON-SITE PREPARATION
On-site preparation provides school feeding flexibility. 3983-73
21 summer foods that sell. 4057-73
There's a kitchen in every school. 2371-74
ONION RINGS
Don't let your fry kettle idle!. 3640-73
Extruded foods: what are they? 2119-74
ONIONS
Dry onions. 666-73
Lore and legendry of onion and garlic. 1084-74
Dry onions. 1185-74
Green onions. 1194-74
Recipes from Phoenix. 2480-74
OPEN DATING
Food product dating. 20-73
Unit pricing and open dating. 42-73
Open dating: the key to fresh foods for consumers. 711-73
Consumer policy on food labeling, Milwaukee, 1971. 1249-74
Shelf life of foods. 2602-74
OPEN PLAN SCHOOLS
Cafe mariner brightens open space school. 1996-74
Instructional stations include foodservice. 2022-74
Open space--challenging concept for school foodservice. 2032-74
OPERATING EXPENSES
Explosion-puffed apples are commercially feasible. 1842-73
The foodservice industry: Here's how to rise to 1973's challenge. 2930-73
The foodservice industry: Poultry, parsley, pears, and peas... 2981-73
The computer & how to afford it. 3068-73
The computer & St. Josephs. 3098-73
National School Lunch...No!!. 3108-73
How to deal with a $1,000,000 loss. 3156-73
How to determine food costs. 3157-73
Foodservice exam time!. 3194-73
Nursing home foodservice. 3213-73
Practical ways to hold down costs in spite of high food prices. 3228-73
Contracted vs. School managed: How costs compare. 3258-73
How to control costs. 3285-73
How to build volume. 3286-73
What it will cost to go metric. 3288-73
Can you beat the high cost of meat? 3605-73
Production costs: labor-saving equipment vs. Non-machine methods. 3750-73
How to cut dish breakage in half. 3793-73
The food story: what's ahead for institutional foodservice. 1098-74
Facing the challenge. 1243-74
Airlines chart a clear course for foodservice. 1279-74
Minimum wage: higher rates and more paper work. 1287-74
Energy: crisis, crunch, or costly? 1288-74
The good fight: brave new plans in the face of food/energy pinch. 1355-74
How to reduce personnel costs. 1375-74
Profit from foodservice: a question and answer approach. 1394-74
Management training beats high costs. 1400-74
Opportunity of challenge...Checklist for energy control and conservation. 1433-74
An intangible part of business: hidden costs. 1456-74
Ways to short-circuit the energy crisis. 1457-74
Volume feeding and operation independence. 1463-74
How to design a new foodservice. 2018-74
1974 equipment census: what would you do if energy costs rose to $2 an hour? 2037-74
ORANGE JUICE
Folate levels in citrus and other juices. 2883-73
Developes milk-orange juice. 3884-73
Jugo de naranja--enlatado, congelado, al natural, y en botellas (Charts). 8-74
Gallup shows breakfast profit potential. 1350-74
School breakfast annual potential set at 20 million gallons FCOJ. 1460-74
ORANGES
Convenience and the cost of potatoes and orange juice. 10-73
Introduction of OJ-related products strikes some sour notes in industry. 1872-73
Orange juice studied. 2042-73
Think Orange, When you Choose a Snack. 2894-73
The saga of citrus fruits. 1082-74
An apple is red. 1094-74
Oranges. 1167-74
ORDINANCES
When the sanitation inspector calls. 3785-73
OREGON
Summer food service in Portland. 2072-73
ORGAN MEATS
Hide the liver!. 1444-73
Variety meats. 4105-73
ORGANIC CONTROL
Natural foods (Slides/Cassette Tape). 2676-73
ORGANIC FOODS
Organic foods. 31-73
Diet healing: a case study in the sociology of health. 142-73
Food faddism. 195-73
Nutritive value of "organically grown" foods. 432-73
The organic foods movement. 444-73
Looking at nutrition 12 ways. 571-73
Food industry and FDA face fad food threat. 823-73

Reconstituting ovens: for foods at the top of the "raw-to--ready" scale. 1656-73
The finishing kitchen. 1686-73
Integral heating system reconstitutes frozen meals in 15 minutes. 1871-73
Boosting productivity front of the house--Part 2. 1713-73
Insurance for "oven freshness". 3720-73
The case for specialty ovens. 3722-73
Cleanliness--key to oven safety. 3728-73
How safe is microwave energy?". 3730-73
Recommended? Not recommended? An update on microwave ovens. 3753-73
How to buy and place equipment. 3764-73
Microwave: quicker and cooler cooking. 686-74
School lunch represents more than food. 2040-74
OVERPOPULATION
World food and population problems: Some possible solutions. 669-73
OXYGEN
Carbohydrate ingestion during prolonged running performance. 517-74
PACKAGING
Self-service juice dispensers evaluated: frozen juices most economical, efficient. 1662-73
Single service ware and today's consumer. 1665-73
Better frozen product protection indicated in testing of poly-to-poly carton seals. 1797-73
Cheese packages - goatskins to laminates. 1803-73
Microwave adapter permits frozen foods in foil containers to heat in minutes. 1882-73
Two ways to get less milk for your money: Shortweight milk cartons found in Delaware; When a gallon isn't a gallon. 2383-73
Breakfast cereals in the American diet. 2495-73
Progress not 'revolution,' is watchword in retail FF packaging. 3856-73
Package development for the foodservice industry. 3863-73
Responding to consumer price concerns - through packaging. 3867-73
Human nutrition in our changing environment. 1010-74
Frozen food packaging - to see or not to see. 2142-74
The pre-plated solution to school lunch. 2143-74
Food cost saver for all homemakers. 2520-74
PACKED LUNCH
Market category: School lunch. 3952-73
PALATABILITY RATINGS
Bulking agents in foods - acceptability by obese individuals. 100-73
Eliminating warmed-over flavor in precooked food. 166-73
Food facts and fads. 194-73
Food quality - a focus for togetherness for food scientists and nutritionists. 209-73
Food science & technology, volume III. 258-73
Laboratory handbook of methods of food analysis. 277-73
Protein food mixture for Iran - acceptability and tolerance in infants and preschool children. 458-73
Sensory good taste. 489-73
Taste sensitivity and food aversions of teenagers. 512-73
Tea & coffee. 627-73
Bread science and technology. 655-73
The science of meat and meat products. 656-73
Consumers rate frozen cuts equal to fresh meat in flavor, juiciness. 788-73
Introductory foods. 1164-73
Effect of temperature and cut on quality of pork roast. 1416-73
Forced convection roasting at 200 degrees and 300 degrees F. 1428-73
Holding roast beef by three methods. 1445-73
A guide to the selection, combination and cooking of foods; 1500-73
Cooking the modern way with stainless steel steam-jacketed kettles. 1580-73
Better frozen product protection indicated in testing of poly-to-poly carton seals. 1797-73
Cooking techniques for broiler chickens. 1814-73
Custard sauces made with four types of processed eggs. 1818-73
Deep-fried snack food prepared from soybeans and onions. 1819-73
Development and consumer evaluation of soft-serve frozen desserts. 1826-73
Edible containers. 1832-73
Edible packaging update. 1833-73
Effect of packaging methods on frozen asparagus. 1834-73
Frozen, precooked rice shapes suitable for all markets. 1862-73
Identifying and controlling product quality attributes - using preference taste panels. 1868-73
Microwave vs. conventional cooking of vegetables at high altitude. 1883-73
Palatability of a specialty meat item prepared by interru-pted cooking. 1907-73
Palatability of meat after low temperature roasting and frozen storage. 1908-73
Precooked turkey flavor and certain chemical changes caused by refrigeration and reheating. 1915-73
Precooking and reheating of turkey. 1916-73
Quality evaluation of canned and freeze-dried applesauce. 1925-73
Reconstituting preplated frozen meals with integral heat. 1927-73
Sensory evaluation of breaded, deep-fried turnip slices. 1931-73
Stability of gravies to freezing. 1940-73
Sugar, acid, and flavor in fresh fruits. 1943-73
Texturizing process improves quality of baked French fried potatoes. 1951-73
A comparative study of the organoleptic acceptability of simulated meat products prepared in microwave and conventional ovens. 1968-73
Textures vegetable protein, fish protein concentrate, and microcrystalline cellulose as extenders in meat loaves. 2335-73
Structure and textural properties of foods. 2852-73
Palatability of ground beef home frozen and stored in selected wraps. 4190-73
A quality evaluation system for prepared foods: Part 1. 1300-74
A quality evaluation system for prepared foods: Part 2. 1301-74
Matching an unconventional product to traditional taste preferences. 1334-74
PANCAKES
Pancakes (Film loop). 1481-73
The wonderful world of mixes. 4113-73
The perfect pancake. 2465-74
PANCREAS
Diseases of the pancreas--part 2. 2859-73

PANCREATIC DISEASES
Diseases of the pancreas--part 2. 2859-73
PANCREATIC HORMONES
Diseases of the pancreas--part 2. 2859-73
PANTOTHENIC ACID
Pantothenic acid, vitamin B6, and vitamin B12 in foods. 543-73
The Vitamins. 2848-73
Losses of vitamins and trace minerals resulting from processing and preservation of foods. 3883-73
PAPAYA
Papaya puree: a tropical flavor ingredient. 1909-73
Papayas. 1188-74
PARAMEDICAL OCCUPATIONS
Health career clubs: is it time for a national organization? 1862-74

Extension trains aides to help mothers. 2210-74
Nutrition activities in poverty programs. 2212-74
Nutrition education in action: home health care agencies. 2233-74
Helping people to help themselves--extension aid program. 2238-74
The nutrition story for low-income families. 2274-74
Home economics aides reach poor families. 2357-74
Program aides" for work with low-income families. 2358-74
Action programs to improve nutrition. 2359-74
Extension Service intensifies help for the poor. 2406-74
Indigenous health aides as counselors to parents about nutrition. 2407-74
Nutrition services in home health agencies. 2410-74
PARASITES
Malnutrition and intestinal parasites. 498-73
PARASITIC INFECTIONS
Malnutrition and intestinal parasites. 498-73
Food-borne illness: cause and prevention (Slides). 1714-73
PARENT EDUCATION
Pregnancy and you. 2446-73
Your baby's food. 2584-73
Health care for the adolescent. 2846-73
Parents give children bad habits. 2878-73
Foods for the preschool child. 2911-73
Do you know a classroom when you see it? 3066-73
The School lunch bunch (filmstrip). 3572-73
The School lunch bunch (Slides). 3573-73
The inside story of school lunch pizza. 3838-73
More is not better. 323-74
Eating behavior of preschool children. 363-74
Put munch in their menu. 534-74
Put munch in their menu (Filmstrip/cassette tape). 535-74
Nutrition education at Indian schools. 707-74
Nutrition and feeding techniques for handicapped children. 933-74
Obesity and malnutrition in childhood. 1062-74
Take your turn as a smart food shopper; instructional model for parents. 1772-74
Why Johnny's parents don't read. 1860-74
Nutrition education: an integral part of a school feeding program. 2254-74
PARENT PARTICIPATION
Nutrition instructors guide for training leaders. 552-73
Nutrition education for young children. 553-73
Leader's handbook for a nutrition and food course. 555-73
Ideas for promoting participation. 858-73
Kindergartners make friends with school lunch. 2016-73
Parent involvement. 2086-73
Nutrition education--an integral part of a school feeding program. 2655-73
What do you do when your students are eating off campus? 3257-73
The mother-child cook book. 3395-73
Hawaii follow through. 3423-73
Baking the school lunch way. 3641-73
Mission impossbile. 3662-73
Type A--the ethnic way. 3909-73
Nutrition survival kit. 92-74
Teaching nutrition in school lunch. 252-74
Food and nutrition programs in kindergarten and first grade. 611-74
Kicking a winning touchdown. 650-74
Helping low-income parents: I. Through parent education groups; II. Through homemaking consultants. 1553-74
Acquainting parents with nutrition education. 1586-74
Strategy II teaches parents to teach children. 1668-74
Teaching child health. 1720-74
Food and nutrition services in daytime programs for young children. 2240-74
We had a health fair!. 2256-74
We had a health fair!. 2257-74
A loaf of bread, a jug of milk and thou, Grandpa. 2270-74
Home and school cooperate to enrich the home-packed school lunch. 2275-74
Key specialist for nutrition leadership: a demonstration project for the employment of a nutrition education specialist at the state level to develop food service related nutrition education programs--final report. 2334-74
Home economist-homemaker aide team expands environmental enrichment program. 2351-74
PARENTAL INFLUENCE
Bread and jam for Frances (Phonodisc). 203-74
The father's influence on young children's food preferences. 220-74
Nursery school can influence foods acceptance. 434-74
Bread and jam for Frances. 511-74
Open doors to improved nutrition: the family influence on children's food habits; nutrition of the school child. 870-74
Teaching child health. 1720-74
PARENTERAL FEEDING
Guidelines for total parenteral nutrition. 2428-73
Protein nutrition. 215-74
PAROCHIAL SCHOOLS
Catholic schools: the best and the worst of times. 1980-73
Jemez Pueblo discovers the cup-can. 2015-73
Factors affecting student participation in selected Milwaukee, Wisconsin Catholic high school lunch programs. 2017-73
How to up taste appeal. 3653-73
Lunch-is the teacher. 3911-73
School feeding: New Orleans style. 3973-73
Breakfasts brighten summer school mornings. 3995-73
St. Michael's makes a deal. 2290-74
St. James builds a kitchen. 2409-74
PARSLEY
Parsley. 1144-74
PARSNIPS
Parsnips. 1204-74
PART TIME EMPLOYEES
Extra summer help at your doorstep. 3084-73
PASTEURIZATION
Modern dairy products. 643-73
Dairyman Don. 2116-74
Some effects of processing and storage on the nutritive value of milk and milk products. 2149-74
PATENTS
The Patent Office. 639-73
Textured foods and allied products. 3846-73
Proteins from hydrocarbons. 2124-74
PATIENT CARE
Guidelines for total parenteral nutrition. 2428-73
Diseases of the liver--part 2: Hepatitis. 2854-73
General administration in the nursing home. 3240-73
Nutrition education clinics assist long-term patients. 102-74

Making employee orientation work. 1677-74
Orientation program increases job satisfaction and stability. 1758-74
Self-evaluation first. 1777-74
How to talk training talk. 1783-74
The art of asking questions. 1816-74
Enrichment and training. 1830-74
The importance of believing - in training. 1861-74

PERSONNEL POLICY
Higher education guidelines: executive order 11246. 4178-73
Identifying the functioning disturbed executive. 1363-74
Equal employment compliance--The concept of probable or reasonable cause. 1454-74
Hiring the mentally handicapped. 1459-74
A systems approach to management development. 1472-74
Maturity and organizational growth pains. 1473-74
Orientation program increases job satisfaction and stability. 1758-74

PERU
Growth of children from extremely poor families. 2412-73
Diet and food beliefs of Peruvian jungle tribes. I. The Shipibo (monkey people). 197-74
Nutrition and care of young children in Peru. III. yarina-guas, a jungle town. 520-74

PEST CONTROL
"Search and destroy" tactics work. 1693-73
The freeloaders; foodservice pest control (Filmstrip/Record). 1716-73
Hospital food sanitation. (Film loop). 1721-73
Food sanitation: study course. 1728-73
Sanitation for food service workers. 1761-73
Sanitation: Rodent and insect control (Film Loop). 1770-73
Sanitary food service. 1782-73
Sanitation & safety for child feeding programs. 3788-73

PESTICIDE RESIDUES
From hand to mouth. 3821-73
Conference on sanitation and food safety: proceedings sanitation and food safety conference August 21, 22, and 23, 1973. 3826-73
Safe use of pesticides. 3829-73
Kitchen sanitation and food hygiene. 2061-74
The freeloaders (Filmstrip/cassette). 2069-74
Let's keep food safe to eat (Motion picture). 2071-74
Applied foodservice sanitation. 2082-74
PESTICIDE RESIDUES
Fact and fancy in nutrition and food science - chemical residues in foods. 175-73
Man, health, and environment. 230-73
Modern food analysis. 232-73
Food pollution. 1876-73
Hearings, Ninety-second Congress, second session, on nutrition and human needs: Part 43--food additives. 1956-73
Sowing the wind. 2404-73
FDA's view of food safety. 2409-73
Health foods versus traditional foods: A comparison. 2440-73
Pesticide residue levels in cooked rice and noodles. 3791-73
Milk: Why is the quality so low? 19-74
Foods: fads and facts (Motion picture). 402-74
Progress report, July 1, 1971. 1000-74
Progress report. 1001-74
PESTICIDES
Responsibility of dietitians for providing information about food: it's wholesomeness and nutritional value. 473-73
Natural foods (Slides/Cassette Tape). 2676-73
Health and food. 3780-73
Natural, organic, and health foods. 316-74
Where you should be shopping for your family. 324-74
Progress report of the Human Nutrition Research Division, Marketing and Nutrition Research, July 1, 1970. 999-74
The freeloaders (Filmstrip/cassette). 2069-74
Common sense pest control. 2090-74
Your world, my world: a book for young environmentalists. 2105-74
The use of chemicals in food production, processing, storage, and distribution. 2106-74
Food additives (Slides). 2126-74
PHARMACOLOGY
Vitamin E and heart disease. 579-73
Back to folk medicine: the pros and cons. 2723-73
The verdict on vitamins. 898-74
PHENOTYPE
Dietary aspects of hyperlipidemia. 2589-73
PHENYLALANINE-RESTRICTED DIETS
The dramatic story of PKU. 155-73
PHENYLKETONURIA
Dietetic foods. 90-73
The dramatic story of PKU. 155-73
Responses of children with phenylketonuria to dietary treatment. 472-73
Highlights of research on nutrition and mental ability. 2492-73
PHILADELPHIA
Efficiency escalation in school lunch programs. 1418-73
Two views: Getting into school lunch. 3274-73
How to up taste appeal. 3653-73
Lunch-is the teacher. 3911-73
Good food and goodwill come packaged together. 3931-73
An idea's time comes to Philadelphia. 3939-73
An interdisciplinary approach to teaching homemaker aides. 1801-74
The satellite food service system works in Philadelphia. 2338-74
PHILIPPINES

A Right to Survive. 2885-73
Survey of instructional materials used and needed by some community workers. 2924-73
Barrio central: a study of some social and cultural factors in malnutrition. 1016-74
PHOSPHORUS
Minerals as nutrients. 2417-73
Osteoporosis. 2551-73
Adult bone loss, fracture epidemiology and nutritional implications. 2571-73
Phosphorus balances of adults consuming several food combinations. 697-74
Nutrition education--1973, hearings, ninety-third Congress, first session, part 6--phosphate research and dental decay. 1265-74
Fish protein concentrate as a mineral nutrient source. 2127-74
PHOTOSYNTHESIS
Food chemistry. 2447-73
PHYSICAL ACTIVITY
Obesity--part 4: Causes. 2862-73
Exercise energetics in normal man following acute weight gain. 2948-73
Lift with your head (Filmstrip/Cassette tape). 3782-73
Food gives energy for work and play (Poster). 397-74
Use of drugs in the treatment of obesity. 432-74
Improvement of food selection through physical education and athletic programs. 490-74
The success of TOPS, a self-help group. 967-74
Weight control (show 'n tell). 1005-74
PHYSICAL DEVELOPMENT
Dietary intake and physical development of Phoenix area children. 147-73
Feeding children. 181-73
Growth of preschool children in the North Central Region. 228-73
Malnutrition, learning, and behavior. 289-73
A boy and his physique. 333-73
How children grow. 358-73
Nutrition and cell growth. 380-73
Nutrition of a group of school children in Ohio with improved diets. 438-73
T.L.C. and the hungry child. 509-73
A study of school feeding programs - I. Economic eligibility and nutritional need -II. Effects on children with different economic and nutritional needs. 2068-73
How to get in shape and stay there. 2562-73
Deprivation syndrome or protein-calorie malnutrition. 2615-73
Human nutrition: its physiological, medical and social aspects; 2713-73
A girl and her figure and you. 2745-73
Facts about: adolescence. 2754-73
Malnutrition, hunger, and behavior; I. Malnutrition and learning. 2815-73
Nutrition and development. 2957-73
Effects of nutrition on growth and performance. 2963-73
Developmental physiology and aging. 4171-73
Nutrition in preschool and school age, Tylosand, Sweden, 1968. 190-74
Food helps us grow to be as tall as we can be (Poster). 398-74
Environmental factors associated with preschool obesity; II. Obesity and food practices of children at successive age levels. 521-74
Environmental factors associated with preschool obesity; I. obesity in six-month-old children. 522-74
I'm Mr. Energy, in food from A to Z (Poster). 528-74
Nutrition and neural development. 563-74
A growing story (Filmstrip/Cassette tape). 590-74
Nutritional condition of New Mexican children. 605-74
Nutrition of New Mexican Spanish-American and "Anglo" adolescents--blood findings, height and weight data, and physical condition. 606-74
Fuel for life (Videocassette). 735-74
Fuel for life (Motion picture). 745-74
Relation of nutrition to physical and mental development. 867-74
Nutritional status of preschoolers; an ecologic perspective. 922-74
How food affects you (Filmstrip). 944-74
Standards and progress in day care center programs. 2191-74
PHYSICAL EDUCATION
Nutrition for athletes: A handbook for coaches. 60-73
What foods do physical education majors and basic nutrition students recommend for athletes? 269-74
Improvement of food selection through physical education and athletic programs. 490-74
Nutritional knowledge of collegiate physical education majors. 1554-74
PHYSICAL EXERCISE
Nutritional component in some problems of adolescence. 157-74
What to do about teenage overweight. 1043-74
The challenge for school lunch in the program of youth fitness. 2287-74
PHYSICAL FITNESS
Nutrition and physical fitness. 97-73
Screening children for nutritional status. 560-73
Food and Fitness. 2471-73
Nutrition and physical fitness. 2472-73
Effects of differing breakfast conditions and habit patterns on performance in an endurance activity. 2836-73
Breakfast and the bright life (Slides). 2914-73
There's a new you coming. 239-74
Eat well, grow well! (Motion picture). 300-74
You are what you eat; one mile, two miles, three miles more. 319-74
Nutritional fitness for teenagers. 499-74
Nutrition of adolescents. 806-74
Nutrition for older Americans. 807-74
The secret family exercise plan. 902-74
Atherosclerosis; Part 1: the disease and epidemiology. 913-74
Teaching teens 'stuff' that counts. 1639-74
Changes in adults which affect teaching. 1690-74
What to teach--when and why. 1693-74
The challenge for school lunch in the program of youth fitness. 2287-74
Adolescent obesity. 2355-74
PHYSICAL HEALTH
Occupational stress and physical health. 3149-73
Developmental physiology and aging. 4171-73
Carlos Calcium is my name (Poster). 247-74
Food gives energy for work and play (Poster). 397-74
I'm Mr. Energy, in food from A to Z (Poster). 528-74
I'm Paul Protein (Poster). 529-74
I'm Sally C and here's what I do. 530-74
Nutrition of New Mexican Spanish-American and "Anglo" adolescents--blood findings, height and weight data, and physical condition. 606-74
Society and health in the lower Rio Grande Valley. 636-74
My name's Ira Iron (Poster). 710-74
How food affects you (Filmstrip). 944-74
PHYSICAL MEASUREMENTS
Eating quality of half turkey hens cooked by four methods. 3141-73
Metrics: your schools will be teaching it and you'll be living it--very, very, very soon. 3480-73
Metric conversion: the training colossus of the Seventies. 3519-73
Think metric: It's simple. 3673-73
All you need to know about metric. 1505-74
Introducing the metric system (Filmstrips/cassettes). 1657-74
Education and training in SI units. 1797-74
Speaking of metric!. 1800-74
Students learn to live with liters and meters. 1813-74
Metric system (Kit). 1838-74
Temperature kelvin - K. 1932-74
Height and weight of youths 12-17 years, United States. 2543-74
PHYSICAL PROPERTIES
Food theory and applications. 2788-73
PHYSICALLY HANDICAPPED
Feeding children. 181-73
Nutrition and handicapped children. 381-73
Tom Farley's impossible dream. 2078-73
Opportunities for nutritionists and dietitians in rehabil-itation programs. 2203-74

Food services for the elderly and the disabled. 2314-74
Pennsylvania takes a look at nutrition in the orthopedic program. 2323-74
PHYSICIANS
A study of the need for dietary counselling services for the physician. 505-73
The hot-cold theory of disease: implications for treatment of Puerto Rican patients. 481-74
Nutrition education in medical practice. 566-74
Physicians' attitudes on dietitians' contributions to health team care. 937-74
Nutrition in medical education: a problem-centered approach. 1748-74
PHYSICS
The Joule - unit of energy. 270-73
Measuring the color of foods. 303-73
Remarks on the Joule. 469-73
Science of home economics and institutional management. 933-73
Science fundamentals: a background for household equipment. 1648-73
PHYSIOLOGY
Nutrition of animals of agricultural importance: part 1. 134-73
Physiologic control of food intake. 449-73
The vitamins. 484-73
Obesity: A serious symptom. 2477-73
Vitamin A physiology. 2830-73
The Vitamins. 2848-73
Nutrition and the senses. 2933-73
Developmental physiology and aging. 4171-73
Warirs and Weil on developmental nutrition: calories. 310-74
Modern nutrition in health and disease: dietotherapy. 443-74
Diabetes and pregnancy. 447-74
Alaskan Arctic Eskimo: responses to a customary high fat diet. 510-74
The central nervous system: its central role in discrimin-ation and selection of food. 614-74
The Mechanics of life; digestion and the food we eat (Motion picture) Bathen Films, ltd. 682-74
Taste mechanisms in preference behavior. 810-74
Science of nutrition (Filmstrip/Cassette tape). 843-74
Children are different. 864-74
The adolescent--his growth and development. 1841-74
PHYTATE
Western Hemisphere scientists discuss nutrient needs and food prospects. 158-74
PICA
Prevention of pica, the major cause of lead poisoning in children. 2529-73
Vulnerability of children to lead exposure and toxicity. 2695-73
Pica and lead poisoning. 3794-73
Reported incidence of Pica among migrant families. 219-74
Cemare bressa (1785-1836) on dirt eating in Louisiana: a critical analysis of his unpublished manuscript "De la dissolution scorbutique". 709-74
PICKLED FOODS
Quick pickling...The natural, easy way to preserving. 4060-73
PIES
Microbiology of frozen cream--type pies, frozen cooked--peeled shrimp and dry food--grade gelatin. 305-73
Puddings and other delicious things. 657-73
Understanding baking. 1379-73
Practical baking. 1517-73
Breads, cakes, and pies in family meals. 1525-73
Vegetarian cookery 4. 2115-73
Step-by-step directions for making (1) Perfect prime rib of beef, (2) Golden brown French fries in almost no time! (3) America's 2nd favorite pie, cherry. 1936-74
PILOT PROJECTS
The development and testing of a behavioral-reference groups model for evaluation of vocational education pilot programs: occupational research development monograph no. 4. 3332-73
A pilot study for gainful employment in home economics: final report, volume I. 3367-73
Hospitality education curriculum development project: final report. 3382-73
Evaluation of secondary school programs to prepare students for wage earning in occupations related to home economics: final report, volume I. 3498-73
Update: ABA'AS Detroit school service. 3915-73
For ABA Detroit: the first school day. 3928-73
Fun for your breakfast--to school!. 3991-73
Cincinnati summer food service demonstration project: special food service program for children; Cincinnati, Ohio, 1972. 4011-73
Advertising and mass communications: a model for rural nutrition information programs. 1747-74
Education battles malnutrition. 2202-74
Program aides" for work with low-income families. 2358-74
PINEAPPLES
Pineapple - the fruit of royalty. 2992-73
Pineapples. 1187-74
PITTSBURGH
Food service systems achievement at Pittsburgh national building. 825-73
Nutrition education and the hospitalized child. 301-74
PIZZA
Your guide to food preparation. 1934-74
Hot dogs, hamburgers & pizza. 2441-74
PLANNING
An administrator's view of school food service. 752-73
Growth through new ventures. 846-73
Industrial security management. 848-73
Budgeting: key to planning and control. 867-73
Principles of management:. 872-73
Appraising managers as manager. 873-73
Managing change in food service operations. 883-73
Planning short and long range objectives for the future of the school food services. 921-73
Conceptualizing the learning center. 1058-73
Five steps toward better small meetings. 1092-73
The message is you. 1156-73
The message is you - guidelines for preparing presentations, part three. 1157-73
The message is you, part II. 1158-73
Planning: that's how to develop a new package for a new product. 1911-73
High school lunch program - a model for decision analysis. 1994-73
Media units grow into service centers. 2248-73
Day care survey 1970: Summary report and basic analysis. 2296-73
40 points to ponder about the customer of the future. 2410-73
Meaning and problems of planning. 3081-73
The fundamentals of top management. 3105-73
Developing managers--an integral part of the management process. 3107-73
Management essentials. 3111-73
So you want to start a restaurant? 3112-73
ITORP. 3182-73
Foodservice exam time!. 3194-73
Management by objectives and results. 3200-73
Workshop for school food service supervisors and managers. 3211-73
General administration in the nursing home. 3240-73
A return to fundamentals: make a choice. 3243-73
11 things you need to know in planning a training meeting at a hotel. 3324-73
Teacher's guide: food service organization and management I; responsibilities of the manager. 3499-73
Priority of nutrition in national development. 3936-73
International conference on nutrition, national development, and planning, Massachusetts Institute of Technology, 1971. 3907-73
The meaning of school lunch. 3954-73
Dollars and sense of nutrition education. 3955-73
School feeding in developing countries: an overview of program activity and problems as percieved by CARE staff abroad. 3956-73
A time to plan ahead. 651-74
Report on a conference on nutrition education, Guadalajara, Mexico, 1972. 838-74
Manual on food and nutrition policy. 1237-74
Manpower value planning. 1341-74
Functional job analysis: an approach to a technology for manpower planning. 1342-74
Guides for day care licensing. 1359-74
Food service on a budget. 1382-74
Flight plan (Film loop). 1418-74
Flight plan (Motion picture). 1422-74
Management decisions by objectives. 1431-74
Management by objectives: antidote to future shock. 1432-74
A guide for financing school food and nutrition services. 1438-74
Five county food management improvement project (Project Anser): final report. 1440-74
Principles of supervision. 1448-74
Managing training and development systems. 1463-74
Balanced creativity. 1488-74
Instructional material assessment tool. 1739-74
Equipment problem solvers: 4-step planning pays off for hospital. 2009-74
The encyclopedia of professional kitchen planning. 2045-74
Food and nutrition procedures in time of disaster. 2280-74
PAG statement (No. 26) on food and nutrition considerations in national economic planning. 2313-74
Myths and realities in international health planning. 2347-74
Guide to systems planning services. 2524-74
A bookshelf on nutrition programs for pre-school children---arecent selected bibliography. 2531-74
How to plan and operate a restaurant. 2591-74
PLANT PROTEIN
Protein 1984. 139-74
Vegetable proteins: short world food supplies influence vegetable proteins' future - Part II. 1129-74
Vegetable proteins: part I. Historical perspective, tight-ering supplies. 1130-74
Textured protein trims cost of frozen meat patties. 1480-74
Plant proteins: Progress and problems. 2111-74
Protein-fortified foods: the "Now" foods of the 1970s. 2121-74
The search for alternative protein sources. 2134-74
Progress on proteins. 2145-74
Soy protein products: technology and nutritive value. 2151-74
Pioneer work on protein foods. 2157-74
The effects of processing on the nutritive value of veget-able-protein concentrates. 2158-74
PLANT PROTEIN CONCENTRATES
The right way of textured vegetable protein. 1800-73
Synthetics and substitutes for agricultural products. 1957-73
Proteins--past, present and future sources. 2975-73
Beefish and hamburger patties rate equally in taste prefe-rence tests. 3857-73
Considerations for choosing the right plant protein. 3865-73
PLANT SOURCES OF FOODS
Where we get our food. 346-73
Food pharmacology. 480-73
Trace elements in human and animal nutrition. 567-73
Food in antiquity. 628-73
Vegetable cookery (Film loop). 1534-73
Genetic improvement of crop foods. 1865-73
A select bibliography and library guide to the literature of food science. 2262-73
The greengrocer. 2370-73
Food for free. 2697-73
Back to folk medicine: the pros and cons. 2723-73

Pineapple - the fruit of royalty. 2992-73
Tomato--the vegetable/fruit. 3001-73
Making the most of mushrooms. 4067-73
Almonds are the chef's best friend. 4088-73
Vegetables only... 4106-73
A selected bibliography on: African foods and nutrition, and African botanical nomenclature. 4188-73
Wild greens--vegetables or just weeds? 909-74
Why eat our vegetables? (Motion picture). 1052-74
Edible wild plants--try it, you may like it. 1085-74
Seed to civilization: the story of man's food. 1106-74
Vegetable proteins: short world food supplies influence vegetable proteins' future - Part II. 1129-74
Garlic. 1135-74
Blackberries, dewberries. 1136-74
Limes. 1137-74
Strawberries. 1138-74
Lemons. 1139-74
Cherries. 1140-74
Figs. 1141-74
Gooseberries. 1142-74
Green or wax snap beans. 1143-74
Parsley. 1144-74
Celery. 1145-74
Squash. 1146-74
Cultivated mushrooms. 1147-74
Watermelons. 1148-74
Cranberries. 1149-74
Radishes. 1150-74
Sweet anise. 1151-74
Spinach. 1152-74
Lychees. 1153-74
Tangelos. 1154-74
Pears. 1155-74
Carrots. 1156-74
Peaches. 1157-74
Eggplant. 1158-74
Celeriac. 1159-74
Grapefruit. 1160-74
Kale. 1161-74
Sweet potatoes. 1162-74
Persimmons. 1163-74
Artichokes. 1164-74
Cauliflower. 1165-74
Apples. 1166-74
Oranges. 1167-74
Beets. 1168-74
Brussels sprouts. 1169-74
Asparagus. 1170-74
Bananas. 1171-74
Plums-prunes. 1172-74
Rhubarb. 1173-74
Apricots. 1174-74
Tomatoes. 1175-74
Honey dews. 1176-74
Peppers. 1177-74
Tangerines. 1178-74
Cabbages. 1179-74
Sweet corn. 1180-74
Nectarines. 1181-74
Coconuts. 1182-74
Mustard greens. 1183-74
Pomegranates. 1184-74
Dry onions. 1185-74
Avocados. 1186-74
Pineapples. 1187-74
Papayas. 1188-74
Rutabagas. 1189-74
Pumpkins. 1190-74
Turnips. 1191-74
Mangoes. 1192-74
Watercress. 1193-74
Green onions. 1194-74
Anise. 1195-74
Lettuce. 1196-74
Broccoli. 1197-74
Potatoes. 1198-74
Cucumbers. 1199-74
Raspberries. 1200-74
Collards. 1201-74
Blueberries. 1202-74
Shallots. 1203-74
Parsnips. 1204-74
Persian melons. 1205-74
Swiss chard. 1206-74
Okra. 1207-74
Dandelions. 1208-74
Dates. 1209-74
Kohlrabi. 1210-74
Macrostructure and nomenclature of plant and animal food sources. 2128-74

PLASTIC WRAP
Conventional and microwave heating of beef: Use of plastic wrap. 3681-73
PLASTICS
Laminated plastics for surfacing food service equipment. 1623-73
Testing packaging films. 1949-73
PLATE WASTE
Nutritional adequacy, preference, acceptability, and food production aspects of hot and cold school lunches. 294-73
Nutrition instruction and lunch surveys with second graders. 409-73
What's wrong with school lunch? 602-73
Groceries and garbage. 1358-74
Down with garbage. 1406-74
PLENTIFUL FOODS PROGRAM
How consumer food programs improve diets, fiscal '67; an activity report for these programs which are designed to combat hunger in this country. 3999-73
Food for summer camps. 4000-73
PLUMS
California prunes (Motion picture). 1089-74
Plums-prunes. 1172-74
Para enlatar chabacanos, melocotones, y ciruelas. 2114-74
POACHING
Simmering and poaching (Motion picture). 3686-73
Simmering and poaching (Film loop). 1975-74
POD VEGETABLES
A split pea special: a 1970 market report. 663-73
Processes and potential markets for instant bean powders. 1918-73
The beanery. 2300-73
Vegetables only... 4106-73
Getting to know vegetables (Show'n Tell). 1982-74
9 ways to beef up your profits with beans. 2425-74
POLICY
Official statements of guidelines for a national nutrition policy, April 1974. 1246-74
Delphi techniques helps set ASFSA goals. 1399-74
Myths and realities in international health planning. 2347-74
POLITICS
School board source of foodservice support. 943-73
The ecology of malnutrition in the Caribbean. 662-74
POLLUTION
Detergents and our water. 15-73
Man, health, and environment. 230-73
Pollution, people, power and profit - forces at work to change packaging. 1912-73
Health hazards of the human environment. 3828-73
One man's meat: the organic alternative. 1103-74
Your world, my world: a book for young environmentalists. 2105-74
Science for society. 2583-74
POMEGRANATES
Pomegranates. 1184-74
POPCORN
Puddings and other delicious things. 657-73
POPULATION DISTRIBUTION
The food and people dilemma. 194-74
POPULATION GROWTH
Food for a modern world (Motion picture). 196-73
Overcoming world hunger. 652-73
The role of industry in meeting the challenge of future food needs. 938-73
Food for a modern world (Videocassette). 1852-73
Meeting future needs. 1879-73
At the threshold of attainment. 1974-73
Implications of population trends for quality of life. 2240-73
Population growth and America's future. 2260-73
Some current population trends. 2270-73
World food-population levels. 2285-73
Social and cultural factors influencing malnutrition. 2532-73
Nutrition and world health. 2587-73
Western Hemisphere Nutrition Congress, 3d., Miami Beach, 1971. 2949-73
The future of food. 2991-73
Build, build, build. 3982-73
Protein 1984. 139-74
The food and people dilemma. 194-74
The epidemiological triad: agent, host and environment. 883-74
Population growth, food needs and environmental stress. 1087-74
Integrated approach for food, nutrition, population and economic growth. 1118-74
Will there be enough food? 1124-74
Vegetable proteins: part I. Historical perspective, tight-ering supplies. 1130-74
POPULATION TRENDS
Attack on starvation. 635-73
Child spacing as a part of nutrition education programs. 1051-73
Current demands on the School Food Service System. 1987-73
How to forecast school enrollments accurately - and years and years ahead. 2237-73
Implications of population trends for quality of life. 2240-73
Some current population trends. 2270-73
World food resources. 297
US RDA doesn't meet population needs. 3013-73
Nursing home foodservice. 3213-73
PORK
The commodities controversy: food for your lunch. 632-73
Meat evaluation handbook. 698-73
Institutional meat purchase specifications for fresh pork---series 400. 733-73
Gain menu prestige with pork. 1333-73
Effect of temperature and cut on quality of pork roast. 1416-73
Meat buyer's guide to portion control meat cuts. 2330-73
Nutrition of animals of agricultural importance - part 2. 2520-73
Eat not this flesh. 2999-73
Pork in family meals. 3696-73
Meatfacts 73: a statistical summary about America's large-stfood industry. 4118-73
How to buy, store, prepare beef: 101 meat cuts (Slides). 4200-73
Uniform meat labeling eliminates shopper confusion. 45-74
Origin of selected Old Testament dietary prohibitions. 453-74
Facts about pork. 1114-74
Where pressure fryers reign supreme. 2053-74
Menuplanner extra barbecue--1. 2474-74
PORK PRODUCTS
Institutional meat purchase specifications for cured, cured and smoked, and fully cooked pork products--series 500. 741-73
PORTION CONTROL
How much do they want? 850-73
Food service; teachers guide. 1174-73
Hospital food handling (Film loop). 1446-73
Preventing waste (Film Loop). 1496-73
Standard food portions (Film loop). 1514-73
Meat buyer's guide to portion control meat cuts. 2330-73
Food purchasing guide for group feeding. 2352-73
Controlling food costs--a matter of survival. 3259-73
There's more to frozen foods than meets the eye. 3611-73
Control your menu prices with portion-controlled meats. 3612-73
The ABC'aS of portioned meats. 3683-73
New saw blade system assures portion control. 3745-73
The arithmetic behind portioned meats. 4189-73
A dietitian talks about food. 4199-73
The secret family diet. 438-74
How to cut food costs to the bone. 1372-74
Down with garbage. 1406-74
School lunch participation. 2239-74
Award-winning hospital menu offers 31 entrees based on frozen foods. 2336-74
PORTLAND, OREGON
Special food service for summer. 2063-73

PORTUGAL
Flavor secrets from foreign lands: Portugal. 2157-73
POSITION STATEMENTS
Official statements of guidelines for a national nutrition policy, April 1974. 1246-74
A.D.A. Reports: position paper on Child Nutrition Programs. 2161-74
PAG statement (No. 26) on food and nutrition considerations in national economic planning. 2313-74
POST SECONDARY EDUCATION
Status of curriculum development in the field of commercial food at the non-baccalaureate level. 3311-73
Institute for home economics teachers on initiating, developing, and evaluating programs at the post high school level to prepare food service supervisors and assistants to directors of child care services: volume I: a post high school program in home economics (May 1, 1966-June 30, 1967); final report. 3406-73
A question of opportunity: women and continuing education. 3490-73
Directory of postsecondary schools with occupational programs, 1971; public and private. 4149-73
Development of a validated instructional system for hospi-tality education. 1754-74
The junior college--a new dimension in training. 1786-74
Texas State Tech instructor wins award for vending course technique. 1824-74
POTASSIUM
Minerals as nutrients. 2417-73
Potassium, why? 2467-73
Low protein diets made simple. 629-74
POTATOES
Convenience and the cost of potatoes and orange juice. 10-73
Potatoes: production, storing, processing. 662-73
Gallup determines potato popularity. 833-73
Techniques in the preparation of fruits and vegetables. 1140-73
Potato magic for professionals. 1489-73
Potatoes add a sales bonus. 1490-73
Versatile potatoes increase menu variety, while low cost augments profit margin. 1536-73
Color measurement of foods: XXXII: miscellaneous: part II, potato products. 1766-73
Eye the potato for vitamin C. 1846-73
Novel process controls quality variables for French fried potatoes - extends shelf life of potato chips. 1900-73
Texturizing process improves quality of baked French fried potatoes. 1951-73
Effect of packaging on quality of dehydrated potato granules during storage. 2317-73
Potatoes made easy for school lunch. 2339-73
Toward the new. 2353-73
The potato: Thoroughbred among vegetables. 2993-73
A potpourri of food ideas. 2994-73
The best French fries in town. 3632-73
How to get perfect fries every time!. 3735-73
Yams flavor and color fall menus. 4066-73
The best of Boston. 4094-73
Boise: The potato place to be. 4096-73
Potato nutrition facts. 981-74
Potatoes. 1198-74
The Nation's most popular menu items. 1415-74
Leche en polvo en sopa de papa. 1920-74
Frozen gold (Filmstrip/Record). 1954-74
Potato shopping, storing and cooking information. 1981-74
Hot dogs, hamburgers & pizza. 2441-74
The potato lover's diet cookbook. 2456-74
Tic-Tac-(Pota) toe. 2500-74
POULTRY
Inspection, labeling, and care of meat and poultry. 38-73
How to buy poultry. 40-73
Effect of microwave heating on vitamin B6 retention in chicken. 161-73
Nutritional value of turkey protein - effects of heating and supplementary value for poor proteins. 429-73
Thiamin and riboflavin in cooked and frozen, reheated turkey - gas vs. microwave ovens. 523-73
Labelling standards and some uses of meat analogs in new meat products. 694-73
Standards for meat & poultry products. 731-73
School food service management. 1131-73
Better school lunches in Oklahoma. 1351-73
Afri-Kingdom fried chicken system. 1374-73
Co-existence: surplus commodities and convenience foods. 1400-73
Poultry preparation (Film loop). 1491-73
Stuffing and trussing a chicken (Film loop). 1516-73
Turkey time saver. 1523-73
Weaver speeds chicken processing with giant microwave system. 1683-73
Public health aspects of poultry processing (Motion picture). 1759-73
Turkey: the bad guy of school lunch. 1781-73

PRISONS
Exploring the needs of the food service industry. 3254-73
PRIVATE SCHOOLS
Private school lunch. 984-73
Lunch programs in the nation's schools. 2081-73
Food service in private elementary and secondary schools. 2082-73
Keeping Kosher with chicken. 3910-73
Directory of postsecondary schools with occupational programs, 1971; public and private. 4149-73
Directory of secondary schools with occupational curriculums; public-Nonpublic, 1971. 4159-73
St. Michael's makes a deal. 2290-74
St. James builds a kitchen. 2409-74

PROBLEM SOLVING
  Creative approaches to problem solving. 798-73
  Problem solving and conflict resolution. 925-73
  Purposeful change in school food service programs. 927-73
  Dynamic "Think" sessions - Summary of brainstorming groups. 1073-73
  What every supervisor should know. 1293-74
  The abc's of decision making (Motion picture). 1313-74
  Seven excuses for indecision. 1337-74
  Management decisions by objectives. 1431-74
  Executive isolation: can it be prevented? 1441-74
  Personnel management: a t/a perspective. 1479-74
  Balanced creativity. 1488-74
  Comparative group approaches. 1596-74
  Shrimp newburg via management by objective. 1613-74
  The challenge of group counseling. 1682-74
  Job enrichment: how to avoid the pitfalls. 1831-74
PROCEEDINGS
  Materials and methods in nutrition education. 183-73
  Nutrition education and the related management processes. 306-73
  Nutrition education: Nutrition delivery systems and the management function. 372-73
  Innovative approaches to nutrition education and related management processes. 499-73
  Practices of low-income families in feeding infants and small children with particular attention to cultural subgroups. 563-73
  Problems of assessment and alleviation of malnutrition in the United States. 577-73
  Nutrition education in the school food service: challenge, change, and commitment. 592-73
  New directions for action. 761-73
  Innovative management for the expanding school food service program. 910-73
  Management functions for state and system level school and non school food service administrators. 958-73
  Management function of a centralized school food service system. 959-73
  New concepts in management. 960-73
  Continuing education in nutrition-1970. 1071-73
  Education and training for industry - volume I. 1127-73
  Proceedings of a symposium: nutrition education at the undergraduate and master's degree level. 1217-73
  Food for tomorrow: resources, environment, distribution. 1885-73
  Food cultism and nutrition quackery. 2469-73
  Symposium: seed proteins. 2637-73
  Nutrition, development and social behavior. 2660-73
  Proceedings of National Nutrition Education Conference November 2-4, 1971. 2939-73
  Western Hemisphere Nutrition Congress, 3d., Miami Beach, 1971. 2949-73
  Exploring the needs of the food service industry. 3254-73
  Development of the individual--a goal of the food service industry. 3255-73
  Conference summary and closing remarks. 3935-73
  Proceedings. 3961-73
PROCESSED FOODS
  Convenience and the cost of food. 9-73
  Convenience and the cost of potatoes and orange juice. 10-73
  Commerciogenic malnutrition?--time for a dialogue. 125-73
  Eliminating warmed-over flavor in precooked food. 166-73
  The berries with bounce. 626-73
  Chocolate: the Aztec's brown gold. 630-73
  Peanuts: the first snack food. 653-73
  Byproducts from milk. 667-73
  Philosophy and guidelines for nutritional standards for processed foods. 714-73
  The cookie man cam. 1407-73
  The great American menu mix. 1439-73
  What is the future of textured protein products? 1540-73
  Module heats 24 different types FF, meals separately, simultaneously. 1613-73
  Weaver speeds chicken processing with giant microwave system. 1683-73
  Custard sauces made with four types of processed eggs. 1818-73
  Defatted germ flour - food ingredient from corn. 1820-73
  Dehydrated protein-fortified fruit juices. 1822-73
  Developing a product to make salads taste special. 1823-73
  Development aids: diverse product applications identified for unique flavored protein products. 1824-73
  Development aids: flavored, colored apple pieces offer route of distinction; school lunch entree formulations offered. 1825-73
  Development and market evaluation of a tropical fruit product for a nutritious breakfast. 1827-73
  Dry sauces, soup mixes reap benefits of new ingredient: low moisture apple solids. 1831-73
  Foods of the future. 1855-73
  Frozen, precooked rice shapes suitable for all markets. 1862-73
  Further processed, precooked frozen meats growing at better than 20% annually. 1863-73
  Meat pattie chosen first product to gain nutritional, textural advantages of new protein fiber. 1878-73
  Microwave adapter permits frozen foods in foil containers to heat in minutes. 1882-73
  Non-dairy cheese - a unique reality. 1896-73
  Novel process controls quality variables for French fried potatoes - extends shelf life of potato chips. 1900-73
  Nutrition upgraded, final texture controlled using new structured protein fiber. 1903-73
  Nutritional iodine in processed foods. 1904-73
  Positioning a product for the special market. 1913-73
  Sub-systems 3 & 4: a simplified systems approach to fabri-cation & pre-preparation. 1941-73
  What are textured protein products? 1963-73
  The impact of school food service, its value to education and its future. 2013-73
  Notebook on soy: textured vegetable protein product fact sheet. 2254-73
  The cost of turkey, whole and parts. 2306-73
  A review of frozen entrees at the peak of the "raw-to-ready" scale. 2343-73
  Improvement of nutritive quality of foods. 2433-73
  Proteins as human food proceedings. 2687-73
  Food theory and applications. 2788-73
  Texture adds new dimension to soy products. 2967-73
  The future: Don't cry over onions--let them eat strawberry shortcake. 2982-73
  Total consumer buying of fresh versus processed foods remains stable. 2987-73
  Panalists point the way for greater use of frozen products by food service operators. 3222-73
  Institutional use of frozen entrees. 3235-73
  New foods in child nutrition programs: FNS "new food" notices. 3834-73
  Fruit and vegetable products. 3850-73
  USDA is interested in 'engineered foods' that can offer improved nutrition. 3880-73
  Products and systems evaluated and industry liaison. 3895-73
  Directory of systems capatability. 4130-73
  Per capita food consumption (Feb. 1973). 4161-73
  Per capita food consumption (Aug. 1973). 4162-73
  Per capita food consumption (Nov. 1973). 4163-73
  Milk: In cheese, it's disappearing. 18-74
  What's a balanced diet? (Videocassette). 737-74
  What's a balanced diet? (Motion picture). 747-74
  Fiber: the forgotten nutrient. 892-74
  Food is more than just something to eat. 1002-74
  Nutrition and palatability. 1072-74
  Dairyman Dom. 2116-74
  Macrostructure and nomenclature of plant and animal food sources. 2128-74
  Convenience and flavor, plus milk's nutrition in a natural snack. 2136-74
  Progress on proteins. 2145-74
PRODUCT DEVELOPMENT
  When, why and how of concept testing. 3099-73
  Further product applications for textured vegetable proteins. 3835-73
  Novel gel system, citrus yield ready-to-eat products. 3868-73
  Ice cream: the great American favorite. 1083-74
  Matching an unconventional product to traditional taste preferences. 1334-74
  Plan nutrition lessons now for foods of future. 1699-74
  Formulating an imitation cheese spread to make dairy proteins go farther. 2110-74
  Single-cell protein in persepctive. 2133-74
PRODUCTIVITY
  Quality in work: human resources development--a key to productivity. 3067-73
  Is your old kitchen costing you money? 3070-73
  Managing people without playing God. 3085-73
  Management development: What is it? Who does it? 3088-73
  Getting change through communications (cassette audiotapes). 3094-73
  Management essentials. 3111-73
  The art of bugging (or how to get the job done). 3135-73
  A practical guide to productivity measurement. 3137-73
  The management of change: Part 2--Change through behavior modification. 3144-73
  Management by objectives and results. 3200-73
  The A-B-C's of productivity. 3203-73
  Productivity in the food industry: a preliminary study of problems & opportunities. 3205-73
  So, we ought to get started on OD. 3215-73
  Soar in '74. 3226-73
  Development of the individual--a goal of the food service industry. 3255-73
  Guide to managing people. 3279-73
  Tell them why. 3405-73
  Work instruction programs for the food service industry. 3447-73
  Training by objectives. 3506-73
  Training: key to realistic performance appraisals. 3520-73
  The secret is on-going training. 3523-73
  Systems engineering applied to training. 3543-73
  Goal setting and feedback. 3561-73
  Boosting productivity front of the house--Part 3. 3642-73
  Increasing productivity in foodservice. 3674-73
  Short order cookery (Film loop). 3684-73
  Short order cookery (Motion Picture). 3685-73
  Blueprints for restaurant success. 3699-73
  Foodservice equipment: Yesterday. Today. Tomorrow. 3701-73
  Boosting productivity front of the house. 3712-73
  The productivity factor in refrigeration. 3751-73
  The arithmetic behind portioned meats. 4189-73
  Challenge '74: effective food service management. 1307-74
  Number one failure factor: lost time and low productivity go hand in hand. 1308-74
  Manage or be managed! a guide to managerial effectiveness. 1348-74
  Motivation and productivity. 1354-74
  Delegation: key to involvement. 1362-74
  Readings in maintenance management.

PROFESSIONAL ASSOCIATIONS

1395-74
The problems of 1974: Procurement, pricing, profits. 1413-74
How managers make things happen. 1430-74
Management decisions by objectives. 1431-74
Paranoia!. 1434-74
Twenty-two arguments against job enrichment. 1455-74
Conflicting impacts of pay on employee motivation and satisfaction. 1462-74
Strike!. 1477-74
Training starts with day-to-day motivation. 1484-74
Elements of an employee motivation program. 1491-74

PROFESSIONAL ASSOCIATIONS

Landmarks in human nutrition. 212-74
"the view from the catbird's seat"--Part II. 361-74
Follow the yellow brick road--to professionalism. 1606-74
Packaging's indispensable role in the food industry. 2112-74
Food and nutrition education source list. 2542-74

PROFESSIONAL EDUCATION

Opportunities for educational and vocational advancement. 1016-73
Educating the dietitian in a changing world. 1076-73
The long view. 1151-73
R & D for adult learning. 1222-73
The perfect environment for nonsense. 2407-73
Growth of children from extremely poor families. 2412-73
The ten-state nutrition survey: a pediatric perspective. 2419-73
A guide for evaluating consumer education programs and materials. 2425-73
Health foods versus traditional foods: A comparison. 2440-73
Nitrogen retention of adult human subjects who consumed wheat and rice supplemented with chickpea, sesame, milk, or whey. 2444-73
Legumes in human nutrition. 2448-73
The consumption of sugar. 2449-73
Assessment of biological value of a new corn-soy-wheat noodle through recuperation of Brazilian malnourished children. 2456-73
Effect of excessive vitamins C and E on vitamin A status. 2464-73
Measuring dietary intake in pre-school children. 2466-73
Lactose malabsorption in Oklahoma Indians. 2473-73
World review of nutrition and dietetics. 2474-73
Food practices of some Samoans in Los Angeles County. 2478-73
The national diet-heart study--implications for dietitians and nutritionists. 2482-73
Breast feeding in modern times. 2483-73
Psychological implications of obesity. 2484-73
The influences of the cultural milieu upon choices in infant feeding. 2486-73
Adequacy of lacto-ovo-vegetarian diets in Seventh-day Adventist boarding academies. 2488-73
Utilization of nutrients in milk- and wheat-based diets by men with adequate and reduced abilities to absorb lactose: 1. energy and nitrogen. 2490-73
Manual on feeding infants and young children. 2493-73
Dental caries and the school canteen. 2494-73
Effectiveness of nutrition aides in a migrant population. 2499-73
Insights gained from teaching and working with Apache nursing assistants. 2500-73

How to write and use behavioral objectives in vocational education programs. 1640-74
Planning nutrition programs for elementary school teachers. 1641-74
Adapting nutrition facts--an example. 1642-74
Basic nutrition concepts--their use in program planning and evaluation. 1644-74
Nutrition and the war on poverty: American home economics association workshop--working with low income families. 1646-74
The effective use of mass media in nutrition education. 1688-74
Nutrition education workshop. 1695-74
Problems in producing programs for auto-instruction. 1710-74
Interaction of dietetics and nutrition with dentistry. 1719-74
Motivating teenagers to improve nutrition. 1802-74
Ten serious mistakes in management training development. 1820-74
Nutrition teaching. 1856-74
Opportunities in home health services: guidelines for dietitians and nutritionists. 2162-74
A new need: the nutrition programmer. 2169-74
The multipurpose worker--a family specialist. 2174-74
"Ask Kathy": an experiment in nutrition education. 2181-74
Nutrition education in public health programs--what have we learned? 2182-74
Nutrition education via people-to-people. 2196-74
Evaluation of food supplementation as a nutrition action program. 2217-74
Why health programs are not reaching the unresponsive in our communities. 2243-74
Nutrition programs for preschool children. 2248-74
Planning and evaluation of applied nutrition programmes. 2263-74
The need for social anthropological outlook in community nutrition programs. 2277-74
Team approach gets results. 2283-74
For better teenage nutrition. 2285-74
Resources for the aging. 2296-74
Extending cooperative extension education to Mexican--American families: program, methods, and evaluation. 2320-74
Home economics aides reach poor families. 2357-74
Sponsor handbook. 2379-74
An agency nutritionist looks at home health care under Medicare. 2386-74
Nutrition services in home health agencies. 2410-74
Manual on household food consumption surveys. 2482-74

PROGRAMED INSTRUCTION

Programmed nutrition. 229-73
Effects of an experimental training program for food service personnel. 1041-73
A preliminary investigation of the effectiveness of progr-amed instruction in teaching sanitation to non-professional food service employees. 1048-73
Computer assisted instruction: a government viewpoint. 1055-73
Computer-assisted instruction in home economics. 1056-73
Computers in education: relevance for occupational education. 1057-73
Programmed instruction in basic nutrition for college students. 1218-73
Programmed instruction in nutrition for collegiate nursing students. 1219-73
Effect of an instructional program upon complex cognitive behavior of food service workers. 1227-73
Teaching with computers. 1256-73
The development and evaluation of eight units of programmed instruction designed to teach basic nutrition. 1306-73
The components of communication. 1311-73
Understanding cooking. 1459-73
University of Colorado Libraries programmed textbook. 2218-73
Basic concepts of aging--a programmed manual. 2821-73
Programed instruction for fat-controlled diet, 1800 calories. 3303-73
I don't teach behavioral objectives anymore!. 3325-73
Involvement techniques for manager training. 3368-73
Programmed teaching is proving highly effective in training food service employees; solves problem of time for training. 3369-73
Programed AV pays its way. 3437-73
Use of audio-visual techniques in training the hard-core. 3444-73
Work instruction programs for the food service industry. 3447-73
How to use audio cassettes for programmed instruction. 3457-73
Evaluation in the teaching of home economics. 3462-73
Training for school food service: some new concepts. 3475-73
Correspondence study: a review for trainers. 3533-73
The most frequently-used training techniques. 3586-73
Today's dishwashing machine operator. 3815-73
The microprogram. 1521-74
The minicourse. 1524-74
Programmed instruction: past, present, and future. 1551-74
What is programmed instruction? 1591-74
Programmed instruction: an approach to dietary management of dialysis patients. 1609-74
Programmed instructional materials on diabetes. 1666-74
Teaching machines for patients with diabetes. 1694-74
Patients learn about diabetes from teaching machine. 1698-74
Teaching machines: a new training aid for the dietitian. 1709-74
Problems in producing programs for auto-instruction. 1710-74
Developing a program of learning on the fat-controlled diet. 1759-74
Home economics learning packages--help for teaching-learning consumer concepts. 1782-74
Programed instruction and patient teaching. 1791-74
A self-learning unit for patients with diabetes. 1818-74
A demonstration of automated instruction for diabetic self care. 1867-74

PROGRAMS
  Nominal group process for defining the problems in nutrition. 369-73
  Student involvement in school food service and nutrition programs. 1249-73
  The men in charge - the government nutrition programs. 2026-73
  Nutrition services in child health programs. 2036-73
  Manpower report of the President. 2284-73
  Promoting the health of mothers and children, FY 1972. 2918-73
  Symposium: Nutrition and aging. 2934-73
  Pica and lead poisoning. 3794-73
  The inside story of school lunch pizza. 3898-73
  Milk flavor: The true test of quality. 3904-73
  International conference on nutrition, national development, and planning, Massachusetts Institute of Technology, 1971. 3907-73
  Nutrition gets the call. 41-74
  Disaccharide intolerance in feeding programs. 164-74
  Hunger in Chicago. 525-74
  Roberts' nutrition work with children. 649-74
  Some teacher-centered in-service programs. 1722-74
  Annotated bibliography [on migrant labor]. 2547-74
PROJECTS
  New now nutrition. 2762-73
  The development of a project for educable mentally retarded children to receive vocational training in food service. 3334-73
  A planning grant for the establishment of a center for the development of home economics instructional materials. 3335-73
  Project review. 3521-73
  Hunger and development (kit). 2163-74
  Georgia teenage nutrition project. 2293-74
PROTEIN ADVISORY GROUP (UNITED NATIONS)
  Report of the third meeting of the PAG ad hoc working group on single cell protein. 2148-74
  PAG statement (No. 26) on food and nutrition considerations in national economic planning. 2313-74
PROTEIN BEVERAGES
  The promises and problems of the new foods. University of Georgia, 1970. 2115-74
PROTEIN CONCENTRATES
  Bland, soluble whey protein concentrate has excellent nutritional properties. 96-73
  Fortifying soft drinks with cheese whey protein. 1858-73
  Preparation and growth producing evaluation of a concentr-ated coprecipitate of soy-cheese whey protein. 1917-73
  Protein concentrates and cellulose as additives in meat loaves. 1922-73
  Encouraging the use of protein-rich foods. 2567-73
  Proteins as human food proceedings. 2687-73
  New foods from the sea. 3889-73
  Textured vegetable proteins: update. 3891-73
  Frozen, precooked beef and beef-soy loaves. 1965-74
  Protein-fortified foods: the "Now" foods of the 1970s. 2121-74
PROTEIN EFFICIENCY RATIO
  Crackers fortified with fish protein concentrate (FPC): nutritional quality, sensory and physical characteristics. 132-73
  Dietary protein quality in infants and children - VII. corn--soy-wheat macaroni. 149-73
  Operation update: School lunch reviews soy protein progress. 3874-73
  Soy-fortified wheat flour. 935-74
PROTEIN FOODS
  Animal protein--keystone of foods. 65-73
  Nutrition: a course for school food service personnel. 101-73
  Nutritional value of turkey protein - effects of heating and supplementary value for poor proteins. 429-73
  Proteins and minerals (Film loop). 461-73
  Amino acid fortification of protein foods. 482-73
  Utilizable protein: quality and quantity concepts in assessing food. 575-73
  Stretch 'n substitute. 1361-73
  Quantity cooking. 1383-73
  Food preparation for school food service personnel. 1436-73
  Development and product applications for a high protein concentrate from whey. 1828-73
  Exploring different ways of meeting nutritional needs. 1841-73
  High protein food developed for school children. 1867-73
  Textures vegetable protein, fish protein concentrate, and microcrystalline cellulose as extenders in meat loaves. 2335-73
  Milk the magnificent (Slides). 2420-73
  Foods for growing boys and girls. 2667-73
  If you don't eat meat what do you eat? 2880-73
  Utilization of novel proteins for human food. 2962-73
  The future: Don't cry over onions--let them eat strawberry shortcake. 2982-73
  The protein punch of peanuts. 2995-73
  Yogurt: New life for an old product. 3005-73
  Can you beat the high cost of meat? 3605-73
  Further product applications for textured vegetable proteins. 3835-73
  How they use soy protein extenders. 3852-73
  Imitation meats and meat flavorings: food for the future. 3853-73
  Considerations for choosing the right plant protein. 3865-73
  Can new protein sources avert world shortage? 3882-73
  New serving ideas for soy protein products. 4089-73
  Teaching charts on Ethiopian foods (Posters). 67-74
  Protein 1984. 139-74
  Application of food science and technology to the exploit-ation of new protein sources. 207-74
  Prospects for meeting protein needs from conventional food sources. 855-74
  The first book of food. 895-74
  Protein intakes of children. 953-74
  Nutrition for the nation! 964-74
  Vegetable proteins: short world food supplies influence vegetable proteins' future - Part II. 1129-74
  Protein/iron (Slides). 1829-74
  Food production and population. 1928-74
  Protein-fortified foods: the "Now" foods of the 1970s. 2121-74
  Soy meat-analogs: a nutritional evaluation. 2132-74
  Report of the third meeting of the PAG ad hoc working group on single cell protein. 2148-74
  Hunger and development (kit). 2163-74
  How to go meatless--with protein on your side (kit). 2426-74
PROTEIN MALNUTRITION
  The need for cereal foods of improved protein value in the United States. 157-73
  Supplemental protein: does the U.S. diet really need it? 506-73
  High protein food developed for school children. 1867-73
  Proteins as human food proceedings. 2687-73
  Some studies on the effect of a multipurpose food on the nutritional status of pre-school children. 2804-73
  Fortification of cereals with amino acids as a realistic way of dealing with problems of protein malnutrition. 2874-73
  Serum vitamin A in protein-calorie malnutrition. 2964-73
  Can new protein sources avert world shortage? 3882-73
  Hunger and malnutrition in the world today. 175-74
  Calorie supplementation and growth of pre-school children. 240-74
  Energy needs and energy utilization. 489-74
  Nutrition and neural development. 563-74
  Prospects for meeting protein needs from conventional food sources. 855-74
  Introducing new foods against protein deficiency. 879-74
  The great protein fiasco. 2286-74
PROTEIN METABOLISM DISORDERS
  The dramatic story of PKU. 155-73
PROTEIN MODIFICATIONS
  Dietetic foods. 90-73
  Basic nutrition and diet therapy. 476-73
  Handbook of diet therapy. 531-73
  Obesity -- part VI. 2863-73
  Soybeans: chemistry and technology. 2865-73
  Alternate approach to low fat--low saturated fat--low cholesterol diet. 409-74
  Low protein diets made simple. 629-74
PROTEIN-CALORIE MALNUTRITION
  Malnutrition and its social implications. 287-73
  Newer methods of nutritional biochemistry with applications and interpretations - volume V. 368-73
  Malnutrition - its causation and control. 477-73
  CARE strikes back at world's malnutrition. 1979-73
  World review of nutrition and dietetics. 2474-73
  The long-term consequences of protein-calorie malnutrition. 2516-73
  Microbial contamination of the gut: another feature of malnutrition. 2590-73
  Deprivation syndrome or protein-calorie malnutrition. 2615-73
  Evidence for intestinal malabsorption of iodine in protein--calorie malnutrition. 2636-73
  Mothercraft centers. 2674-73
  Diseases of the liver--part 5: Kwashiorkor. 2858-73
  Serum vitamin A in protein-calorie malnutrition. 2964-73
  Hunger and malnutrition in the world today. 175-74
  Prevalence of protein - calorie malnutrition, 1963 to 1973. 176-74
  The chest-head circumference ratio as an indicator of the nutritional status of young children. 541-74
  Deciduous dental eruption, nutrition and age assessment. 545-74
  Neuropsychomotor development and pneumoencephalographic changes in children with severe malnutrition. 645-74
  Report of a conference on protein and amino acid needs for growth and development. 705-74
  Note on the assessment and classification of protein-energy malnutrition in children. 1034-74
  The simultaneous effect of protein-calorie malnutrition on weight and height velocity. 1053-74
  Is there a protein problem? 1121-74
  The problem of malnutrition. 2064-74
  The great protein fiasco. 2286-74
PROTEIN-FAT-CARBOHYDRATE MODIFICATIONS
  Diabetic meal planning: a good guide is not enough. 1878-74
PROTEIN-HIGH DIETS
  Hypoglycemia control cookery. 2483-74
PROTEIN-RICH MIXTURE
  Dietary protein quality in infants and children - VII. corn-soy-wheat macaroni. 149-73
  Protein food mixture for Iran - acceptability and tolerance in infants and preschool children. 458-73
  Dehydrated protein-fortified fruit juices. 1822-73
  Development and product applications for a high protein concentrate from whey. 1828-73
  Nitrogen retention of adult human subjects who consumed wheat and rice supplemented with chickpea, sesame, milk, or whey. 2444-73
  Assessment of biological value of a new corn-soy-wheat noodle through recuperation of Brazilian malnourished children. 2456-73
  Biochemical indices of nutrition reflecting ingestion of a high protein supplement in rural Guatemalan children. 2599-73
  The limitations and dangers of commerciogenic nutritious foods. 2802-73
  PAG guideline (no. 7) for human testing

—.—

PROTEINS
of supplementary food mixtures. 2805-73
Problems and prejudices encountered in introducing new foods in developing countries. 2977-73
Comparison of the protein nutritional value of TVP, Methi-onine-enriched TVP and beef for adolescent boys. 3858-73
International conference on nutrition, national development, and planning, Massachusetts Institute of Technology, 1971. 3907-73
Plentiful protein from the sea. 85-74
Application of food science and technology to the exploit-ation of new protein sources. 207-74
Convenience and flavor, plus milk's nutrition in a natural snack. 2136-74
The great protein fiasco. 2286-74
Recipes for a small planet. 2437-74
PROTEINS
Advances in food research; volume 18. 51-73
Food: proteins for humans. 58-73
Animal protein--keystone of foods. 65-73
Nutrition II. 69-73
Cholesterol, fat, and protein in dairy products. 117-73
The doggone truth about hot dogs. 153-73
The need for cereal foods of improved protein value in the United States. 157-73
Fat metabolism in children - influence of dietary protein and calcium on serum lipids of pre-adolescent girls. 176-73
Food uses of triticale. 209-73
Food science; a chemical approach. 213-73
How a hamburger turns into you (Motion picture). 240-73
How a hamburger turns into you (Videocassette). 241-73
How nutrition affects learning and behavior. 243-73
The importance of protein in the meatless meal. 252-73
Improving nutrient content of foods served. 253-73
Major mineral elements in dairy products. 286-73
Progress in human nutrition; volume I. 291-73
Newer methods of nutritional biochemistry with applications and interpretations - volume V. 368-73
Nutrition notes: protein measuring system proposed to simplify nutritional comparisons. 413-73
Nutritional value of turkey protein - effects of heating and supplementary value for poor proteins. 429-73
Observations: let's look beyond nutrition to identify proteins. 436-73
Protein components of blood and dietary intake of preschool children. 457-73
Protein food mixture for Iran - acceptability and tolerance in infants and preschool children. 458-73
Protein quality and PER: concepts important to future foods. 459-73
Protein requirements of preadolescent girls. 460-73
Proteins and minerals (Film loop). 461-73
Review of protein and carbohydrate metabolism. 475-73
Some aspects of protein nutrition. 494-73
Supplemental protein: does the U.S. diet really need it? 506-73
Utilizable protein: quality and quantity concepts in assessing food. 575-73
What is soy protein? 598-73
But what are they among so many? An ancient food for a modern need. 629-73
Legal developments: FDA releases labeling regulations. 695-73
Better school lunches in Oklahoma. 1351-73
What is the future of textured protein products? 1540-73
Whats and whys of cup-can. 1542-73
Automated determination of protein-nitrogen in foods. 1795-73
Burger-type products from textured skimmilk curd. 1799-73
Cereal grains as dietary protein sources. 1801-73
Defatted corn flour - food ingredient from corn. 1820-73
Development aids: diverse product applications identified for unique flavored protein products. 1824-73
Development and product applications for a high protein concentrate from whey. 1828-73
Fish protein concentrate enrichment of noodles. 1849-73
Foods of the future. 1855-73
Lipases and flavor development in some Italian cheese varieties. 1874-73
Meat pattie chosen first product to gain nutritional, textural advantages of new protein fiber. 1878-73
Meeting future needs. 1879-73
Artificial and synthetic foods. 1887-73
Notebook on soy: USDA answers questions about new foods. 1897-73
Notebook on soy: agricultural research means new foods. 1898-73
Nutrition upgraded, final texture controlled using new structured protein fiber. 1903-73
Protein from microorganisms. 1923-73
Some things you might not know about the foods served to children. 1936-73
Techniques for milk protein testing. 1948-73
An evaluation of the protein quality of a textured soybean product. 1961-73
What are textured protein products? 1963-73
As others see us. 1973-73
Feeding the elderly: the baby of school lunch. 2000-73
Ideas that gel. 2145-73
Put egg in your pizza. 2159-73
Peanut butter use encouraged. 2338-73
Synthetic food. 2342-73
Frozen fried-chicken dinners. 2375-73

A comparative study of food habits: influence of age, sex and selected family characteristics. 142-74
Prevalence of protein - calorie malnutrition, 1963 to 1973. 176-74
Protein-sparing effect in obese women fed low calorie diets. 199-74
A comparison of lower-income and upper-income homemakers relative to their knowledge and practice of nutrition. 208-74
The need for nutrition education. 211-74
College students look at the basis for their food habits. 214-74
Protein nutrition. 215-74
The father's influence on young children's food preferences. 220-74
The nutritional problems of the aged, Athens, Ga., 1971. 254-74
A complete summary of the Iowa breakfast studies. 257-74
The application of social science research methods to the study of food habits and food consumption in an industrializing area. 262-74
Conversion of tryptophan to niacin in man. 290-74
Vitamins in frozen convenience dinners and pot pies. 318-74
Regulation of food intake: role of the ventromedial hypot-halamus. 320-74
Lactase deficiency in Mexican-American males. 334-74
Nutrition survey of 6200 teenage youth: implications for nutrition education. 353-74
Eating behavior of preschool children. 363-74
Nutrition surveys and problems of detection of malnutrition in the elderly. 373-74
Find meat fat lowers cholesterol, blood pressure. 387-74
Nursery school can influence foods acceptance. 434-74
How secondary students learn from animal nutrition studies. 467-74
Vitamin D: mode of action and biomedical applications. 485-74
Nutrition education basic to good eating habits for all. 501-74
Nutritional aspects of selected studies on cardiovascular diseases--implications for nutrition education. 504-74
Eating behavior and dietary intake of girls 12 to 14 years old. 508-74
Can we modify the number of adipose cells? 509-74
Diets high in glucose or sucrose and young women. 575-74
Grapeseed oil: a rich source of linoleic acid. 581-74
Food acceptance, a challenge to nutrition education--a review. 600-74
Food preferences of college women. 602-74
Research on adolescent nutrition. 608-74
Essential hypertension in children and youth: a pediatric perspective. 623-74
Folk disease among urban Mexican-Americans: etiology, symptoms, and treatment. 652-74
Vitamin A: potential protection from carcinogens. 660-74
Phosphorus balances of adults consuming several food combinations. 697-74
Food allergy. 720-74
What's nutrition? (Motion picture). 734-74
What's nutrition? (Videocassette). 744-74
"newer" trace elements in human nutrition. 764-74
Nutrition contretemps. 775-74
Nutrition for young minds (Slide/tape). 778-74
Present knowledge in nutrition. 779-74
Cyclical "on demand" oral intake by adults. 795-74
Taste mechanisms in preference behavior. 810-74
The short-term response to a drink of milk, lactose or casein in children with apparently normal gastrointestinal tracts. 866-74
The case for fiber--Part II: colon cancer. 915-74
Optimism in the control of atherosclerosis. 936-74
The role of dietary fiber in nutrition. 939-74
Group interviews as an approach to planning nutrition education programs for young homemakers. 942-74
Protein intakes of children. 953-74
Polyunsaturated fatty acid intakes of children. 954-74
The healing factor. 960-74
Prevalence and persistence of lactose malabsorption among young Jamaican children. 961-74
Nutrition education for nonprofessionals and the public---part I. 986-74
Approaches to nutrition education. 987-74
Progress report, July 1, 1971. 1000-74
Progress report. 1001-74
Food and nutrition relative to family life. 1019-74
Nutrition update, 1974. 1038-74
Child following: a technic for learning food and nutrient intakes. 1058-74
Fetal malnutrition and future development. 1061-74
Research in agriculture and the profession of dietetics. 1111-74
Proceedings of the 28th conference, Miami Beach, Fla., 1973. 1128-74
How far have we come? 1132-74
Handbook no. 8 and nutrition labeling. 1222-74
Manual on food and nutrition policy. 1237-74
A conceptual approach to nutrition education. 1643-74
Strategy II teaches parents to teach children. 1668-74
Plan nutrition lessons now for foods of future. 1699-74
Shh! less talk can mean more learning. 1718-74
Training and development programs: what learning theory and research have to offer. 1780-74
Patient learning--segments from case histories. 1793-74
A workshop conducted by the vocational home economics teacher to promote nutrition education in the elementary schools. 1796-74
The use of silent single concept loop films to facilitate the acquisition of occupational skills. 1798-74
Appraising and revising educational health materials: a look at the booklets for "planning fat-controlled meals". 1869-74
Stability of ascorbate in bacon. 2140-74
Reducing the surface oil content of fried products. 2141-74
Radionuclides in foods. 2147-74
Report of the third meeting of the PAG ad hoc working group on single cell protein. 2148-74
Ann's additive story; its meaning to your food and health (Filmstrip). 2154-74
Ann's additive story; its meaning to your food and health (Slides). 2155-74
Do food stamps really make a difference? 2200-74
Nutrition programs in the United States Department of Agriculture. 2269-74
Extending cooperative extension education to Mexican--American families: program, methods, and evaluation. 2320-74
Indigenous health aides as counselors to parents about nutrition. 2407-74
Manual on household food consumption surveys. 2482-74
Food service research abstracts and listings of needed food service research, 1972. 2511-74
Data base for "safe" additives: decisions established for industry/agency use. 2517-74
Food service research abstracts and listings of needed food service research, 1971. 2555-74
Food service research abstracts and listings of needed food service research, 1973. 2556-74
Food service research abstracts and listings of needed food service research, 1969. 2557-74
A suggested reading list on food habits. 2567-74

RESEARCH METHODOLOGY
The development of three instruments to assess forces behind food habits and methods of change. 75-73
Fact and fancy in nutrition and food science - chemical residues in foods. 175-73
Calorie requirements. 188-73
The Joule - unit of energy. 270-73
Blood serum vitamin A and carotene studies of preadolescent children. 282-73
Nutritional adequacy, preference, acceptability, and food production aspects of hot and cold school lunches. 294-73
The chemical analysis of foods. 447-73
Some factors for refusal to participate in nutrition survey. 495-73
The status of nutrition in the United States. 502-73
Nutrition education research project - report of phase I. 532-73
Amino acid content of foods. 539-73
An evaluation of research in the United States on human nutrition. 550-73
Screening children for nutritional

status. 560-73
Problems of assessment and alleviation of malnutrition in the United States. 577-73
The development of desirable school lunch accounting procedures. 763-73
Computers in a dietary study - methodology of a longitudinal growth research project. 786-73
Development of evaluative procedures for assessing operat-ional-efficiency of school food services. 847-73
A survey instrument for the evaluation of the economic--efficiency of school food services. 952-73
Subjective evaluation of an experimental training program for food service personnel. 1037-73
Effects of an experimental training program for food service personnel. 1041-73
A preliminary investigation of the effectiveness of progr-amed instruction in teaching sanitation to non-professional food service employees. 1048-73
Computers in education: relevance for occupational education. 1057-73
Status of curriculum development in the field of commercial food at the non-baccalaureate level. 1062-73
The effect of a nutrition education program at the second grade level. 1081-73
Bases for vocational education for food service industry employees. 1134-73
Analysis of tests used to evaluate a training program for food service personnel. 1141-73
Development of an instrument to evaluate the effect of a school lunch training program. 1148-73
Some aspects of an experimental training program for food service personnel. 1182-73
Problems and progress in nutrition education. 1215-73
Effect of an instructional program upon complex cognitive behavior of food service workers. 1227-73
A critical evaluation of in-service training for classified employees in selected educational organizations in the United States. 1246-73
The development and evaluation of eight units of programmed instruction designed to teach basic nutrition. 1306-73
A survey of factors relating to the prepackaged lunch system in selected school districts. 1412-73
Food yields summarized by different stages of preparation. 1524-73
Evaluating the safety of food chemicals. 1886-73
Systematic generation of ideas for new foods. 1945-73
An evaluation of the protein quality of a textured soybean product. 1961-73
Acceptance of the school lunch program in Kansas. 1992-73
Factors affecting student participation in selected Milwa-ukee, Wisconsin Catholic high school lunch programs. 2017-73
Selected research abstracts of published and unpublished reports pertaining to the food service industry. 2279-73
Day care survey 1970: Summary report and basic analysis appendices. 2295-73
Day care survey 1970: Summary report and basic analysis. 2296-73
Effect of packaging on quality of dehydrated potato granules during storage. 2317-73
Newer trace elements in nutrition. 2725-73
Endocrine adaptation to malnutrition. 2732-73
Developing a better survey questionnaire. 3117-73
Locating trouble spots in organizations. 3175-73
The development of a guide through cooperative action research for the purpose of integrating the School Lunch Program into the elementary school curriculum. 3319-73
Great variations found in contract feeding segment of the industry: impact of client is vital factor in efficiency of operation in this area of industry. 3427-73
On-the-job performance following an experimental training program for food service personnel. 3544-73
Energy expenditure of pregnant adolescents. 189-74
The short-term response to a drink of milk, lactose or casein in children with apparently normal gastrointestinal tracts. 866-74
Child following: a technic for learning food and nutrient intakes. 1058-74

RESEARCH NEEDS
The future of food. 2991-73
Exploring the needs of the food service industry. 3254-73
Nutritive value, better foods, educational advertising--are we up to the new food product challenge? 3864-73
Prevalence of protein - calorie malnutrition, 1963 to 1973. 176-74
Nutritional status of California Mexican-Americans: a review. 198-74
Nutrition education conference--1962. 503-74
The many dimensions of diet counseling for diabetes. 571-74
The challenge of cross-cultural research. 680-74
The short-term response to a drink of milk, lactose or casein in children with apparently normal gastrointestinal tracts. 866-74
A study of poverty conditions in the New York Puerto Rican community. 966-74
Child following: a technic for learning food and nutrient intakes. 1058-74
Problems in the use and interpretation of the Recommended Dietary Allowances. 1232-74
Food service research abstracts and listings of needed food service research, 1972. 2511-74
Food service research abstracts and listings of needed food service research, 1971. 2555-74
Food service research abstracts and listings of needed food service research, 1973. 2556-74
Food service research abstracts and listings of needed food service research, 1969. 2557-74

RESEARCH TOOLS
Developing a better survey questionnaire. 3117-73
Locating trouble spots in organizations. 3175-73
Child following: a technic for learning food and nutrient intakes. 1058-74

RESISTANCE TO CHANGE
Diet healing: a case study in the sociology of health. 142-73
Food beliefs affect nutritional status of Malay fisherfolk. 192-73
A half century of changing food habits among Japanese in Hawaii. 231-73
Nutrition education is behavioral change. 396-73
Sustained behavioral change. 508-73
Managing change in food service operations. 883-73
The three A's of change - Anticipating, Accepting, Actuating. 978-73
Nutrition education through the mass media in Korea. 1194-73
A comparative study of the organoleptic acceptability of simulated meat products prepared in microwave and conventional ovens. 1968-73
Learning resources: AV or library? 2245-73
Attitudes and the use of food. 147-74
Nutrition and behavior. 196-74
The socio-cultural aspects of nutrition. 425-74
Food habits and the introduction of new foods. 763-74
Introducing new foods against protein deficiency. 879-74
What's missing in the treatment of obesity by behavior modification? 1041-74
Motivating human behavior. 1317-74
Management psychology: explosive change versus gradual change. 1339-74
The consistency of management in organizational change. 1396-74
Management by objectives: antidote to future shock. 1432-74
Twenty-two arguments against job enrichment. 1455-74
Training fundamentals help control metric conversion costs. 1647-74
One strong link: program 2, values and attitudes (Motion picture). 1727-74
One strong link: program 2, values and attitudes (Videoca-ssette). 1728-74
Indiana/Cultural factors in the introduction of change. 1842-74
The need for social anthropological outlook in community nutrition programs. 2277-74
A suggested reading list on food habits. 2567-74

RESOURCE CENTERS
A planning grant for the establishment of a center for the development of home economics instructional materials. 3335-73
Developing multi-media libraries. 4144-73
Learning resource centers. 4160-73
Index and curriculum briefs, volume 1. 1581-74

RESOURCE GUIDES
Materials and methods in nutrition education. 183-73
A nutrition guidebook for elementary school teachers. 221-73
A resource handbook for teaching nutrition in the elementary school. 223-73
Teaching the young child good eating habits for life. 311-73
Nutrition education in the elementary schools. 312-73
Weight control source book. 339-73
Nutrition source book. 341-73
Doing better at work and play. 343-73
Malnutrition and intestinal parasites. 498-73
Review and analysis of curricula for occupations in food processing and distribution. 1074-73
Preparation of inexpensive teaching materials. 1163-73
Nutrition education: Resources available for the school food service supervisor (A panel discussion). 1195-73
Curriculum guide for food service instructional programs in Pennsylvania. 1212-73
Health education - a conceptual approach. 1229-73
Supervised food service worker. 1289-73
Enzymes in food processing and products, 1972. 1966-73
Parent involvement. 2086-73
Federal library resources. 2205-73
Hotel and restaurant administration and related subjects. 2221-73
Hotel and restaurant administration and related subjects. 2234-73
The IFMA encyclopedia of the foodservice industry. 2243-73
Directory of information resources in agriculture and biology. 2252-73
Materials for occupational education. 2263-73
Tables of food composition: Availability, uses, and limit-ations. 2272-73
An annotated international bibliography of nutrition education. 2273-73
Directory of films for data education. 2275-73
Food makes the difference!. 2283-73
United States Government organization manual, 1972/73. 2288-73
Directory of educational information centers. 2290-73
Resources for creative teaching. 3491-73
Nutrition resource unit, primary grades. 3570-73
Waiter--Waitress; a suggested guide for a training course. 3571-73
Educators guide to free health, physical education and recreation materials. 4131-73
Selected bibliography of nutrition materials. 4148-73
Food for little people. 182-74
Food and nutrition teaching pictures (Study prints). 411-74
A resource list of information about media production. 2534-74
Hotel and restaurant administration and related subjects. 2564-74

RESOURCE MATERIALS
Teaching the young child good eating habits for life. 2734-73
Raising vegetables in minigardens. 2780-73
Resources for creative teaching. 3491-73

Teaching dental health. 3534-73
Nutrition resource unit, primary grades. 3570-73
Nutrition education materials for teachers. 3585-73
Selected bibliography of nutrition materials. 4148-73
Food industry sourcebook for communication. 4155-73
Learning resource centers. 4160-73
Suggested guidelines for consumer education. 80-74
Bibliography of low reading level materials in consumer education. 82-74
Food for thought (Chart). 376-74
Health instruction: Suggestions for teachers. 1510-74
Creating instructional materials. 1539-74
Nutrition in the classroom. 1546-74
Foods in Mexico. 1559-74
What people eat in the Congo. 1560-74
Food in early Cleveland. 1561-74
Food in Washington's boyhood. 1562-74
On the way to the Arctic Circle. 1563-74
Food in Lincoln's time. 1564-74
Nutrition education bibliography. 1624-74
How to select teaching aids. 1625-74
Mandatory health courses for New York State public schools: Nutrition Education. 1632-74
The Missing link. 1787-74
Food service research abstracts and listings of needed food service research, 1972. 2511-74
A resource list of information about media production. 2514-74
Nutrition books and resources 1971. 2525-74
Food and nutrition education source list. 2542-74
Food service research abstracts and listings of needed food service research, 1971. 2555-74
Food service research abstracts and listings of needed food service research, 1973. 2556-74
Food service research abstracts and listings of needed food service research, 1969. 2557-74

RESOURCES
The development of a model exemplifying business services objectives and their performance indicators in educational program budgeting: final report. 3121-73
Criteria for selecting, evaluating and developing consultants. 3187-73
A PERT case study. 1526-74

RESPIRATION
Food chemistry. 2447-73

RESPONSIBILITY
Places we eat in (Videocassette). 740-74
Places we eat in (Motion picture). 750-74
Delegation: key to involvement. 1362-74
Cashiering. 1464-74
Foodservice vocabulary. 2560-74

RESTAURANTS
The hotel and restaurant business. 642-73
Are your menu prices high enough? 760-73
Boom in shopping centers offers foodservice opportunities. 762-73
Can you compete against the $50,000 minute? 770-73
Create your own good-neighbor policy. 797-73
Accounting practices for hotels, motels, and restaurants. 803-73
Associates of Look's hand book. 876-73
The management of people in hotels, restaurants, and clubs. 878-73
Marketing in action for hotels, motels, restaurants. 967-73
To join or not to join multiemployer bargaining? 979-73
Bases for vocational education for food service industry employees. 1134-73
Food service. 1161-73
Food service selling. 1260-73
Training makes Frisch a growing Big Boy. 1270-73
Changing patterns in foodservice. 1326-73
Gain menu prestige with pork. 1333-73
Fresh vegetable cookery...Stockli's "splendid fare". 1430-73
Hot breads, a profitable "extra". 1447-73
Planned merchandising sells wine for Red Coaches. 1466-73
A practical formula for successful wine business. 1462-73
Quantity cookery. 1522-73
Around the menu with gas broilers. 1553-73
The best investment we've ever made. 1557-73
A professional's tour guide; Big Mac's Foodservice. 1652-73
A simplified systems approach to multi-unit design. 1663-73
Think clean. 1780-73
Hotel and restaurant administration and related subjects. 2221-73
Corporate profile: Benihana of Tokyo. 3101-73
So you want to start a restaurant? 3112-73
Focus is on four segments of the food service industry: contract feeding, restaurants, hotel food service, and airline feeding. 3216-73
How to finance a restaurant. 3283-73
A follow-up study of junior college hotel & restaurant education in Florida. 3298-73
An evaluation of manpower training needs in the hotel--restaurant industry on Kauai, 1968, with recommendations on programs, sources of students, instructors, and funds. 3456-73
Restaurant training program produces results that justify its cost; concern for the individual is vital factor in developing employees. 3549-73
San Francisco: A celebration of excellence. 3687-73
Make-up air system practical for busy restaurants. 3727-73
Americana design: Dramatic settings spell success. 3757-73
Americana '73: a profitable return to nostalgia. 3761-73
Standardized equipment helps launch new 1400 ft. Flagship. 3767-73
If its's German, it sells. 4026-73
Hotel and restaurant administration and related subjects a bibliography. 4165-73
Hotel and restaurant administration and related subjects. 4166-73
Atlanta: merchandising the American way. 1470-74
101 daring young chains. 1498-74
Job opportunities in a restaurant (Filmstrip/Record). 1794-74
From the Phoenix file: merchandising and menu notes. 1887-74
Carpeting sets groundwork for atmosphere. 1997-74
Building care for hospitality operations. 2002-74
Williamsburg food service: preserving the flavor of great American cuisine. 2488-74
The London style: best of past and present. 2496-74
Soy protein recipe ideas. 2491-74
Hotel and restaurant administration and related subjects. 2564-74
Hotel and restaurant administration and related subjects: a bibliography. 2565-74
How to plan and operate a restaurant. 2591-74

RETAILING
Food retailers help teach food buying. 21-73
Retail frozen food sales by state. 935-73
How to finance a restaurant. 3283-73
Progress not 'revolution,' is watchword in retail FF packaging. 3856-73
Food-related energy requirements. 1128-74

RETENTION
Relationship of aptitudes to retention of learning and attitude change two years after food service training. 1122-73
Retention of learning two years after an experimental training program for food service personnel. 1159-73

RETIREMENT
Basic concepts of aging--a programmed manual. 2821-73

RHUBARB
Rhubarb. 1173-74

RIBOFLAVIN
The vitamins. 484-73
Thiamin and riboflavin in cooked and frozen, reheated turkey - gas vs. microwave ovens. 523-73
Thiamine and riboflavin retention in cooked variety meats. 525-73
The Vitamins. 2848-73
The use of nutritional requirements and allowances. 164-74

RICE
Iron absorption by adults fed mixtures of rice, milk, and wheat flour. 261-73
Quick and easy "space rice". 1497-73
Rice ideas for school lunch. 1499-73
Frozen, precooked rice shapes suitable for all markets. 1862-73
Shaped rice products offer promise as new "finger food". 1932-73
Rice and everything nice. 2162-73
Chinese foods and traditions. 2521-73
All About Rice. 2820-73
Rice in food service (Filmstrip). 3679-73
Pesticide residue levels in cooked rice and noodles. 3791-73
Wild rice is "in" this year. 4110-73
Two basics of Hawaiian cuisine: rice and fruit. 1933-74
About food and where it comes from. 2150-74
Cereals and pasta in family meals. 2430-74

RICKETS
Importance of vitamin D milk. 2436-73
The causes of vitamin D deficiency. 2786-73
Rickets and osteomalacia. 2871-73
The new vegetarians, part one--vegetarianism and its medical consequences. 368-74
Nutrition teaching mini kit (Posters). 371-74
Teaching kit on rickets (Posters). 416-74
Advanced nutrition teaching kit (Posters). 417-74

RISK FACTORS
Obesity and coronary heart disease: The framingham heart study. 2661-73
Prevalence of coronary heart disease risk factors in boys 8 to 12 years of age. 1057-74

ROASTING
Time-temperature and time-weight losses in veal roasts. 526-73
Forced convection roasting at 200 degrees and 300 degrees F. 1428-73
Roasting (Film Loop). 1501-73
The 10 cooking, heating and reconstituting applications; part 4. 1546-73
Palatability of meat after low temperature roasting and frozen storage. 1908-73
A revolution in meat roasting. 1928-73
Cutting the cost of meat: The old ways still work... 3637-73
Foil-covered versus open-pan procedures for roasting turkey. 3639-73
Roasting film gets hospital's OK. 3683-73
Step-by-step directions for making (1)Perfect prime rib of beef, (2)Golden brown French fries in almost no time! (3) America's 2nd favorite pie, cherry. 1936-74
How to reduce excessive meat shrinkage. 1950-74

ROBBERY PREVENTION
Security protection for foodservice. 950-73
Stick 'em up. 968-73

RODENT CONTROL
Control of rats and mice (Film loop). 1706-73
Sanitation: Rodent and insect control (Film Loop). 1770-73
For a clean restaurant...Look this close. 3800-73
Common sense pest control. 2090-74

ROLE OF WOMEN
Identifying and developing women for management positions. 3195-73
The role of women in training and development. 3398-73

ROLE PLAYING
Simulation of interpersonal relations. 1241-73
Management games as teaching devices. 3340-73

Involvement techniques for manager training. 3368-73
Critical incident role play. 3386-73
The name of the game...Is simulation. 3513-73
Structured and spontaneous role playing: Contrast and comparison. 3600-73
Learning by doing. 1811-74
ROOT, TUBER AND BULB VEGETABLES
Potatoes: production, storing, processing. 662-73
Dry onions. 666-73
The best French fries in town. 3632-73
Vegetables only... 4106-73
Coma vegetables para buena salud. 690-74
Que hortalizas comere hoy? 769-74
Frozen gold (Filmstrip/Record). 1954-74
Getting to know vegetables (Show'n Tell). 1982-74
Tic-Tac-(Pota) toe. 2500-74
RURAL AREAS
Manpower report of the President. 2284-73
Pitkas Point Alaska: a settlement where school lunch is not taken for granted. 3970-73
Isolated island gets school feeding program. 3993-73
Hard tomatoes, hard times. 33-74
Dietary survey of preschool children and expectant women in Soongnern district, Nakora Raisima province, Thailand. 259-74
Nutrition and care of young children in Peru. III. Yurima-guas, a jungle town. 520-74

Breakfast breakthrough (Slides). 3963-73
Product development opportunities within the school break-fast program. 3966-73
Not by enriched bread alone. 12-74
Three meals a day, plus (Videocassette). 738-74
Three meals a day, plus (Motion picture). 748-74
S.S. Pierce multiplies school lunch sales 4 times in 2 years. 1449-74
School breakfast annual potential set at 20 million gallons FCOJ. 1460-74
Pilot breakfast program established. 2211-74
Nutritional improvement project, DPPF, fund 97, component 4: 1971-1972 evaluation. 2213-74
Knoxville beats the odds. 2261-74
School feeding - where do we go from here? 2327-74
Make ahead breakfasts. 2486-74

SCHOOL BREAKFAST PROGRAMS
Focus on nutrition...You can't teach a hungry child. 2. 184-73
A.D.A. supports school food service in testimony before congressional committees. 670-73
H.R. 9098 - a bill to extend and amend certain provisions of the Child Nutrition Act and of the National School Lunch Act. 722-73
H.R. 7934 - a bill to extend and amend the Child Nutrition Act of 1966. 724-73
State directors cost out school meals. 966-73
Morning menus. 1347-73
What's for breakfast? 1369-73
Writing their own menus. 1370-73
Co-existence: surplus commodities and convenience foods. 1400-73
High protein food developed for school children. 1867-73
Breakfast delight. 1977-73
Breakfast program in schools receives wide acceptance. 1978-73
Does breakfast help? 1989-73
Focusing on feeding kids. 2003-73
If we had ham, we could have ham and eggs - if we had eggs. 2005-73
How to start a breakfast program. 2010-73
In behalf of breakfast. 2014-73
Jemez Pueblo discovers the cup-can. 2015-73
The lunch bunch study. 2019-73
Nutrition is the school's business. 2035-73
Orange juice studied. 2042-73
The status of school foodservice; part I. 2066-73
Food service in the nation's schools: a preliminary report. 2084-73
Waffles and syrup, anyone? 2097-73
10,000 came to breakfast. 2106-73
Malnutrition, hunger, and behavior; II. Hunger, school feeding programs, and behavior. 2816-73
Review of the regulations. 3024-73
Big city crisis - now!. 3077-73
Decentralized school lunch. 3241-73
F.O.O.D.: Focus on optimum development; a final proposal. 3507-73
Type A--the ethnic way. 3909-73
The newest school subject--breakfast (Filmstrip/Record). 3917-73
Child Nutrition Programs of the Food and Nutrition Service, U. S. Department of Agriculture. 3918-73
The administration of "selectivity" in the breakfast program of a public elementary school. 3938-73
Food for all. 3944-73
Breakfast breakthrough (Slides). 3963-73
Product development opportunities within the school break-fast program. 3966-73
New policy helps feed needy children. 3975-73
Feeding children through Usda programs. 3977-73
Run for your breakfast--to school!. 3991-73
Breakfasts brighten summer school mornings. 3995-73
How consumer food programs improve diets, fiscal '67; an activity report for these programs which are designed to combat hunger in this country. 3999-73
How can we strengthen school food service. 4019-73
Bodies, brains and poverty: poor children and the schools. 462-74
A breakfast education program. 1050-74
Participation in the National School Lunch Program in Washington School Districts. 2198-74
Pilot breakfast program established. 2211-74
Nutritional improvement project, DPPF, fund 97, component 4: 1971-1972 evaluation. 2213-74
Good morning! it's time to eat!. 2236-74
Nutrition education; an integral part of a school feeding program. 2254-74
School lunch breakthrough--politics, technology spur expansion of food programs. 2298-74
School feeding - where do we go from here? 2327-74
Nutrition and human needs--1972, hearings, ninety-second Congress, second session, part 1--school breakfast program survey. 2376-74
Flowers in the desert; how one dedicated man pursued the philosophy that you can't teach a hungry child. 2377-74
Washington, D.C.: a hot school lunch for every student. 2399-74
Make ahead breakfasts. 2486-74
School lunch report. 2600-74

SCHOOL CHILDREN (6-11 YEARS)
Big ideas in nutrition education. 93-73
Feeding children. 181-73
Nutrition concepts held by seventh and eight grade pupils i n Iowa. 238-73
Nutrition of a group of school children in Ohio with improved diets. 438-73
Nutritional status of 9-, 10- and 11-year-old public school children in Iowa, Kansas, and Ohio. 439-73
A report of Oklahoma food habits survey. 440-73
Protein requirements of preadolescent girls. 460-73
Puppets sell good nutrition. 464-73
Serum cholesterol from pre-adolescence through young adulthood. 490-73
Teacher, there's an eggplant in the classroom. 513-73
Teaching nutrition in the elementary schools. 565-73
What school lunch is doing for undernutrition in Baltimore. 599-73
A study of the breakfast eating habits of school age girls and boys, grades one through twelve, of an Oklahoma community with implications for teaching nutrition. 609-73
Youngsters' taste test picks favorites. 1006-73
Points for planning Type A lunches. 1355-73
Writing their own menus. 1370-73
Does breakfast help? 1989-73
School lunch grows in Brooklyn. 2054-73
Summer food service in Cincinnati. 2071-73
10,000 came to breakfast. 2106-73
Put egg in your pizza. 2159-73
Tacos--taste treat for tots to teens. 2170-73
Preschool, primary and intermediate teaching materials and teacher references. 2269-73
Consumer education materials project. 2374-73
Confections and soft drinks in schools. 2435-73
Effect of incorporation of leafy and non-leafy vegetables in the school lunch on the growth and nutritional status of children. 2439-73
Are we in the know? 2442-73
Nutrition education and dietary behavior of fifth graders. 2457-73
Come aboard the Good Ship Vitamin C (Slides). 2489-73
Stirring the cultural melting pot. 2513-73
Scope for nutrition education in the elementary school programme. 2533-73
Health appraisal of school children. 2541-73
Nutrition for you (Filmstrip/Cassette). 2544-73
Nutrition for you (Filmstrip/Record). 2545-73
The USA today--is it free of public health nutrition problems? 2556-73
Serve nutrition with cartoons. 2566-73
Nutrition in action for the child (slides). 2570-73
Guia para los lideres. 2595-73
Height and weight of children: socioeconomic status, United States. 2601-73
Keith and Tommy climb to a new life. 2622-73
Key ideas in nutrition. 2634-73
The little lost tooth. 2647-73
What's in food? (coloring book). 2651-73
Good health record. 2668-73
Teaching the young child good eating habits for life. 2734-73
Mr. Yum Yum comes alive in Colorado. 2738-73
Nutrition insurance (Game). 2778-73
School feeding program: Who should receive what? 2783-73
The school feeding program: An underachiever. 2784-73
FAN food cards (Playing cards). 2790-73
The foods we eat (Filmstrip). 2803-73
Calorie talk. 2810-73
Nutrients: the hidden magic in foods. 2811-73
Changing food habits of Canadian children. 2828-73
Obesity and learning difficulties. 2834-73
Discovering a pattern for a balanced diet. 2869-73
Menu packet packs nutrition education wholIop. 2876-73
Dandelion: the lion who lost his roar. 2879-73
Think Orange, When you Choose a Snack. 2894-73
Hamburgers and you (Game). 2903-73
Vitamin C is not stored in the body, so you need it every day. 2927-73
Nutrition and the senses. 2933-73
Let protein work for you. 2937-73
Calories and you. 2939-73
Who needs calcium? 2940-73
Inside information. 2941-73
What about your favorite foods? 2947-73
Eating is the source of life, if you choose the right foods (in Spanish) (Poster). 2954-73
Big city crisis - now!. 3077-73
Methodology related to acceptability, cost & nutrition. 3080-73
Guide for inservice instruction--science, a process approach. 3301-73
Learning with gusto. 3375-73
Why cook in school. 3376-73
Wheels, a nutrition game of chance and skill. 3381-73
What's cooking in the classroom? 3394-73
A teacher's guide to: Learning nutrition through discovery, K-6. 3401-73
A sourcebook of elementary curriculum programs and projects. 3424-73
Intern compiles nutrition education materials. 3426-73
A school where candy bars are welcome. 3535-73
How to use the comparison cards to learn which foods are best. 3569-73
Elementary nutrition education curriculum guide. 3586-73
Menu planning--elementary style. 3622-73
Stone soup (Audiotape). 3663-73
Food service approaches in schools without full facilities. 3667-73
International festivities flavor nutrition. 3901-73
Keeping Kosher with chicken. 3910-73
Cafeteria + color = fun!. 3916-73
A coordinated approach to child nutrition. 3920-73
Ghetto kids tackle frozen Type A lunches with gusto. 3930-73
Comment on the above. 3933-73
An idea's time comes to Philadelphia. 3939-73
Nutrition in school food service. 3943-73
The National School Lunch Program in 1973: Some accomplis-hments and failures. 3948-73
Initiating and implementing a new school food service in Salt Lake City Elementary schools. 3951-73
Vitamins vs. Vending machines. 3971-73
Run for your breakfast--to school!. 3991-73
1969 marked new era in child nutrition. 3996-73
The down to earth cookbook. 4034-73
1 pinch of sunshine, 1/2 cup of rain. 4037-73
Nutritive value of common foods in percent of RDA. 4183-73
Nutrition survival kit. 92-74
The food we eat (Filmstrip). 112-74
What's in our food (Filmstrip). 113-74
Learning about your oral health--level I: K-3 (kit). 115-74
Learning about your oral health--level II: 4-6 (kit). 116-74
Living Together in America (Study Prints). 129-74
Nutritional status of schoolchildren. 174-74
Our role in the school lunch program. 178-74
Nutrition in preschool and school age, Tylosand, Sweden, 1968. 190-74
Bread and jam for Frances (Phonodisc). 203-74
My smile coloring book (Coloring book). 213-74
Los ninos pequenos necesitan buenos alimentos (Charts). 232-74
Volunteers teach nutrition to teachers and students. 266-74
The drive for oral health continues... 341-74
Treating obesity in growing children. 343-74
Nutrition for little children (Filmstrip/cassette tape). 351-74
Nutrition for little children (Filmstrip/record). 352-74
The obese school child--a challenge. 354-74
Yardsticks for nutrition (kit). 413-74
Bread and jam for Frances. 511-74
What's for lunch, Charley. 512-74
A growing story (Filmstrip/Cassette tape). 590-74
Volunteers in nutrition education. 591-74
Mighty milk to the rescue. 593-74
Nutritional condition of New Mexican children. 605-74
The food fun songbook (Cassette tape). 637-74
Stone soup. 673-74
Fun food fest - target PSA'S. 695-74
Meals and snacks for you (Posters). 719-74
Snacks...Snacks...Snacks. 791-74
Nutrition education and school gardens in the elementary schools in Senegal. 819-74
Teach nutrition with bulletin boards. 872-74
The 'just right' eating handbook. 893-74
School lunch teaches good food habits. 897-74
The hyperactive child. 929-74
How food affects you (Slides). 946-74
A serial study of nutrient intakes of children from 3 to 18 years of age. 952-74
Protein intakes of children. 953-74
Stone soup (Phonodisc). 959-74
Why Johnny likes carrots--he fixed them himself. 983-74
A breakfast education program. 1054-74
Children's needs--for universal food services and nutrition. 1296-74
Televising health lessons in school. 1527-74
Easy bulletin boards -- number 2. 1528-74
A guide for teaching nutrition, grades one through seven. 1529-74
Metrics, students, and you!. 1534-74
Teach us what we want to know. 1545-74
Nutrition in the classroom. 1546-74
Good eating habits (Motion picture). 1617-74
Strategy II teaches parents to teach children. 1668-74
The cafeteria food game. 1676-74
Teaching child health. 1720-74
White rats help youngsters learn good nutrition. 1740-74
Food makes me. 1770-74
Catch on to nutrition; instructional model for secondary pupils. 1771-74
Take your turn as a smart food shopper; instructional model for parents. 1772-74
Format for nutrition action; instructional model for primary teachers. 1773-74
Investigate and evaluate. 1781-74
Sing a song of spinach. 1790-74
Putting nutrition on the line. 1803-74
Proper food (Filmstrip). 1853-74
Teaching children to eat. 1880-74
Tricks for treats. 1929-74
Cafe of three seasons stresses manners, good behavior. 2185-74

Balanced creativity. 1488-74
Training for work with low-income groups. 1532-74
One strong link: program 3, motivation (Motion picture). 1729-74
One strong link: program 3. motivation (Videocassette). 1730-74
Problem: how to build teamwork; solution: on-going training. 1755-74
Comprehensive self-improvement program for inner city obese teenage girls. 2260-74

SELF INSTRUCTION
Hamburgers and you (Game). 2903-73
Nutrition self-experiments with lipids, carbohydrates and protein. 3538-73
Innovations in nutrition education. 3542-73
Computer assisted instruction in a college nutrition course. 3582-73
Today's dishwashing machine operator. 3815-73

SEMANTICS
Measuring the connotative meanings of foods. 2557-73

SEMINARS
Materials and methods in nutrition education. 183-73
Nutrition education and the related management processes. 306-73
Nutrition education: Nutrition delivery systems and the management function. 372-73
Innovative approaches to nutrition education and related management processes. 499-73
Nutrition education in the school food service; challenge, change, and commitment. 592-73
Introduction to the Seminar. 638-73
Proceedings of the packaging legislation and regulations: current status and future prospects. 673-73
An administrator's view of school food service. 752-73
Innovative management for the expanding school food service program. 910-73
Management functions for state and system level school and non school food service administrators. 958-73
Management function of a centralized school food service system. 959-73
New concepts in management. 960-73
School food service financial management seminar for uniform accounting. 985-73
Continuing education in nutrition-1970. 1071-73
Goal setting. 1109-73
Seminar evaluation plan [2] Reference list [3] Seminar participants. 1233-73
Seminar projects and notes on program structure. 1234-73
Symposium: Effects of processing, storage, and handling on nutrient retention in foods. 1944-73
Assessment of post-seminar learning and of three methods of contact on innovation efforts in nutrition education. 2922-73
Recollections of a seminarian. 3326-73
How to evaluate hotel and seminar centers. 3327-73
Seminar evaluation. 3370-73
Evaluation on Nutrition Education Seminar. 3391-73
How to wring all the good out of a seminar. 3546-73
School breakfast annual potential set at 20 million gallons FCOJ. 1460-74

SENEGAL
Nutrition education and school gardens in the elementary schools in Senegal. 819-74

SENSES
You...And your senses of smell and taste (Motion picture). 2932-73
Guiding the change process in people. 1577-74

SENSITIVITY TRAINING
Personality traits and their impact on T-Group training success. 3308-73
Motivation (Slides/cassettes). 1325-74
Beyond theory Y; the contingency approach to management (Motion picture). 1451-74
Theory X and theory Y: two sets of

assumptions in business-management (Motion picture). 1452-74
SENSORY APPRAISAL
Sensory evaluation of foods. 2509-73
The meanings of flavors and texture. 2646-73
Taste it, touch it, smell it. 2887-73
You...And your senses of smell and taste (Motion picture). 2932-73
Eating quality of half turkey hens cooked by four methods. 3141-73
Eating quality of half turkey hens cooked by four methods. 3650-73
Production of beet juice as a potential source of vitamins and minerals. 3862-73
Compilation of odor and taste threshold values data. 4168-73
You and your senses. 896-74
Sensory, chemical, and marketability evaluation of flavor secrets recipes. 1482-74
SERVICE INDUSTRIES
Hospitality education curriculum development project: final report. 3382-73
Working in a service industry. 3414-73
To develop work evaluation and work training techniques designed to facilitate the entry of mildly mentally retarded into service occupations: final project report. 3419-73
Management services: a training guide for out-of-school youth and adults. 3500-73
A task unit concept for on-the-job training in food service. 3599-73
Opportunities in service occupations. 1518-74
SERVING EQUIPMENT
Recommendations on coffee service. 1480-73
Salad preparation (Film loop). 1503-73
Conveyor system speeds service in central kitchen. 1566-73
Functional merchandising with infrared warmers. 1578-73
How to set a table/1972 fashions. 1590-73
Is your kitchen obsolete?--holding and serving units keep food wholesome and tasty. 1601-73
Food service planning. 1606-73
How to select and care for serviceware, textiles, cleaning compounds. 1607-73
Manual food and beverage dispensing equipment. 1617-73
Commercial bulk milk dispensing equipment and appurtenances. 1618-73
Vending machines for food and beverages. 1619-73
Food service equipment and appurtenances. 1627-73
New dimensions in aluminum disposables. 1634-73
Quality food service must bridge the temperature gap between cooking and serving. 1655-73
Hospital study of patient feeding on single service. 1664-73
Systems support with key processing equipment. 1675-73
Satelliting in the suburbs. 2051-73
A systems summation. 3116-73
Youth speaks out on single service ware. 3129-73
Cans go class A. 3628-73
Boosting productivity front of the house--Part 3. 3642-73
A guide to buffet service. 3648-73
How to keep meals-on-wheels food hot. 3652-73
Boosting productivity front of the house--Part 2. 3713-73
Design criteria: school food service facilities. 3714-73
Small wares. 3715-73
The cold facts about cold beverage dispensers. 3724-73
How to speed meal selections. 3736-73
How to cut dish breakage in half. 3793-73
Package development for the foodservice industry. 3863-73
Anyone can make good iced tea. 1915-74
How to choose the right cart for your serving and holding patterns. 2017-74
New guide takes guesswork out of kitchen planning. 2028-74
How to buy equipment-the smart way. 2034-74
Equipment guide for on-site school kitchens. 2048-74
SERVING TABLES
Fashions in table coverings. 1575-73
How to set a table/1972 fashions. 1590-73
SEX (CHARACTERISTICS)
How we choose our foods--and why. 308-74
Dietary iron intakes of adolescents. 420-74
The adolescent--his growth and development. 1041-74
SHALLOTS
Shallots. 1203-74
SHELF LIFE
Food additives: Some economic considerations. 3831-73
Packaging and moisture--their relation to shelf life. 3876-73
Breaded precooked beef patties. 3896-73
Ann's additive story; its meaning to your food and health (Filmstrip). 2154-74
Ann's additive story; its meaning to your food and health (Slides). 2155-74
Shelf life of foods. 2602-74
SHELLFISH
But what are they among so many? An ancient food for a modern need. 629-73
Fish and shellfish preparation (Film loop). 1424-73
How to prepare and bread fish and seafood. 1450-73
The art of fish cookery. 2152-73
Seafood world. 2165-73
Food for free. 2697-73
Frozen fish and seafood 1974: 2. Food service now uses 61 per cent frozen fish. 1384-74
Frozen fish and seafood 1974: 1. Packers broaden product lines to combat shortages. 1385-74
Fish and shellfish: take your pick of the catch. 1891-74
Mediterranean seafood. 2435-74
SHELVING
The economics of foodservice shelving. 3710-73
Como guardar alimentos (Filmstrip). 2588-74
SHORT-ORDER COOKING
Culinary institute moves into a new era. 3371-73
Short order cookery (Film loop). 3684-73
Short order cookery (Motion Picture). 3685-73
SHRIMP
Flavor secrets from foreign lands: West Africa. 4051-73
From the Phoenix file: merchandising and menu notes. 1887-74
The menu magic of frozens. 1895-74
Extruded foods: what are they? 2119-74
Recipes from Phoenix. 2480-74
SICKLE CELL ANEMIA
Anemia in black preschool children in Mississippi. 557-74
SIDE DISHES
Rice in food service (Filmstrip). 3679-73
Applesauce accents school menus. 4022-73
Yams flavor and color fall menus. 4066-73
Salads and salad dressings for foodservice menu planning. 1922-74
Food: tossed green monotony? 1943-74
Canned vegetables are better than ever. 2427-74
Salad days are here to stay. 2485-74
SIMMERING
Simmering and poaching (Motion picture). 3686-73
Simmering and poaching (Film loop). 1975-74
SIMULATED FOODS
Notebook on soy: USDA answers questions about new foods. 1897-73
Textured foods and allied products. 3846-73
SIMULATION
Budgeting: key to planning and control. 867-73
Problem solving and conflict resolution. 925-73
Nutrition implementation programs as communication systems. 1197-73
Simulation of interpersonal relations. 1241-73
The use of simulation techniques by prospective home economics student teachers. 1299-73
An automated simulation vehicle for school business administration accentuating computerized selective school lunch menu planning. 1362-73
Supervisory selection program for disadvantaged or minority groups. 3168-73
Management games as teaching devices. 3340-73
Involvement techniques for manager training. 3368-73
Participation--prove it works. 3511-73
The name of the game...Is simulation. 3513-73
Systems engineering applied to training. 3543-73
The communications game. 3560-73
Structured and spontaneous role playing: Contrast and comparison. 3600-73
Menu planning by computer: the random approach. 3608-73
How I teach nutrition. 1568-74
Putting nutrition on the line. 1803-74
Games that teach. 1804-74
Learning by doing. 1811-74
8 steps to better teaching: how to measure your classroom technique. 1814-74
SINGLE CELL PROTEIN
Single-cell protein in perspective. 2133-74
Progress on proteins. 2145-74
Report of the third meeting of the PAG ad hoc working group on single cell protein. 2148-74
SKILLS
Culinary institute moves into a new era. 3371-73
A case for contract training. 3547-73
Feeding the handicapped child. 930-74
Personnel management: a t/a perspective. 1479-74
The development of skills training courses. 1614-74
SKIM MILK
Leche en polvo sin grasa. 1117-74
SKIN DISORDERS
The role of the nutritionist in an adolescent clinic. 2225-74
SLIDES
You too can be a Cecil B. Demille. 3486-73
Good old reliable sound slides. 1580-74
Visual aids: why?--where?--what? 1585-74
SLIDES/SOUND
As you were saying--How to improve personnel communications through slide-/tape programs. 1284-74
Good old reliable sound slides. 1580-74
General chemistry slide-audio tape program. 1774-74
SMALL SCHOOLS
Small schools can afford hot lunches, Massachusetts experiment proves. 2356-74
SMELL
You...And your senses of smell and taste (Motion picture). 2932-73
SMOKED BEEF PRODUCTS
Institutional meat purchase specifications for cured, dried, and smoked beef products--series 600. 746-73
SMOKED FOODS
Gain menu prestige with pork. 1333-73
SMOKED MEAT
Institutional meat purchase specifications for cured, cured and smoked, and fully cooked pork products--series 500. 741-73
The meat we eat. 1076-74
SMOKING
Cyclical "on demand" oral intake by adults. 795-74
The coronary care unit (poster). 816-74
SNACKS
Foods for teens; snacks that count (Show'N Tell). 212-73
Food for you. 382-73
New (trition) twist to an old game. 361-73
Who turns the child "off" to nutrition. 607-73
Peanuts: the first snack food. 653-73
Facilities for development: pilot plant dedicated to snack food research. 1574-73
Color measurement of foods: XXIII;

miscellaneous: part II, potato products. 1806-73
Deep-fried snack food prepared from soybeans and onions. 1819-73
Extruded snack matched to nutritional needs, and marketed to school age consumers. 1843-73
Shaped rice products offer promise as new "finger food". 1932-73
Nova means new--in school foodservice tool. 2032-73
Nutrition is the school's business. 2035-73
Texas mavericks reject federal subsidies. 2076-73
Eating by the numbers. 2378-73
Your personal guidebook on foods. 2394-73
Between you and me is your smile. 2424-73
Nutrition: Food and your baby. 2514-73
The most important person (Motion picture). 2549-73
What should the kids really eat? 2572-73
Is your family eating right? 2576-73
Feeding the teen machine. 2577-73
The vanishing American meal. 2683-73
The paradox of teen-age nutrition. 2692-73
The paradox of teen-age nutrition. 2693-73
Michael likes good food (Filmstrip/Record). 2727-73
A girl and her figure and you. 2745-73
Your food--chance or choice? 2746-73
Meals and snacks to match your mood. 2747-73
Teens Entertain. 2763-73
Pedro (Filmstrip /Record). 2817-73
Nutritional value of midday meals of senior schoolchildren. 2823-73
The school lunch and its cultural environment. 2845-73
These are great but dinner is better. 2892-73
Think Orange, When you Choose a Snack. 2894-73
Eating between meals: A nutrition problem among teenagers? 2896-73
Consumers may prefer a nutritionally balanced candy. 2925-73
The hasty repast: Snacks. 3140-73
How to make more money. 3159-73
Profiling the college market. 3262-73
Make your snacks count (coloring book). 3336-73
Your snacks--chance or choice? (Poster). 3496-73
The winning combination. 3563-73
Menu Planning for Child Care Programs (Slides). 3623-73
Improve young people's diets--fortify puddings eaten for snacks and desserts. 3842-73
New snack ideas from Europe. 3860-73
Double shift at high school opens door to vending. 3923-73
Snack time is taste time. 4072-73
Food and eating practices of teen-agers. 4145-73
Consumer tips on fresh citrus (Filmstrip). 13-74
Nutrition survival kit. 92-74
Learning about your oral health--level III: 7-9 (kit). 118-74
Appetizing toddler meals. 133-74
Food for little people. 182-74
Food attitudes and snacking patterns of young children. 184-74
My smile coloring book (Coloring book). 213-74
Los ninos pequenos necesitan buenos alimentos (Charts). 232-74
Bocados (Chart). 233-74
Nutrition for little children (Filmstrip/cassette tape). 351-74
Nutrition for little children (Filmstrip/record). 352-74
Nutrition survey of 6200 teenage youth: implications for nutrition education. 353-74
Nutritional factors related to dental caries experience of low income preschool children. 519-74
A review of teenage nutrition in the United States. 523-74
I'm Mini-Snack (Poster). 527-74
Nutritional standards. 561-74
Snacks. 664-74
The big stretch. 684-74
Fun food fest - target PSA'S. 695-74
Meals and snacks for you (Posters). 719-74
Mejores meriendas. 771-74
Nutritious snacks kids can make featured on Captain Kangaroo. 786-74
Snacks...Snacks...Snacks. 791-74
Food for teens; snacks that count (show 'n tell). 1004-74
Menu for today's youth market (taken from recent Gallup surveys). 1405-74
Television and the young consumer. 1858-74
Sandwiches please (Filmstrip). 1987-74
Convenience and flavor, plus milk's nutrition in a natural snack. 2136-74
School lunch: a laboratory for developing good food habits. 2241-74
The challenge for school lunch in the program of youth fitness. 2287-74
Child nutrition programs. 2297-74
Soft-Serve is snack bar favorite. 2354-74
Besitos de mantequilla de mani. 2416-74
SNAP BEANS
Green or wax snap beans. 1143-74
SOCIAL CONFORMITY
Nutrition and social dependency. 386-73
Reaching significant publics: The state of the boy, 1971. 931-73
SOCIAL CRISES
An anthropologist views the nutrition professions. 66-73
Manpower report of the President. 2284-73
SOCIAL FACTORS
Nutrition, development and social behavior. 2660-73
Human nutrition: its physiological, medical and social aspects; 2713-73
Occupational stress and physical health. 3149-73
Nutrition, anthropology, and the study of man. 95-74
Thought for food--the social and cultural aspects of malnutrition. 155-74
Breast feeding in Tanzania: studies on infant feeding practices and attitudes. 195-74
College students look at the basis for their food habits. 214-74
Improving nutrition education for children. 225-74
Factors related to food preferences. 328-74
Food habits--an anthropologist's view. 377-74
The socio-cultural aspects of nutrition. 425-74
Food is not just something to eat. 426-74
Socio cultural malnutrition. (Growth failure in children due to socio cultural factors). 437-74
The nurse as an "expert"--the micro health unit. 457-74
The obese adolescent. 468-74
Dietary and disease patterns among Micronesians. 471-74
Social, emotional and cultural influences as related to eating patterns and malnutrition. 546-74
Social, emotional and cultural influences as related to eating patterns and malnutrition. 547-74
Food-sharing behavior within a group of Douc monkeys (Pygathrix nemaeus nemaeus). 574-74
Food acceptance, a challenge to nutrition education--a review. 600-74
Society and health in the lower Rio Grande Valley. 636-74
Dietary patterns and food habits. 679-74
The challenge of cross-cultural research. 680-74
Cultural patterning of nutritionally relevant behavior. 681-74
Changing food habits. 762-74
The effect of income on food habits in Sri Lanka: the findings of the socio-economic survey of Sri Lanka, 1969/70. 815-74
The crossroads of emotion, religion, tradition and habit. 827-74
Introducing new foods against protein deficiency. 879-74
Nutrition education materials: a socio-cultural approach. 889-74
Better diets for teenagers. 943-74
A study of poverty conditions in the New York Puerto Rican community. 966-74
Nutrition education for nonprofessionals and the public---part I. 986-74
Barrio central: a study of some social and cultural factors in malnutrition. 1016-74
Cultural determinants of nutritional behavior. 1042-74
Food preferences and the regulation of eating. 1071-74
Achieving change in people: some applications of group dynamics theory. 1306-74
Food marketing in Latin America: new lifestyles, new eating habits. 1450-74
Guiding the change process in people. 1577-74
Motivating teenagers to improve nutrition. 1802-74
Nutrition education in public health programs--what have we learned? 2182-74
The need for social anthropological outlook in community nutrition programs. 2277-74
Carrollton project SMILE*; suggested methods for improving lunchroom experiences. 2381-74
SOCIAL INFLUENCES
Food to nurture the mind. 2463-73
Role perceptions of young homemakers and nutrition education programs. 165-74
Breast feeding and weaning practices in developing countries and factors influencing them. 205-74
The application of social science research methods to the study of food habits and food consumption in an industrializing area. 262-74
Human food habits as determining the basic patterns of economic and social life. 273-74
Health in the Mexican-American culture: a community study. 276-74
What's nutrition? (Motion picture). 734-74
What's nutrition? (Videocassette). 744-74
The human element in decision making. 1403-74
A suggested reading list on food habits. 2567-74
SOCIAL PLANNING
The nutrition factor; its role in national development. 2460-73
Priority of nutrition in national development. 3906-73
SOCIAL PROBLEMS
Secretary-Boss relationships. 3170-73
SOCIAL RELATIONS
Identifying and developing women for management positions. 3195-73
The role of women in training and development. 3398-73
I'm OK, you're OK. 4141-73
Mr. & Mrs. America at life's end. 700-74
Places we eat in (Videocassette). 740-74
Places we eat in (Motion picture). 750-74
A change in attitudes--produced by skillful face-to-face communication!. 1638-74
SOCIAL SERVICES
Symposium: Nutrition and aging. 2934-73
Focus on...Careers in extension. 1605-74
SOCIAL STUDIES
Living Together in America (Study Prints). 129-74
The nurse as an "expert"--the micro health unit. 457-74
SOCIOECONOMIC INFLUENCES
Malnutrition and hunger in the United States. 2432-73
A sociobiological approach to the study of coronary heart disease. 2689-73
The school lunch and its cultural environment. 2845-73
Food, science, and society. 2990-73
Losers: The feeding of poor kids. 3967-73
The real facts about food (Filmstrip/Cassette tape). 58-74
The real facts about food (slides/Audiocassette). 59-74
Social and economic implications of nutrition surveys and other epidemiolo-

mical evidence. 183-74
Obesity--a special Urban Health panel discusses a major health problem. 193-74
College students look at the basis for their food habits. 214-74
Some diseases characteristic of modern Western civilization. 222-74
Social and economic factors in the nutrition of the elderly. 278-74
Nutritional beliefs among a low-income urban population. 294-74
Diet study points to iron deficiency among women. 333-74
Aetiological factors in obesity. 446-74
Lead poisoning and the suburban child. 448-74
Foods and nutrition in a Black Studies program. 549-74
Nutrition and neural development. 563-74
A state health department assesses undernutrition. 604-74
The development of food patterns. 631-74
A multidisciplinary analysis of children's food consumption behavior. 632-74
Nutrition and low-income families. 635-74
The impact of economic and social status on food choice. 674-74
Changing significance of food. 677-74
The changing significance of food. 678-74
Maternal nutrition and the course of pregnancy. 726-74
Developing a nutritional surveillance system. 759-74
Dietary habits of the homeless man. 814-74
Feeding behaviour in obesity. 850-74
An epidemiological study of child health and nutrition in a northern Swedish county. VI. Relationship between general and oral health, food habits and socioeconomic conditions. 884-74
Atherosclerosis; Part 1: the disease and epidemiology. 913-74
Food and nutrition relative to family life. 1019-74
Food acceptance and flavor requirements in the developing world. 1040-74
Childhood obesity. 1063-74
The worker and the job; coping with change. 1446-74
Hard to reach--fact or fiction. 1520-74
Training for work with low-income groups. 1532-74
Nutrition and the war on poverty: American home economics association workshop--working with low income families. 1646-74
Structuring the setting for health action. 1704-74
A computer-assisted approach to meal patterning. 1904-74
School feeding from a nutritionist's point of view. 2375-74
SOCIOECONOMIC STATUS
The consumer economics of unit pricing. 2385-73
The influences of the cultural milieu upon choices in infant feeding. 2486-73
The long-term consequences of protein-calorie malnutrition. 2516-73
Nutritional problems in the South. 2591-73
Height and weight of children: socioeconomic status, United States. 2601-73
Malnutrition and mental capacity. 2735-73
Malnutrition and learning. 2814-73
The effect of socio-economic differences on the dietary intake of urban population in Hyderabad. 2893-73
A comparative quality survey of five common market foods in low and high income economic areas. 3804-73
Nutrition profile: a useful tool in patient care. 554-74
Nutrition problems of urban children. 773-74
Gallup studies "sandwichry": top favorites, top fans. 1352-74
Innovative processed soy foods find markets in affluent and poor societies--part 4. 2152-74
Nutritional significance of mortality statistics. 2509-74
SOCIOLOGY
Diet healing: a case study in the sociology of health. 142-73
Food, science, and society. 401-73
The three A's of change - Anticipating, Accepting, Actuating. 978-73
Understanding the community social system. 988-73
The changing role and form for packaging. 1802-73
Eating and aging. 2902-73
SODA FOUNTAINS
Soda fountain and luncheonette equipment. 1631-73
SODIUM
Minerals as nutrients. 2417-73
Minerals in cardiovascular disease. 2793-73
Diabetes and pregnancy. 447-74
Current concepts: sodium and diuretics in pregnancy. 626-74
SODIUM IONS
Assay of sodium ion content of frozen convenience foods. 1794-73
Potassium, why? 2467-73
Salt in infant foods. 2559-73
SODIUM-RESTRICTED DIETS
Handbook of diet therapy. 531-73
Gain menu prestige with pork. 1333-73
Low sodium handbook. 2454-73
Dieta baja en sal para la mujer encinta. 228-74
Low protein diets made simple. 629-74
Nutrition and diet guides for nursing homes. 1876-74
Cocinando sin sal. 1924-74
Diet manual for long-term care patients. 2536-74
SOFT DIETS
Nutrition and diet guides for nursing homes. 1876-74
Diet manual for long-term care patients. 2536-74
SOFT DRINKS
Who turns the child "off" to nutrition. 607-73
Clouding agents for the food industry. 1805-73
Fortifying soft drinks with cheese whey protein. 1858-73
Confections and soft drinks in schools. 2435-73
Beverages make a break. 3125-73
The story of soft drinks. 730-74
Nutrition education--1973, hearings, ninety-third Congress, first session, part 6--phosphate research and dental decay. 1265-74
SOIL CONSERVATION
Fertilizers, food production and environmental compromise. 1978-74
SONGBOOKS
The food fun songbook (Cassette tape). 637-74
SOUPS
A split pea special: a 1970 market report. 663-73
All the hot soup they want. 753-73
A Gallup overview: soup spans the "six meal a day" spectrum. 838-73
Choices in our menus. 1327-73
A bowlful of souper combinations. 1387-73
Fresh vegetable cookery...Stockli's "splendid fare". 1430-73
Vegetarian cookery 2. 2116-73
Cold outside? Serve these hearty man's soups. 2122-73
Soup: serve it with flair. 2166-73
Stone soup (Audiotape). 3663-73
Flavor secrets from foreign lands: Rumania. 4049-73
The wonderful world of mixes. 4113-73
Stone soup. 677-74
Stone soup (Phonodisc). 959-74
The Nation's most popular menu items. 1415-74
Leche en polvo en sopa de papa. 1920-74
Flavor secrets from other lands: Western Canada. 2449-74
Turn your soup ladle into a cook's magic wand. 2453-74
SOUTH AFRICA
Problems and prejudices encountered in introducing new foods in developing countries. 2977-73
All you need to know about metric. 1505-74
SOUTH AMERICA
Hot-cold food beliefs among Andean peasants. 670-74
Food marketing in Latin America: new lifestyles, new eating habits. 1450-74
SOUTH CAROLINA
A study of the educational aspects of the School Lunch Program in South Carolina. 1166-73
School lunch: suggested guides for selecting large equipment. 3762-73
Isolated island gets school feeding program. 3993-73
Teenagers' gardens upgrade family diets. 2224-74
SOUTH PACIFIC
The price of civilization. 455-73
SOUTHERN STATES
Basic data on metabolic patterns in 7- to 10-year-old girls in selected Southern states. 533-73
Nutritional problems in the South. 2591-73
SOUTHWESTERN STATES
Food patterns of the Southwest. 465-74
Early foods of the Southwest. 1109-74
How to feed the American Indian. 2245-74
SOYBEAN OIL
Soybeans in family meals. 63-74
Soybeans for health and a longer life. 1091-74
SOYBEAN PRODUCTS
What is soy protein? 598-73
Notebook on soy: Florida's questions on soy. 647-73
Notebook on soy: textured vegetable protein. 648-73
Engineered foods--The place for oilseed proteins. 809-73
Soy helps Skokie's budget. 961-73
What is the future of textured protein products? 1540-73
The right way of textured vegetable protein. 1800-73
Deep-fried snack food prepared from soybeans and onions. 1819-73
Development aids: diverse product applications identified for unique flavored protein products. 1824-73
Extrusion cooking of cereals and soybeans - part I. 1844-73
Extrusion cooking of cereals and soybeans - part II. 1845-73
The food processing front of the seventies. 1854-73
Fortified foods: the next revolution. 1857-73
The new foods and the markets that need them. 1889-73
Notebook on soy: why 'engineered' foods at school. 1899-73
Preparation and growth producing evaluation of a concentr-ated coprecipitate of soy-cheese whey protein. 1917-73
Some things you might not know about the foods served to children. 1936-73
Soy-whey-milk offers economic substitute for frozen whole milk concentrate. 1938-73
Smybean milk - a low-methionine substitute for cow's milk for children and adults. 1939-73
Substitute and synthetic foods with emphasis on soy protein. 1942-73
Synthetics and substitutes for agricultural products. 1957-73
An evaluation of the protein quality of a textured soybean product. 1961-73
What are textured protein products? 1963-73
A compafative study of the organoleptic acceptability of simulated meat products prepared in microwave and conventional ovens. 1968-73
Notebook on soy: how to use soy in recipes. 2154-73
Texture adds new dimension to soy products. 2967-73
Textured foods and allied products. 3846-73
How they use soy protein extenders. 3852-73
Comparison of the protein nutritional value of TVP, Methi-onine-enriched TVP and beef for adolescent boys. 3858-73
Factors affecting meat purchases and consumer acceptance of ground beef at three fat levels with and without soya-bits. 3870-73
Soyburger: it looks lika a hamburger, but... 3885-73

SOYBEANS
  New serving ideas for soy protein products. 4089-73
  Soybeans in family meals. 63-74
  Plentiful protein from the sea. 85-74
  The revered legume. 105-74
  Soy-fortified wheat flour. 935-74
  Soybeans for health and a longer life. 1091-74
  Notebook on soy. 1426-74
  Textured protein trims cost of frozen meat patties. 1480-74

Eating and drinking places industry. 2286-73
Nursing homes and related health care facilities. 2287-73
Day care survey 1970: Summary report and basic analysis appendices. 2295-73
Day care survey 1970: Summary report and basic analysis. 2296-73
Young shoppers begin tc "turn on" to frozen foods. 2387-73
What today's customers are saying about frozen foods. 2405-73
The nutrition factor; its role in national development. 2460-73
Potential dieters: Who are they? 2542-73
Measuring the connotative meanings of foods. 2557-73
Challenges to nutrition education. 2560-73
Household dietary levels down. 2628-73
A study of health practices and opinions. 2742-73
Nutrition education in Florida school districts. 2774-73
Nutritional status of people, USA. 2841-73
The way it is. 2843-73
Said, sowed and sold': a nutrition study in the Tsolo dist rict. 2881-73
Nutrition education in U.S. Medical schools. 2944-73
School feeding effectiveness research project. 2998-73
Methodology related to acceptability, cost & nutrition. 3080-73
Developing a better survey questionnaire. 3117-73
Frozen foods in food service. 3118-73
Wine service: a programmed system for youth service. 3124-73
Beverages make a break. 3125-73
Our industry reaches a breakfast breakthrough. 3126-73
Turn-arounds in take-out. 3127-73
A year reviewed: Youth and food service in 1973. 3128-73
Youth speaks out on single service ware. 3129-73
The hasty repast: Snacks. 3140-73
Do you realy know your employees? 3199-73
Most favored foreign fare. 3201-73
New image needed for food service workers. 3210-73
A five state study of secondary school lunchroom operations. 3223-73
Institutional use of frozen entrees. 3235-73
Is your bundle big enough? 3236-73
1973 convenience foods study: Consider the options. 3292-73
Opinions of training effectiveness: How good? 3320-73
Sound motion picture projectors or, will television kill the movies? 3374-73
Developing women managers. 3446-73
A survey instrument for identifying clusters of knowledge and competencies associated with performance of food service work. 3525-73
The most frequently-used training techniques. 3580-73
Menu census charts food salability. 3618-73
The new foods. 3619-73
GAO survey indicates room for improvement. 3929-73
Why New Jersey schools do or do not participate in school feeding programs. 3988-73
Washington report (Nov. 1973). 4015-73
The dietetic profession--a manpower survey. 4128-73
Study of literature and information methods within the Maryland cooperative extension service. 4153-73
Survey of food distribution to institutions - 1972. 4179-73
Homemakers' opinions about dairy products and imitations:. 37-74
Urbanites must be approached through recognized information sources. 62-74
What consumers know about nutrition. 169-74
Nutritional beliefs among a low-income urban population. 294-74
Highlights from the ten-state nutrition survey. 457-74
Nutrition activities promote dental health. 505-74

Eating behavior and dietary intake of girls 12 to 14 years old. 508-74
Families of the fields. 573-74
The cultural characteristics of breast-feeding: a survey. 761-74
Concepts of food habits of "other" ethnic groups. 800-74
Milk consumption patterns of Puerto Rican preschool children in rural New York. 888-74
High school nutrition education: how effective is it? 899-74
Physicians' attitudes on dietitians' contributions to health team care. 937-74
Group interviews as an approach to planning nutrition education programs for young homemakers. 942-74
Food beliefs as related to ecological factors in women. 1059-74
Nutritional knowledge and practices. 1067-74
ASBC endorses nutrition education. 1278-74
Best sellers. 1292-74
A quality evaluation system for prepared foods: Part 1. 1300-74
A quality evaluation system for prepared foods: Part 2. 1301-74
Two market studies reveal convenience food attitudes and usage: part i. 1302-74
Two market studies reveal convenience food attitudes and usage: part II. 1303-74
Employee surveys. 1330-74
Gallup highlights: the mainland market for Polynesian foods. 1349-74
Gallup shows surge in Mexican fare popularity. 1351-74
Gallup: America's fast food favorites. 1353-74
In 1974, it tastes great if the price is right: what sells? how much? where? and at what price? 1379-74
Frozen fish and seafood 1974: 1. Packers broaden product lines to combat shortages. 1385-74
Turkey trots to top. 1390-74
A look at single service ware. 1397-74
What restaurant operators think about convenience frozen foods. 1409-74
Who benefits most from computerized cash control? 1410-74
The Nation's most popular menu items. 1415-74
The price is right. 1439-74
Why won't some teenagers eat? 1469-74
Todays FF customer: Frozens acclaimed by rich, poor alike. 1481-74
Teach us what we want to know. 1545-74
Food consumption of households in the United States, seasons and year 1965-66. 2573-74
Food consumption of households in the northeast, seasons and year 1965-66. 2574-74
Food marketing in low income areas. 2596-74

SWEDEN
Food cultism and nutrition quackery. 2469-73
An epidemiological study of child health and nutrition in a northern Swedish county. VI. Relationship between general and oral health, food habits and socioeconomic conditions. 884-74

SWEET POTATOES
Sweet potatoes. 1162-74

SWEETENERS, NON-NUTRITIVE
Food--facts and fallacies. 2491-73
Everything you always wanted to know about exchange values for foods (but were unable to find out!). 2503-73
Sugar substitutes and enhancers. 3839-73

SWISS CHARD
Swiss chard. 1206-74

SYMPOSIA
Food cultism and nutrition quackery. 2469-73
A critical appraisal of the protein needs of human beings and domestic animals. 2631-73
Symposium: seed proteins. 2637-73
Nutrition and food processing subject of Sun Valley symposium. 2771-73
Symposium on new food processing technology. 3836-73
Conference summary and closing remarks. 3935-73
Nutritional qualities of fresh fruits and vegetables. 2584-74

SYNTHETIC FOODS
Communicating with the consumer: natural and synthetic nutrients. 6-73
Food: proteins for humans. 58-73
Tables of food composition: scope and needed research. 510-73
Modern dairy products. 640-73
Nutritional guidelines and the labeling of foods. 706-73
Engineered foods--The place for oilseed proteins. 809-73
School food service: twelve trends you should track. 948-73
Burger-type products from textured skimmilk curd. 1799-73
The right way of textured vegetable protein. 1800-73
Deep-fried snack food prepared from soybeans and onions. 1819-73
Exploit new product technology. 1840-73
Extruded snack matched to nutritional needs, and marketed to school age consumers. 1843-73
Finding the correct retail package to introduce an unbeli-evable product. 1847-73
Foods of the future. 1855-73
Artificial and synthetic foods. 1887-73
New food products and food preparation techniques. 1888-73
The new foods and the markets that need them. 1889-73
New products from smaller companies. 1892-73
Non-dairy cheese - a unique reality. 1896-73
Notebook on soy: USDA answers questions about new foods. 1897-73
Nutrification. 1901-73
Preparation and growth producing evaluation of a concentr-ated coprecipitate of soy-cheese whey protein. 1917-73
Substitute and synthetic foods with emphasis on soy protein. 1942-73
Systematic generation of ideas for new foods. 1945-73
Synthetics and substitutes for agricultural products. 1957-73
What will we be eating tomorrow. 1964-73
A comparative study of the organoleptic acceptability of simulated meat products prepared in microwave and conventional ovens. 1968-73
Textures vegetable protein, fish protein concentrate, and microcrystalline cellulose as extenders in meat loaves. 2335-73
Synthetic food. 2342-73
Will imitation cheese be next? 3851-73
Synthetic and substitute foods, domestic and international aspects. 1254-74

SYSTEMS ANALYSIS
Nutrition education: Nutrition delivery systems and the management function. 372-73
Computer-managed subsistence system. 785-73
The dynamics of systems dialogue. 806-73
Food service systems achievement at Pittsburgh national building. 825-73
How to apply systems analysis to your preparation/processing sub-system. 853-73
Is school lunch 25 years behind? 866-73
Managing change in food service operations. 883-73
The School Food Service System. 941-73
A system---What it is and what it does. 974-73
A system---What it is and what it does. (Part 2). 975-73
Application of a three-stage systems approach model for producing career awareness materials. 1027-73
An application of instructional development in a state department of education. 1028-73
Diversity and experimentation pay off in progress: hospital food service the Kaiser way. 1330-73
You can have both unit-by-unit autonomy and multi-unit savings: Kaiser's southern region proves it. 1371-73
Special foods & equipment for the food service industry. 1671-73
A practical primer on essential sanitation concepts. 1758-73
Procurement programmed for profit. 2341-73
Products and systems evaluated and industry liaison. 3895-73

SYSTEMS APPROACH
The ideals concept---A systems approach to school food service problems. 857-73
School feeding effectiveness research project. 2998-73
Developing managers--an integral part of the management process. 3107-73
A systems summation. 3116-73
The development of a model exemplifying business services objectives and their performance indicators in educational program budgeting: final report. 3121-73
Management by Objectives: a critique. 3178-73
Management by Objectives: a consultant's view. 3186-73
The computer & you. 3224-73
Management by Objectives: a critical view. 3268-73
A progression training approach to Management by Objectives. 3383-73
Four steps are no longer enough. 3400-73
Training and the change agent role model. 3454-73
How to use audio cassettes for programed instruction. 3457-73
Training by objectives. 3508-73
Systems engineering applied to training. 3543-73
A task unit concept for on-the-job training in food service. 3589-73
Boosting productivity front of the house--Part 3. 3642-73
Sub-System 9: Clean-Up. 3711-73
Boosting productivity front of the house--Part 2. 3713-73
Warehousing systems speed service. 3775-73
Sub-System 10: Sanitation. 3787-73
Efficient energy management: convenience foods & systems thinking. 1327-74
Hospital food service adapts to systems approach and industrial methods. 1377-74
Management decisions by objectives. 1431-74
A systems approach to management development. 1472-74
A model for the systematic integration of instructional materials into individualized learning systems. 1859-74
Systems intelligence in the food service kitchen. 2044-74
Vollrath school foodservice manual. 2050-74
Ten trends in school food service. 2278-74
Directory of equipment & supply companies. 2519-74
Guide to systems planning services. 2524-74
Index of food companies. 2528-74

SYSTEMS DEVELOPMENT
Operation self-appraisal: a checklist for systems success. 3239-73
Systems engineering applied to training. 3543-73
Boosting productivity front of the house. 3712-73
Directory of systems capatability. 4130-73

TABLE MANNERS
Beginning responsibility: lunchroom manners (Motion picture). 1574-74

TABLE SETTINGS
Setting the table (Film loop). 1237-73
Fashions in table coverings. 1575-73
How to set a table/1972 fashions. 1590-73
The turned on table top. 1677-73
Meal management. 3173-73

TABLEWARE
Youth speaks out on single service ware. 3129-73
Boosting productivity front of the house--Part 3. 3642-73
Small wares. 3715-73
Warehousing systems speed service. 3775-73
How to cut dish breakage in half. 3793-73

TAKE-OUT FOODS
Gallup survey-the "take-out" marathon. 842-73
Finger food industry-new life for jaded menus. 1422-73
Turn-arounds in take-out. 3127-73
Rapid food service for San Francisco's new transportation system. 3234-73
Take-out: Anything goes. 3613-73
TAKE-OUT SERVICE
Rapid food service for San Francisco's new transportation system. 3234-73
Take-out: Anything goes. 3613-73
TANGELOS
Tangelos. 1154-74
TANGERINES
Tangerines. 1178-74
TANZANIA
Breast feeding in Tanzania: studies on infant feeding practices and attitudes. 195-74
TAPE RECORDINGS
How to use audio cassettes for programed instruction. 3457-73
Audio cassettes: how to script your own. 1600-74
Videocassettes: the dream medium. 1680-74
Tape recording, booklet teach diets. 1812-74
TASTE
1969-1970 report. 404-73
Sensible nutrition. 488-73
Soy helps Skokie's budget. 961-73
Taste it, touch it, smell it. 2887-73
You...And your senses of smell and taste (Motion picture). 2932-73
Utilization of novel proteins for human food. 2962-73
Tomato--the vegetable/fruit. 3001-73
Compilation of odor and taste threshold values data. 4168-73
Milk: Why is the quality so low? 19-74
Menu magic is child's play. 483-74
The psychologist's eat-anything diet. 804-74
Taste mechanisms in preference behavior. 810-74
Psychologic factors regulating the feeding process. 1070-74
Shelf life of foods. 2602-74
TASTE PANELS
Food science & technology, volume III. 258-73
Laboratory handbook of methods of food analysis. 277-73
Sensory good taste. 489-73
Youngsters' taste test picks favorites. 1006-73
Identifying and controlling product quality attributes - using preference taste panels. 1868-73
Precooked turkey flavor and certain chemical changes caused by refrigeration and reheating. 1915-73
Quality evaluation of canned and freeze-dried applesauce. 1925-73
Sensory evaluation of breaded, deep-fried turnip slices. 1931-73
Peach bake-off. 2156-73
Children accept fish-based school lunch entrees. 3075-73
Eating quality of half turkey hens cooked by four methods. 3141-73
Attempts at quantitating flavor differences. 3147-73
Production of beet juice as a potential source of vitamins and minerals. 3862-73
Students decide food purchases. 3986-73
Compilation of odor and taste threshold values data. 4168-73
Cheese products: protein, moisture, fat, and acceptance. 1429-74
Frozen, precooked beef and beef-soy loaves. 1965-74
Washington, D.C.: a hot school lunch for every student. 2399-74
TASTE SENSITIVITY
Taste sensitivity and food aversions of teenagers. 512-73
Attempts at quantitating flavor differences. 3147-73
What is gourmet? 4112-73
Taste mechanisms in preference behavior. 810-74
TASTE THRESHOLD
Taste sensitivity and food aversions of teenagers. 512-73
TAXES
Don't overlook business-connected personal tax deductions. 804-73
Media units grow into service centers. 2248-73
There ought to be laws against the laws. 3015-73
A guide for financing school food and nutrition services. 1438-74
TAYLOR FREEZER
Cleaning and assembling the Taylor Shake Freezer (Filmstrip/Cassette tape). 3706-73
TEA
Tea & coffee. 627-73
Hot beverage systems. 1581-73
Tea and coffee. 1946-73
Tea and coffee in catering. 2974-73
Effect of tea consumption on thiamin status in man. 1022-74
Anyone can make good iced tea. 1915-74
TEACHER AIDES
Attitudes of aides and clients in the expanded nutrition program. 71-73
Nutrition education by nonprofessional aides. 391-73
How to push a good thing. 856-73
Volunteers in nutrition education. 591-74
Teaching nutrition at nursery school level. 672-74
Nutrition by practice. 2218-74
Using program aides to teach Indian families better nutrition. 2310-74
TEACHER DEVELOPED MATERIALS
Exploring local resources. 1087-73
Exciting new techniques for teaching nutrition. 3392-73
Dental health facts for teachers. 119-74
Creating instructional materials. 1539-74
Good old reliable sound slides. 1580-74
Audio cassettes: how to script your own. 1600-74
An audiovisual primer. 1620-74
Working with Pueblo Indians in New Mexico: development of teaching materials. 1684-74
Fight the "bore war" with games; innovations in consumer education, part four. 1766-74
Let's play games. 1778-74
A resource list of information about media production. 2514-74
TEACHER EDUCATION
Nutrition education practices in elementary schools in Hawaii. 397-73
Food. 406-73
Nutrition-staff training programs. 554-73
An application of instructional development in a state department of education. 1028-73
Audiovisual workshop. 1032-73
A casebook on administration and supervision in industrial--technical education. 1040-73
Developing a hospitality program in high schools. 1063-73
The effect of a nutrition education program at the second grade level. 1081-73
Toward better teaching of home economics. 1093-73
A foundation for in-service success. 1104-73
Innovations in nutrition education: programs and methods. 1125-73
Education and training for industry - volume I. 1127-73
Notes for a novice instruction. 1187-73
Nutrition knowledge and attitudes of early elementary teachers. 1198-73
Food preparation: Food and nutrition. 1278-73
Key nutrients. 1279-73
Food buying: Food and nutrition. 1280-73
Food and nutrition: Basic lessons for training extension aides. 1281-73
Meal planning. 1282-73
Food needs of family members. 1283-73
What schools are doing. 2099-73
The innovative diffusion center: a potential concept to accelerate educational change. 2242-73
The supervisor as an instructor. 3082-73
Closing the confidence gap. 3296-73
Microteaching. 3321-73
Nutrition content--the basic conceptual framework. 3331-73
Home economics education, research summary. 3337-73
Inservice teacher workshops. 3338-73
How do your trainers grow? 3345-73
Teaching and training. 3482-73
In-service nutrition education for elementary teachers. 3550-73
Nutrition course for elementary teachers by telephone (Telenet). 3583-73
Jenny is a good thing (Motion picture). 4007-73
Volunteers teach nutrition to teachers and students. 266-74
What foods do physical education majors and basic nutrition students recommend for athletes? 269-74
Evaluation of nutrition education in everyday teaching environment. 293-74
Observable signs of children's health problems by teachers --how important? 464-74
Nutrition education for today. 476-74
Focus on youth fitness. 500-74
Nutrition education; a team approach to the puzzle. 582-74
What is nutrition education? 620-74
Let's teach nutrition: a teaching kit for elementary schools. 675-74
Nutrition education for elementary education majors. 1536-74
...Training the trainers. 1537-74
Health in elementary schools. 1573-74
Adding taste and smell to English and social studies. 1595-74
Nutrition education workshop. 1695-74
Nutrition and dental health. 1696-74
Teachers learn how to teach nutrition. 1765-74
Format for nutrition action; instructional model for primary teachers. 1773-74
8 steps to better teaching: how to measure your classroom technique. 1814-74
Teaching teachers to teach nutrition. 1822-74
The preparation of occupational instructors a suggested course guide. 1823-74
Nutrition education; an integral part of a school feeding program. 2254-74
Key specialist for nutrition leadership; a demonstration project for the employment of a nutrition education specialist at the state level to develop food service related nutrition education programs--final report. 2334-74
TEACHER EVALUATION
Broadwell on instructor evaluation. 3330-73
Shh! less talk can mean more learning. 1718-74
Nutrition education--old problems in new settings. 1769-74
Evaluation in the educational process. 1775-74
TEACHERS
Educators' attitudes toward nutrition education in Florida. 1080-73
Project feast puts it all together. 1220-73
Brain food: the nourishment of America's mental giants. 2475-73
Stirring the cultural melting pot. 2513-73
Nutrition education: too much, too little, or too bad? 2779-73
Learning with gusto. 3375-73
Why cook in school. 3376-73
Exciting new techniques for teaching nutrition. 3392-73
What's cooking in the classroom? 3394-73
The role of women in training and development. 3398-73
A teacher's guide to: Learning nutrition through discovery, K-6. 3401-73
Smile, you're on classroom camera. 3474-73
Classroom cooking. 3512-73
Educators guide to free health, physical education and recreation materials. 4131-73
Information utilization by vocational educators. 4154-73
Projections of educational statistics to 1978-79. 4181-73
A food teacher for school lunch.

TEACHING
400-74
Observable signs of children's health problems by teachers --how important? 464-74
Health: Reinforcement for good habits. 477-74
Volunteers in nutrition education. 591-74
The obese child. 665-74
She's their food teacher. 912-74
The hyperactive child. 929-74
Children's television advertising guidelines. 1512-74
Metrics, students, and you! 1534-74
Lecciones para lideres voluntarias. 1544-74
Adding taste and smell to English and social studies. 1595-74
Planning nutrition programs for elementary school teachers. 1641-74
Shh! less talk can mean more learning. 1718-74
Can sub-professionals assist in teaching patients with diabetes? 1763-74
Teachers learn how to teach nutrition. 1765-74
Learning by doing. 1811-74
How to be a thumbs-up trainer. 1815-74
Program aides--new answer to old problem. 1832-74
Volunteer donates services to low-income families. 1846-74
Nutrition education involves total school. 2264-74
Homemaking teachers in public health. 2349-74
Training 'women who care'. 2403-74
TEACHING
Teacher, there's an eggplant in the classroom. 513-73
You can't teach a hungry child. 1 lunch survey. 619-73
What you should know about nutritional labeling. 3011-73
The supervisor as an instructor. 3082-73
Closing the confidence gap. 3296-73
Nutrition teaching in medical schools. 3304-73
Training and development handbook. 3318-73
Microteaching. 3321-73
Doing what comes naturally. 3329-73
Culture and education: Mexican American and Anglo American. 3384-73
Four steps are no longer enough. 3400-73
A right now project: how to get ready to go metric in your school district. 3435-73
Smile, you're on classroom camera. 3474-73
Teaching and training. 3482-73
Teaching managers to manage. 3487-73
Psychology for effective teaching. 3489-73
Evaluating college classroom teaching effectiveness. 3530-73
Preparing instructional objectives. 4152-73
Health in elementary schools. 1573-74
Increase the educational value of the lunchroom. 1593-74
How to write and use behavioral objectives in vocational education programs. 1640-74
Low aptitude, high aptitude--training must fit the man. 1685-74

Can you compete against the $50,000 minute? 775-73
The senior chef. 2958-73
Do children believe in TV? 3300-73
Microteaching. 3321-73
Sound motion picture projectors or, will television kill the movies? 3374-73
There's more to videocassettes than meets the eye. 3410-73
Potential uses of mass media in nutrit-

ion programs. 3467-73
An experimental study of televised food demonstrations to determine the effectiveness of presentation methods. 3479-73
Nutrition survival kit. 92-74
Children's behavior responses to TV food advertisements. 272-74
Fun food fest - target PSA'AS. 695-74
Nutritious snacks kids can make featured on Captain Kangaroo. 786-74
Nutrition education--1973, hearings, ninety-third Congress, first session, part 4--TV advertising of food to children. 1260-74
Nutrition education--1973, hearings, ninety-third Congress, first session, part 3--TV advertising of food to children. 1261-74
Nutrition education--1973, hearings, ninety-third Congress, first session, part 5--TV advertising of food to children. 1268-74
Children's television advertising guidelines. 1512-74
TV commercials can teach nutrition. 1533-74
Counternutritional messages of tV ads aimed at children. 1630-74
Big response to Connecticut TV panel. 1751-74
Investigate and evaluate. 1781-74
TV and radio teaching tools. 1799-74
Who is responsible for developing the dietary habits of youth?--youth panel discussion. 1857-74
Television and the young consumer. 1858-74
For better teenage nutrition. 2285-74

TEMPERATURE
English-metric conversion calculator. 3697-73
Boosting productivity front of the house--Part 2. 3713-73
Quality control? consider temperature sensors. 3809-73
It's good food, keep it safe--part III, watch the tempera-ture; part IV, every minute counts (Show & Tell). 3818-73
The science of food preservation. 3833-73
Freezing meat and fish in the home. 4205-73
Storing vegetables and fruits in basements, cellars, outbuildings, and pits. 4206-73
Storing perishable foods in the home. 4210-73
Home care of purchased frozen foods. 4211-73
Energy: crisis, crunch, or costly? 1288-74
Cooking with metrics (Kit). 1930-74
Temperature kelvin - K. 1932-74
How to reduce excessive meat shrinkage. 1950-74
Keep your cool--cost-wise thru long, hot summer. 2021-74
The unwanted four (Filmstrip/cassette). 2070-74
How hot is your dishwashing? 2074-74
Shelf life of foods. 2602-74

TENDERIZERS
Enzymes in food processing and products, 1972. 1966-73
Staphylococcus aureus S-6: Growth and enterotoxin production in papain-treated beef and ham and ham gravy. 3825-73

TENNESSEE
The Federal School Lunch and Special Milk Program in Tennessee. 2075-73
Tennessee nutrition-achievement study 1967-1968. 2889-73
Nutrition and poverty in preschool children. 2965-73
Children accept fish-based school lunch entrees. 3075-73
Personnel training and employment needs of hospital food services in Tennessee. 3515-73
Lunch is served in seconds. 2259-74
Knoxville beats the odds. 2261-74

TEST DIETS
Dieta especial. 312-74
Manual of applied nutrition. 556-74

TESTING
Exercise testing and training of apparently healthy individuals: a handbook for physicians. 62-73
Nutritional literacy of high school students. 422-73
Sensory good taste. 489-73
Improvement of personnel through testing, interviewing, orienting, training and evaluating - part 2. 1024-73
Selected aptitudes of food service personnel participating in two methods of training. 1072-73
The effect of a nutrition education program at the second grade level. 1081-73
Exemption of students for first courses in food and nutrition. 1085-73
Relationship of aptitudes to retention of learning and attitude change two years after food service training. 1122-73
Influence of nutrition education on fourth and fifth graders. 1124-73
Analysis of tests used to evaluate a training program for food service personnel. 1141-73
Development of an instrument to evaluate the effect of a school lunch training program. 1148-73
Retention of learning two years after an experimental training program for food service personnel. 1159-73
Some aspects of an experimental training program for food service personnel. 1182-73
Training guide. 1189-73
Testing packaging films. 1949-73
When, why and how of concept testing. 3099-73
Effectiveness of program evaluation. 3237-73
Teaching the test. 3413-73
Relationship of age and performance of food service perso-nnel participating in a training experiment. 3522-73
Basic education--what are the realistic possibilities? 3536-73
On-the-job performance following an experimental training program for food service personnel. 3544-73
Cook (hotel & rest.) 313.381--technical report on develop-ment of USTES aptitude test battery. 3575-73
Food service worker II (hotel & rest.) 317.884; food service worker (medical ser.) 2-29.16--technical report on standardization of the general aptitude test battery. 3577-73
Toxic substances naturally present in food. 3795-73
Evaluating nutrition teaching. 627-74
Toxicological standards. 794-74
As you were saying--who gains when you cheat on a persona-lity test? 1557-74
One strong link: program & evaluation (Motion picture). 1738-74
Framework for performance testing. 1742-74
Technical report on standardization of the general aptitude test battery for director, school lunch program 0-71-32. 1833-74
Development of USTES aptitude test battery for food-service supervisor. 1834-74
Development of USTES aptitude test battery for dietary aid. 1835-74
Dietitian o-39.93--technical report on standardization of the general aptitude test battery; final report. 1836-74
Constructing instruction based on behavioral objectives. 1850-74
Lunch recipes get "kid-tested". 2354-74

TESTS
Back-to-schoolers earn diplomas. 1033-73
Intern develops cook-helper test. 1130-73
Nutrition & notable characters. 2497-73
Teaching the test. 3413-73
Evaluation of secondary school programs to prepare students for wage earning in occupations related to home economics; final report, vol. II, appendix. 3497-73
Occupational licensing: Help or hindrance? 3539-73
Cook (hotel & rest.) 313.381--technical report on develop-ment of USTES aptitude test battery. 3575-73
Food service worker II (hotel & rest.) 317.884; food service worker (medical ser.) 2-29.16--technical report on standardization of the general aptitude test battery. 3577-73
Matching an unconventional product to traditional taste preferences. 1334-74
As you were saying--who gains when you cheat on a persona-lity test? 1557-74
Patients' understanding of written health information. 1708-74
Framework for performance testing. 1742-74
Technical report on standardization of the general aptitude test battery for director, school lunch program 0-71-32. 1833-74
Development of USTES aptitude test battery for food-service supervisor. 1834-74
Development of USTES aptitude test battery for dietary aid. 1835-74
Dietitian o-39.93--technical report on standardization of the general aptitude test battery; final report. 1836-74
Evaluation of workshops in nutrition education, 1972. 1852-74
Why Johnny's parents don't read. 1860-74

TEXAS
Action on teenage nutrition. 50-73
Food use and potential nutritional level of 1,225 Texas families. 519-73
Break for the "lunch bus". 1976-73
School systems implementation: Texas style. 2059-73
Texas Fred Dollar's big chance. 3271-73
Selected programs for improving teenage nutrition. 1007-74
Nutrition education for elementary education majors. 1536-74
Mass media and learning. 1819-74
FNS demonstrates the use of commodity foods. 2208-74
Buffet makes the difference. 2231-74
Texas community tackles teenage food and nutrition program. 2266-74
Lessons for the Federal effort against hunger and malnutr-ition--from a case study. 2271-74
The nutrition story for low-income families. 2274-74
Extending cooperative extension education to Mexican--American families: program, methods, and evaluation. 2326-74
FNP significa programa de nutricion. 2368-74

TEXTBOOKS
Nutrition and physical fitness. 97-73
Nutrition. 111-73
Food science. 112-73
Introduction to nutrition. 182-73
Nutrition, behavior, and change. 225-73
Basic nutrition in health and disease including selection and care of food. 248-73
Nutrition and elementary food science. 292-73
Nutrition in action. 293-73
Basic nutrition and diet therapy. 476-73
Introduction to foods and nutrition. 503-73
Nutrition and diet therapy. 612-73
The world of food. 643-73
Accounting practices for hotels, motels, and restaurants. 803-73
Principles of management:. 872-73
Science of home economics and institutional management. 933-73
Food service in institutions. 937-73
A casebook on administration and supervision in industrial--technical education. 1040-73
First foods. 1066-73
Toward better teaching of home economics. 1093-73
Menu planning. 1334-73
Meal management. 1342-73
Food preparation. 1382-73
Sanitary techniques in food service. 1742-73
The science of nutrition. 2[illegible]-73
Nutrition and physical fitness. 2472-73
People, food, and science. 2512-73
Introductory nutrition. 2598-73
Nutrition: part I. 2801-73
Fundamentals of normal nutrition. 2827-73
Living nutrition. 2875-73
Foods. 29[illegible]3-73
Management essentials. [illegible]111-73
Pictures in training. [illegible]

Food fundamentals. 3664-73
Introduction to food science and technology. 3887-73
Modern nutrition in health and disease: dietotherapy. 443-74
The meaning of human nutrition. 603-74
Focus on food. 805-74
Health in elementary schools. 1573-74
How to pick your way through today's minefield of curriculum products. 1686-74
Action on Serena street. 1847-74
The professional chef. 1942-74
Food fundamentals. 1959-74
Elementary baking. 1979-74
TEXTILES
Textiles updated for today's dietitian. 1676-73
Foodservice trends to on-premise laundries. 1715-73
TEXTURE
The meanings of flavors and texture. 2646-73
Innovative processed soy foods find markets in affluent and poor societies--part 4. 2152-74
TEXTURED VEGETABLE PROTEINS
Animal protein--keystone of foods. 65-73
Statement of Walter A. Compton, M.D., President and Chief Executive Officer, Miles Laboratories, Inc., before the Senate Select Committee on Nutrition and Human Needs, February 24, 1971. 124-73
Textured vegetable protein (TVP). 520-73
Textured vegetable protein...solution to institutional dietary problems? 521-73
What is soy protein? 598-73
Notebook on soy: Florida's questions on soy. 647-73
Notebook on soy: textured vegetable protein. 648-73
Notebook on soy: whats and whys of textured vegetable protein. 649-73
USDA gives specifications for textured vegetable protein products. 743-73
Engineered foods--The place for oilseed proteins. 809-73
Soy helps Jackie's budget. 961-73
Stretch 'n substitute. 1361-73
What is the future of textured protein products? 1540-73
The right way of textured vegetable protein. 1800-73
Development aids: diverse product applications identified for unique flavored protein products. 1824-73
Development aids: flavored, colored apple pieces offer route of distinction: school lunch entree formulations offered. 1825-73
The food processing front of the seventies. 1854-73
Meat pattie chosen first product to gain nutritional, textural advantages of new protein fiber. 1878-73
The new foods and the markets that need them. 1889-73
Notebook on soy: why 'engineered' foods at school. 1899-73
Nutrition upgraded, final texture controlled using new structured protein fiber. 1903-73
Protein concentrates and cellulose as additives in meat loaves. 1922-73
Protein products: analogs of favorite food forms. 1924-73
Some things you might not know about the foods served to children. 1936-73
Textured proteins can solve the nutrition-dollar dilemma. 1950-73
Synthetics and substitutes for agricultural products. 1957-73
An evaluation of the protein quality of a textured soybean product. 1961-73
What are textured protein products? 1963-73
A comparative study of the organoleptic acceptability of simulated meat products prepared in microwave and conventional ovens. 1968-73
Development aids: recipes for replacing ground meat and poultry in school lunch items. 2126-73
Notebook on soy: how to use soy in recipes. 2154-73
Notebook on soy: textured vegetable protein product fact sheet. 2254-73
Textured vegetable protein, fish protein concentrate, and microcrystalline cellulose as extenders in meat loaves. 2335-73
Utilization of novel proteins for human food. 2962-73
Texture adds new dimension to soy products. 2967-73
Feeding the world of the future. 2984-73
Further product applications for textured vegetable proteins. 3835-73
Textured foods and allied products. 3846-73
How they use soy protein extenders. 3852-73
Comparison of the protein nutritional value of TVP, Methi-onine-enriched TVP and beef for adolescent boys. 3858-73
Factors affecting meat purchases and consumer acceptance of ground beef at three fat levels with and without soyabits. 3870-73
Operation update: School lunch reviews soy protein progress. 3874-73
Convenience dinner with textured vegetable protein as a meat substitute gets positive consumer reaction. 3877-73
Textured vegetable proteins: update. 3891-73
New serving ideas for soy protein products. 4089-73
Food acceptance and flavor requirements in the developing world. 1040-74
Matching an unconventional product to traditional taste preferences. 1334-74
Notebook on soy. 1426-74
Textured protein trims cost of frozen meat patties. 1480-74
Plant proteins: Progress and problems. 2111-74
The super soybean: protein potential, prospects and products. 2117-74
Frozen textured vegetable protein is flavored to simulate meats. 2120-74
Protein-fortified foods: the "Now" foods of the 1970s. 2121-74
Soy meat-analogs: a nutritional evaluation. 2132-74
The search for alternative protein sources. 2134-74
Problem: how to cut meat costs in half, solution: meat extenders. 2144-74
Progress on proteins. 2145-74
Early soy protein research awaits a good economic climate for growth: part III. 2153-74
The effects of processing on the nutritive value of veget-able-protein concentrates. 2158-74
Soy protein recipe ideas. 2491-74
THAILAND
Dietary survey of preschool children and expectant women in Soongnern district, Nakorn Rajsima province, Thailand. 259-74
Effect of tea consumption on thiamin status in man. 1022-74
THEFT
Preventing employee theft (Film Loop). 924-73
Security protection for foodservice. 950-73
Handling money (Motion picture). 1416-74
Handling money (Film loop). 1417-74
THERAPEUTIC AND SPECIAL DIETS
All calories don't count - perhaps. 56-73
Nutrition/cardiovascular reviews, 1970-1971. 63-73
Vitamin E; your key to a healthy heart. 72-73
Nutrition; a comprehensive treatise. 83-73
Dietetic foods. 90-73
Your heart has nine lives. 95-73
Nutrition and physical fitness. 97-73
A chink in our armor. 115-73
Diet healing: a case study in the sociology of health. 142-73
Diet: the realities of obesity and fad diets. 144-73
Basic nutrition in health and disease including selection and care of food. 248-73
Food, nutrition and diet therapy. 274-73
Nutrition and elementary food science. 292-73
Metabolic effects of meal frequency on normal young men. 304-73
Mulligan stew: The racer that lost his edge (Motion picture). 324-73
Mulligan stew: The racer that lost his edge (Videocassette). 325-73
Nutrition and handicapped children. 381-73
Obesity - new happenings. 433-73
Vitamin C and the common cold. 446-73
Responses of children with phenylketonuria to dietary treatment. 472-73
Basic nutrition and diet therapy. 476-73
The teenage obesity problem - why? - part two. 515-73
Handbook of diet therapy. 531-73
Weight control of children with Prader-Willi syndrome. 590-73
Nutrition and diet therapy: A learning guide for students. 610-73
Review of nutrition and diet therapy. 611-73
Nutrition and diet therapy. 612-73
A study guide for the food service supervisor. 1021-73
Continuing education in nutrition-1970. 1071-73
A teacher's guide of student nurses' learning experiences in diet therapy clinical practice related to total nursing care of patient, for use in schools of nursing. 1235-73
Nursing home menu planning. Food purchasing, and management. 1372-73
Soybean milk - a low-methionine substitute for cow's milk for children and adults. 1939-73
Guidelines for total parenteral nutrition. 2428-73
Nutrition and dietetic foods. 2458-73
Nutrition and physical fitness. 2472-73
Diseases of the liver--part 2: Fatty liver. 2537-73
The muddle of diets for gastrointestinal disorders. 2540-73
Diet and coronary heart disease. 2759-73
The contribution of the science and practice of nutrition to prevention and control of dental caries, Part 1. 2767-73
Practical nutrition. 2796-73
Nutrition; part II. 2800-73
Diseases of the gallbladder--part 1: Jaundice. 2853-73
Diseases of the liver--part 2: Hepatitis. 2854-73
Diseases of the kidney--part 5: Chronic renal failure and uremia. 2855-73
Diseases of the gallbladder--part 3: Cholecystitis. 2856-73
Diseases of the liver--part 5: Kwashiorkor. 2858-73
Diseases of the liver--part 4: Cirrhosis. 2860-73
Eating and aging. 2902-73
Nutrition and your mind. 2936-73
Milk-induced gastrointestinal bleeding in infants with hypochromic microcytic anemia. 2956-73
Patient oriented dietetic information system--III. 3246-73
Meals and menu planning. 3617-73
Computer-assisted menu planning provides control of food service. 3908-73
Nutrition and mental retardation. 4167-73
The hospital dietitian in prevention and treatment of obesity. 161-74
Congestive heart failure, the patient, and the community. 173-74
Dietas diabeticas con alimentos Mexicanos. 210-74
La dieta diabetica. 236-74
Menos calorias para mejor salud. 238-74
Long-term dietary management of dialysis patients: II. Composition and planning of the diet and patient education. 282-74
If it's your gallbladder...Cheer up, here's good news. 289-74
Diet in chronic renal diseases: a focus on calories. 303-74
Ways to add appeal to teenage dieting. 304-74
Dieta especial. 312-74
Preventing recurrences of congestive heart failure. 376-74
Diet and colonic disease. 441-74
Before you say baloney...Here's what you should know about vegetarianism. 456-74

Guide to normal nutrition and diet modification manual. 460-74
Nutrition education in medical practice. 566-74
The role of nutrition in home care and homemaker programs. 572-74
Nebraska handbook of diets normal and therapeutic. 733-74
A dietary program to lower serum cholesterol. 837-74
Nutrition in the hospital (Filmstrip/Cassette tape). 842-74
Normal and therapeutic nutrition. 857-74
Nutritional problems and the use of special dietary foods. 891-74
Obesity - part VIII: treatment. 916-74
Symposium: developing foods for the cardiac-concerned. 973-74
You can lead a patient to a diet but... 1060-74
Revising booklets on fat-controlled meals: background information on nutrient composition. 1078-74
Feeding problem children. 1335-74
Developing a program of learning on the fat-controlled diet. 1759-74
Tape recording, booklet teach diets. 1812-74
The therapeutic dietitian--a challenge for cooperation. 1866-74
Appraising and revising educational health materials: a look at the booklets for "planning fat-controlled meals". 1869-74
Diabetic meal plan. 1879-74
Special diets: elderly feeding bugaboo. 1901-74
Patients learn how to calculate special diets in hospital classes. 1905-74
Cocinando sin sal. 1924-74
Can you cater to special diets? 1925-74
Bircher-Benner nutrition plan for skin problems. 2171-74
Prescription dietary service. 2230-74
Nutrition consultation for public health nurses. 2387-74
Simplified quantity recipes: nursing/convalescent homes and hospitals. 2428-74
Baking for people with food allergies. 2494-74
Diet manual for long-term care patients. 2536-74

THERAPEUTIC DIETS
Man as a patient. 290-73
A study of the need for dietary counselling services for the physician. 505-73
Diseases of the gallbladder--part 2: Gallstones. 2857-73
Current concepts of nutrition and diet in diseases of the kidney; 2: dietary regimen in specific kidney disorders. 177-74
Current concepts of nutrition and diet in diseases of the kidney; 1: general principles of dietary management. 223-74
Cooper's nutrition in health and disease. 693-74
Nutrition in the hospital (Filmstrip/Cassette tape). 842-74
Selected nutrition references. 2537-74

THERAPEUTIC NUTRITION
The hospital dietitian in prevention and treatment of obesity. 161-74
Long-term dietary management of dialysis patients: II. Composition and planning of the diet and patient education. 282-74
Nutrition education and the hospitalized child. 301-74
Diet in chronic renal diseases: a focus on calories. 303-74
Preventing recurrences of congestive heart failure. 376-74
Modern nutrition in health and disease: dietotherapy. 443-74
Treating adolescent obesity: long-range evaluation of previous therapy. 469-74
Dietetics and human ecology. 494-74
Discharge diets versus patient education. 550-74
Nutritional problems and the use of special dietary foods. 891-74
You can lead a patient to a diet but... 1060-74
Revising booklets on fat-controlled meals: background information on nutrient composition. 1078-74
Knoxville hospital sponsors a clinic on diabetic foods. 1542-74
Effective diet conseling begins early in hospitalization. 1662-74
Principles of interviewing and patient counseling. 1692-74
The therapeutic dietitian--a challenge for cooperation. 1866-74
A demonstration of automated instruction for diabetic self care. 1867-74
Dietary cartoons in creating patient good will. 1899-74
Patients learn how to calculate special diets in hospital classes. 1905-74
Diet counselors serve community in three New Jersey hospitals. 2179-74
New programs for patients with diabetes. 2255-74
Nutritional rehabilitation centers. 2307-74
Pennsylvania takes a look at nutrition in the orthopedic program. 2323-74

THERAPY
Megavitamin and orthomolecular therapy in psychiatry. 127-74

THERMOMETERS (COOKING)
The energy savers. 2007-74

THERMOMETERS (MEAT)
Roasting (Film Loop). 1501-73
Quality control? consider temperature sensors. 3809-73

THESES AND DISSERTATIONS
Personnel training and employment needs of hospital food services in Tennessee. 3515-73
Titles of dissertations and theses completed in home economics 1969-70. 4117-73

THIAMIN
The vitamins. 484-73
Thiamin and riboflavin in cooked and frozen, reheated turkey - gas vs. microwave ovens. 523-73
Thiamin content and retention in venison. 524-73
Thiamine and riboflavin retention in cooked variety meats. 525-73
The Vitamins. 2848-73
Effect of heating methods on thiamine retention in fresh or frozen prepared foods. 3855-73
The use of nutritonal requirements and allowances. 166-74
Effect of tea consumption on thiamin status in man. 1022-74
Frozen, precooked beef and beef-soy loaves. 1965-74

THICKENING AGENTS
A consumer's dictionary of food additives. 4187-73

THYROID GLAND
On the genesis of atherosclerosis. 159-74

TIME/MOTION STUDIES
Man-machine productivity of dishwashing operations in hospitals. 880-73
Is your old kitchen costing you money? 3070-73
"...And it's done so easily and so well". 48-74

TIMERS (COOKING)
The energy savers. 2007-74

TOASTERS
Is your kitchen obsolete?--toasters and bun warmers. 3723-73

TOBACCO
Cigarette smoking and vitamin C. 118-73
The disease of living. 152-73
Positioning a product for the special market. 1913-73
The 'big three' risk factors that predict coronary disease best. 88-74
Learning about your oral health--level IV: 10-12 (kit). 117-74
Learning about your oral health--level III: 7-9 (kit). 118-74

TOLERANCE LEVELS
Dieta especial. 312-74

TOMATOES
The shady, saucy tomato. 660-73
New to the convenience roster: canned crushed tomato. 1893-73
Tomato solids in baked products. 1952-73
Toward better tomatoes. 2358-73
Tomato--the vegetable/fruit. 3001-73
Ascorbic acid content of artifically ripened tomatoes. 3875-73
Tomatoes. 1175-74
Instrucciones para envasar en casa frutas y tomates sin peligro de envenenamiento. 2123-74
One school grows tomatoes. 2309-74

TOOTH DEVELOPMENT
Deciduous dental eruption, nutrition and age assessment. 545-74

TOXEMIA OF PREGNANCY
Prenatal care. 149-74
Obesity and the unborn child. 172-74
Maternal nutrition and the course of pregnancy. 726-74

TOXIC ANIMALS
Advances in food research; volume 18. 51-73

TOXICANTS
Responsibility of dietitians for providing information about food: it's wholesomeness and nutritional value. 473-73
Looking at nutrition 12 ways. 571-73
The safety of foods. 1760-73
Food-borne illness. 1784-73
Evaluating the safety of food chemicals. 1886-73
Toxicity of pure foods. 2369-73
Toxicants occurring naturally in foods. 2390-73
FDA's view of food safety. 2409-73
Toxic substances naturally present in food. 3795-73
The food we eat: Is it safe? (Audiotape). 3802-73
Safe use of pesticides. 3829-73
Physiological and nutritional interrelationships in alcoh-olism. 613-74
Toxicological standards. 794-74
Toxicants occuring naturally in foods. 962-74
Food additives (Slides). 2126-74

TOXICITY
Communicating with the consumer: safety of food supply. 7-73
Fact and fancy in nutrition and food science - chemical residues in foods. 175-73
Selenium: the maddening mineral. 486-73
Trace elements in human and animal nutrition. 567-73
Current saccharin actions place added stress on need for a non-nutritive sweetener. 1816-73
The current status of saccharin. 1817-73
Nitrites and nitrates in food. 1895-73
Toxicity of pure foods. 2369-73
Prevention of pica, the major cause of lead poisoning in children. 2529-73
Sole foods and some not so scientific experiments. 2613-73
Lead content of milks fed to infants--1971-1972. 2685-73
Vulnerability of children to lead exposure and toxicity. 2695-73
Vitamin A physiology. 2830-73
New obligations imposed by current regulatory replications. 3020-73
Health and food. 3780-73
Symposium on environmental quality and food supply, 1972, Washington, DC. 3813-73
Trace elements in human nutrition. 87-74
The use and abuse of vitamin A. 106-74
Hypercalcemia and skeletal effects in chronic hypervitami-nosis A. 404-74
Lead poisoning and the suburban child. 448-74
Human susceptibility to oral monsodium l-glutamate. 576-74
Trace elements: a growing appreciation of their effects on man. 659-74
The potential toxicity of excessive polyunsaturates do not let the patient harm himself. 812-74
Toxicants occuring naturally in foods. 962-74
Effects of vitamin E: good and bad. 990-74
Aflatoxins: stopping trouble before it starts. 2059-74
Rapid nitrosation of phenols and its implications for health hazards from dietary nitrites. 2065-74
Poisoning misadventures. 2075-74
Evaluation of mercury, lead, cadmium and the food additives amaranth, diethylpyrocarbonate, and octyl gallate. 2076-74
Mercury as a food contaminant. 2078-74
Toxicity of intentional food additives. 2552-74

TOXINS
- Toxicants occurring naturally in foods. 2390-73
- Legumes in human nutrition. 2448-73
- Botulism. 3799-73
- Toxicants occuring naturally in foods. 962-74
- Aflatoxins: stopping trouble before it starts. 2059-74
- Needed: stronger FDA controls on aflatoxin. 2068-74
- Poisoning misadventures. 2075-74

TRACE ELEMENTS
- Nutrition. 111-73
- Selenium: the maddening mineral. 486-73
- Trace minerals in type A school lunches. 529-73
- Trace elements in human and animal nutrition. 567-73
- Toward the new. 2353-73
- Trace minerals as nutrients. 2418-73
- Trace minerals. 2620-73
- Trace element nutrition in man: Recent progress and remai-ning problems. 2724-73
- Newer trace elements in nutrition. 2725-73
- The role of essential trace elements in nutrition. 2748-73
- Losses of vitamins and trace minerals resulting from processing and preservation of foods. 3883-73
- Trace elements in human nutrition. 87-74
- Chromium enrichment of foods urged. 270-74
- Hambidge and O'Brien on developmental nutrition: trace metals. 466-74
- Trace elements: a growing appreciation of their effects on man. 659-74
- Newer concepts of coronary heart disease. 758-74
- "newer" trace elements in human nutrition. 764-74

TRAINING
- Concepts of food habits of "other" ethnic groups. 125-73
- Convenience food systems: vote "yes" on a convenience foods system? 794-73
- A study of career ladders and manpower development for non--management personnel in the food service industry. 795-73
- Management of food service. 820-73
- Increasing employee productivity and reducing turnover. 861-73
- Making cafeterias work. 879-73
- Optimizing our human resources. 912-73
- Reducing turnover: Start on employee's first day. 932-73
- A review: how supervisor's expectations affect trainee performance. 937-73
- AV decision model. 1012-73
- School lunch worker other than director or supervisor. 1025-73
- And then there were 171. 1026-73
- Audio-visuals make employee training more effective. 1031-73
- Basics of adult motivation. 1035-73
- A preliminary investigation of the effectiveness of progr-amed instruction in teaching sanitation to non-professional food service employees. 1048-73
- College joins school foodservice in training workers. 1054-73
- Developmental dialogues. 1067-73
- Evaluating training expenditures. 1083-73
- Getting participation in films. 1106-73
- Help wanted: career ladders turn dead-end jobs into career opportunities. 1111-73

Developing executive talent. 1584-74
How to cope with the silent trainee. 1589-74
Gagne's learning theory applied to technical instruction. 1679-74
A philosophy for clerical training: the menu approach. 1711-74
How to talk training talk. 1783-74
The use of silent single concept loop films to facilitate the acquisition of occupational skills. 1798-74
Is TA ok? Yes...If it's used with discretion. 1810-74
The art of asking questions. 1816-74

TRANSACTIONAL ANALYSIS
I'm OK, you're OK. 4141-73
A human systems approach to coping with future shock. 1305-74
Life script awareness in career development: human behavior observed through transactional analysis. 1504-74
Is TA ok? Yes...If it's used with discretion. 1810-74

TRANSPARENCIES
Nutrition (Transparencies). 3310-73
Fast and inexpensive copies. 3393-73
Food habits (Kit). 703-74
Visual aids: why?--where?--what? 1585-74
Classtoons: Problems of overweight (Transparencies). 1604-74
Classtoons: Economy meal planning (Transparencies). 1628-74
Classtoons: Vegetable cookery (Transparencies). 1629-74
Better visuals: you can make them happen. 1788-74

TRANSPORTATION
Career guidance: think food! (Motion Picture). 3377-73
Mission impossbile. 3668-73
Truck and routing option (a model based on the distribution of donated commodities). 3693-73
Standards for public schools of Georgia. 3719-73
School foodservice in Chicago. 3980-73
Cup-cans come to Idaho. 4014-73
Components of margins for selected foods (May 1974). 79-74
Food-related energy requirements. 1108-74
The responsibilities of the school business administrator in small school districts: a research report. 1383-74
How to choose the right cart for your serving and holding patterns. 2017-74
Alternative uses of fish. 2113-74
The evolution of distribution: a distribution [illegible] with space-age technology. 2592-74

TRAYS, SERVING
Intern researches disposable trays. 1597-73

TRICHINOSIS
Origin of selected Old Testament dietary prohibitions. 453-74
Hot facts about food protection. 2085-74

TRIGLYCERIDES
Medium-chain triglycerides. 2606-73

TROPICAL FRUITS
Pineapple - the fruit of royalty. 2992-73
Making the most of avocados this summer. 3658-73

TRYPTOPHAN METABOLISM
Conversion of tryptophan to niacin in man. 290-74

TUITION
Projections of educational statistics to 1978-79. 4181-73

TUNA
Tuna. 530-73
Woman's Day encyclopedia of cookery, vol. 12. 2186-73

TURKEY
  Small portions: exciting side dishes. 2439-74
TURKEY
  Turkey time saver. 1523-73
  Precooking and reheating of turkey. 1916-73
  Turkey rouladen present year 'round serving idea for seasonal fowl. 1953-73
  Eating quality of half turkey hens cooked by four methods. 3141-73
  Foil-covered versus open-pan procedures for roasting turkey. 3639-73
  Eating quality of half turkey hens cooked by four methods. 3650-73
  Improved methods and equipment for boning turkeys. 3770-73
  Entree loaves. 4028-73
  Plucky poultry ideas. 4056-73
  Turkey trots to top. 1390-74
  Try new ways with bargain turkey. 2467-74
TURKEY (COUNTRY)
  Flavor secrets from foreign lands: Turkey. 2138-73
TURNIPS
  Turnips. 1191-74
TYPE A LUNCH
  ARA sells a 'rainbow' lunch. 47-73
  California states its position. 102-73
  Statement of Walter A. Compton, M.D., President and Chief Executive Officer, Miles Laboratories, Inc., before the Senate Select Committee on Nutrition and Human Needs, February 24, 1971. 124-73
  Nutrition education guide. 158-73

The "new" vegetarians. 344-74
The new vegetarians--Part Two: The Zen macrobiotic movement and other cults based on vegetarianism. 367-74
The new vegetarians, part one--vegetarianism and its medical consequences. 368-74
Before you say baloney...Here's what you should know about vegetarianism. 456-74
Raising infant on vegetarian diet. 475-74
Vegetarian diets. 829-74
Vegetarian diets. 1020-74
Vegetarian diets. 1021-74
Vegetarian gourmet cookery. 2460-74
Vegetarians and vegetarian diets. 2562-74

VENDING FIRMS
School vending and the law. 3038-73
How to use donated food. 3162-73
Contracted vs. School managed: How costs compare. 3258-73
Two views: Getting into school lunch. 3274-73
Easy open: Two years later. 3840-73

VENDING MACHINES
Tea & coffee. 627-73
Vending cafeteria leads to suit by service employees. 993-73
Vending machines for food and beverages. 1619-73
Factors affecting student participation in selected Milwa-ukee, Wisconsin Catholic high school lunch programs. 2017-73
School vending is different. 3063-73
The computer & automatique. 3273-73
Input-output: the commissary system. 3654-73
Contract foodservice/vending. 3843-73
Double shift at high school opens door to vending. 3923-73
A look at purchasing. 4195-73
The child consumer--cultural factors influencing his food choices. 40-74
Federal food programs, 1973. 1270-74
Texas State Tech instructor wins award for vending course technique. 1824-74

VENISON
Thiamin content and retention in venison. 524-73

VENTILATION
The ABC'S of make-up air. 1547-73
Commercial cooking equipment exhaust systems. 1622-73
Air curtains for entranceways in food establishments. 1625-73
Make-up air system practical for busy restaurants. 3727-73
Commonwealth Edison: all convenience kitchen/problem solver. 1999-74
Stop air pollution in you kitchen!. 2013-74
The encyclopedia of professional kitchen planning. 2045-74
Is your kitchen cooking up a fire? 2096-74

VERMONT
Teaching better use of donated foods. 2262-74

VIDEO CASSETTES
Videocassettes: the dream medium. 1680-74
Videotape: a revolution in the making. 1845-74

VIDEO TAPES
Use of audio-visual techniques in training the hard-core. 3444-73
Live vs. Tape: Which is better for instruction? 3478-73
Videocassettes: the dream medium. 1680-74
Films vs. Videotapes in educational programs. 1752-74
Videotape: a revolution in the making. 1845-74

VIRAL INFECTIONS
  Vitamin C--a multifunctional myth? 2630-73
  Ascorbic acid and common colds. 938-74
VIRGIN ISLANDS
  Family food habits in the Virgin Islands. 1055-74
VIRGINIA
  Problem: how to cut meat costs in half, solution: meat extenders. 2144-74
  Extension service programs promote good nutrition. 2235-74
  Seven great American recipes from Williamsburg. 2487-74
  Williamsburg food service: preserving the flavor of great American cuisine. 2488-74
VIRGINIA BEACH, VIRGINIA
  Who says a manager can't teach nutrition? 1051-74
VIRUSES
  Selected reading in microbiology. 2546-74
VISITING HOMEMAKERS
  Helping low-income parents: I. Through parent education groups; II. Through homemaking consultants. 1553-74
  One strong link: program 1, definition of the aide's job (Videocassette). 1725-74
  One strong link: program 1, definition of the aide's job (motion picture). 1726-74
  One strong link: program 6, the home visit, pt. 1 (Motion picture). 1735-74
  One strong link: program 7, the home visit, pt. 2 (Motion picture). 1736-74
  One strong link: program 7, the home visit, pt. 2, program 8, evaluation (Videocassette). 1737-74
  An interdisciplinary approach to teaching homemaker aides. 1801-74
  The nutrition consultant and the home aide. 1844-74
  Extension education + food programs = better living. 2177-74
  Nutrition education via people-to-people. 2196-74
  Donated foods--the beginning of a good diet. 2201-74
  A comprehensive home-care program for the chronically ill. 2219-74
  Reaching urban women. 2229-74
  Nutrition education for the aged and chronically ill. 2268-74
  The nutrition story for low-income families. 2274-74
  Home economist-homemaker aide team expands environmental enrichment program. 2351-74
  Home economics aides reach poor families. 2357-74
  Program aides" for work with low-income families. 2358-74
  Mobilizing the potential of home economics for low-income families. 2383-74
  Training 'women who care'. 2403-74
  Extension Service intensifies help for the poor. 2406-74
VISITING NURSE ASSOCIATION
  The V.N.A. and dietary service. 788-74
  Spanish handbook. 1717-74
  Nutrition consultation for public health nurses. 2387-74
  Nutrition services in home health agencies. 2410-74
VITA-PAK
  The Baltimore school lunch story. 1975-73
VITAMIN A
  Blood serum vitamin A and carotene studies of preadolescent children. 282-73
  Spot vitamin A with color clues. 500-73
  Effect of processing on provitamin A in vegetables. 1835-73
  Food composition: Tables for use in the Middle East. 2258-73
  Fortification of nonfat milk solids with vitamins A and D. 2427-73
  Effect of excessive vitamins C and E on vitamin A status. 2464-73
  Food sources of vitamin C; food sources of vitamin A. 2581-73
  On the pathophysiology of vitamin A deficiency. 2610-73
  Vitamin A physiology. 2830-73
  Serum vitamin A in protein-calorie malnutrition. 2964-73
  New regulations on vitamins A and D. 3031-73
  Try something new. 3468-73
  Vitamin-enriched USDA foods get tender loving care. 3894-73
  The use and abuse of vitamin A. 106-74
  Annie A. 131-74
  Distribution of vitamin A to population groups. 138-74
  More is not better. 323-74
  Yardsticks for nutrition (kit). 413-74
  Effects of nutrition and other factors on pregnant women's serum vitamin A levels. 422-74
  Vitamin E supplements and the absorption of a massive dose of vitamin A. 596-74
  Let's have more vitamin A and C foods in school lunch (slides). 615-74
  A multidisciplinary analysis of children's food consumption behavior. 632-74
  Vitamin A: potential protection from carcinogens. 660-74
  Vitamin A nutriture in North America. 706-74
  Preliminary findings of the first health and nutrition examination survey, United States, 1971-1972. 713-74
  Que hortalizas comere hoy? 769-74
  The verdict on vitamins. 898-74
  Fat-soluble vitamins in the eighth revision of the Recomm-ended Dietary Allowances. 1217-74
  The role of the communications specialist: the "reach-and--frequency" use of mass media. 2276-74
VITAMIN ANTAGONISTS
  Effect of excessive vitamins C and E on vitamin A status. 2464-73
VITAMIN B COMPLEX
  Pantothenic acid, vitamin B6, and vitamin B12 in foods. 543-73
  Yogurt: is it truly Adelle's B vitamin? 615-73
  Egg beaters: do they beat real eggs? 14-74
  Whole milk is good for you--if you're a baby. 15-74
  Vitamin B6, the doctor's report. 358-74
  Good drugs may cause bad nutrition. 442-74
  The verdict on vitamins. 898-74
VITAMIN B12
  Pantothenic acid, vitamin B6, and vitamin B12 in foods. 543-73
  Hematological, vitamin B 12, and folate studies on Seventh--day Adventist vegetarians. 136-74
VITAMIN D
  Fortification of nonfat milk solids with vitamins A and D. 2427-73
  Importance of vitamin D milk. 2436-73
  New forms of vitamin D3 and their potential applications. 2530-73
  Osteoporosis. 2551-73
  Adult bone loss, fracture epidemiology and nutritional implications. 2571-73
  Vitamin D: a reawakening. 2785-73
  The causes of vitamin D deficiency. 2786-73
  Some drugs we would like to have in nutrition and metabolism. 2812-73
  Rickets and osteomalacia. 2871-73
  New regulations on vitamins A and D. 3031-73
  Whole milk is good for you--if you're a baby. 15-74
  Nutritional status of schoolchildren. 174-74
  More is not better. 323-74
  Lactose nutrition and natural selection. 389-74
  Teaching kit on rickets (Posters). 416-74
  Vitamin D: mode of action and biomedical applications. 485-74
  The verdict on vitamins. 898-74
  Fat-soluble vitamins in the eighth revision of the Recomm-ended Dietary Allowances. 1217-74
VITAMIN DEFICIENCIES
  Cigarette smoking and vitamin C. 118-73
  Nutritional side effects of drugs. 2829-73
  Nutritional status of people, USA. 2841-73
  Teaching kit on rickets (Posters). 416-74
  The effect of nutrition in teen-age gravidas on pregnancy and the status of the neonate. 1. A nutritional profile. 569-74
  Effect of tea consumption on thiamin status in man. 1022-74
VITAMIN E
  Vitamin E: your key to a healthy heart. 72-73
  The vitamins. 484-73
  Tocopherols and fatty acids in American diets - the recom-mended allowance for vitamin E. 527-73
  Vitamin E and heart disease. 579-73
  Vitamin E as a biological antioxidant. 580-73
  Effect of excessive vitamins C and E on vitamin A status. 2464-73
  Vitamin E and coronary heart disease. 2627-73
  Supplementation of human diets with vitamin E. 2758-73
  Vitamin E. 2886-73
  Appraisal of human vitamin E requirement based on examina-tion of individual meals and a composite Canadian diet. 2899-73
  Vitamin E: What's behind all those claims for it? 2928-73
  Are PUFA harmful? 134-74
  Lipid composition of selected margarines. 251-74
  Know your nutrition. 275-74
  Vitamin E content of selected baby foods. 317-74
  Vitamin E supplements and the absorption of a massive dose of vitamin A. 596-74
  Supplementation of human diets with vitamin E. 728-74
  Vitamin E and its relation to heart disease. 790-74
  Americans love hogwash. 875-74
  The verdict on vitamins. 898-74
  Vitamin E (Slides). 976-74
  Effects of vitamin E: good and bad. 990-74
  Who needs vitamin E? 1050-74
  Fat-soluble vitamins in the eighth revision of the Recomm-ended Dietary Allowances. 1217-74
VITAMIN EQUIVALENTS
  Vitamins from food (Motion picture). 584-73
  Vitamins from food (Videocassette). 585-73
VITAMIN K
  Vitamin K supplementation for infants receiving milk substitute infant formulas and for those with fat malabsorption. 111-74
  Fat-soluble vitamins in the eighth revision of the Recomm-ended Dietary Allowances. 1217-74
VITAMINS
  Nutrition II. 69-73
  Dietetic foods. 90-73
  Statement of Walter A. Compton, M.D., President and Chief Executive Officer, Miles Laboratories, Inc., before the Senate Select Committee on Nutrition and Human Needs, February 24, 1971. 124-73
  Effect of microwave heating on vitamin B6 retention in chicken. 161-73
  Folacin in wheat and selected foods. 186-73
  Functions and interrelationships of vitamins. 219-73
  Good food works for you (Show n' Tell). 226-73
  The great vitamin mystery. 337-73
  Olympic athletes view vitamins and victories. 441-73
  Perspective on vitamins. 448-73
  Preformed vitamin A, carotene, and total vitamin A activity in usual adult diets. 452-73
  The vitamins. 484-73
  Food and nutrition. 485-73
  Tocopherols and fatty acids in American diets - the recom-mended allowance for vitamin E. 527-73
  Vitamin A and iron in infants' diets in Israel. 578-73
  Vitamins and the growing body. 581-73
  Vitamins (Film loop). 582-73
  Vitamins and body structure. 583-73
  Vitamins from food (Motion picture). 584-73
  Vitamins from food (Videocassette). 585-73
  But what are they among so many? An ancient food for a modern need. 629-73
  Legal developments: FDA releases labeling regulations. 695-73

Vitamins and you (Filmstrip). 1302-73
Recent developments in the vitamin technology of bread---history pertinent today. 1926-73
CARE strikes back at world's malnutrition. 1979-73
Food values and calorie charts. 2271-73
Synthetic food. 2342-73
The chemicals of life. 2445-73
Foods and nutrition. 2481-73
Let's eat right to keep fit. 2526-73
Let's get well. 2527-73
Sensible eating: A 'balanced' diet for Britain. 2592-73
The food fad boom. 2649-73
Recommended Dietary Allowances, revised 1973. 2650-73
Bradley C. Broccoli, the people's friend (posters). 2670-73
Handbook of vitamins and hormones. 2680-73
Dietary surveys on school children and medical students. 2826-73
Effective issue for vitamins raises the question: are they foods or drugs? 2839-73
The way it is. 2843-73
The Vitamins. 2848-73
Nutrition in pregnancy. 2850-73
Micronutrient considerations in nutrient labeling. 3009-73
New food regulations make strange bedfellows. 3032-73
Vitamins, minerals, and FDA. 3056-73
Wheels, a nutrition game of chance and skill. 3381-73
How natural are those 'natural' vitamins? 38-74
Selling nutrition to the consumer. 56-74
Teaching charts on Ethiopian foods (Posters). 67-74
Vitamin K supplementation for infants receiving milk substitute infant formulas and for those with fat malabsorption. 111-74
Nutrition--what's it all about? 122-74
Megavitamin and orthomolecular therapy in psychiatry. 127-74
Nutrition and acquired immunity. 143-74
An area of concern: the nutritive profile of fast food meal combinations. 264-74
New hope for incurable diseases. 265-74
Know your nutrition. 274-74
Know your nutrition. 275-74
A primer on vitamins. 313-74
Natural, organic, and health foods. 316-74
Vitamins in frozen convenience dinners and pot pies. 318-74
Diet study points to iron deficiency among women. 333-74
Nutritional improvement debate: supplementation of foods vs. nutrition education. 345-74
Citrus is...A fabulous fruit. 392-74
Vitamin D: mode of action and biomedical applications. 485-74
Myths of vitamins. 488-74
Heinz nutritional data. 491-74
I'm Sally C and here's what I do. 530-74
Learning about food (Filmstrip/record). 532-74
Learning about food (Filmstrip/cassette tape). 533-74

Dictionary of occupational titles... 4174-73
A selected bibliography on: African foods and nutrition, and African botanical nomenclature. 4188-73
Macrostructure and nomenclature of plant and animal food sources. 2128-74
The A to Z of health food terms. 2507-74
Foodservice vocabulary. 2560-74

VOCATIONAL COUNSELING
Community action for employment: manpower development. 2094-73

VOCATIONAL DEVELOPMENT
The art of motivating. 891-73
The smile of success; service with a smile. 1300-73
Community action: health programs. 2093-73
Community action for employment: manpower development. 2094-73
New directions in reading improvement for supervisors. 3396-73

VOCATIONAL EDUCATION
Food science. 362-73
Food service in industry and institutions. 970-73
All benefit from handicaps' training. 1014-73
Guidelines for hospitality education in junior college. 1015-73
Opportunities for educational and vocational advancement. 1016-73
A guide to the evaluation of educational experiences in the armed services. 1017-73
Application of a three-stage systems approach model for producing career awareness materials. 1027-73
How we started students on successful foodservice careers. 1039-73
A casebook on administration and supervision in industrial--technical education. 1040-73
Computers in education: relevance for occupational education. 1057-73
Status of curriculum development in the field of commercial food at the non-baccalaureate level. 1062-73
Dietetic training '73. 1070-73
Review and analysis of curricula for occupations in food processing and distribution. 1074-73
Education for dietetics: the In-Basket Technique. 1077-73
Cooking for food managers-a laboratory text. 1110-73
Home study courses for food service employees - an Iowa program. 1112-73
Hospital cooks correspondence course (an in-service training plan) 1969. 1113-73
Education and training for industry - volume I. 1127-73
Integrating nutrition into the nursing curriculum. 1129-73
Bases for vocational education for food service industry employees. 1134-73
Analysis of tests used to evaluate a training program for food service personnel. 1141-73
Kids run a restaurant drive-in style. 1145-73
A practical guide for supervisory training and development. 1146-73
New directions in community junior college programs - new students; new faculty. 1172-73
Food service; teachers guide. 1174-73
Commercial foods. 1175-73
Guide for training school lunch personnel. 1181-73
Food preparation specialist. 1183-73
Food service management: A suggested 2 year curriculum. 1184-73
An old standby that still works. 1204-73
Curriculum guide for food service occupations. 1206-73
Curriculum guide for food service instructional programs in Pennsylvania. 1212-73
Schooling the food service executives of tomorrow. 1230-73
Teaching successfully in industrial education. 1240-73
Guide for course of study for cook (hotel and restaurant) (entry). 1259-73
Food service selling. 1260-73
Training can be professional. 1268-73
Cooks: a suggested guide for a training course. 1290-73
Food processing technology. 1291-73
Quantity food preparation: A suggested guide. 1293-73
A post-high school program in child care services. 1294-73
Learning for earning: new opportunities for paycheck education. 1295-73
Simplified manual for cooks. 1467-73
American junior colleges. 2197-73
The college blue book. 2217-73
Materials for occupational education. 2263-73
Allied health education programs in junior colleges/1970. 2293-73
Nutrition; part II. 2800-73
Nutrition; part I. 2801-73
Outline for the preparatory course in occupational home economics in the field of food services (preparation and management). 3295-73
Guidelines for hospitality education in junior colleges; a manual for the establishment of programs for careers in the hotel-motel, restaurant, and institutional industries. 3297-73
A follow-up study of junior college hotel & restaurant education in Florida. 3298-73
Status of curriculum development in the field of commercial food at the non-baccalaureate level. 3311-73
The development and testing of a behavioral-reference groups model for evaluation of vocational education pilot

programs:occupational research development monograph no. 4. 3332-73
The development of a project for educable mentally retarded children to receive vocational training in food service. 3334-73
Dropouts drop in to foodservice. 3365-73
A pilot study for gainful employment in home economics: final report, volume I. 3367-73
Hospitality education curriculum development project: final report. 3382-73
Institute for home economics teachers on initiating, developing, and evaluating programs at the post high school level to prepare food service supervisors and assistants to directors of child care services: volume I: a post high school program in home economics (May 1, 1966-June 30, 1967): final report. 3406-73
IFMA launches foodservice scholarships. 3432-73
Long Beach City College content outlines for courses in home economics-related occupations. 3459-73
Preparing the mentally retarded in the areas of food preparation and service. 3471-73
Developing a work-experience program for slow learning youth: a report of a three year extension and improvement project. 3477-73
Teaching and training. 3482-73
Food service: an adult distributive education publication. 3485-73
An educational development plan for the Kapiolani Community College--January 1967. 3494-73
Evaluation of secondary school programs to prepare students for wage earning in occupations related to home economics: final report, volume I. 3498-73
Management services: a training guide for out-of-school youth and adults. 3500-73
Manual of operation for vocational home economics programs in job training in high schools. 3509-73
Relationship of age and performance of food service perso-nnel participating in a training experiment. 3522-73
A survey instrument for identifying clusters of knowledge and competencies associated with performance of food service work. 3525-73
Manpower research visibility. 3526-73
Home economics education at the secondary level: a curric-ulum model (with emphasis on the occupational aspect). 3545-73
Food service employee. 3565-73
Health careers guidebook. 3574-73
A composite of food service curriculum information for use in vocational programs. 3592-73
A guide to federal assistance programs for local school systems. 4132-73
A conceptual framework for the diffusion of innovations in vocational and technical education. 4146-73
Directory of postsecondary schools with occupational programs, 1971: public and private. 4149-73
Information utilization by vocational educators. 4154-73
Directory of secondary schools with occupational curriculums: public-Nonpublic, 1971. 4159-73
The development of skills training courses. 1614-74
How to write and use behavioral objectives in vocational education programs. 1640-74
How to create a manpower pool. 1653-74
Development of a validated instructional system for hospi-tality education. 1754-74
The preparation of occupational instructors a suggested course guide. 1823-74
Texas State Tech instructor wins award for ven[illegible]ng course technique. 1824-74
Their classroom is an all-electric kitchen. 1825-74
Identifying competencies in the food service industry. 1649-74
Training plans for HERO'S. 1855-74
Guidance and the promises and demands of career education. 1865-74

VOLUME FEEDING
The big 10 pros tackle the times. 3078-73
Quantity food preparation. 3624-73
A "cooking street"--is it a possible food preparation system? 3755-73
New equipment and systems in mass feeding. 3759-73
A giant step in nutrition education. 98-74
Volume feeding and operation independence. 1463-74
Nutrition fest--more than just fun. 2221-74

VOLUNTARY AGENCIES
Food and nutrition education source list. 2542-74

VOLUNTEERS
You can help fight hunger in America. 2089-73
Child nutrition programs. 2090-73
You can help fight hunger in America. 2092-73
Mission impossbile. 3668-73
Guidelines for Meals-on-Wheels and congregate meals for the elderly. 3925-73
Volunteers in nutrition education. 591-74
Nutrition counseling for drug addicts in rehabilitation. 1032-74
Lecciones para lideres voluntarias. 1544-74
Teaching teens 'stuff' that counts. 1639-74
Volunteer donates services to low-income families. 1846-74
Cooperative action harnesses community forces. 2183-74
Volunteers teach creative cooking with donated foods. 2373-74
Training 'women who care'. 2403-74

WAGES
The evolving payboard regulations. 810-73
Nursing homes and related health care facilities. 2287-73
There ought to be laws against the laws. 3015-73
Manpower needs in the nursing home industry. 3189-73
Nursing home foodservice. 3213-73
Health careers guidebook. 3574-73
Production costs: labor-saving equipment vs. Non-machine methods. 3750-73
Minimum wage: higher rates and more paper work. 1287-74
The remuneration riddle. 1360-74
Conflicting impacts of pay on employee motivation and satisfaction. 1462-74

WAITERS AND WAITRESSES
Food service: an adult distributive education publication. 3485-73
Job opportunities in a restaurant (Filmstrip/Cassette tape). 1795-74

WAREHANDLING
Can a dishroom be a pleasant place to work? 3703-73
The systems approach to warewashing. 3768-73
Warehousing systems speed service. 3775-73
Does your warewashing measure up? 2005-74
New heavy duty chlorinated detergent. 2029-74
Zero turnover in the dishroom. 2057-74
Clean dishes (Slides-audiocassette). 2088-74

WAREHANDLING EQUIPMENT
Sub-System 9: Clean-Up. 3711-73
Ultimate in dishroom economy. 3772-73
Warehousing systems speed service. 3775-73
Conveyor belts--new design//new performance. 2001-74
Dishwasher conversion can pay dividends. 2003-74
Does your warewashing measure up? 2005-74
Food facilities blueprint: World Trade Center (Part v): dishwashing facilities, private dining room. 2012-74
New heavy duty chlorinated detergent. 2029-74
Zero turnover in the dishroom. 2057-74
Clean up efficiently and economically. 2067-74
Clean dishes (Slides-audiocassette). 2088-74

WAREHOUSING
Guide for warehousing. 2351-73
The evolution of distribution: a distribution center with space-age technology. 2592-74

WARRANTIES
Guarantees/Warranties: are you getting your dollars worth? 1993-74

WASHING MACHINES
Foodservice trends to on-premise laundries. 1715-73
Dishwashing. 3786-73

WASHINGTON (STATE)
Dietary levels for tri-city elementary school children. 81-73
Baking the school lunch way. 3641-73
Other current projects. 3936-73
Project iron. 818-74
What are lentils? 1212-74
Participation in the National School Lunch Program in Washington School Districts. 2198-74

WASTE DISPOSAL
Now the trend is to waste compactors. 1645-73
Systems support with key processing equipment. 1675-73
Plant operation: how to squeeze the most from trash compa-ctors. 1757-73
Sanitary storage and collection of refuse (Motion picture). 1767-73
Compaction puts the squeeze on trash handling costs. 3705-73
Sub-System 9: Clean-Up. 3711-73
Space age compactor keeps kitchens clean. 3763-73
Ultimate in dishroom economy. 3772-73
Sanitation & safety for child feeding programs. 3788-73
A look at the most crucial tools of sanitation. 3792-73
The modern handbook of garbology. 3814-73
The dilemma: more isn't enough!. 1319-74
Down with garbage. 1406-74
Commonwealth Edison: all convenience kitchen/problem solver. 1999-74
Disposing of waste disposal headaches. 2004-74
Product showcase: trash compactors. 2036-74
Trash comes and goes at the University of Wisconsin. 2046-74
Let's keep food safe to eat (Motion picture). 2071-74
Applied foodservice sanitation. 2082-74

WATER
Detergents and our water. 15-73
Nutrition II. 69-73
Contribution of hard water to calcium and magnesium intakes of adults. 128-73
Water metabolism (Slides). 586-73
Water, the indispensable nutrient. 587-73
The technical microbiological problems in intermediate moisture products. 1947-73
Food chemistry. 2447-73
Water: energy for life. 3527-73
Do a better cleaning job and control product consumption. 3709-73
Hot water, water everywhere. 3729-73
Outdoors-USA. 4177-73
Food that builds good health (Motion picture). 295-74
Learning about food (Filmstrip/record). 532-74
Learning about food (Filmstrip/cassette tape). 533-74
The food you eat. 647-74
Accumulation of nitrate. 725-74
What's in it for me?--the nutrients (Videocassette). 736-74
What's in it for me?--the nutrients (Motion picture). 746-74
Nutrition: content and value of some common foods--proteins (Charts on spring rollers). 783-74
Does your favorite drink actually quench your thirst? 927-74
Water and heart disease: the harder the deadlier? 1033-74
Population growth, food needs and environmental stress. 1087-74
Health education. 1651-74
Como hacer un filtro de agua para su casa (Filmstrip). 2060-74
How hot is your dishwashing? 2174-74
Clean dishes (Slides-audiocassette).

2088-74
Your world, my world: a book for young environmentalists. 2105-74
WATER CONDITIONING
Sanitation and dishes--aspects old and new: Part i. 3805-73
Water and heart disease: the harder the deadlier? 1033-74
Como hacer un filtro de agua para su casa (Filmstrip). 2000-74
WATER HEATERS
Hot water, water everywhere. 3729-73
Operating and maintenance suggestions for an efficient hot water system. 2033-74
Water heating for the food service kitchen. 2051-74
How hot is your dishwashing? 2074-74
WATER SUPPLY
Como hacer un filtro de agua para su casa (Filmstrip). 2000-74
WATER-SOLUBLE VITAMINS
Nutrition. 111-73
Folacin in wheat and selected foods. 186-73
Folate deficiency and oral contraceptives. 2882-73
Vitamin C and the common cold. 107-74
Vitamin B6, the doctor's report. 358-74
Nutritional deficiencies in modern man, Oxford, 1972. 518-74
Recommended Dietary Allowances revised 1974. 1256-74
WATERCRESS
Watercress. 1193-74
WATERMELONS
An apple is red. 1094-74
Watermelons. 1148-74
WEANING
The decision to breast-feed. 2777-73
Breast feeding and weaning practices in developing countries and factors influencing them. 205-74
Breast-feeding habits and cultural context. (A study of three Ethiopian communities). 586-74
The cultural characteristics of breast-feeding: a survey. 761-74
When you stop breast feeding. 865-74
WEATHER
The elements: Nature's wrath jolts a complacent urban nation. 2979-73
WEIGHT
Relation of prenatal care to birth weights, major malformations, and newborn deaths of American Indians. 2632-73
Mass conversions. 3661-73
Mass measurement. 3662-73
Think metric: It's simple. 3673-73
Growth and maturation. 150-74
The measured influence of nutrition on personal and social development. 302-74
HCG: boon for the obese--or just a super-expensive placebo? 463-74
Neonatal mortality among the low birth weight infants under special pediatric care. 569-74
Four factors affect weight control for obese children. 657-74
Changes in serum cholesterol during the Stillman diet. 849-74
Learn to be thin. 919-74
Psychology of obesity: failure to inhibit responses. 924-74
Candy, chocolate, ice cream and how to lick 'em!. 948-74
Obesity. 950-74
Students learn to live with liters and meters. 1813-74
Weight control - obesity. 2563-74
WEIGHT CONTROL
All calories don't count - perhaps. 56-73
Behavior modification in a self-help group - a pilot study. 86-73
Behavior therapy in treating obesity. 87-73
Behavioral and metabolic consequences of weight reduction. 88-73
Dietetic foods. 90-73
Bulking agents in foods - acceptability by obese individuals. 100-73
Calories (Film loop). 105-73
Calories, energy and weight control. 106-73
The family guide to better food and better health. 138-73
Diet: the realities of obesity and fad diets. 144-73
Effect of diet and/or exercise on obese college women. 160-73
Food, energy and you (Videocassette). 210-73
Food, energy, and you (Motion picture). 211-73
Frequency of feeding, weight reduction, and body composition. 214-73
Frequency of feeding, weight reduction, and nutrient utilization. 215-73
In defense of body weight. 255-73
Food becomes you or Better health through better nutrition. 279-73
Maternal nutrition (Slides). 296-73
Food for you. 302-73
Mulligan stew: The racer that lost his edge (Motion picture). 324-73
Mulligan stew: The racer that lost his edge (Videocassette). 325-73
Weight control source book. 339-73
A source book on food practices; with emphasis on children and adolescents. 352-73
Nutrient intake and weight response of women on weight--control diets. 374-73
Nutrition and pregnancy. 385-73
Obesity. 405-73
Food. 406-73
Nutrition-related health practices and opinions. 417-73
Obesity - new happenings. 433-73
Obesity - part 3. 434-73
Slim chance in a fat world: behavioral control of obesity. 504-73
The teenage obesity problem - why? - part two. 515-73
The teenage obesity problem - why? - part 1. 516-73
Calories and weight. 538-73
Looking at nutrition 12 ways. 571-73
Weight control of children with Prader-Willi syndrome. 590-73
Gallup counts the calorie counters. 832-73
First foods. 1066-73
The dynamics of marketing to dieters. 1331-73
Food values and calcrie charts. 2271-73
The healthy way to weigh less. 2426-73
The Blanchard Obesity and Nutritional Index (BONI). 2468-73
The importance of prenatal nutrition. 2470-73
Food and Fitness. 2471-73
The myth of diet in the mangement of obesity. 2476-73
Obesity: A serious symptom. 2477-73
Eating disorders. 2485-73
Nutrition: Food and your baby. 2514-73
The crash diet craze. 2515-73
A critique of low-carbohydrate ketogenic weight reduction regimens: a review of Dr. Atkins' Diet Revolution. 2518-73
Diet and coronary heart disease. 2535-73
Good loser (game). 2536-73
Potential dieters: Who are they? 2542-73
Feeding 250 lb. Monsters. 2554-73
Maternal and fetal fuel homeostasis in human pregnancy. 2556-73
After the kids have gone. 2574-73
Introductory nutrition. 2598-73
Are we getting too much out of food? 2612-73
Keeping young and living longer. 2629-73
Weight regulation in man-physiological and psychological factors. 2652-73
Obesity in children: Identification of a group at risk in a New York ghetto. 2658-73
The stigma of obesity. 2659-73
Response of body weight to a low carbohydrate, high fat diet in normal and obese subjects. 2662-73
Choose your calories wisely. 2665-73
Do you think fat or thin? 2671-73
Cardiorespiratory responses of young overweight women to ergometry following modest weight reduction. 2678-73
Operational nutrition. 2690-73
The fat man and the addict: The biology of addiction. 2694-73
The carbo-calorie diet. 2708-73
Four steps to weight control. 2726-73
Food while you're pregnant. 2728-73
A study of health practices and opinions. 2742-73
A girl and her figure and you. 2745-73
Nutrition insurance (Game). 2778-73
Food and your weight. 2782-73
Metabolic demands as a factor in weight control. 2799-73
Through the looking glass. 2813-73
Obesity and learning difficulties. 2834-73
The way it is. 2843-73
Obesity--part 5: Regulation of food intake. 2861-73
Obesity -- part VI. 2863-73
Obesity -- part VII. 2864-73
Follow-up of obese patients: 14 years after a successful reducing diet. 2866-73
Nutrition fads are booming. 2873-73
If you don't eat meat what do you eat? 2880-73
The search for the secret of fat. 2895-73
Calories and you. 2939-73
How to stick to your diet. 2943-73
Exercise energetics in normal man following acute weight gain. 2948-73
Let's talk about food. 2952-73
A girl and her figure. 3456-73
Students come first at St. Olaf. 4020-73
Better Homes and Gardens calorie counter's cook book. 4023-73
Breakfasts for every life style (poster). 4035-73
Equally nutritious...But lower in calories. 4043-73
Eat and get slim cookbook. 4111-73
Facts on quacks. 1-74
Food facts talk back: food information--fallacies and facts. 121-74
Food power. 137-74
Customize your diet. 154-74
The hospital dietitian in prevention and treatment of obesity. 161-74
Obesity and childhood: your child doesn't have to be fat. 171-74
Obesity and the unborn child. 172-74
Controlling your weight. 179-74
Obesity--a special Urban Health panel discusses a major health problem. 193-74
Protein-sparing effect in obese women fed low calorie diets. 199-74
Clinical management of the obese adult. 202-74
Psychosomatic aspects of malnutrition during adolescence. 218-74
Dieta para el control de peso para la mujer encinta (1500 calorias). 231-74
A dozen diets for better or for worse. 237-74
Menos calorias para mejor salud. 238-74
Balance your meals and lose weight. 288-74
Balance your diet for health and appearance (Motion picture). 298-74
Ways to add appeal to teenage dieting. 304-74
Sustained weight control. 314-74
You are what you eat; one mile, two miles, three miles more. 319-74
Education for dieters. 327-74
Treating obesity in growing children. 343-74
The obese school child--a challenge. 354-74
The enigma of obesity. 403-74
Alternate approach to low fat--low saturated fat--low cholesterol diet. 409-74
Meal planning for the golden years. 429-74
Use of drugs in the treatment of obesity. 432-74
Girth control. 433-74
The secret family diet. 438-74
Diabetes and pregnancy. 447-74
HCG: boon for the obese--or just a super-expensive placebo? 463-74
The obese adolescent. 468-74
Treating adolescent obesity: long-range evaluation of previous therapy. 469-74
Food--what for? 480-74
Treatment of obesity in adolescence. 487-74
Intestinal bypass for obesity. 496-74
Can we modify the number of adipose cells? 509-74
Food habits of obese and nonobese adolescents. 524-74
The state of nutrition today. 562-74
The loves of Kernel Beard. 570-74
The psychology of obesity. 578-74

Your slim trim figure. 584-74
Overweight--its prevention and control (in Chinese). 616-74
Getting involved in breakfast. 641-74
Nutrition and birth defects prevention. 644-74
Four factors affect weight control for obese children. 657-74
Family resoulution for '74: shape up and slim down. 663-74
The obese child. 665-74
Overweight. 669-74
Nutrition for the growing years. 676-74
The big stretch. 684-74
You can reduce. 724-74
The psychologist's eat-anything diet. 804-74
Health and modern man. 831-74
Changes in serum cholesterol during the Stillman diet. 849-74
Psychological forces, motivation, and nutrition education. 863-74
Low-carbohydrate diet debate. 880-74
The 'just right' eating handbook. 893-74
Etiology of obesity--the OOF theory. 894-74
The secret family exercise plan. 902-74
Obesity - part VIII: treatment. 916-74
Learn to be thin. 919-74
Psychology of obesity: failure to inhibit responses. 924-74
Nutrition and feeding techniques for handicapped children. 933-74
The truth about weight control. 934-74
Candy, chocolate, ice cream and how to lick 'em!. 948-74
Obesity. 950-74
Nutrition for the nation!. 964-74
The success of TOPS, a self-help group. 967-74
Personalized weight control. 974-74
Rational diet construction for mild and grand obesity. 997-74
Weight control (show 'n tell). 1005-74
Perspectives on overweight. 1031-74
What to do about teenage overweight. 1043-74
Obesity and malnutrition in childhood. 1062-74
Weight control in a college situation. 1069-74
Sweet and dangerous. 1075-74
Nutrition education, 1972. 1269-74
Classrooms: Problems of overweight (Transparencies). 1604-74
Teaching teens 'stuff' that counts. 1639-74
Meal planning during pregnancy. 1902-74
Try trim-a-pound. 2232-74
Comprehensive self-improvement program for inner city obese teenage girls. 2260-74
Weight control in public school children. 2281-74
For overweight teenage girls. 2317-74
An effective weight control program in a public school system. 2348-74
Adolescent obesity. 2355-74
Volunteers lend a hand. 2392-74
The low cholesterol cookbook. 2429-74
The natural breakfast book. 2492-74
Convenience foods for calculated diets. 2516-74
Weight control - obesity. 2563-74

WEIGHT GAIN
Nutrition in pregnancy--a critique. 2600-73
Obesity--part 5: Regulation of food intake. 2861-73
Obesity--part 4: Causes. 2862-73
Obesity and childhood: your child doesn't have to be fat. 171-74
Be informed on nutrition. 452-74
Environmental factors associated with preschool obesity: II. Obesity and food practices of children at successive age levels. 521-74
Environmental factors associated with preschool obesity: I. obesity in sixmonth-old children. 522-74
Current concepts: sodium and diuretics in pregnancy. 626-74
Fetal malnutrition in white newborn infants: maternal factors. 688-74
Psychology of obesity: failure to inhibit responses. 924-74
Obesity. 950-74

WEIGHT LOSS
Signs and symptoms. 3461-73
Hypercalcemia and skeletal effects in chronic hypervitami-nosis A. 404-74
Be informed on nutrition. 452-74
BCG: boon for the obese--or just a super-expensive placebo? 463-74
Intestinal bypass for obesity. 496-74
Four factors affect weight control for obese children. 657-74
Changes in serum cholesterol during the Stillman diet. 849-74
Diagnosis and treatment of anorexic states. 869-74
Low-carbohydrate diet debate. 880-74
Learn to be thin. 919-74
Psychology of obesity: failure to inhibit responses. 924-74
Candy, chocolate, ice cream and how to lick 'em!. 948-74
Obesity. 950-74
Childhood obesity. 1064-74
The low-carbohydrate diet in the treatment of obesity. 1[illegible]4-74
The potato lover's diet cookbook. 2456-74

WEIGHT REDUCTION
Triglyceridemia. 2414-73
Controversies in medicine--is obesity harmful? 2502-73
Follow-up of obese patients: 14 years after a successful reducing diet. 2866-73
Obesity and childhood: your child doesn't have to be fat. 171-74
The enigma of obesity. 403-74
BCG: boon for the obese--or just a super-expensive placebo? 463-74
Intestinal bypass for obesity. 496-74
The loves of Kernel Beard. 570-74
Four factors affect weight control for obese children. 657-74
Changes in serum cholesterol during the Stillman diet. 849-74
Low-carbohydrate diet debate. 880-74
Obesity - part VIII: treatment. 916-74
Learn to be thin. 919-74
Psychology of obesity: failure to inhibit responses. 924-74
Candy, chocolate, ice cream and how to lick 'em!. 948-74
Obesity. 950-74
Get lost, extra pounds. 982-74
Perspectives on overweight. 1031-74
What's missing in the treatment of obesity by behavior modification? 1041-74
The potato lover's diet cookbook. 2456-74

WEIGHTS
English-metric conversion calculator. 3697-73
Metric system (Kit). 1838-74
What about metric? 2508-74
Some references on metric information (kit). 2570-74

WELFARE
Mobilizing the potential of home economics for low-income families. 2383-74

WESTERN HEMISPHERE
Nutrition, development and social behavior. 2660-73
Highlights of the Western Hemisphere Nutrition Congress. 2951-73

WHEAT
Folacin in wheat and selected foods. 186-73
Food uses of triticale. 209-73
Iron absorption by adults fed mixtures of rice, milk, and wheat flour. 261-73
Utilization of nutrients in milk- and wheat-based diets by men with adequate and reduced abilities to absorb lactose: 1. energy and nitrogen. 2490-73
Iron enrichment. 2769-73
Lysine supplementation of wheat gluten at adequate and restricted energy intakes in young men. 2847-73
The proposed increase in the iron fortification of wheat products. 3058-73
Wheat in human nutrition. 145-74

WHEAT-SOY-BLEND
WSB on the hunger front. 1960-73

WHITE HOUSE CONFERENCE ON CHILDREN
White House Conference recommendations applicable to school food service. 3187-73

WHITE HOUSE CONFERENCE ON FOOD, NUTRITION AND HEALTH
U. S. Nutrition policies in the seventies. 2716-73
Recommendations of panels on nutrition teaching and education. 2890-73
Recommendations of panels on nutrition teaching and education. 2891-73
Priorities in nutrition. 2988-73
Log of the executive director: an historic document. 3946-73
A year of development in nutrition and aging. 1036-74
The White House Conference on Food, Nutrition and Health: supplementary report from panel on popular education. 1044-74
The white house conference on food, nutrition, and health; recommendations of panels on nutrition teaching and education. 1045-74

WHITE HOUSE CONFERENCE ON YOUTH
Releasing youth potential. 1768-74

WHO
Cardiovascular diseases: care and prevention - 2. 380-74
Cardiovascular diseases: care and prevention - 1. 381-74
Cardiovascular diseases: care and prevention - 3. 382-74
The problem of malnutrition. 2064-74
Mercury as a food contaminant. 2078-74
Food fortification. 2129-74

WHOLE GRAIN
Cooking and catering the wholefood way. 2118-73
Everbody's tooth book. 2720-73

WHOLESALING
Changes in food wholesaling. 773-73
Food-related energy requirements. 1108-74

WIENERS
The doggone truth about hot dogs. 153-73

WILD FOODS
Wild greens--vegetables or just weeds? 909-74
Edible wild plants--try it, you may like it. 1085-74

WILDERNESS
Outdoors-USA. 4177-73

WINE
Planned merchandising sells wine for Red Coaches. 1486-73
A practical formula for successful wine business. 1492-73
Wine. 1967-73
Larousse gastronomique. 2250-73
Wine service: a programmed system for youth service. 3124-73
Winemaking surges ahead. 3871-73

WISCONSIN
Give them a choice!. 1336-73
Anatomy of a satellite system: Wauwatusa Lunch Program. 1381-73
Model kitchen at Wausaukee. 1611-73
Factors affecting student participation in selected Milwa-ukee, Wisconsin Catholic high school lunch programs. 2017-73
Wauwatosa Public Schools Lunch Program: a satellite system. 2098-73
A five state study of secondary school lunchroom operations. 3223-73
Wisconsin home economics conceptual structure and planning guide for secondary schools. 3598-73
This is the way we clean our kitchen. 3810-73
Trash comes and goes at the University of Wisconsin. 2046-74
Community involvement: feeding the elderly - a new respon-sibility. 2193-74

WORK ATTITUDES
An anthropologist views the nutrition professions. 66-73
Increasing employee productivity and reducing turnover. 861-73
The dietetic professional in the labor force. 1069-73
Relationship of aptitudes to retention of learning and attitude change two years after food service training. 1122-73
You. 1318-73
Learning resources: AV or library? 2245-73
Occupational stress and physical health. 3149-73
Job enrichment: Challenge of the 70's. 3169-73
Secretary-Boss relationships. 3170-73
How to work smarter--not harder. 1285-74
The psychological contract: a conceptual structure for management/employee

relations. 1323-74
Functional job analysis: an approach to a technology for manpower planning. 1342-74
How to conserve employee energy. 1371-74
Rationing the scarcest resource: a manager's time. 1380-74
The worker and the job; coping with change. 1446-74
Modification of work behavior. 1457-74
WORK EXPERIENCE
How to push a good thing. 856-73
Manual for the education of the food service supervisor---part one of two-part series. 1022-73
The first year of a coordinated undergraduate program in food systems management. 1091-73
A teacher's guide of student nurses' learning experiences in diet therapy clinical practice related to total nursing care of patient, for use in schools of nursing. 1235-73
Your future in food science. 1239-73
What schools are doing. 2099-73
Marginal manpower: job capability as a joint function of aptitude and experience. 3564-73
Tuning in to the community. 1762-74
WORK EXPERIENCE PROGRAMS
Increasing employee productivity and reducing turnover. 861-73
Education and training for industry - volume I. 1127-73
Kids run a restaurant drive-in style. 1145-73
Food preparation specialist. 1183-73
Food service employees. 1261-73
Dietitian aides. 1262-73
Undergraduate education in dietetics. 1296-73
Tom Farley's impossible dream. 2078-73
The development and testing of a behavioral-reference groups model for evaluation of vocational education pilot programs:occupational research development monograph no. 4. 3332-73
The development of a project for educable mentally retarded children to receive vocational training in food service. 3334-73
To develop work evaluation and work training techniques designed to facilitate the entry of mildly mentally retarded into service occupations: final project report. 3419-73
Intern expands employee handbook. 3433-73
Developing a work-experience program for slow learning youth: a report of a three year extension and improvement project. 3477-73
Manual of operation for vocational home economics programs in job training in high schools. 3509-73
Home economics education at the secondary level: a curric-ulum model (with emphasis on the occupational aspect). 3545-73
Food preparation and service, course description. 3591-73
A model for educating supportive personnel: the dietetic technician. 1558-74
Problem: how to build teamwork; solution: co-acing training. 1755-74
Health career clubs: is it time for a national organization? 1862-74
WORK FLOW
A revolution in dishwashing. 3754-73
Commissary guidelines: the problem areas. 3765-73
Improved methods and equipment for boning turkeys. 3770-73
How to work smarter--not harder. 1285-74
Number one failure factor: lost time and low productivity go hand in hand. 1308-74
Crown center: central kitchen/diverse food service. 2002-74
Systems intelligence in the food service kitchen. 2044-74
WORK SIMPLIFICATION
Work improvement. 769-73
The dynamics of systems dialogue. 806-73
Management of food service. 820-73
How to apply systems analysis to your preparation/processing sub-system. 853-73
The impact of convenience food systems on the working environment. 860-73
Industry-wide response to the "raw-to-ready" scale. 863-73
Management manual, Type A lunch. 869-73
The basic four of work. 870-73
Work analysis and design for hotels, restaurants and institutions. 871-73
Man-machine productivity of dishwashing operations in hospitals. 880-73
Profitable food service management thru job analysis, descriptions, and specifications. 902-73
Personnel management and work organization. 909-73
Optimizing our human resources. 912-73
Elements of supervision. 963-73
Upgrade your manpower task allocation system. 989-73
Work simplification. 1003-73
Elementary body mechanics (Film loop). 1082-73
Hospital dishwashing (Film loop). 1114-73
Training yourself for food service. 1188-73
Management I. 1201-73
Work simplification in food service (Slides). 1315-73
Meal management. 1342-73
Food preparation for school food service personnel. 1436-73
Standards, principles, and techniques in quantity food production. 1458-73
Modern sandwich methods (Filmstrip/Phonodiscs). 1466-73
Simplified manual for cooks. 1467-73
A handbook on quantity food management. 1512-73
Techniques of food measurement (Motion picture). 1518-73
Instructor's guide for presenting equipment use and care. 1643-73
Six solutions to ware handling. 1668-73
Layout, equipment, and work methods for school lunch kitchens and serving lines. 1678-73
The use & abuse of equipment. 1680-73
Hospital kitchen safety (Film loop). 1722-73
Guide for warehousing. 2351-73
Increasing productivity. 3079-73
Increasing productivity in foodservice. 3674-73
Can a dishroom be a pleasant place to work? 3703-73
Planning for efficiency (Film loop). 3744-73
A revolution in dishwashing. 3754-73
How to work smarter--not harder. 1285-74
Rationing the scarcest resource: a manager's time. 1380-74
Modern techniques of supervision. 1392-74
Work simplification, school lunch 10, instructor manual. 1864-74
WORK STUDY PROGRAMS
Hospital cooks correspondence course (an in-service training plan) 1969. 1113-73
A model for educating supportive personnel: the dietetic technician. 1558-74
Professional development: get them early. 1661-74
Training plans for HEROES. 1855-74
WORKBOOKS
The good foods book. 53-73
Nutrition: a course for school food service personnel. 101-73
Programmed nutrition. 229-73
Management procedures and records. 767-73
Personnel management. 768-73
Work improvement. 769-73
Math workbook - food service/lodging. 1064-73
FE/L English. 1147-73
How to purchase for school lunch. 1176-73
Sue learns about the use of measurements in cooking. 1238-73
Practical baking workbook. 1251-73
Student workbook to accompany elementary baking. 1252-73
Advanced menu planning. 1323-73
Beginning menu planning. 1324-73
Kansas school lunch menu planning book, 1971-72. 1341-73
Quantity food preparation: a course for school food service. 1392-73
Food and beverage purchasing. 2318-73
WORKING CONDITIONS
Managing people without playing God. 3085-73
The art of bugging (or how to get the job done). 3135-73
Occupational stress and physical health. 3149-73
Job enrichment: Challenge of the 70's. 3169-73
Motivation in action. 3219-73
Employment opportunities in which knowledge and skill in home economics are needed. 3412-73
Lighting breakthrough conserves electrical energy. 3742-73
Handbook of modern personnel administration. 1333-74
How to conserve employee energy. 1371-74
Paranoia!. 1434-74
The worker and the job; coping with change. 1446-74
A safety self-inspection program for foodservice operators. 2083-74
WORKING WOMEN
Children of working mothers. 2215-73
Changing food habits of Canadian children. 2828-73
Secretary-Boss relationships. 3170-73
Problems of women in foodservice. 3191-73
Identifying and developing women for management positions. 3195-73
Superwoman!. 3225-73
Careers for women in the 70's. 3579-73
The worker and the job; coping with change. 1446-74
Good meals for busy days (Slides). 1910-74
Training 'women who care'. 2403-74
WORKSHEETS
Preparing meals: the last step (Videocassette). 739-74
Preparing meals: the last step (Motion picture). 749-74
WORKSHOPS
Big ideas in nutrition education. 93-73
Preschool nutrition workshop sums up recommendations. 454-73
Problems of assessment and alleviation of malnutrition in the United States. 577-73
Colorado school lunch handbook. 778-73
Group work session:Listening guide for integrating nutrition education into the program. 845-73
Adventures in nutrition education resources ii--Mini workshops with Dairy Council, Inc. 1013-73
Audiovisual workshop. 1032-73
Innovative techniques for teaching nutrition. 1126-73
It can be done. 1136-73
An old standby that still works. 1204-73
A post-high school program in child care services. 1294-73
Quantity cooking. 1383-73
Workshop for school food service supervisors and managers. 3211-73
Inservice teacher workshops. 3338-73
Knee groups-in tight, not up tight. 3403-73
The career development workshop. 3470-73
Teacher's guide: food service organization and management I;responsibilities of the manager. 3499-73
Telelectures vs. workshops in continuing professional education. I. Research procedures and design of lectures and workshops. 3552-73
Telelectures vs. workshops in continuing professional education. II. Statistical comparison of learning. 3553-73
Operation update: School lunch reviews soy protein progress. 3874-73
Related nutrition programs. 3984-73
Washington workshop: milestone in school lunch planning. 4016-73
Business meetings boost nutrition. 224-74
Nutrition and the war on poverty: American home economics association workshop--working with low income families. 1646-74
Nutrition education workshop. 1695-74
Nutrition workshops challenge California foodservicers. 1721-74
A workshop conducted by the vocational

WORLD PROBLEMS
home economics teacher to promate nutrition education in the elementary schools. 1796-74

Western Hemisphere Nutrition Congress, 3d., Miami Beach, 1971. 2949-73
Highlights of the Western Hemisphere Nutrition Congress. 2951-73
World food. 2983-73
Can new protein sources avert world shortage? 3882-73
A bookshelf on foods and nutrition. 4123-73
Western Hemisphere scientists discuss nutrient needs and food prospects. 158-74
Nutrition and behavior. 196-74
Ethnology and health problems. 339-74
Man, food, and nutrition. 833-74
Food shortage--an educational challenge. 1086-74
Food and nutrition: a new view of an old problem. 1100-74
Integrated approach for food, nutrition, population and economic growth. 1118-74
Will there be enough food? 1124-74
Vegetable proteins: short world food supplies influence vegetable proteins' future - Part II. 1129-74
The world food situation (Slides). 1134-74
A new need: the nutrition programmer. 2169-74
Experts ask action to avoid millions of deaths in food crisis. 2330-74
World food situation. 2393-74
WRITING
The communications game. 3560-73
Writing for "poor folks". 1531-74
Communication through professional writing. 1621-74
Problems in producing programs for auto-instruction. 1710-74
Nutrition education via the public press. 1806-74
WYOMING
Three lunch programs involve students and community. 2374-74
YAMS
Yams flavor and color fall menus. 4066-73
YEAR ROUND SCHOOLS
Year-round school: districts develop successful programs. 1171-73
The year-round school: faddish or feasible. 2297-73
Year-round school means more money for foodservicers. 1497-74
Year-round school plan offers economy of operation. 2056-74
YEARBOOKS
Science for better living. 4176-73
Outdoors-USA. 4177-73
Shopper's guide. 75-74
YEAST
Artificial and synthetic foods. 1887-73
The technical microbiological problems in intermediate moisture products. 1947-73
Baker's yeast--world's oldest food--is newest source of protein and other ingredients. 3832-73
YOGHURT
Yogurt: is it truly Adelle's B vitamin? 615-73
Dairy products--there's more to milk than just a cold drink. 2978-73
Yogurt: New life for an old product. 3005-73
Cooking with yogurt, cultrred cream and soft cheese. 3672-73
Dairy products. 1095-74
YOUNG ADULTS (20-34 YEARS)
Food practices and preferences of some college students. 206-73
The new vegetarians: who are they? 366-73
Serum cholesterol from pre-adolescence through young adulthood. 490-73
A Gallup overview of the changing customer - a Gallup symposium. 837-73
Today's youth - A new breed of cat. 980-73
Young America dines out: how youth voted in '72. 1005-73
The youth market pays to do its thing. 1691-73
Our industry reaches a breakfast breakthrough. 3126-73
A year reviewed: Youth and food service in 1973. 3128-73
Needs and interests of young homemakers--living in two low--income housing projects. 3-74
The new vegetarians: the natural high? 342-74
The "new" vegetarians. 344-74
Homemaking teachers in public health. 2349-74
ZEN MACROBIOTIC DIET
Zen Macrobiotic diets. 125-74
The new vegetarians--Part Two: The Zen macrobiotic movement and other cults based on vegetarianism. 367-74
Nutrition in perspective. 621-74
Americans love hogwash. 875-74
ZINC
Trace minerals as nutrients. 2418-73
Zinc nutrition in the United States. 2838-73
Zinc in animal and human nutrition. 799-74
Water and heart disease: the harder the deadlier? 1033-74
Recommended Dietary Allowances up to date--trace minerals. 124[illegible]-74
Recommended Dietary Allowances revised 1974. 1256-74

TITLE INDEX

The $130 billion food assembly line (Filmstrip). 1789-73
The 'basic four' way to good meals (Slides). 2550-73
The 'big three' risk factors that predict coronary disease best. 88-74
The 'discipline' of nutrition education. 625-74
A 'fair' way to teach nutrition. 2279-74
'food in many languages' is concern in planning menus and teaching modified diets. 89-74
'good eater' spreads the word about nutrition. 862-74
'How come you got more food than I got?': a one-act play. 2159-74
The 'just right' eating handbook. 893-74
'Meat and potatoes' and tacos, too!. 1969-73
'Quality first' at Texas A&M. 2298-73
"...And it's done so easily and so well". 48-74
"...And she does it so easily and so well". 1470-73
"Ask Kathy": an experiment in nutrition education. 2181-74
"be-attitude": integrity (Filmstrip/record). 3089-73
"Caminos hacia la buena salud". 770-74
The "captive" employee unshackled. 749-73
"Come, let us get closer to the fire so we may see what it is we are saying" - A dialogue on communication. 747-73
A "cooking street"--is it a possible food preparation system? 3755-73
A "fair" way to teach nutrition. 1011-73
"KUPS - K nowlege U tilization for P roblem S olving. 748-73
The "new" vegetarians. 344-74
"newer" trace elements in human nutrition. 764-74
"Search and destroy" tactics work. 1693-73
"Talk-Ins"--Summary of group reports: Role of the schoolfood service in nutrition education. 46-73
"teach a mother--save a child:" the Kirathimo experiment. 656-74
"the view from the catbird's seat"--Part II. 361-74
"yo soy Margarita...". 1547-74
[Citrus fruit recipes]. 4052-73
The A to Z of health food terms. 2506-74
The A to Z of health food terms. 2507-74
A.D.A. Reports: position paper on Child Nutrition Programs. 2161-74
A.D.A. supports school food service in testimony before congressional committees. 670-73
A.D.A. testimony on school lunch before House of Representatives' committee. 671-73
A.DA. President testifies on Child Nutrition Education Act of 1973. 3006-73
The A-B-C's of productivity. 3203-73
The A's have it!. 1402-74
The abc's of decision making (Motion picture). 1313-74
The ABC'∂S of frying...A profit primer; breading and batter mixes; why throw away frying fats; in frying, system is everything; frying equipment. 1373-73
The ABC'∂S of game making. 1779-74
The ABC'∂S of make-up air. 1547-73
The ABC'∂S of microwave cooking. 2026-74
The ABC'∂S of portioned meats. 3683-73
About apples from orchard to market. 2122-74
About bananas. 1125-74
About food and where it comes from. 2150-74
Absorption of fortification iron in bread. 2510-73
Abstracts of studies dealing with the nutritional status of children in the United States. 91-74
Academic credentials: a challenge to training. 3596-73
Accentuate the positive. 1659-74
Acceptability of low-fat milk by school children. 750-73
Acceptance of the school lunch program in Kansas. 1992-73
Acceptance of the school lunch program in Louisiana high schools. 3902-73
Accidents don't happen (Filmstrip). 1694-73
Accidents hurt more than the injured party. 2097-74
Accountability '70, food service style. 751-73
Accounting made easy. 3060-73
Accounting practices for hotels, motels, and restaurants. 803-73
Accumulation of nitrate. 725-74
Accuracy of 24-hr. recalls of young children. 49-73
Achieving change in people: some applications of group dynamics theory. 1306-74
Acquainting parents with nutrition education. 1586-74
Action on Serena street. 1847-74
Action on teenage nutrition. 50-73
Action programs to improve nutrition. 2359-74
Activity fun with foods. 3315-73
Adapting ethnic foods to nutritional needs. 96-74
Adapting nutrition facts--an example. 1642-74
Add 'canned' imagination to school lunches. 1319-73
Add the magic of Mexico to your menu 2413-74
Adding eye appeal to foods. 1917-74
Adding taste and smell to English and social studies. 1595-74
Additives for eye appeal. 3838-73
Adelle Davis' books on nutrition: Commentary. 2833-73
Adequacy in old age: part I--role of nutrition; part II-nutrition education programs for the aging. 971-74
Adequacy of lacto-ovo-vegetarian diets in Seventh-day Adventist boarding academies. 2488-73
The administration of "selectivity" in the breakfast program of a public elementary school. 3938-73
An administrator's view of school food service. 752-73
Adolescent nutrition. 2729-73
Adolescent nutrition and growth. 2611-73
Adolescent obesity. 2355-74
Adolescent pregnancy: Association of dietary and obstetric factors. 2851-73
The adolescent--his growth and development. 1841-74
Adrenal cortex injection for hypoglycemia. 932-74
Adult bone loss, fracture epidemiology and nutritional implications. 2571-73
Advanced menu planning. 1323-73
Advanced nutrition teaching kit (Posters). 417-74
Advances in food research; volume 18. 51-73
Advances in food service equipment. 1548-73
Advantages of apo carotenal in coloring non-standardized dressings and spreads. 1790-73
Adventures in nutrition education resources ii--Mini workshops with Dairy Council, Inc. 1013-73
Adventures in nutrition education resources no. 1 -- nutrition education resource materials presentation with emphasis given to the role of the School Food Service. 52-73
Adverse effects on infant development associated with maternal folic acid deficiency. 455-74
Advertising and mass communications: a model for rural nutrition information programs. 1747-74
Aetiological factors in obesity. 446-74
Aflatoxins: stopping trouble before it starts. 2059-74
Afri-Kingdom fried chicken system. 1374-73
The African heritage cookbook. 4076-73
After the kids have gone. 2574-73
After Wounded Knee: the feeding of the American Indian. 279-74
An agency nutritionist looks at home health care under Medicare. 2386-74
Aging and nutrition. 2267-73
The air conditioning story; part 5. 1549-73
Air curtains for entranceways in food establishments. 1625-73
Air fare: a complete convenience system. 1175-73
Air quality and the char broiler. 1550-73
Airlines chart a clear course for foodservice. 1279-74
Akron schools get A for achievement with frozen type A lunches. 1376-73
Alaskan Arctic Eskimo: responses to a customary high fat diet. 510-74
The Alaskan way. 1971-73
Alcohol and society. 126-74
Alcoholic malnutrition (Slides). 54-73
Alexander has a good day (Motion picture). 296-74
Alexander learns good health (Motion picture). 297-74
Alexander's breakfast secret (Filmstrip). 55-73
Alexis Soyer:. 622-73
La alimentacion de la embarazada. 820-74
La alimentacion del nino en el primer ano (Filmstrip). 531-74
Alimentacion del nino pre-escolar (Filmstrip). 379-74
Alimentacion infantil--I. Los granos; II. los cereales; Iii. El huevo; IV. las frutas; V. La carne. 1012-74
Alimentos esenciales--guia diaria para usted y su familia. 478-74
Alimentos para familias jovenes--I. Elementos nutrivos esenciales; II. principios basicos en la preparacion de alimentos; III. como planear comidas facilmente; IV. seleccion y compra de alimentos. 940-74
Alimentos para madres embarazadas y lactantes (Filmstrip). 283-74
Alimentos para su familia. 1027-74
Alimentos para su nino--1. Edad 1-2 meses; 2. Edad 2-3 1/2 meses; 3. Edad 5-6 meses; 4. Edad 7-12 meses. 977-74
Alimentos protectores para Puerto Rico (Chart). 821-74
Alimentos--una guia para todos los dias--el programa 4-4-3-2 (Chart). 234-74
All about baking (Crossword puzzle). 1927-74
All about cookware (Filmstrip). 1551-73
All about knives (Filmstrip). 1552-73
All About Rice. 2820-73
All about the human body. 435-74
All about the meat group. 245-74

Can you trouble-shoot this lesson plan? 3562-73
Can your kitchen pass the food storage test? 2594-74
Canada launches a national nutrition survey. 107-73
The Canadian dietary standard. 108-73
Canadian university students' nutrition misconceptions. 2717-73
Candy, chocolate, ice cream and how to lick 'em!. 948-74
Canned entrees are better than ever. 1393-73
Canned food tables. 2544-74
Canned puddings: key cost control and profit aspects. 1394-73
Canned vegetables are better than ever. 2427-74
Cans go class A. 3626-73
Canyon Del Oro turns sack lunches into type A meals. 2291-74
Capitol action: how a bill becomes a law. Part 1. 674-73
Capitol action: ins and outs of legislation. 2. 675-73
The carbo-calorie diet. 2708-73
Carbohydrate ingestion during prolonged running performance. 517-74
Carbohydrates and fats (Film loop). 109-73
Carbohydrates as nutrients. 2681-73
Cardiorespiratory responses of young overweight women to ergometry following modest weight reduction. 2678-73
Cardiovascular diseases: care and prevention - 1. 381-74
Cardiovascular diseases: care and prevention - 2. 380-74
Cardiovascular diseases: care and prevention - 3. 382-74
Cards, company and good food. 2189-74
Care and handling of prepared frozen foods in food service establishments. 2328-73
The care and selling of cold entrees. 1395-73
The care and selling of hot entrees. 1325-73
Care and use tips for frying fats. 1396-73
Care and use tips for gas-fired fry kettles. 1559-73
CARE strikes back at world's malnutrition. 1979-73
The career development workshop. 3470-73
Career discoveries: People who make things (Filmstrips). 1044-73
Career discoveries: People who organize facts (Filmstrips). 1045-73
Career education in home economics. 3347-73
Career exploration via slides. 3492-73
The career game (Motion Picture). 1508-74
Career guidance: think food! (Motion Picture). 3377-73
A career information unit for distributive education. 3342-73
Career ladders in food service: Part 1. 1046-73
Career ladders in food service: Part 2. 1047-73
Career management programs. 1329-74
Career planning for high school girls. 3556-73
Careers for women in the 70's. 3579-73
Caring for coolers. 1560-73
Carlos Calcium is my name (Poster). 247-74
Carne de res y de aves de corral--la etiqueta es su mejor consejero. 1272-74
Carpeting sets groundwork for atmosphere. 1997-74
Carrollton project SMILE*; suggested methods for improving lunchroom experiences. 2381-74
The carrot seed. 594-74
Carrots. 1156-74
Cartoon approach to nutrition education. 1049-73
The case against hunger. 690-73
A case for contract training. 3547-73
The case for fiber - part I: background information. 917-74
The case for fiber--Part II: colon cancer. 915-74
The case for fiber--part 3; cholesterol, bile acids and heart disease. 914-74
The case for ingredient disclosure. 3-73
The case for specialty ovens. 3722-73
The case for the electric steam generators. 1561-73
The case observational method: a new training technique. 3402-73
The case of drop-ins vs. free-standing food service equipment. 1562-73
Case studies. 3090-73
A case study of a union-management learning encounter in industry. 1485-74
A casebook on administration and supervision in industrial-technical education. 1040-73
Cashiering. 1464-74
Casseroles. 1894-74
Casseroles and one-dish meals. 4036-73
Catch on to nutrition; instructional model for secondary pupils. 1771-74
Catching the ethnic flavor. 4078-73
Catering handbook. 4185-73
Catering!. 1883-74
Catholic schools: the best and the worst of times. 1980-73
Caught leaderless, will a company survive? 771-73
Cauliflower. 1165-74
The causes of vitamin D deficiency. 2786-73
Celebrities air food help message. 1981-73
Celeriac. 1159-74
Celery. 1145-74
Celery: the crunch kids like. 2119-73
Central commissaries: Three examples of an evolving food service concept. 3636-73
A central kitchen provides meals for Indianapolis school students. 1998-74
The central nervous system: its central role in discrimination and selection of food. 614-74

Centralized food service systems-A review. 772-73
Centralized food supplies. 110-73
Cereal grains as dietary protein sources. 1801-73
Cereal service: breakfast and beyond. 1397-73
Cereal: One of the 4. 2573-73
Cereals and pasta in family meals. 2430-74
Certification, a plan for upgrading school food service positions. 1549-74
Cesare Bressa (1735-1816) on dirt eating in Louisiana: a critical analysis of his unpublished manuscript "De la dissolution scorbutique". 709-74
Challenge '74: effective food service management. 1307-74
Challenge for school food service. 3253-73
The challenge for school lunch in the program of youth fitness. 2287-74
The challenge of change (Motion Picture). 2212-73
The challenge of cross-cultural research. 680-74
The challenge of group counseling. 1682-74
The challenge of modern supervision. 3097-73
Challenge of the street hucksters. 3257-73
Challenge to the seminar. 676-73
Challenges to nutrition education. 2560-73
A change in attitudes--produced by skillful face-to-face communication!. 1638-74
Changes in adults which affect teaching. 1690-74
Changes in diets of households, 1955 to 1965: implications for nutrition education today. 97-74
Changes in food practices for better nutrition. 2504-74
Changes in food wholesaling. 773-73
Changes in purchasing, storage, delivery and utilization practices and procedures. (A panel presentation) Part 1-Food. 2303-73
Changes in serum cholesterol during the Stillman diet. 849-74
Changes in the law and new legislation---What it means. 677-73
Changing attitudes. 1242-74
Changing food habits. 2840-73
Changing food habits. 762-74
Changing food habits. 1073-74
Changing food habits of Canadian children. 2828-73
The changing food market - nutrition in a revolution. 774-73
The changing food needs of the family (Filmstrip/Cassette tape). 2912-73
The changing food needs of the family (Show'n Tell). 1006-74
Changing food supply in America. 261-74
Changing Head Start mothers' food attitudes and practices. 1050-73
Changing patterns in foodservice. 1326-73
The changing role and form for packaging. 1802-73
Changing significance of food. 677-74
The changing significance of food. 678-74
Characteristics of persons of Spanish origin. 2213-73
Chases' calendar of annual events. 2214-73
Check stand: a food-buying game; c-198 (game). 84-74
Cheese cookery for everyone. 2120-73
Cheese packages - goatskins to laminates. 1803-73
Cheese products: protein, moisture, fat, and acceptance. 1429-74
Cheese: 'Milk's leap toward immortality'. 1090-74
The chef's compendium of professional recipes. 4054-73
The chemical additives in booze. 2643-73
Chemical additives in our food. 701-74
The chemical analysis of foods. 447-73
The chemical constituents of citrus fruits. 272-73
Chemical foods. 2859-73
The chemicals of life. 2485-73
The chemicals we eat. 1796-73
The chemistry of meat color. 1804-73
Cherokee cooklore. 2497-74
Cherries. 1140-74
The chest-head circumference ratio as an indicator of the nutritional status of young children. 541-74
Child care. 2663-73
The child consumer--cultural factors influencing his food choices. 40-74
Child development - Day care - No. 2, Serving infants. 1378-74
Child development - Day care - No. 5, Staff training. 1746-74
Child development - Day care - No. 7, Administration. 1368-74
Child following: a technic for learning food and nutrient intakes. 1058-74
Child malnutrition and its implications for schools. 113-73
Child nutrition council submits first report. 3919-73
Child nutrition in action. 3023-73
Child nutrition programs. 2090-73
Child nutrition programs. 4010-73
Child nutrition programs. 1092-74
Child nutrition programs. 2297-74
Child Nutrition Programs of the Food and Nutrition Service, U. S. Department of Agriculture. 3918-73
Child nutrition--a proud record. 1982-73
Child nutrition: An idea whose time is here. 114-73
Child spacing as a part of nutrition education programs. 1051-73
The child with diabetes (Slides). 538-74
Childhood obesity. 1063-74
Childhood obesity. 1064-74
Children accept fish-based school lunch entrees. 3075-73
Children and food--a natural combination. 2555-73
Children are different. 864-74
Children can cook (Filmstrip/record). 1552-74
Children in day care. 335-74
Children now eat milk in Zambia--UNICEF helps develop a novel, nutritious biscuit. 3926-73
Children of working mothers. 2215-73
Children's behavior responses to TV food advertisements. 272-74
Children's food service programs - conference report. 726-73
Children's needs--for universal food services and nutrition. 1296-74
Children's perception of food. 775-73
Children's television advertising guidelines. 1512-74

Chinese foods and traditions. 2521-73
A chink in our armor. 115-73
Chocolate: the Aztec's brown gold. 630-73
Choice makes the difference. 1983-73
Choices in our menus. 1327-73
Cholesterol content of foods. 116-73
Cholesterol-consciousness. 1039-74
Cholesterol, fat, and protein in dairy products. 117-73
Cholesterol: A review. 2849-73
Choose your calories by the company you keep. 356-73
Choose your calories wisely. 2665-73
Choosing from alternatives in expanding storage space for frozen food. 2304-73
Choosing, using, and caring for kitchen cutlery. 1563-73
Chromium enrichment of foods urged. 270-74
Cigarette smoking and vitamin C. 118-73
Cincinnati summer food service demonstration project: special food service program for children; Cincinnati, Ohio, 1972. 4011-73
Citrus fruit and nutrition. 2564-73
Citrus is...A fabulous fruit. 392-74
The classic Italian cook book. 4059-73
Classroom and cafeteria (Motion picture). 751-74
Classroom and cafeteria (Videocassette). 741-74
Classroom communication: telecture. 1052-73
Classroom cooking. 3512-73
Classtoons: Economy meal planning (Transparencies). 1628-74
Classtoons: Problems of overweight (Transparencies). 1604-74
Classtoons: Vegetable cookery (Transparencies). 1629-74
Clean catering. 2066-74
Clean dishes (Slides-audiocassette). 2088-74
Clean up efficiently and economically. 2067-74
Clean-up schedule. 1698-73
Cleaning and assembling the Taylor Shake Freezer (Filmstrip/Cassette tape). 3706-73
Cleaning and maintenance slide presentation for all Market Forge cooking equipment (slides). 3743-73
Cleaning and sanitation. 2099-74
Cleaning and sanitizing (Film loop). 1699-73
Cleanliness and safety (Film Loop). 1700-73
Cleanliness and safety (Film loop). 1701-73
Cleanliness and storage (Film loop). 1702-73
Cleanliness and storage (Film loop). 1703-73
Cleanliness--key to oven safety. 3728-73
A cling peach kaleidoscope. 631-73
Clinical management of the obese adult. 202-74
A close-up on cooking with vegetables. 1956-74
Closed circuit television provides valuable means to teach food service personnel: North Carolina programs for school food service personnel cited. 3385-73
Closing the confidence gap. 3296-73
Closing the nutrition gap: the child nutrition act of 1966. 4035-73
Clouded outlook for contract feeding. 1399-73
Clouding agents for the food industry. 1805-73
CNI joins in training Milwaukee interns. 1042-73
The co-ed cookbook. 2450-74
Co-existence: surplus commodities and convenience foods. 1400-73
Co-op buying boosts school lunches. 4192-73
Co-op buying for schools: two approaches. 2603-74
Co-op buying: you pool your power and pocket your savings. 3291-73
Coaches call the signals. 2704-73
Cocinando sin sal. 1924-74
Coconuts. 1182-74
Coffee and myocardial infarction. 2648-73
Coffee; it can make you or break you. 777-73
Cold and freezer storage manual. 2364-73
Cold beverage systems. 1564-73
Cold desserts for hot weather menus. 4038-73
The cold facts about cold beverage dispensers. 3724-73
Cold facts about food protection. 2084-74
Cold food handling (Film loop). 1704-73
Cold outside? Serve these hearty man's soups. 2122-73
Cold weather magic from your oven. 2123-73
Collards. 1201-74
College accreditation policies for nontraditional education. 755-73
The college blue book. 2217-73
College foodservice. 3110-73
College joins school foodservice in training workers. 1054-73
The college scene: Change in channels. 3100-73
College students look at the basis for their food habits. 214-74
College trims operations to fighting shape. 2587-74
Colleges: shortages, high prices, but a happy ending. 1310-74
Color measurement of foods: XXXII; miscellaneous: part II, potato products. 1806-73
Colorado school lunch handbook. 778-73
Coloring tear sheets for new nutrition in elementary school menus (coloring book). 1660-74
Coma fruta para buena salud. 689-74
Coma vegetables para buena salud. 690-74
Combating malnutrition through maternal and child health programs. 355-74
Combating nutrition misinformation through coordinated programs. 925-74

Come aboard the Good Ship Vitamin C (Slides). 2499-73
The comeback of the low-cal market. 359-74
Comida para substancia. 1908-74
Comida que debe usted comer antes del nacimiento del bebe. 229-74
Comment on the above. 3933-73
A commentary on hunger and malnutrition today. 2691-73
A commentary on the new F.D.A. nutrition labeling regulations. 678-73
Commercial bulk milk dispensing equipment and appurtenances. 1618-73
Commercial cooking and hot food storage equipment. 1629-73
Commercial cooking equipment exhaust systems. 1622-73
Commercial foods. 1175-73
Commercial gas fired and electrically heated hot water generating equipment. 1614-73
Commercial powered food preparation equipment. 1615-73
Commercial spray-type dishwashing machines. 1630-73
Commercially prepared strained and junior foods for infants. 2219-73
Commerciogenic malnutrition?--time for a dialogue. 120-73
Commissary guidelines: the problem areas. 3765-73
Commissaryman 3 & 2. 1276-73
The commodities controversy: food for your lunch. 632-73
The commodities: Mrs. Joyce vs. Mrs. Clay. 2305-73
Commodity cookery. 2433-74
Common sense pest control. 2090-74
Common sense specifications produce quality equipment. 3704-73
Commonwealth Edison: all convenience kitchen/problem solver. 1999-74
Communicating beyond words. 3249-73
Communicating facts to the consumer. 60-74
Communicating with low income families through the school and child day care food service. 779-73
Communicating with the consumer: basic research on nutrition and safety. 4-73
Communicating with the consumer: food and nutrition press information service. 5-73
Communicating with the consumer: natural and synthetic nutrients. 6-73
Communicating with the consumer: nutrition for a good start. 121-73
Communicating with the consumer: safety of food supply. 7-73
Communication - Change. 780-73
Communication and effecting change. 781-73
The communication inventory: a device for training and development. 3529-73
Communication methods and media in nutrition education programs. 782-73
Communication through professional writing. 1621-74
Communication with low-income families. 1535-74
Communication: methods for all media. 2261-73
Communication: The art of selling ideas. 2619-73
The communications game. 3560-73
Communications in management (cassette audiotapes). 3096-73
Communities learn about school lunch. 1311-74
Community action for better breakfasts (Filmstrip). 687-74
Community action for employment: manpower development. 2094-73
Community action: adult education. 1287-73
Community action: health programs. 2093-73
Community action: the nonprofessional in the educational system. 1288-73
The community as a classroom: trips (Filmstrip/record) 1565-74
Community helpers. 3355-73
Community involvement: feeding the elderly - a new responsibility. 2193-74
Community meals. 1475-73
Community nutrition workers--their effectiveness in a nutrition delivery system. 4018-73
Como comprar bistecs. 2604-74
Como conocer la buena o mala salud de nino (Filmstrip). 284-74
Como guardar alimentos (Filmstrip). 2588-74
Como hacer un filtro de agua para su casa (Filmstrip). 2000-74
Como seguir la dieta prudente. 754-74
Como usar la olla de presion. 2049-74
Compaction puts the squeeze on trash handling costs. 3705-73
Comparative group approaches. 1596-74
A comparative quality survey of five common market foods in low and high income economic areas. 3804-73
A comparative study of food habits: influence of age, sex and selected family characteristics. 142-74
A comparative study of the organoleptic acceptability of simulated meat products prepared in microwave and conventional ovens. 1968-73
Comparison cards; Set 2...For adults (Charts). 1714-74
Comparison cards, Set 1...For teenagers (Charts). 2744-73
Comparison of body weights and lengths or heights of groups of children. 727-74
Comparison of cost structures of food stores and eating and drinking places. 783-73
Comparison of dry breakfast cereals as protein resources. 2672-73
A comparison of human development with psychological development in T-groups. 3603-73
A comparison of lower-income and upper-income homemakers relative to their knowledge and practice of nutrition. 208-74
Comparison of the protein nutritional value of TVP, Methionine-enriched TVP and beef for adolescent boys. 3858-73
A compilation of information on computer applications in nutrition and food science. 911-73
Compilation of odor and taste threshold values data. 4168-73
Compilation of statutes relating to soil conservation, acreage diversion, marketing quotas and allotments, wheat certificates, commodity credit corporation, price support, public law 480, export and surplus removal, crop insurance, sugar payments and quotas, marketing agreements and orders, school lunch, child nutrition, food stamp, and related statutes as of January 1, 1967. 3043-73
The compleat gobbler. 1807-73
The complete book of breads. 2432-74
The complete book of Caribbean cooking. 4080-73
The complete book of cooking equipment. 1687-73
The complete book of Indonesian cooking. 2436-74
The complete handbook of nutrition. 2770-73
A complete summary of the Iowa breakfast studies. 257-74
Complete teaching kit on cheese (Filmstrips). 122-73
The components of communication. 1311-73
Components of margins for selected foods (May 1974). 79-74
Components versus meals. 1808-73
A composite of food service curriculum information for use in vocational programs. 3592-73
Composition and nutritive value of dairy foods. 123-73
Composition of foods. 2280-73
La compra de alimentos en el mercado (Filmstrip). 2589-74
A comprehensive home-care program for the chronically ill. 2219-74
Comprehensive self-improvement program for inner city obese teenage girls. 2260-74
The computer & automatique. 3273-73
The computer & how it works. 3214-73
The computer & how to afford it. 3068-73
The computer & St. Josephs. 3098-73
The computer & the ingredient room. 3130-73
The computer & the pioneers. 3072-73
The computer & you. 3224-73
The computer and the school lunch program. 3113-73
Computer assisted instruction in a college nutrition course. 3582-73
Computer assisted instruction: a government viewpoint. 1055-73
Computer program estimates bacterial densities by means of most probable numbers. 784-73
A computer-assisted approach to meal patterning. 1904-74
Computer-assisted instruction in home economics. 1056-73
Computer-assisted menu planning provides control of food service. 3908-73
Computer-based abstract service now available. 2220-73
Computer-managed subsistence system. 785-73
Computers in a dietary study - methodology of a longitudinal growth research project. 786-73
Computers in education: relevance for occupational education. 1057-73
Computers 1984. 1872-74
Computers- A division of management. 3185-73
Concepts of food habits of "other" ethnic groups. 125-73
Concepts of food habits of "other" ethnic groups. 806-74
Concepts of management (cassette audiotapes). 3095-73
A conceptual approach to health education: implication for nutrition education. 1792-74
A conceptual approach to nutrition education. 1643-74
A conceptual framework for the diffusion of innovations in vocational and technical education. 4146-73
Conceptualizing the learning center. 1058-73
Confections and soft drinks in schools. 2435-73
Conference on education in nutrition at Columbia. 826-74
Conference on guidelines for nutritional education in medical schools and postdoctoral training programs, June 25-27, 1972. 1023-73
Conference on sanitation and food safety: proceedings sanitation and food safety conference August 21, 22, and 23, 1973. 3826-73
Conference summary and closing remarks. 3935-73
Conflicting impacts of pay on employee motivation and satisfaction. 1462-74
Conflicting perspectives on breast feeding. 583-74
Confusing laws complicate marketing picture for new products. 679-73
Congestive heart failure, the patient, and the community. 173-74
Congregate meals: Pt. 2, providing the dining room service (Videocassette). 2301-74
Conserving nutrients in handling, storing and preparing fresh fruits and vegetables. 2359-73
Conserving the nutritive values in foods. 544-73
Considerations for choosing the right plant protein. 3865-73
Considerations in formulating and producing vegetable fat--based dairy substitutes. 1809-73
Consistency is the cornerstone of discipline. 3136-73
The consistency of management in organizational change. 1396-74
Consortium publishes its guidelines for a national nutrition policy. 1220-74
Constructing instruction based on behavioral objectives. 1850-74
Consuma diariamente los cuatro alimentos basicos (Chart). 186-74
Consumer behavior. 16-73
Consumer beware. 34-74
Consumer considerations: deep-fried foods. 787-73
The consumer economics of unit pricing. 2385-73
Consumer education and the literacy problem. 64-74

Introduction of OJ-related products strikes some sour notes in industry. 1872-73
Introduction of on-the-job management development. 3602-73
Introduction to food science and technology. 3087-73
Introduction to food science and technology. 2156-74
Introduction to foods and nutrition. 503-73
Introduction to nutrition. 182-73
Introduction to professional food service. 1053-73
Introduction to public health. 2955-73
Introduction to the Seminar. 636-73
Introductory foods. 1164-73
Introductory nutrition. 2598-73
Investigate and evaluate. 1781-74
Involvement techniques for manager training. 3368-73
Iodine (a brief summary). 903-74
Iron absorption by adults fed mixtures of rice, milk, and wheat flour. 261-73
Iron content of some Mexican-American foods - effect of cooking in iron, glass, or aluminum utensils. 262-73
Iron deficiency anemia and scholastic achievement in young adolescents. 2942-73
Iron deficiency in rural infants and children. 263-73
Iron deficiency in the United States. 2434-73
Iron enrichment. 2769-73
Iron in enriched wheat flour, farina, bread, buns, and rolls. 2429-73
Iron metabolism (Slides). 264-73
Iron-deficiency anemia in infants and preschool children. 265-73
Iron, blood, and nutrition. 266-73
The irony of affluence-adult nutrition problems and programs. 267-73
Irradiated foods--hopeful toxicity, taste evaluations lead processors to ask: What will be public reaction? 3854-73
Is a career in the restaurant business for you? (Motion picture). 1575-74
Is education meeting the nutrition challenge of today---what should be done. 268-73
Is school lunch 25 years behind? 866-73
Is TA ok? Yes...If it's used with discretion. 1810-74
Is there a protein problem? 1121-74
Is there need for change? Round table discussion. 1135-73
Is your bundle big enough? 3236-73
Is your cold storage adequate? 2313-73
Is your family eating right? 2576-73
Is your fry kettle capacity adequate? 1598-73
Is your kitchen cooking up a fire? 2096-74
Is your kitchen obsolete?--convection ovens/microwave ovens. 1600-73
Is your kitchen obsolete?--deep fat fryers. 1602-73
Is your kitchen obsolete?--holding and serving units keep food wholesome and tasty. 1601-73
Is your kitchen obsolete?--steam and pressure cookers. 1599-73
Is your kitchen obsolete?--toasters and bun warmers. 3723-73
Is your old kitchen costing you money? 3070-73
Is your oven capacity adequate? 1603-73
Ischemic heart disease and dietary fiber. 995-74
Isolated island gets school feeding program. 3993-73
Isolation from mixed culture (Motion picture). 1725-73
It all begins as breakfast. 269-73
It can be done. 1136-73
It can happen here (Filmstrip). 1726-73
It can happen here (Motion picture). 1727-73
It's game time. 1658-74
It's good food, keep it safe (Filmstrip). 3812-73
It's good food, keep it safe--part I, the invaders; part II, keep it clean (Show 'N Tell). 3819-73
It's good food, keep it safe--part III, watch the temperature; part IV, every minute counts (Show N Tell). 3818-73
It's multipurpose!. 1604-73
It's not good for you (Motion picture). 752-74
It's not good for you (Videocassette). 782-74
It's on the label!. 3029-73
It's your money! A consumer education program. 69-74
The Italian invitation. 2149-73
ITOSP. 3182-73
The Jack Sprat cookbook. 4114-73
Jane and Jimmy learn about fresh fruits and vegetables. 569-73
Jane and jimmy learn about fresh fruits and vegetables. 2920-73
Jazz up winter menus. 2150-73
Jemez Pueblo discovers the cup-can. 2015-73
Jenny is a good thing (Motion picture). 4007-73
Job enrichment: Challenge of the 70's. 3169-73
Job enrichment: how to avoid the pitfalls. 1831-74
Job evaluation's role in employee relations. 1318-74
Job opportunities in a restaurant (Filmstrip/Cassette tape). 1795-74
Job opportunities in a restaurant (Filmstrip/Record). 1794-74
Jobs for you: It's happening in home economics (Filmstrip). 1137-73
Joe Stewart, silver plate. 2250-74

Johnny goes to nutrition land (Coloring book). 2665-73
The Joule - unit of energy. 270-73
Journey into nutrition (Motion picture). 271-73
Jugo de naranja--enlatado, congelado, al natural, y en botellas (Charts). 8-74
The junior college--a new dimension in training. 1786-74
Just the right punch. 2420-74
Kale. 1161-74
Kansas school lunch menu planning book, 1971-72. 1341-73
Kansas State develops dry mix for yeast bread. 1455-73
Keep clean, stay well (Motion picture). 1729-73
Keep your cool--cost-wise thru long, hot summer. 2021-74
Keeping food safe to eat. 3817-73
Keeping foods clean. 2077-74
Keeping Kosher with chicken. 3910-73
Keeping young and living longer. 2629-73
Keeping your cool (Film loop). 1730-73
Keith and Tommy climb to a new life. 2622-73
Kellogg's ready-to-eat cereals--nutritive values--product information. 2664-73
Key component of operational sub-system 5: steam preparation equipment. 1605-73
Key ideas in nutrition. 2634-73
Key nutrients. 1279-73
Key specialist for nutrition leadership; a demonstration project for the employment of a nutrition education specialist at the state level to develop food service related nutrition education programs--final report. 2334-74
A key to buying iron rich foods. 2733-73
The key to school lunch participation: upgraded menus. 1900-74
The key to survival and growth. 1144-73
The keyword in successful food service; clean. 2102-74
Kicking a winning touchdown. 650-74
Kid scrable to lunch!. 3942-73
The kid's cookbook. 1967-74
Kids are eating "airline" lunches. 1457-73
Kids are natural cooks. 1817-74
Kids run a restaurant drive-in style. 1145-73
Kindergartners make friends with school lunch. 2016-73
The kinetic cuisine of Kansas City. 4095-73
The kitchen (Film loop). 1731-73
Kitchen habits (Motion picture). 1732-73
The kitchen of the future - now!. 3738-73
Kitchen procedures manual. 3644-73
Kitchen profit--its not just in the food. 1387-74
Kitchen safety: Preventing burns (Film Loop). 1733-73
Kitchen safety: Preventing burns (Motion Picture). 1734-73
Kitchen safety: Preventing cuts and strains (Film Loop). 1735-73
Kitchen safety: Preventing cuts and strains (Motion picture). 1736-73
Kitchen safety: Preventing falls (Motion Picture). 1737-73
Kitchen safety: Preventing fires (Film Loop). 1738-73
Kitchen safety: Preventing machine injuries (Film Loop). 1739-73
Kitchen safety: Preventing machine injuries (Motion Picture). 1740-73
Kitchen sanitation. 2101-74
Kitchen sanitation and food hygiene. 2061-74
Kitchen standards for the Board of Education of Baltimore County. 1556-73
Kitchen tool school. 1305-73
The kitchen--heart of a school. 2023-74
Knee groups-in tight, not so tight. 3403-73
Know your nutrition. 274-74
Know your nutrition. 275-74
Knowing what's good for you. 241-74
Knoxville beats the odds. 2261-74
Knoxville hospital sponsors a clinic on diabetic foods. 1542-74
Kohlrabi. 1210-74
Koosis on individualized instruction. 3448-73
Kraut's winning ways. 2151-73
Kretchmer on developmental nutrition: developmental biochemistry. 595-74
Kubelka-Munk colorant layer concept. 1873-73
L.A. kids get hot meals this summer; their grandparents get something, too. 2018-73
A la carte blossoms into plus sales. 1890-74
Labelling standards and some uses of meat analogs in new meat products. 694-73
Labels that tell you something. 24-73
Laboratory handbook of methods of food analysis. 277-73
Lactase deficiency in a rural area of Mexico. 628-74
Lactase deficiency in Mexican-American males. 334-74
Lactase-treated milk provides base to develop products for lactose-intolerant populations. 2125-74
Lactose and milk intolerance. 2684-73
Lactose intolerance. 275-73
Lactose intolerance and fermented dairy products. 423-74
Lactose intolerance and milk consumption: the relation of tolerance to symptoms. 955-74
Lactose malabsorption in Oklahoma Indians. 2473-73
Lactose nutrition and natural selection. 389-74
A ladder for Walter. 1809-74
Laminated plastics for surfacing food service equipment. 1623-73
Landmarks in human nutrition. 212-74
Larousse gastronomique. 2250-73
Lasagna: most popular dish of 1974. 2470-74
Layout, equipment, and work methods for school lunch kitchens and serving lines. 1678-73
Lead content of milks fed to infants--1971-1972. 2685-73
Lead poisoning and the suburban child. 449-74
Leader's handbook for a nutrition and food course. 555-73
Leadership development for public service. 3514-73
Learn to be thin. 919-74
Learning about food (Filmstrip/cassette tape). 533-74
Learning about food (Filmstrip/record). 532-74
Learning about people through their foods. 2493-74
Learning about your oral health--level I: K-3 (kit). 115-74
Learning about your oral health--level II: 4-6 (kit). 116-74
Learning about your oral health--level III: 7-9 (kit). 118-74
Learning about your oral health--level IV: 10-12 (kit). 117-74
Learning better nutrition. 2825-73
Learning better nutrition. 851-74
Learning by doing. 1811-74
Learning for earning: new opportunities for paycheck education. 1295-73
Learning how to lead. 1453-74
The learning process. 1635-74
Learning resource centers. 4160-73
Learning resources: AV or library? 2245-73
Learning to use USDA donated foods. 2265-74
Learning with gusto. 3375-73
Learning-principles, practices, and peanuts. 1543-74
Lecciones para lideres voluntarias. 1544-74
Leche en polvo en sopa de papa. 1920-74
Leche en polvo para panes. 1921-74
Leche en polvo sin grasa. 1117-74
Leche hecha con leche en polvo. 1919-74
Leche; queso. 1211-74
Leftovers: menu standouts that are budget stretchers. 1884-74
Legal developments: FDA releases labeling regulations. 695-73
Legal requirements for food safety. 696-73
Legalities concerning food additives. 1245-74
Legumes in human nutrition. 2448-73
Lemons. 1139-74
A lesson in arithmetic. 2025-74
Lessons for the Federal effort against hunger and malnutrition--from a case study. 2271-74
Lessons on meat. 1116-74
Let protein work for you. 2937-73
Let's break bread together. 2190-74
Let's cook fish. 2174-73
Let's cook it right. 4040-73
Let's eat right to keep fit. 2526-73
Let's get well. 2527-73
Let's have healthy children. 2528-73
Let's have more vitamin A and C foods in school lunch (slides). 615-74
Let's keep food safe to eat (Motion picture). 2071-74
Let's make nutrition education exciting. 278-73
Let's play detective. 1150-73
Let's play games. 1778-74
Let's see what we know about nutrition. 3554-73
Let's take milk apart. 350-73
Let's talk about food. 2952-73
Let's teach nutrition: a teaching kit for elementary schools. 675-74
Let's tell it like it is!. 875-73
Lets find out about bread. 1088-74
Lettuce. 1196-74
The lettuce lesson. 2316-73
Lettuce--the salad staple. 641-73
Una libreta de ensenanza alimentos para las familias que desean economizar. 557-73
Life script awareness in career development: human behavior observed through transactional analysis. 1504-74
Lift with your head (Filmstrip/Cassette tape). 3782-73
Light a fire--train in-service. 1701-74
Lighting breakthrough conserves electrical energy. 3742-73
Limes. 1137-74
The limitations and dangers of commerciogenic nutritious foods. 2802-73
Linear programming controls amino acid balance in food nutrition. 280-73
Lingo (Game). 3358-73
Lipases and flavor development in some Italian cheese varieties. 1874-73
Lipid components of type A school lunches. 281-73
Lipid composition of selected margarines. 251-74
List of foods used in Africa. 2521-74
The little lost tooth. 2647-73
Live high on low fat. 4085-73
Live vs. Tape: Which is better for instruction? 3478-73
Living nutrition. 2875-73
Living Together in America (Study Prints). 129-74
A loaf of bread, a jug of milk and thou, Grandpa. 2273-74
Locating trouble spots in organizations. 3175-73
Log of the executive director: an historic document. 3946-73
Log of the executive director: jurisdictional dispute. 3184-73

Nutrition for a nation (Filmstrip /Cassette tape). 3558-73
Nutrition for athletes: A handbook for coaches. 60-73
Nutrition for food service workers. 399-73
Nutrition for Head Start. 398-73
Nutrition for little children (Filmstrip-/cassette tape). 351-74
Nutrition for little children (Filmstrip-/record). 352-74
Nutrition for mothers and infants--economic considerations. 551-74
Nutrition for older Americans. 807-74
Nutrition for the elderly: the AOA experience. 2455-73
Nutrition for the growing years. 676-74
Nutrition for the nation!. 964-74
Nutrition for today. 100-74
Nutrition for you (Filmstrip/Cassette). 2544-73
Nutrition for you (Filmstrip/Record). 2545-73
Nutrition for young minds. 400-73
Nutrition for young minds (Slide/tape). 778-74
The nutrition game (Game). 450-74
Nutrition gets the call. 41-74
A nutrition guidebook for elementary school teachers. 221-73
Nutrition II. 69-73
Nutrition implementation programs as communication systems. 1197-73
Nutrition in a family-oriented child development program. 2534-73
Nutrition in a maternity and infant care project. 407-73
Nutrition in action. 293-73
Nutrition in action. 780-74
Nutrition in action for the child (slides). 2570-73
Nutrition in action for young transients in Hawaii. 540-74
Nutrition in coordinated home care programs. 2322-74
Nutrition in kindergarten. 3351-73
Nutrition in Maternity and Infant Nursing Care, A short course. 2904-73
Nutrition in medical education: a problem-centered approach. 1748-74
Nutrition in music (Audiotape). 408-73
Nutrition in old age. 906-74
Nutrition in perspective. 621-74
Nutrition in pregnancy. 2850-73
Nutrition in pregnancy--a critique. 2600-73
Nutrition in preschool and school age, Tylosand, Sweden, 1968. 190-74
Nutrition in school food service. 3943-73
Nutrition in the classroom. 1546-74
Nutrition in the home (Filmstrip/Cassette tape). 844-74
Nutrition in the hospital (Filmstrip/Cassette tape). 842-74
Nutrition in the news. 1607-74
Nutrition in the 1970's. 2524-73
Nutrition in tooth formation and dental caries, Boston, 1960. 781-74
Nutrition instruction and lunch surveys with second graders. 409-73
Nutrition instructors guide for training leaders. 552-73
Nutrition insurance (Game). 2778-73
Nutrition is the school's business. 2035-73
Nutrition kit. 3576-73
Nutrition knowledge and attitudes of early elementary teachers. 1198-73
Nutrition knowledge and attitudes of mothers. 366-74
Nutrition knowledge applied to everyday living. 881-74
Nutrition knowledge of mothers and children. 2548-73
Nutrition labeling. 700-73
Nutrition labeling. 3028-73
Nutrition labeling. 3034-73
Nutrition labeling. 1234-74
Nutrition labeling. 1252-74
Nutrition labeling - how it works for you. 55-74
Nutrition labeling--more information to help the consumer select foods. 701-73
Nutrition labeling: more information to help the consumer select foods. 702-73
Nutrition labels and the U.S. RDA. 3053-73
Nutrition labels: A great leap forward. 3308-73
Nutrition lessons. 1548-74
Nutrition notes: consumer and food industry equally responsible for poor nutrition. 410-73
Nutrition notes: dairy group comments on nutritional labeling guidelines. 411-73
Nutrition notes: iron fortification of foods. 412-73

The school food service production kitchen. 1509-73
School food service sanitation a manual for school food service employees. 1753-73
The School Food Service System. 941-73
School food service: new laws can help you provide it. 947-73
School food service: twelve trends you should track. 948-73
School foodservice. 1489-74
School foodservice in Chicago. 3980-73
School foodservice in Knoxville. 3979-73
A school foodservice professional speaks out. 2053-73
School foodservice: no kid stuff!. 3958-73
The school health program. 2764-73
School kitchen is designed to keep pace with enrollment. 2039-74
The school lunch. 3921-73
The school lunch - a component of educational programs. 681-73
School lunch and child nutrition programs: hearings before the committee on agriculture and forestry, United States Senate, ninety-first Congress, first session on S. 2152, S. 2548, S. 2595, H.R. 515, and H.R. 11651; September 29, 30, and October 1, 1969. 3044-73
The school lunch and its cultural environment. 2845-73
School lunch and learning. 1683-74
School lunch and the curriculum. 591-73
School lunch at the crossroads. 2340-74
School lunch breakthrough--politics, technology spur expansion of food programs. 2298-74
The School lunch bunch (filmstrip). 3572-73
The School lunch bunch (Slides). 3573-73
School lunch design criteria. 1992-74
School lunch expansion roadblocked. 3945-73
A school lunch for all seasons. 4003-73
School lunch gets a Spanish setting. 2341-74
School lunch grows in Brooklyn. 2054-73
School lunch in Hawaii: 82% participation. 2342-74
School lunch in High Point: a community pride. 2055-73
School lunch in High Point: a community's pride. 2056-73
School lunch leadership training conference. 1275-73
School lunch looks to the future. 2057-73
School lunch means good nutrition. 3065-73
School lunch menus now suit student tastes. 3621-73
School lunch on-line in Kansas. 1357-73
School lunch participation. 2239-74
School lunch program. 3091-73
School lunch program becomes big factor for frozen meat firm. 949-73
School lunch program booms in Fulton County, Ga. 3990-73
School lunch program: 50-state roundup. 2558-74
School lunch programs rate top priority. 3900-73
School lunch report. 2600-74
School lunch represents more than food. 2040-74
School lunch room as a living laboratory. 3476-73
School lunch rooms. 1639-73
School lunch should be more than a munch. 2173-74
The school lunch system moves up the "raw-to-ready" scale. 3981-73
School Lunch Task Force Report. 942-73
School lunch teaches good food habits. 897-74
School lunch training as adult education. 1631-74
School lunch week across the country. 2343-74
School lunch worker other than director or supervisor. 1025-73
School lunch--more than a filling station. 2361-74
School lunch--student body: hand-in-hand in bountiful. 2344-74
School lunch: a laboratory for developing good food habits. 2241-74
School lunch: Alaska style. 2058-73
School lunch: suggested guides for selecting large equipment. 3762-73
School lunches; a billion-dollar market for food. 983-73
School meals in France. 2391-74
School milk and school breakfast programs: hearing before the committee on agriculture and forestry, United States Senate, eighty-ninth Congress, second session on S. 3467, June 21, 1966. 3046-73
School milk programs and Negro children: A nutritional dilemma. 797-74
School systems implementation: Texas style. 2059-73
School vending and the law. 3038-73
School vending is different. 3063-73
A school where candy bars are welcome. 3535-73
Schooling the food service executives of tomorrow. 1230-73
Schools adopt centralized feeding systems. 3758-73
Schools are becoming increasingly valuable source of food service personnel, but time and money are needed before potential is reached. 3404-73
Schools without foodservices discriminate against students. 2345-74
The science and art of inhibiting caries in adolescents via personalized nutritional counseling. 765-74
The science and politics of the 8th revision of the RDA (not to be confused with the U.S. RDA of the FDA). 1238-74
Science and the consumer. 2395-73
Science experiments you can eat. 2508-73
Science for better living. 4176-73
Science for society. 2583-74
Science fundamentals: a background for household equipment. 1648-73
Science in food and nutrition. 556-73
The science of food preservation. 3833-73
Science of home economics and institutional management. 933-73
The science of housekeeping. 982-73
The science of meat and meat products. 656-73
The science of nutrition. 2443-73
Science of nutrition (Filmstrip/Cassette tape). 843-74
Science-yesterday, today, and tomorrow. 1525-74
Scientific study of malnutrition as a limiting factor in the development of education. 811-74
Scope for nutrition education in the elementary school programme. 2533-73
The scope of current nutrition education efforts [Panel]. 2935-73
Scorecard for better eating. 2386-73
Screening children for nutritional status. 563-73
Sea una persona mas saludable!. 756-74
Seafood world. 2165-73
Seafood: choice morsels with a loyal following. 4031-73
Search and research. 382-73
The search for alternative protein sources. 2134-74
Search for new food sources. 3847-73
The search for the secret of fat. 2395-73
Seasonal experiences. 2507-73
The seasonal kitchen. 2475-74
Seasonal variations in U.S. diets. 483-73
Seasoning secrets. 1510-73
Seattle: A seafood scenario. 4093-73
Second annual report of the national advisory council on child nutrition; annual report/1972. 3960-73
Second thoughts on knowledge and attitude effects upon behavior. 970-74
Second-generation reconstitution systems. 1661-73
Secondary menus. 1874-74
Secondary nutrition education curriculum guide. 3587-73
Secondary teaching materials and teacher references. 2266-73
The secret family diet. 438-74
The secret family exercise plan. 902-74
The secret is on-going training. 3523-73
Secretary Butz talks about school lunch. 2184-74
Secretary-Boss relationships. 3170-73
Security for business and industry. 849-73
Security protection for foodservice. 950-73
See the facts about the food you eat. 9-74
Seed to civilization: the story of man's food. 1106-74
A select bibliography and library guide to the literature of food science. 2262-73
A select bibliography of East-Asian foods and nutrition arranged according to subject matter and area. 4150-73
Selected aptitudes of food service personnel participating in two methods of training. 1072-73
Selected bibliography of nutrition materials. 4148-73
A selected bibliography on: African foods and nutrition, and African botanical nomenclature. 4188-73
Selected body measurements of children 6-11 years, United States. 2580-74
Selected films and filmstrips on food and nutrition. 2559-74
Selected food and agriculture data bases in the U.S.A. 4125-73
Selected list of reliable and unreliable nutrition references. 4172-73
Selected list of reliable nutrition books (revised 1970). 2277-73
Selected nutrition references. 2537-74
Selected programs for improving teenage nutrition. 1007-74
Selected reading in microbiology. 2546-74

TITLE INDEX

Selected references on nutrition and school lunch. 2529-74
Selected research abstracts of published and unpublished reports pertaining to the food service industry. 2279-73
Selected research abstracts of published and unpublished reports pertaining to the food service industry, including recommendations for research needs. 4157-73
Selection and care of fresh fruits and vegetables: A consumer's guide. 44-73
Selection of foods (Film loop). 34-73
Selection of policies for the local lunch program in the public schools. 2011-73
Selenium: the maddening mineral. 486-73
Self-discovery for the manager (Audiocassettes). 1340-74
Self-evaluation first. 1777-74
Self-instructional program of training for food service personnel compared with group training. 1231-73
A self-learning unit for patients with diabetes. 1818-74
Self-service juice dispensers evaluated; frozen juices most economical, efficient. 1662-73
Selling Brussels sprouts to students. 1511-73
Selling nutrition in Salt Lake City. 180-74
Selling nutrition to the consumer. 56-74
Selling students. 951-73
Seminar evaluation. 1232-73
Seminar evaluation. 3370-73
Seminar evaluation plan [2] Reference list [3] Seminar participants. 1233-73
Seminar projects and notes on program structure. 1234-73
Senate hearings on a national nutrition policy. 1258-74
The senior chef. 2958-73
A sensational sausage system that sells. 659-73
Sense and nonsense about health foods. 497-73
Sensible eating: A 'balanced' diet for Britain. 2592-73
Sensible nutrition. 488-73
Sensible nutrition makes the scene, Grades Four, Five, Six. 3299-73
Sensory evaluation of breaded, deep-fried turnip slices. 1931-73
Sensory evaluation of foods. 2509-73
Sensory good taste. 489-73
Sensory, chemical, and marketability evaluation of flavor secrets recipes. 1482-74
Separate eating places: type, quantity, and value of foods used. 2575-74
Sequential K-12 courses replace old style 'health'. 1236-73
A serial study of nutrient intakes of children from 3 to 18 years of age. 952-74
Serum cholesterol from pre-adolescence through young adulthood. 490-73
Serum vitamin A in protein-calorie malnutrition. 2964-73
Serve nutrition with cartoons. 2566-73
Service in the grand manner. 1974-74
Service on wheels. 2042-74
Serving food (Motion picture). 1775-73
Setting the table (Film loop). 1237-73
Seven choices for lunch. 1359-73
Seven excuses for indecision. 1337-74
Seven great American recipes from Williamsburg. 2487-74
Seven things that have to happen before a seminar succeeds. 1672-74
Several factors affecting college coeds' food preferences, habits and intake. 1026-74
The shady, saucy tomato. 660-73
Shallots. 1203-74
Shape Your Future (Charts). 2625-73
Shaped rice products offer promise as new "finger food". 1932-73
Shaping up the manual. 3691-73
The share of foodservice to come: a fable of the future with a note on the present. 1933-73
She's their food teacher. 912-74
Shelf life of foods. 2602-74
Shh! less talk can mean more learning. 1718-74
Shopper's guide. 75-74
Shopping for protein. 2938-73
Shopping for shortening. 2346-73
Shopping practices of low-income groups for convenience foods. 491-73
Shopping with Carmen for the fruit-vegetable group (slides). 3540-73
Shopping with Carmen for the meat group (Slides). 3541-73
Shopping with Martin for the bread-cereal group (Slides). 1784-74
Shopping with Martin for the milk group (Slides). 1785-74
Short order cookery (Film loop). 3684-73
Short order cookery (Motion Picture). 3685-73
The short-term response to a drink of milk, lactose or casein in children with apparently normal gastrointestinal tracts. 866-74
Should milk drinking by children be discouraged? 109-74
Should milkshakes have a place in the type A lunch? 1360-73
Should we or shouldn't we fortify foods? 1934-73
Shrimp newburg via management by objective. 1613-74
The significance of lactose intolerance in nutritional problems. 2696-73
Signs and symptoms. 3461-73
Simmering and poaching (Film loop). 1975-74
Simmering and poaching (Motion picture). 3686-73
Simple training plan cuts accidents. 1776-73
Simplified food preparation systems - their impact on your sanitation systems. 1777-73
Simplified manual for cooks. 1467-73
Simplified manual for cooks. 1963-74
Simplified quantity recipes; nursing/convalescent homes and hospitals. 2428-74
Simplified recipes for day care centers. 2415-74
A simplified school lunch system. 2060-73
A simplified systems approach to multi-unit design. 1663-73
Simulation is the name of the game. 35-73
Simulation of interpersonal relations. 1241-73
The simultaneous effect of protein-calorie malnutrition on weight and height velocity. 1053-74
Sing a song of spinach. 1790-74
Single service systems: exclusive survey showing trends and attitudes towards foodservice disposable systems and permanent ware 1972. 1596-73
Single service ware and today's consumer. 1665-73
Single service: facts, not talk. 1666-73
Single service: the creative plus. 1667-73
Single-cell protein in persepctive. 2133-74
Site handbook: special summer program for children. 4008-73
A situational change typology. 3269-73
Six simple thefts: cases in internal control. 953-73
Six solutions to ware handling. 1668-73
Six ways to build school meal benefits. 3252-73
Sixty hamburgers later...Newspaperman researches America's favorite food. 661-73
Size up the modern electric griddles. 1669-73
Slim chance in a fat world: behavioral control of obesity. 504-73
Slim'n swim--a summer nutrition program for underprivileged teen-age girls. 2061-73
Small canning facilities. 3769-73
Small day care centers loom as giant market for frozen prepared lunches. 954-73
The small meeting planner. 3567-73
Small portions: exciting side dishes. 2439-74
Small schools can afford hot lunches, Massachusetts experiment proves. 2350-74
Small wares. 3715-73
Smallwares, slicers, food choppers: Pedestrian-sounding but vitally important. 3721-73
The smile of success; service with a smile. 1300-73
Smile, you're on classroom camera. 3474-73
Snack time is taste time. 4072-73
Snacks. 664-74
Snacks...Snacks...Snacks. 791-74
Snipp, Snapp, Snurr and the buttered bread. 1112-74
So much, for so many, for so little. 1243-73
So you want to be a consultant? 1244-73
So you want to be a manager!. 1443-74
So you want to be a supervisor!. 1442-74
So you want to get ahead? 1245-73
So you want to start a restaurant? 3112-73
So you want to write a cookbook? 2264-73
So, we ought to get started on CD. 3215-73
Soar in '74. 3226-73
Soar in '74 (Charts). 3309-73
Social and cultural factors influencing malnutrition. 2532-73
Social and economic factors in the nutrition of the elderly. 278-74
Social and economic implications of nutrition surveys and other epidemiological evidence. 183-74
Social aspects of nutrition (Filmstrip/Cassette tape). 845-74
Social, emotional and cultural influences as related to eating patterns and malnutrition. 546-74
Social, emotional and cultural influences as related to eating patterns and malnutrition. 547-74
Society and health in the lower Rio Grande Valley. 636-74
Socio cultural malnutrition. (Growth failure in children due to socio cultural factors). 437-74
The socio-cultural aspects of nutrition. 425-74
Socio-cultural basis of food habits. 492-73
Socio-culture aspects of food and eating -- A social scientist's approach (With group discussions). 493-73
A sociobiological approach to the study of coronary heart disease. 2689-73
Soda fountain and luncheonette equipment. 1631-73
Soft-Serve is snack bar favorite. 2354-74
Sole foods and some not so scientific experiments. 2613-73
Some administrative problems of the high school cafeteria. 1347-74
Some applications of enzymes of microbial origin to foods and beverages. 1935-73
Some aspects of an experimental training program for food service personnel. 1182-73
Some aspects of protein nutrition. 494-73
Some considerations for nutritional labeling. 718-73
Some considerations in the interpretation of psychological data as they related to the effects of malnutrition. 2675-73
Some current population trends. 2270-73
Some dietary beliefs in Chinese folk culture. 260-74
Some diseases characteristic of modern Western civilization. 222-74
Some drugs we would like to have in nutrition and metabolism. 2812-73
Some effects of a white cornmeal shortage. 329-74
Some effects of processing and storage on the nutritive value of milk and milk products. 2149-74
Some factors for refusal to participate in nutrition survey. 495-73
Some factors in building an effective marketing program. 955-73
Some interactions between nutrition and stress. 496-73
Some principles of adult education. 1848-74
Some references on metric information (kit). 2570-74
Some studies on the effect of a multipurpose food on the nutritional status of pre-school children. 2804-73
Some teacher-centered in-service programs. 1722-74

Some things you might not know about the foods served to children. 1936-73
Some thoughts on food and cancer. 497-73
Something special at O.U. 956-73
Sophisticated technology for the school market. 1937-73
Sophmore high school students' attitudes toward school lunch. 957-73
Sorting out the confusion in the nutrition revolution era. 597-74
Soul food is as American as apple pie. 2499-74
Sound & picture signifying something. 3328-73
Sound bodies, sound minds, clean plates. 3992-73
Sound filmstrip programs. 1555-74
Sound motion picture projectors or, will television kill the movies? 3374-73
Sounds from Capital Hill: more regulation, more restrictions. 719-73
Soup: serve it with flair. 2166-73
A source book on food practices; with emphasis on children and adolescents. 352-73
A sourcebook of elementary curriculum programs and projects. 3424-73
Sources of dietary iodine. 577-74
Southern cuisine: merchandising and menu notes. 2167-73
Southwest Region's response to the challenge of nutrition education. 2062-73
Sowing the wind. 2404-73
Soy helps Skokie's budget. 961-73
Soy meat-analogs: a nutritional evaluation. 2132-74
Soy protein products: technology and nutritive value. 2151-74
Soy protein recipe ideas. 2491-74
Soy-fortified wheat flour. 935-74
Soy-whey-milk offers economic substitute for frozen whole milk concentrate. 1938-73
Soybean milk - a low-methionine substitute for cow's milk for children and adults. 1939-73
Soybeans for health and a longer life. 1091-74
Soybeans in family meals. 63-74
Soybeans: chemistry and technology. 2865-73
Soyburger: it looks like a hamburger, but... 3885-73
Space age compactor keeps kitchens clean. 3763-73
Space needed for storing and cooling commonly used foods. 1670-73
Spanish handbook. 1717-74
Spanish-language health communication teaching aids: a list of printed materials and their sources. 2579-74
Speaking of metric!. 1800-74
Special atmosphere II: country/Colonial themes. 1545-73
Special atmosphere themes for foodservice. 3777-73
Special bibliography on American Indian health. 4142-73
Special diets: elderly feeding bugaboo. 1901-74
Special equipment and/or devices. 1626-73
Special food service for summer. 2063-73
Special food service program for children: summer programs sponsor handbook. 4012-73
Special food service program for children, summer programs. 1285-73
Special foods & equipment for the food service industry. 1671-73
Special nutrition projects course for non-nutrition majors at college level. 1744-74
Special school milk program: hearing before a subcommittee ocf the committee on agriculture and forestry, United States Senate, eighty-ninth Congress, second session on S. 2921, May 12, 1966. 3045-73
Specialty bakeware makes special treats. 2052-74
Speculators, boarders, gamblers. 1994-74
Spice chart for convenience foods. 3626-73
Spicing vegetables. 1513-73
Spinach. 1152-74
A split pea special: a 1970 market report. 663-73
Sponsor handbook. 2379-74
Spot vitamin A with color clues. 500-73
Spotlight on contract clauses. 962-73
Squash. 1146-74
St. James builds a kitchen. 2409-74
The St. Louis story. 3985-73
St. Luke's & the computer. 964-73
St. Michael's makes a deal. 2290-74
Stability of ascorbate in bacon. 2140-74
Stability of gravies to freezing. 1940-73
Staff accounting for local and state school systems. 3179-73
Staffing and training personnel for centralized school food service systems. 1248-73
Staffing Broward County-style. 2064-73
Staffing the school food service. 965-73
Standard food portions (Film loop). 1514-73
Standardized equipment helps launch new 1400 ft. Flagship. 3767-73
Standardizing recipes for institutional use. 2109-73
Standards and progress in day care center programs. 2065-73
Standards and progress in day care center programs. 2191-74
Standards for cataloging nonprint materials. 2203-73
Standards for meat & poultry products. 731-73
Standards for public schools of Georgia. 3719-73
Standards for school media programs. 2201-73
Standards of cleanliness (Film loop). 1778-73
Standards, labeling, education to improve the diet. 720-73
Standards, principles, and techniques in quantity food production. 1458-73
Staphylococci control and the food processor. 1779-73
Staphylococcus aureus S-6: Growth and enterotoxin production in papain-treated beef and ham and ham gravy. 3825-73
Staphylococcus food poisoning. 309-73
Start now to think metric. 36-73
Start thinking nutrition (Record). 711-74
Start with healthy cooking. 1969-74
State department of education policies. 754-73
State departments of education, state boards of education, and chief state school officers. 4140-73
State directors cost out school meals. 966-73
A state health department assesses undernutrition. 604-74
State nutrition council holds conference on food, nutrition, and health. 36-74
The state of nutrition today. 562-74
State specialists coordinate nutrition education projects. 2360-74
Statement of FNS policy on nutrition education & training. 3976-73
Statement of Walter A. Compton, M.D., President and Chief Executive Officer, Miles Laboratories, Inc., before the Senate Select Committee on Nutrition and Human Needs, February 24, 1971. 124-73
Statistics of public elementary and secondary day schools, fall 1972. 4138-73
Status and achievements of the expanded food & nutrition education program. 501-73
Status of curriculum development in the field of commercial food at the non-baccalaureate level. 1068-73
Status of curriculum development in the field of commercial food at the non-baccalaureate level. 3311-73
The status of nutrition in the United States. 502-73
The status of school foodservice; part I. 2066-73
Status of the fetus and newborn, jamaica, 1970. 951-74
Step-by-step directions for making (1)Perfect prime rib of beef, (2)Golden brown French fries in almost no time! (3) America's 2nd favorite pie, cherry. 1936-74
Steps in getting ready to cook (Film loop). 1515-73
Stick 'em up. 968-73
The stigma of obesity. 2659-73
Stinging attack blasts school lunch programs. 2067-73
Stirring the cultural melting pot. 2513-73
Stone soup. 673-74
Stone soup (Audiotape). 3663-73
Stone soup (Phonodisc). 959-74
Stop air pollution in you kitchen!. 2013-74
Storage of fresh broccoli and green beans - effect on ascorbic acid, sugars, and total acids. 2347-73
Storage specifics. 2362-73
Storing perishable foods in the home. 4210-73
Storing vegetables and fruits in basements, cellars, outbuildings, and pits. 4206-73
The story behind Orville's fabulous main-course cookbook. 4109-73
The story of Johnny Appleseed. 1080-74
The story of soft drinks. 730-74
Strategies for disseminating curriculum support materials. 3333-73
Strategy II teaches parents to teach children. 1668-74
Strawberries. 1138-74
Strawberry time. 2168-73
Stretch 'n substitute. 1361-73
Stretching food dollars: meal planning hints and budget-wise recipes. 2392-73
Stretching Food Dollars: Meal planning hints and budget-wise recipes (in Spanish). 2393-73
Strictly personnel: A primer on sanitation. 3811-73
Strictly personnel: the care and feeding of cafeterias. 1458-74
Strike!. 1477-74
Structure and textural properties of foods. 2852-73
Structured and spontaneous role playing: Contrast and comparison. 3600-73
Structuring the setting for health action. 1704-74
Student and teacher cooperatively selected behavioral objectives. 1587-74
A student breakfast survey. 1478-74
Student involvement in school food service and nutrition programs. 1249-73
Student workbook to accompany elementary baking. 1252-73
Students come first at St. Olaf. 4020-73
Students decide food purchases. 3986-73
Students learn to live with liters and meters. 1813-74
Studies in disease ecology. 301-73
Studies of behavior change to enhance public health. 1623-74
Studies on breakfast and mental performance. 2822-73
A study guide for the food service supervisor. 1021-73
A study of career ladders and manpower development for non-management personnel in the food service industry. 795-73
A study of career ladders and manpower development for non-management personnel in the food service industry. 3364-73
A study of foods consumed by Navajo people receiving foods donated by the United States Department of Agriculture. 2740-73
Study of foods is emphasized in Brooklyn elementary school. 965-74
A study of health practices and opinions. 2742-73
Study of literature and information methods within the Maryland cooperative extension service. 4153-73
A study of poverty conditions in the New York Puerto Rican community. 966-74
A study of pupil breakfast habits and behavioral patterns in certain Louisiana elementary schools following implementation of the National Breakfast Program. 2798-73
A study of school feeding programs - I. Economic eligibility and nutritional need -II. Effects on children with different economic and nutritional needs. 2068-73
A study of the breakfast eating habits of school age girls and boys, grades one through twelve, of an Oklahoma community with implications for teaching nutrition. 609-73

A study of the dietary habits of junior high school students with implications for nutrition education. 691-74
A study of the educational aspects of the School Lunch Program in South Carolina. 1166-73
A study of the effect of certain management factors on nutritive value and pupil participation in the school lunch. 2040-73
A study of the need for dietary counselling services for the physician. 505-73
A study of the nutritional status and food habits of Otomi Indians in the Mezquital Valley of Mexico. 130-74
A study of the relative accuracy of two short methods of dietary evaluation as applied to diets in Leon County. 449-74
A study of the role of the unit school food service supervisor as perceived by selected North Carolina superintendents and school food personnel. 3230-73
A study on linear programming applications for the optimization of school lunch menus. 1885-74
Study on mustard by Dumas (pere), author and gastronome. 1102-74
Stuffing and trussing a chicken (Film loop). 1516-73
The styles of Indonesia. 2043-74
Sub-System 10: Sanitation. 3787-73
Sub-system 2: the status of storage. 1672-73
Sub-System 9: Clean-Up. 3711-73
Sub-systems 3 & 4: a simplified systems approach to fabrication & pre-preparation. 1941-73
Subjective evaluation of an experimental training program for food service personnel. 1037-73
Subjective evaluation of an experimental training program for food service personnel. 1250-73
Substitute and synthetic foods with emphasis on soy protein. 1942-73
Substitutes for whole milk. 2431-73

A system---What it is and what it does. (Part 2). 975-73
Systematic generation of ideas for new foods. 1945-73
Systematic selection. 3411-73
A systematic training and teaching program. 1253-73
Systems approach to labor cost control. 976-73
A systems approach to management development. 1472-74
The systems approach to warewashing. 3768-73
A systems approach to warewashing equipment. 1673-73
Systems engineering applied to training. 3543-73
Systems intelligence in the food service kitchen. 2044-74
Systems solution for the 73's; part 1. 1674-73
A systems summation. 3116-73
Systems support with key processing equipment. 1675-73
Tabla de composicion de los alimentos mas usados en Puerto Rico. 854-74
Tables of food composition: Availability, uses, and limitations. 2272-73
Tables of food composition: scope and needed research. 510-73
Tables of food values. 2209-73
Tacos--taste treat for tots to teens. 2170-73
Take a new look at chicken. 3692-73
Take your turn as a smart food shopper; instructional model for parents. 1772-74
Take-out: Anything goes. 3613-73
Taking milk apart. 351-73
Tangelos. 1154-74
Tangerines. 1178-74
Tape recording, booklet teach diets. 1812-74
Task definition and exposition: the catalyst in the matching process. 1474-74
A task unit concept for on-the-job training in food service. 3589-73
Taste it, touch it, smell it. 2887-73
Taste mechanisms in preference behavior. 810-74
The taste of curry. 3633-73
A taste of holiday traditions. 2473-74
Taste sensitivity and food aversions of teenagers. 512-73
Tea & coffee. 627-73
Tea and coffee. 1946-73
Tea and coffee in catering. 2974-73
Teach nutrition with bulletin boards. 872-74
Teach nutrition with games. 1162-73
Teach us what we want to know. 1545-74
Teacher, there's an eggplant in the classroom. 513-73
A teacher's guide of student nurses' learning experiences in diet therapy clinical practice related to total nursing care of patient, for use in schools of nursing. 1235-73
A teacher's guide to: Learning nutrition through discovery, K-6. 3401-73
Teacher's guide: food service organization and management I;responsibilities of the manager. 3499-73
Teachers learn how to teach nutrition. 1765-74
Teaching about meat. 1716-74
Teaching aids - sound motion picture systems. 1516-74
Teaching and training. 3482-73
Teaching as changing behavior. 1254-73
Teaching basic equipment in junior high. 3708-73
Teaching better use of donated foods. 2262-74
Teaching charts on Ethiopian foods (Posters). 67-74
Teaching child health. 1720-74
Teaching children to eat. 1880-74
Teaching dental health. 3534-73
Teaching for concept development. 1583-74
Teaching kit on feeding bottle (Posters). 415-74
Teaching kit on rickets (Posters). 416-74
Teaching machines for patients with diabetes. 1694-74
Teaching machines: a new training aid for the dietitian. 1709-74
Teaching managers to manage. 3487-73
Teaching nutrition. 168-73
Teaching nutrition at nursery school level. 672-74
Teaching nutrition concepts. 852-74
Teaching nutrition in school lunch. 252-74
Teaching nutrition in the elementary schools. 565-73
Teaching nutrition in the medical school. 1255-73
Teaching nutrition the "rat" way. 1821-74
Teaching nutrition to teenagers. 618-74
Teaching nutrition--an important part of dietitian's job. 1541-74
The teaching of home economics. 3422-73
Teaching successfully in industrial education. 1240-73
Teaching teachers to teach nutrition. 1822-74

Teaching teens 'stuff' that counts. 1639-74
Teaching teens nutrition. 633-74
Teaching the test. 3413-73
Teaching the young child good eating habits for life. 311-73
Teaching the young child good eating habits for life. 2734-73
Teaching with computers. 1256-73
Teaching with food. 2367-74
Teaching with television. 1697-74
A teaching-learning theory for results in in-service education. 1601-74
Team approach gets results. 2283-74
Team supervision. 1257-73
The technical microbiological problems in intermediate moisture products. 1947-73
Technical report on standardization of the general aptitude test battery for director, school lunch program 0-71-32. 1833-74
Techniques for effective teaching. 1169-73
Techniques for milk protein testing. 1948-73
Techniques for teaching nutrition to children. 3505-73
Techniques in the preparation of fruits and vegetables. 1140-73
The techniques of culinary artistry for school banquets, luncheons, and teas. 2181-73
Techniques of food measurement (Motion picture). 1518-73
Techniques of group dynamics. 3266-73
Techniques of group involvement. 1258-73
Techniques of main dish preparation. 1138-73
Techniques of main dish preparation. 1139-73
Techniques of making quick breads. 1519-73
Technological eating or where does the fish finger point? 2146-74
Teen time food fare: 'action package' for nutrition education. 2288-74
Teen-age food habits - a multidimensional analysis. 514-73
The teenage obesity problem - why? - part two. 515-73
The teenage obesity problem - why? - part 1. 516-73
Teenager - the marketer's dilemma. 977-73
Teenagers and food: their eating habits. 517-73
Teenagers show a way to teach nutrition. 348-74
Teenagers tell us about their nutrition. 2356-74
Teenagers' gardens upgrade family diets. 2224-74
Teens "get the picture" on nutrition. 1077-74
Teens Entertain. 2763-73
Teens tackle nutrition problems. 2251-74
The teeth and eating (Filmstrip). 1827-74
Telelectures vs. workshops in continuing professional education. I. Research procedures and design of lectures and workshops. 3552-73
Telelectures vs. workshops in continuing professional education. II. Statistical comparison of learning. 3553-73
Televising health lessons in school. 1527-74
Television and the young consumer. 1858-74
Television in nutrition education. 1700-74
Tell it like it is. 1291-74
Tell them why. 3405-73
Temperature and microbial flora of refrigerated ground beef gravy subjected to holding and heating as might occur in a school foodservice operation. 2104-74
Temperature kelvin - K. 1932-74
Ten serious mistakes in management training development. 1820-74
Ten trends in school food service. 2278-74
Ten-state nutrition survey, 1968-1970. 564-73
The ten-state nutrition survey: a pediatric perspective. 2419-73
Ten-year experience of modified-fat diets on younger men with coronary heart-disease. 185-74
Tennessee nutrition-achievement study 1967-1968. 2889-73
Tennessee's Extension Food and Nutrition Education program. 68-74
Test your P.P. quotient. 3167-73
Testing of products is essential. 1520-73
Testing packaging films. 1949-73
Texas community tackles teenage food and nutrition program. 2266-74
Texas Fred Dollar's big chance. 3271-73
Texas mavericks reject federal subsidies. 2076-73
Texas State Tech instructor wins award for vending course technique. 1824-74
Textiles updated for today's dietitian. 1676-73
Texture adds new dimension to soy products. 2967-73
Textured foods and allied products. 3846-73
Textured protein trims cost of frozen meat patties. 1480-74
Textured proteins can solve the nutrition-dollar dilemma. 1950-73
Textured vegetable protein (TVP). 520-73
Textured vegetable protein...solution to institutional dietary problems? 521-73
Textured vegetable proteins: update. 3891-73
Textures vegetable protein, fish protein concentrate, and microcrystalline cellulose as extenders in meat loaves. 2335-73
Texturization: vegetable proteins. 3873-73
Texturizing process improves quality of baked French fried potatoes. 1951-73
Their classroom is an all-electric kitchen. 1825-74
Their daily bread. 1984-73
Theory X and theory Y; two sets of assumptions in businessmanagement (Motion picture). 1452-74
The therapeutic dietitian--a challenge for cooperation. 1866-74
There is much information available on how to manage employees, but many management people ignore it and have increasingly serious employee problems. 3163-73
There ought to be laws against the laws. 3015-73
There will be no hungry children in America. 3969-73
There's a kitchen in every school. 2371-74
There's a new you coming. 239-74
There's more to food than eating!. 2807-73
There's more to frozen foods than meets the eye. 3611-73
There's more to videocassettes than meets the eye. 3410-73
These are great but dinner is better. 2892-73
They ask why. 345-73
Thiamin and riboflavin in cooked and frozen, reheated turkey - gas vs. microwave ovens. 523-73
Thiamin content and retention in venison. 524-73
Thiamine and riboflavin retention in cooked variety meats. 525-73
Think clean. 1780-73
Think metric: It's simple. 3673-73
Think nutrition (poster). 3386-73
Think Orange, When you Choose a Snack. 2894-73
Thinking metric. 1945-74
Third graders host a banquet. 2372-74
This hungry world. 2617-73
This is the way we clean our kitchen. 3810-73
This is USDA's Consumer & Marketing Service. 37-73
This is your passbook for food service worker. 1170-73
Thoroughly modern celery. 4103-73
Those controversial chemical additives. 2396-73
Those pesky RDABS. 1230-74
Thought for food--the social and cultural aspects of malnutrition. 155-74
Thousands came to dinner. 2077-73
The three A's of change - Anticipating, Accepting, Actuating. 978-73
Three lunch programs involve students and community. 2374-74
Three meals a day, plus (Motion picture). 748-74
Three meals a day, plus (Videocassette). 738-74
The three R's help make good eating important. 1263-73
Three tips on steering a profit course. 1357-74
Through the looking glass. 2813-73
Tic-Tac-(Pota) toe. 2500-74
A time to plan ahead. 651-74
Time-temperature and time-weight losses in veal roasts. 526-73
Time-temperature indicating system 'writes' status of product shelf life. 2349-73
Tion and human needs: Part 4A--food additives tion and human needs. 1954-73
Tips for training with video. 3441-73
Titles of dissertations and theses completed in home economics 1969-70. 4117-73
Titles, definitions, and responsibilities for the profession of dietetics--1974. 2571-74
T.L.C. and the hungry child. 509-73
To develop work evaluation and work training techniques designed to facilitate the entry of mildly mentally retarded into service occupations: final project report. 3419-73
To hand out or not to hand out. 1264-73
To join or not to join multiemployer bargaining? 979-73
Tocopherols and fatty acids in American diets - the recommended allowance for vitamin E. 527-73
Toda leche alimenta. 768-74
Today's dishwashing machine operator. 3815-73
Today's nutrition and your job. 81-74
Today's special: a potpourri of food merchandising ideas. 1909-74

Turkey: the bad guy of school lunch. 1781-73
Turn on to better breakfasts. 2054-74
Turn your soup ladle into a cook's magic wand. 2453-74
Turn-arounds in take-out. 3127-73
The turned on table top. 1677-73
Turnips. 1191-74
TV and radio teaching tools. 1799-74
TV commercials can teach nutrition. 1533-74
Twelve entree ideas to celebrate the holidays. 1893-74
Twenty-two arguments against job enrichment. 1455-74
Two basics of Hawaiian cuisine: rice and fruit. 1933-74
Two market studies reveal convenience food attitudes and usage: part i. 1302-74
Two market studies reveal convenience food attitudes and usage: part II. 1303-74
Two nutritional labeling systems. 721-73
Two off-line computer assisted nutrient standard menu planning techniques. 3606-73
Two poverties equal one hunger. 2931-73
Two views: Getting into school lunch. 3274-73
Two ways to get less milk for your money: Shortweight milk cartons found in Delaware; When a gallon isn't a gallon. 2383-73
The two-carbon chain in metabolism. 2775-73
The Type A spice chart. 3694-73
Type A--the ethnic way. 3909-73
Type A--two different ways. 1364-73
U. S. Nutrition policies in the seventies. 2716-73
Ultimate in dishroom economy. 3772-73
Uncle Jim's dairy farm. 330-73
Undergraduate education in dietetics. 1296-73
Undergraduate education in public health nutrition. 1297-73
Undergraduate training in nutritional science. 1298-73
Understanding baking. 1379-73
Understanding cooking. 1459-73
Understanding food. 511-73
Understanding food. 2679-73
Understanding frustration-instigated behavior. 1495-74
Understanding the community social system. 988-73
Understanding the metric system (Slides). 1984-74
Understanding the metric system (Transparencies). 1837-74
Underweight and undernutrition in teenagers--a problem for nutrition education. 856-74
The Unicorn and other lessons from history. 315-74
Unified approaches toward nutrition education through school.
Uniform meat labeling eliminates shopper confusion. 45-74
Uniformity - a must for effective microbial controls. 3790-73
Unique, concave package chosen for ethnic dinner mix market. 1958-73
Unit pricing and open dating. 42-73
United National children 1974. 2384-74
United States Government organization manual, 1972/73. 2288-73
Universal school food service and nutrition education: a symposium. 572-73
University of Colorado Libraries programmed textbook. 2218-73
The unwanted four (Filmstrip/cassette). 2070-74
The Unwanted four; germs that cause food poisoning (Filmstrip/Record). 1783-73
Up the NSLP. 1839-74
Update on frozen heat-and-serve foods. 1912-74
Update on nutrient labeling: consumer awareness, use, and attitudes. 39-74
Update: ARA'@S Detroit school service. 3915-73
Updating a centuries-old cooking technique. 3659-73
Upgrade your manpower task allocation system. 989-73
Upgrading Indian nutrition through youth. 94-74
The urban avalanche and child nutrition - I. Impact during the industrial revolution and now. 573-73
Urban school feeding survey. 1487-74
Urbanites must be approached through recognized information sources. 62-74
Urbanization, diet and potential health effects in Palau. 472-74
U.S. families still preserve food at home. 1529-73
U.S. Jaycees resolve to back pilot universal program. 2096-73
US RDA doesn't meet population needs. 3013-73
The USA today--is it free of public health nutrition problems? 2558-73
USDA creates nutritive functional products. 3849-73
USDA food means happy kids this summer. 4002-73
USDA gives specifications for textured vegetable protein products. 743-73
USDA grade standards for food. 3049-73
USDA is interested in 'engineered foods' that can offer improved nutrition. 3880-73
USDA issues new regulations governing free and reduced-price school lunch. 3055-73
USDA proposes nutrient labeling regulations advertising claims world trigger compliance. 1253-74
U.S.Department of Agriculture's food donation programs. 2380-74
The use & abuse of equipment. 1680-73
The use and abuse of vitamin A. 106-74
Use and cost of supplies for machine washing of permanent tableware. 2080-74
The use and misuse of AV. 3323-73
The use of a computer in formulating low cost diets. 990-73
Use of ancillary health personnel in maternal and child health projects. 3472-73
Use of audio-visual techniques in training the hard-core. 3444-73
The use of chemicals in food production, processing, storage, and distribution. 2106-74
Use of drugs in the treatment of obesity. 432-74
Use of food composition tables to determine nutrient content of a Type A lunch: Summary of discussion number three.
Use of lowfat dairy spread in medium white suace and plain white frosting. 1530-73
The use of mass media in nutrition and health education. 1506-74
Use of metric measurements in food preparation. 1531-73
The use of nutrition and home economics aides in maternity and infant care and children and youth projects. 1517-74
The use of nutritonal requirements and allowances. 166-74
The use of protein-rich foods for the relief of malnutrition in developing countries. 793-74
The use of silent single concept loop films to facilitate the acquisition of occupational skills. 1798-74
The use of simulation techniques by prospective home economics student teachers. 1299-73
Use of statistical analysis for performance review. 1437-74
The use of the computer in nutrition education. 3083-73
A user's look at the audio-visual world. 3740-73
A user's look at the audio-visual world. 2534-74
Using behavioral objectives in industrial training. 1612-74
Using break-even analysis in food service establishments. 886-73
Using film in management development. 3409-73
Using financial statements in food service establishments. 884-73

Using health education aides in counseling pregnant women. 1569-74
Using program aides to teach Indian families better nutrition. 2310-74
Using public seminars and institutes. 3390-73
Using standardized recipes (Film Loop). 2476-74
Using standardized recipes (Motion picture). 1985-74
Using storage controls to simplify determination of daily food costs. 2321-73
Using storage in food service establishments. 2323-73
Using your supermarket as a resource. 44-74
Usted y diabetes. 1013-74
Usted y su bebe contento. 249-74
The utilisation of the cook-freeze catering system for school meals; a report of an experiment conducted in the city of Leeds. 3665-73
Utilizable protein: quality and quantity concepts in assessing food. 575-73
Utilization of inorganic elements by young women eating iron-fortified foods. 576-73
Utilization of novel proteins for human food. 2962-73
Utilization of nutrients in milk- and wheat-based diets by men with adequate and reduced abilities to absorb lactose: 1. energy and nitrogen. 2490-73
Utilizing outside contractors to expand school food service operations. 991-73
V is for vegetable garden. 2385-74
The vanishing American meal. 2683-73
Variety is vital to vegetable fare. 992-73
Variety meats. 4105-73

AVAILABILITY OF FNIC MAGNETIC TAPES

This publication is a product of the National Agricultural Library's automated CAtaloging and INdexing System (CAIN). The CAIN System was used for preparing camera-ready copy for the *Food and Nutrition Information and Educational Materials Center Catalog*.

The files of the *Food and Nutrition Information and Educational Materials Center Catalog* are available on computer magnetic tape. All tapes are standard half-inch, 9 track, 800 or 1600 bpi, in EBCDIC, with standard IBM headers and trailers. Records are variable length from 173 to 3878 characters, blocked 2. The cost is $45 per reel. This is not a charge for the data, but merely reproduction costs.

Inquiries about the technical aspects of the CAIN system and/or the purchase of CAIN (FNIC) tapes should be addressed to:

U.S. Department of Agriculture
National Agricultural Library
Computer Applications, Room 013
Beltsville, Maryland 20705
